ENFORCEMENT OF THE ANTITRUST LAWS.

[*Compliance with sec. 6 of the sundry civil act, Aug. 24, 1912.*]

The permanent force employed in the enforcement of the antitrust laws is comparatively small. For the most part counsel and other employees are engaged from time to time as the cases arise and the period of their employment and the amount of their compensation varies with the character of the case. Since it is impossible to foresee how many cases will arise in the ensuing fiscal year and what their character may be, only the roughest sort of an estimate can be made of the number of persons whom it will be necessary to employ and of the amounts which it will be necessary to pay them and of the length of time for which their services must be engaged. For the same reason it is impossible to forecast with any degree of accuracy the amounts which it will be necessary to expend during the ensuing fiscal year for any other objects incident to the enforcement of the antitrust laws.

The number of persons engaged in this work for any considerable period during the fiscal year 1913 and their gates of compensation are shown in one column below, and in a parallel column are shown the requirements for the fiscal year 1915 as nearly as can be foreseen. Immediately following these columns is a classification of expenditures during the fiscal year 1913 and of the estimated expenditures for the fiscal year 1915.

| Support: For maintenance, supplies, medical and dental services, minor equipment, repairs, return of escaped inmates, finding of homes for boys, and other necessary expenses, including books, periodicals, expenses for printing, entertainments, and labor in emergency (*act June 23, 1913, vol. 38, p. 57, sec. 1*) | $10,500.00 | | |
| For extraordinary repairs to buildings, fences, and roadways, and for purchase of equipment (*same act*) | 3,050.00 | | |
| NOTE.—The increase of $2,050 will be needed for the following: $700 for new toilet room for boys in "A" family building, and new toilet equipment in both "A" and "B" family buildings, and cutting down windows in basement of "A" family building to afford better light and ventilation; $150 for a new area way, with concrete floor, around "B" family building; $200 for new gutters and down spouts for family and other buildings; $500 for lighting equipment for grounds and roadways; $500 for fencing of land recently purchased. | | | |
| New equipment: For purchase and installation of a 200-horsepower water-tube boiler (*same act*) | 3,000.00 | | |
| NOTE.—In cold weather it taxes our heating plant to the limit to furnish steam for heating purposes. We have at the present time three horizontal tubular boilers, two 100-horsepower and one 130-horsepower. One of the 100-horsepower boilers has been in service for a period of 25 years, and it is apt to be out of commission at any time, due to the length of service. | | | |
| One 20-ton weighing scale in place (*same act*) | 600.00 | | |
| NOTE.—Our present weighing scale is a 6-ton scale, too small to weigh the large trucks now used in hauling coal. | | $53,686.00 | $45,776.00 |

| Clerk, who shall be a stenographer and typewriter (increase of $200 submitted) (*same acts*). | 1,200.00 | |
| NOTE.—Increase $200. This official must be an expert stenographer and typewriter and be capable of conducting ordinary routine official correspondence and record work, as in the absence of either of the record clerks or of either of the other stenographers of the secretary's office, he must perform their duties, and occasionally act as private secretary to the commissioners when their secretaries are absent. | | |

| Messenger (increase of $120 submitted) (*same acts*) | 720.00 | |
| NOTE.—The duties of this position require that the incumbent be qualified to intelligently distribute papers between the several offices. This involves capacity to read readily and comprehend the general nature of the files so handled; also the exercise of an unusual degree of tact in directing and answering callers on official business. The incumbent is required to maintain a personal appearance in keeping with the position. | | |

| For services, supplies, and printing, in compiling the ordinances or laws of the late corporations of Washington and Georgetown, of the Levy Court, the Legislative Assembly, and of the acts of Congress affecting the District of Columbia, which shall be in force at the time of completion of such compilation, not to exceed in all $10,000 (*submitted*) | 5,000.00 | |
| NOTE.—A compilation of a code of laws of a municipal nature in force in the District is much needed. Many of the ordinances and laws of former municipal governments in the District are still valid, while many acts of Congress relating to local matters yet wholly or largely in effect are not codified. To compile these in such a way as to eliminate obsolete provisions and retain those which are desirable and consistent would require the skill of persons learned in the law and with extensive clerical experience.<br>The Code of Law of the District of Columbia, which was prepared by a body of members of the District of Columbia Bar and afterwards enlarged by Mr. Daniel Garges, chief clerk of the engineer department, by the addition of laws subsequently enacted; later by the Law Reporter Co., and again by Mr. William F. Meyers, of the executive office, by the addition of acts of Congress passed after the other editions, is essentially devoted to the main body of laws in force in the District, but omits a large number of laws of Congress relating to the District which are of a general or miscellaneous nature, and municipal ordinances, although in a desultory way it contains a considerable number of provisions of a municipal character.<br>While the need for such a compilation was to a limited extent met by the general index, for which an appropriation was made in 1911, there is still indispensable advantage to be derived from a compilation which will embrace under the respective heads to which the enactments severally appertain the statutes and ordinances in force but not embraced in the Code. | | |

| NOTE.—The duties of this employee are the inspection and weighing of broken stone shipped from the District Government quarry which is operated under contract and which is located at Dickerson, Md. This necessitates that he reside at that point for nine months of the year, the period during which the quarry is in operation; the remaining three months he is detailed to one of the property yards. This requires him to either also maintain a residence in this city during this period or to pay transportation back and forth to Dickerson, and make the trip daily. This position requires a man of experience and high integrity, as all the stone accepted by the District is upon his certificate of inspection and weight. | | | |
| Inspector (increase of $220 submitted) (*same acts*) | 1,000.00 | | |
| NOTE.—This employee is in charge of the District sand and gravel wharf, inspects, measures, and receives all sand and gravel purchased by the District Government; in addition, performs all clerical work, such as keeping book record of receipts and issues, etc. His duties are analogous to the other inspectors of materials. | | | |
| Two clerks, at $720 each (change in title and increase $120 each submitted) (*same acts*) | 1,440.00 | | |
| NOTE.—The incumbents of these positions perform strictly clerical duties—precisely similar to those of the $720 clerks above. It is therefore recommended that the title of these positions be changed from laborers to clerks, and it is also recommended that their compensation be increased to $720 per annum. | | | |
| Two property yard keepers, at $1,000 each (*same acts*) | 2,000.00 | | |

| Two assistant inspectors of plumbing at $1,100 each (increase of $100 each submitted) (*same acts*) | 2,200.00 | | |
| NOTE.—$1,000 is equivalent to $3.25 a day. The union rate for journeymen plumbers in the District is $4.50 per day; other journeyman are employed at $4 a day; working foremen receive $4.50 and $5 per day. The wage of an inspector should at least be roughly equivalent to the wages paid journeymen, inasmuch as it is an unwritten rule at this office that a man should have at least 10 years' experience before appointment, and it is increasingly hard to find men with this experience who are not only good workmen, but possess the necessary judgment and firmness to carry out the regulations in an impartial manner. The wage of $1,000 per annum was made 25 years ago, and during that time the wages of journeymen plumbers have increased roughly 80 per cent and the cost of living has increased fully 50 per cent.<br>The District of Columbia requires in an inspector not only a first-class knowledge of workmanship, but a fairly good education, judgment, and, last but not least, integrity. | | | |

| NOTE.—Previous to July 1, 1912, 40 charwomen (cleaners, at $240 per annum) were employed. The experience of the past 13 months indicates that a high standard of cleanliness can not be maintained with less than 35 charwomen.<br>The five additional charwomen estimated for would raise the total annual cost of cleaning 167,143 square feet in the District Building to $10,560, or $0.0631 per square foot per annum. This compares favorably with similar service at the Colorado Building, where 73,296 square feet are cleaned at an annual cost of $4,760, or $0.0649 per square foot per annum. | | | |

| NOTE.—There are about 2,000 laborers to be paid in cash on the 3d and 18th, 5th and 20th, and 6th and 21st days of each month. These men are scattered in gangs upon the city streets and outlying suburbs of the District. The payment of these employees on the job is the safest, most expeditious, and time and money-saving method for the District and for the laborers. To cover a route would require a horse and buggy to travel about 30 or 40 miles each day, which is impracticable. A horse and buggy now allowed the office is used for the purpose of transporting moneys to and from the Treasury and for general business of the office, and its cost of maintenance is $270 per annum, paid from the appropriation for miscellaneous contingent expenses. This vehicle could be dispensed with, its cost of maintenance and upkeep applied to an autovehicle which could be used in paying off all laboring forces on the job rather than at the District Building, and no chauffeur would be needed as the machine would be operated by one of the clerks accompanying the pay clerk. This automobile would promote the efficiency of the office, expedite the payment of large forces of laboring men, and would result in a saving to the District and the laborers. | | | |

| Fish wharf and market: | | | |
| Market master and wharfinger, who hereafter shall have charge of the landing of vessels, the collection of wharfage and dockage rentals, and the collection of rents for fish houses at the municipal fish wharf and market (*act Mar. 4, 1913, vol. 37, p. 941, sec. 1*)..... | $900.00 | | |
| Assistant market master, who shall also act as laborer (*same act*)..... | 600.00 | | |
| | | $1,500.00 | $2,000.00 |
| Buildings for fish market: For constructing buildings for fish market on the water frontage of the Potomac River, lying south of Water Street, between Eleventh and Twelfth Streets SW., on the site designated as a municipal fish wharf and market in the District appropriation act for the fiscal year 1914, approved Mar. 4, 1913 (*submitted*)..... | 125,800.00 | | |
| NOTE.—It is intended by this appropriation to construct buildings for a modern sanitary fish market in lieu of the present dilapidated frame buildings now forming said market. This market was formerly under lease to a private party who had operated it for a long period of years, the buildings having been constructed by him prior to the time when the ownership of the land was decided to belong to the United States. This decision was rendered about 1903, and thereafter the fish market was leased for a period of 10 years, which expired Mar. 15, 1913. By an item contained in the last District appropriation act, this market was made a municipal market, and was constituted the sole wharf for landing fish and oysters for sale in the District of Columbia, and placed under the control of the commissioners for operation. It has been so operated since Mar. 15, 1913, the date of the expiration of the lease, and the annual revenues based on six months' operation are estimated to be somewhat over $10,000 per annum. The buildings are not modern and the sanitary conditions are not what they should be. The present buildings should be torn down and replaced by a modern sanitary market, for which the above estimate is submitted. | | | |
| The details of the estimate are as follows: | | | |
| Main building 460 feet long, 40 feet wide, 1 story high, with 2 stories and attic in central portion | $98,406.40 | | |
| 2 packing houses, 64 by 22 by 18 feet | 7,704.80 | | |
| Boiler and refrigerating house, 20 by 48 by 24 feet | 4,608.00 | | |
| Boiler | 1,000.00 | | |
| Refrigerating and heating | 4,350.00 | | |
| Smoke house and tank | 3,000.00 | | |
| Shed over fish wharf, 40 by 60 feet | 2,200.00 | | |
| Counters, etc., in fish houses | 2,400.00 | | |
| Scales | 1,100.00 | | |
| Plans and specifications and inspection | 1,000.00 | | |
| | 125,769.20 | | |
| Wharves for fish market: For reconstructing wharves at municipal fish wharf and market, including preparation of plans and specifications and personal services (*submitted*)..... | 50,000.00 | | |
| | | 175,800.00 | |
| NOTE.—The wharves, three in number, connected with the municipal fish market are in a dilapidated state and require rebuilding, for which the above estimate is submitted. The details of this estimate are as follows: | | | |
| 600 linear feet of revetment, at $27 per foot | $16,200.00 | | |
| 22,800 square feet of concrete deck pier, at $1.05 per square foot | 23,940.00 | | |
| 4,500 cubic yards of ordinary excavation, at 60 cents per cubic yard | 2,700.00 | | |
| 13,000 cubic yards of dredging, at 35 cents per cubic yard | 3,950.00 | | |
| 1,350 linear feet of fenders, at $2.40 per foot | 3,240.00 | | |
| 6 pile clusters, at $100 each | 600.00 | | |
| | 50,630.00 | | |
| Municipal market: For preparation of plans for a modern municipal market (*submitted*)..... | | 5,000.00 | |
| NOTE.—The principal market in the city at present is the Center Market, south of Pennsylvania Avenue, between Seventh and Ninth Streets. It is a private corporation. It is the desire of the commissioners to establish a large sanitary municipal market to the end that producers of foodstuffs may be brought closer to consumers of foods, and that the cost of foods of the character handled in a municipal market may be made less to consumers. | | | |
| Office of superintendent of weights, measures, and markets: | | | |
| Superintendent (*acts Mar. 2, 1895, vol. 25, p. 811, secs. 1–16; Feb. 19, 1910, vol. 36, p. 874, sec. 1; Mar. 4, 1913, vol. 37, p. 941, sec. 1*)..... | 2,500.00 | | |
| Two assistants, at $1,200 each (*same acts*)..... | 2,400.00 | | |
| One assistant, to be immediately available (*submitted*)..... | 900.00 | | |
| NOTE.—The need for this assistant will appear from the following statement: This branch of the service now embraces the inspection and sealing of weights and measures, the supervision of the public markets, and the municipal fish wharf and market, the inspection of lumber, wood, and public weighmasters and deputies at 8 public scales, and the inspection of taximeters. In the weights and measures division, 23,886 inspections of scales, weights, and measures were made during the fiscal year ended June 30, 1912. It is also the duty of the superintendent of weights, measures, and markets to inspect or cause to be inspected and tested, the weights of coal sold or delivered within the District. Many requests are received from consumers to measure the capacity of their coal bins in order to determine whether they receive full weight. Requests are also received from merchants as to the weight of consignments of butter, etc. All dairies, drug stores, and places where ice cream is sold are also visited regularly and the bottles and paper containers tested in large numbers to determine whether they are of standard capacity, which involves the supervision of over 500,000 milk bottles and 2,000,000 ice cream paper boxes annually. Special inspections are also made of the markets and investigations of complaints of short weight in ice, coal, groceries, etc. The Bureau of Standards, after investigation, has reported that efficient administration would require 4 assistants for each 100,000 of population, 3 for meter inspections and 1 for scales, weights, and measures. This rule would not apply to this service as the inspection of gas meters and electric meters for light and power purposes, etc., is done by inspectors in other branches of the District service. Hence 1 assistant for the inspection of taximeters on motor vehicles and other work of this office, and practically 4 more for weights, measures, and market service would accord with the foregoing ratio—the population of Washington being in 1913 about 353,000. At the present time there are only two assistants on the entire work of this office. | | | |
| Clerk (*acts Mar. 2, 1895, vol. 25, p. 811, secs 1–16; Feb. 19, 1910, vol. 36, p. 874, sec. 1; Mar. 4, 1913, vol. 37, p. 941, sec. 1*)..... | 1,200.00 | | |
| Laborer (*same acts*)..... | 480.00 | | |
| Laborer, who shall also act as driver, to be immediately available (*submitted*)..... | 600.00 | | |
| NOTE.—The reasons above stated for the need of one assistant at $900, applies as to the need of a laborer, who shall act as driver, as being necessary to the efficient organization of the department. | | | |

| Superintendent of suburban roads (*same acts*) | 2,000.00 | | |
| Superintendent of sewers (*same acts*) | 3,300.00 | | |
| Inspector of asphalts and cements (increase of $100 submitted) (*same acts*) | 2,500.00 | | |
| *Provided*, That the inspector of asphalts and cements shall not receive or accept compensation of any kind from, or perform any work or render any services of a character required of him officially by the District of Columbia to, any person, firm, corporation, or municipality other than the District of Columbia. | | | |
| NOTE.—It is asked that the salary of this officer be increased to an amount nearer that paid other immediate heads of departments. There has been no increase in the salary of this office since the same was created, over 32 years ago. At that time the salary was as large as that paid any of the immediate heads of departments of the District government. These have been increased in practically all but this. The responsibilities and labors of the office have increased over 200 per cent since its creation. | | | |
| Assistant inspector of asphalts and cements (*same acts*) | 1,500.00 | | |
| Superintendent of trees and parkings (*same acts*) | 2,000.00 | | |
| Assistant superintendent of trees and parkings (*same acts*) | 1,200.00 | | |
| Assistant engineer (*same acts*) | 2,200.00 | | |
| Assistant engineer (increase of $100 submitted) (*same acts*) | 2,200.00 | | |
| NOTE.—This increase is recommended on account of the character of the services required in this position, which is that of assistant superintendent of sewers, the incumbent acting as superintendent in the absence of the superintendent of sewers and engaged on the important work of the preparation of plans and studies for the sewerage system. | | | |
| Four assistant engineers, at $1,800 each (*same acts*) | 7,200.00 | | |
| Assistant engineer (*submitted*) | 1,800.00 | | |
| NOTE.—This engineer is carried on the per diem roll at $6 per day. His services are required on construction work of the sewerage system, rendered necessary because of the detail of one assistant engineer at $1,800 per annum in the sewer division to supervise the underground construction work of public-service corporations. He has been assistant engineer in responsible charge of work for more than 10 years. | | | |
| Assistant engineer (*submitted*) | 1,800.00 | | |
| NOTE.—This assistant engineer is now carried on the per diem roll at $6 per day. It has been found necessary to have one assistant engineer on the supervision of the sewage-disposal system, a position for which no provision has yet been made, although recommended each year. The sewage-disposal system has been in service six years, and it has been clearly demonstrated that this employment is a necessity. The work is very important and the duties require an engineer of unusual resources and executive ability, while the salary recommended is small, being no more than is paid to the principal steam engineer at the main pumping station, who is subordinate to this assistant engineer. This assistant engineer has been in the service since 1903. | | | |
| Two assistant engineers, at $1,600 each (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 941, sec. 1*) | 3,200.00 | | |
| Assistant engineer (increase of $100 submitted) (*same acts*) | 1,600.00 | | |
| NOTE.—This small increase is asked on account of the character of the services rendered, and will equalize the compensation with other similar positions of the engineer department. This assistant engineer has been in the service since 1909, in responsible charge of construction work. | | | |
| Three assistant engineers, at $1,500 each (*same acts*) | 4,500.00 | | |
| Assistant engineer (*same acts*) | 1,350.00 | | |
| Assistant engineer (*same acts*) | 1,200.00 | | |
| Two transitmen, at $1,200 each (*same acts*) | 2,400.00 | | |
| Transitman (*same acts*) | 1,050.00 | | |
| Computer (*submitted*) | 1,200.00 | | |
| NOTE.—This position is now filled by a per diem employee at $4 per diem whose duties are continuous. | | | |
| Four rodmen, at $900 each (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 941, sec. 1*) | 3,600.00 | | |
| Eight rodmen, at $780 each (*same acts*) | 6,240.00 | | |
| Twelve chainmen, at $650 each (*same acts*) | 7,800.00 | | |
| Draftsman (*same acts*) | 1,500.00 | | |
| Assistant engineer (change of title) (*same acts*) | 1,350.00 | | |
| NOTE.—The change in designation of this office is intended to make the title conform more strictly to the duties now performed by the incumbent. The present title is "Draftsman." | | | |
| Two draftsmen, at $1,200 each (*same acts*) | 2,400.00 | | |
| Draftsman (*same acts*) | 1,050.00 | | |
| General inspector of sewers (*same acts*) | 1,300.00 | | |

| Transitman (change of title) (*same acts*) | 1,200.00 | | |
| NOTE.—The change in the designation of this office is intended to make the title conform more strictly to the duties now performed by the incumbent. The present title is "Inspector of Streets." | | | |
| Five inspectors, including 2 inspectors of streets, at $1,200 each (*same acts*) | 6,000.00 | | |
| Two inspectors, at $1,000 each (1 additional submitted) (*same acts*) | 2,000.00 | | |
| NOTE.—This position is asked for an employee now carried continuously on the temporary roll as inspector at $3 per diem. He is stationed at the asphalt paving block plant to inspect and supervise the mixing of asphalt paving materials. His duties are similar to those of the inspector provided for at $1,200 per annum. Two are necessary for the reason that two plants are almost continuously in operation when weather conditions permit. When not at the plant the services of these inspectors are utilized in the laboratory in the inspection and examination of paving materials. The salary of the additional inspector is now prorated against appropriations for the paving of streets and is difficult of adjusting when the plant is not in operation. The position is one which requires not only technical knowledge but long experience, and for this reason the position should be provided for as a regular one at the salary recommended. | | | |
| Inspector (*same acts*) | 900.00 | | |
| Laboratory assistant (*submitted*) | 900.00 | | |
| NOTE.—This man has been an assistant in the laboratory for more than five years, during the last two of which his compensation has been at the rate of $3 per diem. His duties are those of general laboratory assistant. His services are continuous and necessary for the proper conduct of the office. His pay is now prorated amongst construction appropriations. | | | |
| Twelve foremen, at $1,200 each (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 941, sec. 2*) | 14,400.00 | | |
| Foreman (*same acts*) | 1,050.00 | | |
| Ten foremen, at $900 each (*same acts*) | 9,000.00 | | |
| Foreman, Rock Creek Park (*same acts*) | 1,200.00 | | |
| Three foremen, at $1,200 each (change of title and increase of $150 each submitted) (*same acts*) | 3,600.00 | | |
| NOTE.—The county work is divided into six geographical sections, three of which are in charge of foremen and three of subforemen. The duties and responsibilities of these latter are practically identical with those of the foremen and the difference is inequitable. The recognized pay of a foreman is $1,200 and these increases recommended will correct conspicuous exceptions. | | | |
| Bridgekeeper (*same acts*) | 650.00 | | |
| Three bridgekeepers, at $600 each (*same acts*) | 1,800.00 | | |
| Chief clerk (*same acts*) | 2,250.00 | | |
| Permit clerk, $1,500, and $300 additional as secretary of the automobile board (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 3, 1909, vol. 35, p. 693, sec. 1; Mar. 4, 1913, vol. 37, p. 942, sec. 1*) | 1,800.00 | | |
| NOTE.—This clerk is now paid $300 as secretary of the automobile board. It is now proposed to add this amount to his salary. | | | |
| Assistant permit clerk (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 942, sec. 1*) | 1,000.00 | | |
| Index clerk and typewriter (*same acts*) | 900.00 | | |
| Clerk (*same acts*) | 1,800.00 | | |
| Clerk (increase of $100 submitted) (*same acts*) | 1,600.00 | | |
| Two clerks, at $1,500 each (*same acts*) | 3,000.00 | | |
| Clerk (increase of $100 submitted) (*same acts*) | 1,500.00 | | |
| NOTE.—Head clerk of the surface division. The duties of this position are executive as well as clerical. The rate of pay recommended is the least that should be properly allotted. The head clerks of the water department, sewer division, and the building inspector's office are each paid $1,500. This employee has been in the service since 1903. | | | |
| Clerk (*same acts*) | 1,400.00 | | |

| Clerk (*submitted*) | 1,400.00 | | |
| NOTE.—This clerk is now employed on the per diem roll at $4.50 per diem. His services are continuous throughout the year. He is secretary and stenographer to the engineer officer in charge of surface work and the engineer of highways. The duties are exacting, important, and far from automatic. In addition to pronounced skill as a stenographer and typewriter, the personal contact of the public with the office in which he serves is largely through him, which requires tact, experience, and other qualifications. | | | |
| Two clerks, at $1,000 each (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 942, sec. 1*) | 2,000.00 | | |
| Clerk (*submitted*) | 1,050.00 | | |
| NOTE.—This man is now employed on the per diem roll at $3.50 per diem, amounting to $1,078 per annum (308 days). His services are continuous throughout the year and have been so for several years past. He is a typewriter and general clerk in the office of the engineer of highways, and the circumstances of his employment are such that he should be placed on the permanent roll at the salary recommended. | | | |

| NOTE.—The duties of these men require that they have, and they do have, sufficient capacity to handle papers between offices and like work, and the circumstances of their services (bringing them into contact with the public and personnel of the office) indicate the certain necessary expense for their personal appearance not necessary in a day laborer, while their present pay is about $1.72 per day, or less than the lowest rate paid a skilled laborer on outside work. The proposed increase will make their pay equal $1.92 a day. | | | |
| Three laboratory assistants, at $720 each (change of title, and increase of $95 for one and $120 each for two) (*same acts*)..... | 2,160.00 | | |
| NOTE.—In lieu of the 3 skilled laborers now provided for. The duties of these 3 employees are identical, consisting of making physical tests of cements and doing general work about the laboratories, which requires experience and skill far above that usually expected of the ordinary skilled laborer. The increase asked for is well merited and no more than should be paid men competent to render the services they perform. | | | |

| Boss bricklayer (*submitted*) | 1,200.00 | |

NOTE.—See note following next item.

| | | |
|---|---|---|
| Boss plasterer (*submitted*) | 1,200.00 | |

NOTE.—At present foremen or bosses in the several branches of the trade are employed at the repair shop, except a boss bricklayer and boss plasterer. These are two of the most important branches, and in order to obtain the best results the employment of a boss bricklayer and boss plasterer at the same rate paid to the other mechanics now employed in the repair shop should be authorized. It is difficult to obtain the services of good bricklayers and plasterers, as usually they are employed by contractors at $5 per day. A saving to the District could be made by placing these two positions on the annual roll, as both of these employees are paid at the rate of $5 per diem and their service is practically continuous. Experience has proven that these men could be working to advantage the year round, and these branches are quite as important as the other trades at the repair shop under the direction of bosses or foremen.

| Clerk (increase of $220 submitted) (*same acts*) | 840.00 | |

NOTE.—The services rendered by this man demand a better salary, as the present rate is in a category with drivers, watchmen and others almost devoid of responsibility. The duties in this case require a constant watch on the Government property which is distributed to about 300 buildings. Perhaps the best title for this position would be that of "stock clerk" or "shipping clerk," for, besides apportioning the materials required in repair work, this man must see that any surplus materials are returned to the shop and properly accounted for.

| Copyist (*acts Mar. 3, 1909, vol. 35, p. 692, sec. 1; Mar. 4, 1913, vol. 37, p. 942, sec. 1*)..... | $840.00 | | |
| Driver (*same acts*)..... | 540.00 | | |
| Clerk for municipal architect (*submitted*)..... | 1,200.00 | | |
| NOTE.—At the present time the municipal architect's office is without the services of a clerk on the annual roll, and must, therefore, depend upon per diem service equitably apportioned to the appropriations for buildings and improvements. Besides the usual amount of correspondence and routine work, there is in this office the work of preparing about 40 specifications each year for the construction of new buildings and alteration of older ones. There is always great pressure brought to bear to complete these plans and specifications with as little delay as possible and, consequently, the man who fills this position must work overtime, and it does not seem reasonable to expect this of a per diem employee. He is now continuously employed as a copyist at $3.50 per diem, and it is recommended that he be put on the annual roll as clerk as provided for by this item. | | | |
| For maintenance and repair of the motor truck of the superintendent of repairs, or so much thereof as may be necessary (increase of $60 submitted) (*acts Mar. 3, 1909, vol. 35, p. 692, sec. 1; Mar. 4, 1913, vol. 37, p. 942, sec. 1*)..... | 540.00 | | |
| NOTE.—An increase of about 62 per cent in the price of gasoline, the fact that practically all accessories have increased in price, and that this truck has been in service for about three years, make the present appropriation insufficient. | | | |
| Transportation: For runabout and maintenance of same, for municipal architect and superintendent of construction (*submitted*)..... | 1,500.00 | | |
| | | $32,110.00 | $26,730.00 |

NOTE.—The duties of the superintendent of construction are such that he should visit each building under construction or alteration at least once each day, for he is not only held accountable for the faithful execution of the contracts by the contractors, but he is expected to keep in close touch with the inspectors on the several buildings. Questions arise daily which must be settled promptly at the buildings in order to facilitate the work. It has been impossible, without a machine, to reach each building daily, as they are so widely separated that they can not be reached conveniently by car lines, and the distance is too great for a horse, as one building is at Blue Plains, opposite Alexandria, 7 miles southeast of the District Building, and another at Tenleytown, 5 miles northwest of the District Building, and the other buildings may be as widely separated in other directions. It was found by actual measurement that in order to reach each building within a day, the superintendent of construction had to travel 34½ miles. This work is too great for a horse, and during the warm weather the horse is in unserviceable condition nearly half the time. At present the superintendent of construction is using the horse and light wagon provided for the municipal architect. The expense of this horse and wagon is $283.66 per annum and charged to several appropriations for buildings. The wagon has been in continuous use during working hours for the past eight years and has recently received extensive repairs. The appropriation for buildings could be saved this annual charge. No chauffeur is needed, as the laborer at the shop who cares for the motor truck of the superintendent of repairs would also attend to this machine.

A horse can not cover more than one-third of the required mileage per day, so that, figuring on the daily efficiency, the machine now used by the superintendent of repairs has cost $1.37 per day, and at 30 miles per day it has cost 4.56 cents per mile, while the horse and wagon costs 77 cents per day, but covers only 12 miles, at 6.04 cents per mile. It is estimated a runabout will cost $1,020 and maintenance per year $480. It will result in increased efficiency and economy and bring the equipment of the office up to the standard of other offices.

*Statement showing in detail the number of persons other than day laborers who were employed on regular and continuous work for 30 days or more during the fiscal year ended June 30, 1913, under authority of and paid from general appropriations, indicating in the case of every such employment the rate of compensation received and the appropriation from which paid (32 Stats., 694).*

| NOTE.—The trustees have for several years been recommending that the salary of the librarian be increased to $5,000. They claim that this sum is required to make the salary commensurate with the services rendered and to put it on a par with the salaries paid the chief librarians of other municipal libraries of equal rank. | | | |
| Assistant librarian (increase of $300 submitted) (*same acts*) | 1,800.00 | | |
| NOTE (by trustees).—By reason of the inadequacy of the present salary twice within two years recently, the library has lost its assistant librarians. The present incumbent is very efficient. Such frequent changes lower the efficiency of the service. | | | |
| Chief, circulating department (increase of $200 submitted) (*same acts*) | 1,400.00 | | |
| NOTE (by trustees).—The duties and responsibilities of this position, involving the supervision of the stations, as well as the large circulation from the main library, call for better compensation for this officer. | | | |
| Director of children's work (*submitted*) | 1,500.00 | | |
| NOTE (by trustees).—When the position of children's librarian was created 7 years ago, the library's work with children was confined to one small room in the central library and was only a fraction of what is now accomplished. This proposed position is required to employ an officer having broad culture, personality, training, and experience to supervise the largely increased children's work at the main library, similar work at Takoma, the work with schools, playgrounds, home libraries, parent-teachers associations, and other extension activities. The children's librarian (infra) would be in immediate charge of the children's room of the main library. | | | |
| Children's librarian (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 942, sec. 1*) | 1,000.00 | | |
| Assistant in charge of school work (*submitted*) | 1,000.00 | | |
| NOTE (by trustees).—The work with schools has so increased that the home circulation through them (76,000 volumes per year) is greater than that of the public libraries of many of the smaller American cities. There is now no specific appropriation for an officer to carry on this important and growing work. | | | |
| Librarian's secretary (increase of $100 submitted) (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 942, sec. 1*) | 1,000.00 | | |
| NOTE (by trustees).—The responsibilities of the position of business officer or chief clerk require that it be increased to the amount originally estimated. | | | |
| Reference librarian (increase of $200 submitted) (*same acts*) | 1,200.00 | | |
| NOTE (by trustees).—The growth of the work of the reference department and the quality of the service rendered require this increase for its chief. | | | |

| *Salaries, Offices of the District of Columbia*—Continued. | | | |
| Free Public Library, including Takoma Park Branch—Continued. | | | |
| Chief order and accessions division (*submitted*) | $1,200.00 | | |
| NOTE (by trustees).—The volume and complexity of the book-order work require an adequately paid chief having business ability and knowledge of books, their prices, etc. | | | |
| Chief industrial division (*submitted*) | 1,200.00 | | |
| NOTE (by trustees).—The success of this division during six years and the importance of the service justify and require a well-educated and trained chief. | | | |
| Assistant (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 942, sec. 1*) | 1,000.00 | | |
| Assistant in charge of periodicals (*same acts*) | 1,000.00 | | |
| Assistant in charge of binding (*submitted*) | 1,000.00 | | |
| NOTE (by trustees).—This work requires good judgment, a critical knowledge of methods and materials, a high degree of accuracy and initiative. | | | |
| Takoma Park Branch librarian (*submitted*) | 1,000.00 | | |
| NOTE (by trustees).—The present provision of an assistant in charge at $720 is altogether insufficient to retain a person with the training, experience, and strength of character required by the responsibilities of this position. | | | |
| Assistant (*submitted*) | 900.00 | | |
| NOTE (by trustees).—An assistant at this salary is needed to be first assistant in the circulating department. As the hours during which the department is open are long the first assistant must approximate the chief in administrative ability. | | | |
| Seven assistants, at $720 each (2 additional submitted) (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, pp. 942, 943, sec. 1*) | 5,040.00 | | |
| NOTE (by trustees).—A separate item above is submitted for the Takoma Park Branch librarian. One of these assistants is needed in the circulating department; another in the industrial division. | | | |
| Seven assistants, including 1 for Takoma Park Branch, at $600 each (2 additional submitted) (*same acts*) | 4,200.00 | | |
| NOTE (by trustees).—Extra assistants at this rate are needed one in the work with schools and one in the order and accessions division. | | | |
| Three assistants, at $540 each (*same acts*) | 1,620.00 | | |
| Three assistants, including 1 for Takoma Park Branch, at $480 each (*same acts*) | 1,440.00 | | |
| NOTE (by trustees).—Correction of phraseology: Of course an assistant at $480 could scarcely be "in charge" of the Takoma Park Branch even if the law has so read for the last 2 years. | | | |
| Copyist (*same acts*) | 480.00 | | |
| Chief, catalogue division (*submitted*) | 1,500.00 | | |
| NOTE (by trustees).—The volume and grade of the work that is being done require an officer of high technical skill and good administrative ability to cope with it. At least 14 cataloguers holding subordinate positions in local libraries receive as much as or more than the estimated salary. There is at present no specific provision in the law for such an essential officer. | | | |
| Classifier (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 943, sec. 1*) | 900.00 | | |
| Shelf lister (*submitted*) | 840.00 | | |
| NOTE (by trustees).—An expert, accurate to a high degree, is needed to maintain the shelf list, an essential record. | | | |
| Cataloguer (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 943, sec. 1*) | 720.00 | | |
| Cataloguer (*same acts*) | 600.00 | | |
| Two cataloguers, at $540 each (*same acts*) | 1,080.00 | | |
| Two stenographers and typewriters, at $720 each (1 additional submitted) (*same acts*) | 1,440.00 | | |
| NOTE (by trustees).—The increase of correspondence and other clerical work makes this additional assistant necessary. | | | |
| Two attendants, at $600 each (*submitted*) | 1,200.00 | | |
| NOTE (by trustees).—The increasing work of the circulating department and the importance of raising the quality of the service make necessary these positions. | | | |
| Six attendants, at $540 each (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 943, sec. 1*) | 3,240.00 | | |
| Five attendants, at $480 each (*same acts*) | 2,400.00 | | |
| Collator (*same acts*) | 480.00 | | |
| Three messengers, at $480 each (1 additional submitted) (*same acts*) | 1,440.00 | | |
| NOTE (by trustees).—The rapidly increasing work of delivering books to schools and stations and the collection of books not returned by borrowers make another messenger necessary. | | | |

| Ten pages, at $360 each (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 943, sec. 1*) | $3,600.00 | | |
| Three janitors, at $480 each, one of whom shall act as night watchman (1 additional submitted) (*same acts*) | 1,440.00 | | |
| NOTE (by trustees).—It is impossible to keep the central building and books clean with the present janitor force. | | | |
| Janitor at Takoma Park Branch (*same acts*) | 360.00 | | |
| Engineer (increase of $120 submitted) (*same acts*) | 1,200.00 | | |
| NOTE (by trustees).—The services of the intelligent man now holding this position are so valuable to the library as to justify the further increase recommended for the last six years. His ingenuity in repairs, etc., saves many times the estimated increase every year. | | | |
| Fireman (*same acts*) | 720.00 | | |
| Workman (*same acts*) | 600.00 | | |
| Library guard (*same acts*) | 720.00 | | |
| Two cloakroom attendants, at $360 each (*same acts*) | 720.00 | | |
| Six charwomen, at $240 each (increase of $60 each submitted) (*same acts*) | 1,440.00 | | |
| For substitutes and other special and temporary service, including the conducting of stations in public school buildings, playgrounds, social settlements, and in other suitable agencies, at the discretion of the librarian (increase of $1,000 submitted) (*same acts*) | 2,000.00 | | |
| NOTE (by trustees).—With a relatively small increase in this appropriation it would be possible to open a number of library stations in suburban schools and in the new playground buildings and to conduct stations in several social settlements. In this way library facilities could be extended to families not now reached. | | | |
| For keeping the central library open 52 Sundays, 2 o'clock p. m. to 9 o'clock p. m.; 5 holidays, from 9 o'clock a. m. to 9 o'clock p. m., and for extra services on Saturday afternoons in July, August, and September; also for keeping the Takoma Park Branch open on holidays and for extra services there on Saturday half holidays (increase of $300 submitted) (*same acts*) | 2,000.00 | | |
| NOTE (by trustees).—This appropriation has remained stationary, in spite of largely increased Sunday use and the opening of the Takoma Branch. It should be increased to at least $2,000 simply to keep the central library open for reference work. | | $64,120.00 | $44,880.00 |
| Total Salaries, etc., Offices of the District of Columbia | | 1,066,329.96 | 743,131.00 |
| *Contingent and Miscellaneous Expenses, District of Columbia*— | | | |
| Miscellaneous, Free Public Library, including Takoma Park Branch: | | | |
| For books, periodicals, and newspapers, including payment in advance for subscription to periodicals, newspapers, subscription books, and society publications (increase of $2,500 submitted) (*acts June 30, 1898, vol. 30, p. 528, sec. 1; Mar. 4, 1913, vol. 37, p. 943, sec. 1*) | 10,000.00 | | |
| NOTE (by trustees).—There has been no increase in the regular book appropriation in 7 years, in spite of 60 per cent increase in library use, and the opening of the Takoma Branch. Last year more than 6,500 volumes were worn out by use, costing nearly the entire book appropriation simply to replace them. Pressing demands include the need for extensive duplication, books for the technology department, and the desirability of extending the system of circulation of books through the schools. | | | |
| For binding by contract or otherwise, including necessary personal services (increase of $1,500 submitted) (*same acts*) | 5,000.00 | | |
| NOTE (by trustees).—The present appropriation is fully $1,500 too small to meet present requirements. In addition to using the entire appropriation for rebinding, it is also found necessary to draw on the desk fund. One year it was also necessary to spend $5,500 for books bound new, of which sum one-third ought more properly to be charged against binding account. | | | |
| For maintenance, repairs, including the employment of personal services therefor, fuel, lighting, fitting up buildings, lunchroom equipment, purchase, exchange, and maintenance of bicycles and motor delivery vehicles; also traveling expenses of librarian incidental to the acquisition of books by purchase, gift, or exchange, in studying other library systems, and in attending library association meetings, at the discretion of the board of library trustees, and other contingent expenses (increase of $1,000 submitted) (*same acts*) | 9,000.00 | | |
| NOTE.—There has been no increase in the library's contingent fund in 6 years, in spite of the fact that there are two buildings to be maintained instead of one, that the central building now 11 years old, is requiring increased expenditures for repairs, and that the very greatly increased activities of the library require largely increased supplies. The library's delivery work to schools, stations, etc., requires a larger vehicle than the motor tricycle now in use. It is estimated that a motor delivery wagon will cost $675 and that repairs and maintenance the first year may make the total cost about $900. The library trustees believe that much good results to the library service through having the librarian present at professional meetings. | | | |

| For purchase and installation of 80-horsepower auxiliary boiler (*submitted*) | $2,500.00 | | |
| NOTE (by library trustees).—The original plans of the building called for two 80-horsepower boilers, only one of which was installed. Emergencies arise when the one boiler is put out of use. | | | |
| Total | $26,500 | | |
| For contingent expenses of the government of the District of Columbia, namely: For printing, checks, books, law books, books of reference, and periodicals, stationery; detection of frauds on the revenue; surveying instruments and implements; drawing materials; binding, rebinding, repairing, and preservation of records; maintaining and keeping in good order the laboratory and apparatus in the office of the inspector of asphalt and cement; damages; purchase, at not exceeding $3,000 each, and maintenance, of 2 motor vehicles for the use of the Commissioners of the District of Columbia, not otherwise provided for: *Provided*, That no part of this appropriation shall be expended for the purchase or maintenance of horses or horse-drawn vehicles for the use of said commissioners; livery, purchase, and care of horses and carriages or buggies and bicycles not otherwise provided for; horseshoeing; ice; repairs to pound and vehicles; use of bicycles by inspectors in the engineer department not to exceed $800; and other general necessary expenses of District offices, including the sinking-fund office, Board of Charities, including an allowance to the purchasing officer and to the secretary of the Board of Charities of not exceeding $360 each per annum for maintenance of vehicle for use in the discharge of their official duties, excise board, personal-tax board, harbor master, health department, surveyor's office, superintendent of weights, measures, and markets office, and department of insurance, and purchase of new apparatus and laboratory equipment in office of inspector of asphalt and cement (increase of $6,600 submitted) (*act Mar. 4, 1913, vol. 37, p. 943, sec. 1*) | 42,600.00 | | |
| And the commissioners shall so apportion this sum as to prevent a deficiency therein: *Provided*, That horses and vehicles appropriated for in this act shall not be used by the commissioners for any other purpose than to visit such points within the District of Columbia as it may be necessary to visit in order to enable them to inspect or inform themselves concerning any public work or property belonging to the said District or to do any other act necessary to the administration of its affairs. | | | |
| No part of the money appropriated by this act, except appropriations for the militia, shall be used for the purchase, livery, or maintenance of horses, or for the purchase, maintenance, or repair of buggies or carriages and harness, except as provided for in the appropriation for contingent and miscellaneous expenses or unless the appropriation from which the same is proposed to be paid shall specifically authorize such purchase, livery, maintenance, and repair, and except also as hereinafter authorized. | | | |
| No part of the money appropriated by this act shall be used for the payment of premiums or other cost of fire insurance. | | | |
| NOTE.—The two civilian commissioners are now each provided with a horse and carriage purchased from this appropriation and the annual maintenance of which is carried in the appropriation. If the motor vehicles asked for are provided, their purchase at an estimated cost of not exceeding $3,000 each, and their maintenance, which is estimated annually at $600 each, making a total of $7,200, will be charged to this appropriation and the maintenance of the horses and vehicles now used by them, which is estimated annually at $300 each, total $600, would be deducted. The appropriation for the fiscal year 1914 for contingent and miscellaneous expenses was $36,000, and for the fiscal year 1915 there has been added to this amount the estimated cost of purchase and maintenance of the two motor vehicles referred to, $7,200, less the cost of maintenance of the two horses and two vehicles now used by said commissioners, $600, making a net increase in the present appropriation, of $6,600. | | | |
| Telephones connected with the system of the Chesapeake & Potomac Telephone Co. may be maintained in the residences of the superintendent of the water department, superintendent of sewers, assistant superintendent of the street cleaning division, chief inspector of the street cleaning division, secretary of the Board of Charities, health officer, chief engineer of the fire department, and superintendent of police of the District of Columbia under appropriations contained in this act. | | | |
| NOTE.—The words "assistant superintendent of the street cleaning division" and "chief inspector of the street cleaning division" are inserted in the foregoing item to provide telephone facilities needful for the efficient conduct of the street cleaning service. In bad weather, particularly, work in that division is carried on all night, and the officials above mentioned must at all times be in ready touch with the inspectors in immediate charge of such work. The assistant superintendent has general supervision over the western section of the District and the chief inspector over the eastern portion. | | | |
| That the Commissioners of the District of Columbia are hereby authorized, in their discretion, to furnish necessary transportation in connection with official business of the government of the District of Columbia by the purchase of car tickets from appropriations contained in this act (*submitted*). | | | |
| For postage for strictly official mail matter (*act Mar. 4, 1913, vol. 37, p. 944, sec. 1*) | 11,000.00 | | |
| For necessary expenses, including services of collectors or bailiffs, in the collection of overdue personal taxes by distraint and sale and otherwise, and for other necessary items (*same act*) | 4,000.00 | | |
| For judicial expenses, including procurement of chains of title, the printing of briefs in the Court of Appeals of the District of Columbia, witness fees, and expert services in District cases before the Supreme Court of said District (*same act*) | 4,500.00 | | |

| For purchase and maintenance, hire or livery, of means of transportation for the coroner's office and the morgue, jurors' fees, witness fees, removal of deceased persons, making autopsies, ice, disinfectants, telephone service, and other necessary supplies for the morgue, and the necessary expenses of holding inquests, including stenographic services in taking testimony, and photographing unidentified bodies (increase of $700 submitted) (*act Mar. 4, 1913, vol. 37, p. 944, sec. 1*) | $4,700.00 | |
| NOTE— | | |
| Making autopsies | $900 | |
| Taking testimony at inquests | 400 | |
| Jurors' fees | 1,300 | |
| Witness fees | 500 | |
| For purchase, maintenance, and hire of livery for means of transportation for the coroner's office and morgue | 1,020 | |
| Ice for morgue | 95 | |
| Light and fuel for morgue | 45 | |
| Laundry for morgue | 11 | |
| Telephone service | 54 | |
| Supplies and repairs for morgue | 375 | |
| Total | 4,700 | |
| The appropriation for the coroner's office for contingent expenses for the fiscal year 1914 is $4,000. Based on the experience of a number of years past, it is anticipated that this appropriation will not be sufficient to cover the entire fiscal year. In the fiscal year 1913 the appropriation was also $4,000 and the commissioners have recommended a further or deficiency appropriation of $500 to cover obligations incurred in excess of the amount of the appropriation. For the fiscal year 1915 an increase of $700 or an appropriation for $4,700 is recommended. It is not believed that with less than this amount it will be possible to go through the fiscal year 1915 without incurring another deficiency. The nature of the work of the coroner's office is such that it is impossible at the commencement of the fiscal year to determine whether the appropriation will be sufficient to meet the service of that entire year, as the number of inquests that it is found necessary to be held, including the payment of charges for making autopsies and jorors' and witness fees can hardly be even approximately ascertained in advance. | | |
| For repair of the morgue building (*submitted*) | 3,500.00 | |
| NOTE.—According to an estimate made by the superintendent of repairs, District of Columbia, the amount of $3,500 will be necessary for the repair of the morgue building. This amount is in addition to estimates already made for the coroner's office. Four-fifths of the morgue building is supported by piles in the river, and the constant vibration of the water and the damage done by the terrific storm of July 30 last, make these repairs absolutely necessary. | | |
| For general advertising, authorized and required by law, and for tax and school notices and notices of changes in regulations (*act Mar. 4, 1913, vol. 37, p. 944, sec. 1*) | 4,700.00 | |
| For advertising notice of taxes in arrears July 1, 1914, as required to be given by act of Mar. 19, 1890, to be reimbursed by a charge of 50 cents for each lot or piece of property advertised (increase of $500 submitted) (*same act*) | 3,000.00 | |
| For the enforcement of the game and fish laws of the District of Columbia, to be expended under the direction of the commissioners (*same act*) | 200.00 | |
| For carrying out the provisions of the act approved Mar. 1, 1899, entitled "An act to authorize the Commissioners of the District of Columbia to remove dangerous or unsafe buildings and parts thereof, and for other purposes," to pay the members of the board of survey provided for therein, other than the inspector of buildings, at a compensation of not to exceed $10 for each survey, and to pay the cost of making safe or removing such buildings upon the refusal or neglect of the owners so to do, the unexpended balance of the appropriation made for this purpose for the fiscal year 1913 is reappropriated for the fiscal year 1915 (*acts Mar. 1, 1899, vol. 30, p. 923, secs. 1–4; Mar. 4, 1913, vol. 37, p. 944, sec. 1*). | | |
| For the erection of suitable tablets to make historical places in the District of Columbia, to be expended under the direction of the Joint Committee on the Library, the unexpended balances of the appropriations made for this purpose by the acts of June 27, 1906, and subsequent District of Columbia appropriation acts, are continued available for the service of the fiscal year 1915 (*act Mar. 4, 1913, vol. 37, p. 944, sec. 1*). | | |
| NOTE.—Have balance of $955.75 for 1913 and prior years, which makes $1,455.75 available until June 30, 1914. | | |
| For the office of the register of wills: For furnishing to the office of the assessor copies of wills, petitions, and all necessary papers wherein title to real estate is involved (*act Mar. 4, 1913, vol. 37, pp. 944, 945, sec. 1*) | 900.00 | |
| For the purchase of enamel metal or other metal identification number tags for horse-drawn vehicles used for business purposes and motor vehicles in the District of Columbia (*same act*) | 1,350.00 | |
| For repair of buildings owned and used by the District of Columbia, when injured by fire, the unexpended balance of the appropriation of $10,000 appropriated for the fiscal year 1910 is reappropriated and continued available during the fiscal year 1915 (*same act*). | | |
| For making surveys to obtain accurate data with reference to old subdivisions in the District of Columbia (*same act*) | 2,500.00 | |
| NOTE.—This work is being pushed forward as rapidly as present conditions will permit, but on account of the enormous amount of work necessary in getting together the data necessary to make the surveys of these old subdivisions the present appropriation will not be sufficient. The final completion of this work will be of incalculable benefit to the District and property owners in future, as it will establish old lines which in later years it will be almost impossible to establish, and by making the appropriation for this work now the District will be saved thousands of dollars, which it would be necessary to spend later on to reestablish old landmarks then obliterated entirely. | | |

| For maintenance and repairs to the District of Columbia markets (*act Mar. 4, 1913, vol. 37, pp. 944, 945, sec. 1*) | $2,900.00 | | |
| NOTE.—These expenses include the following items, as per estimate: | | | |
| Lighting | $1,200 | | |
| Hauling market sweepings and sweepings from the streets adjacent to the Eastern, Western, and Georgetown Markets | 850 | | |
| Supplies: Fuel, brooms, lime, fly paper, flags, and cleaning materials, etc | 350 | | |
| Repairs: It is necessary to have an amount on hand sufficient to cover any emergency repairs to plumbing, etc., especially during the winter months, the exact nature of which can not be anticipated in advance, and for general repairs necessary for the upkeep of the market buildings | 500 | | |
| Fish wharf and market: For maintenance and repair of fish wharf and market (decrease of $300 submitted) (*same act*) | 500.00 | | |
| NOTE.—It is necessary to have an amount on hand sufficient to cover emergency repairs necessary for the upkeep of the buildings and docks. | | | |
| For maintenance, operation, and repairs to refrigerating plant, including salary of engineer at not exceeding $1,000 per annum (*submitted*) | 1,900.00 | | |
| NOTE.—In the event that the item for the erection of sanitary buildings at this wharf is allowed, it will be necessary to provide for these expenses in connection with the operation of the refrigerating plant. | | | |
| For repairing retaining walls and copings and for work incidental thereto at the K Street market (*submitted*) | 3,500.00 | | |
| NOTE.—These walls and copings are now in a dangerous condition, and the allotment from the maintenance and contingent funds is not sufficient to repair them. This work should be done in order to avoid danger and to destroy the harbor now afforded for rats and filth. | | | |
| For the purchase of new apparatus in the office of the inspector of asphalts and cements (*submitted*) | 1,000.00 | | |
| NOTE.—Some of the apparatus now in use in this laboratory is antiquated and should be replaced by modern equipment; the present analytical balances have been in constant use during the past 20 years and are very much worn. There are also other apparatus which the laboratory should be equipped with in order to increase its efficiency, which, owing to the inadequacy of the contingent fund, can not be procured. | | | |
| For surveys, plans, and estimates for reconstructing wharves on the Potomac River front (*submitted*) | 1,000.00 | | |
| NOTE.—The wharves along this frontage have been reported by the inspector of buildings to be in an unsafe condition. These are old wharves under lease by the District of Columbia to private parties, and practically no repairs have been made to the substructures for years. In consequence, they are deteriorating and should be replaced. The object of this appropriation is to make the necessary surveys, prepare plans, and submit estimates to Congress as to the cost of doing the work. The revenue from the leases of these wharves amounts to about $31,000 annually, and this is paid into the Treasury of the United States, one half to the credit of the United States and the other half to the credit of the District of Columbia. The title to the frontage is in the United States, and is under the jurisdiction of the Commissioners of the District of Columbia. | | | |
| For testing materials for fireproof buildings, including necessary labor and implements, traveling and other expenses, under "An act to regulate the height of buildings in the District of Columbia," approved Mar. 1, 1899 (*submitted*) | 100.00 | | |
| NOTE.—The construction of fireproof buildings, and the manufacture of materials used therein, have increased and will continue to increase so pronouncedly, and such construction has grown into such structural prominence, that it is deemed essential that the office of inspector of buildings be kept thoroughly advised of the respective materials manufactured for this purpose.<br>There are being made at frequent intervals exhaustive tests of fireproof materials under the supervision of the National Board of Fire Underwriters, well-established business concerns, and scientific bodies, and it would be of marked advantage to the office of inspector of buildings to have present at some of these tests a representative who might thus become thoroughly conversant with the respective materials tested. | | | |

| Auditor's office (*submitted*): | | | |
| One chief property accountant | $1,800 | | |
| One clerk | 1,200 | | |
| | $3,000.00 | | |
| Board of survey: For 3 members, at $2,000 each (*submitted*) | 6,000.00 | $306,850.00 | $94,850.00 |
| NOTE.—The object of this item is to provide an accurate system of receiving, storing, and issuing property purchased for the different branches of the District government, and for keeping such records as will fix responsibility for the care of public property upon the individuals responsible therefor. The entire question was investigated by a committee appointed by the commissioners on Mar. 27, 1913, and the following remarks are quoted from their report: "The judgment of your committee is that the most important feature connected with the accountability for property is that there should be provided a board of survey consisting of three members. These men should be men of business experience and keen judgment. Their duties will consist, first, in passing upon property that is no longer available for the use of a particular department and they shall determine whether the property shall be sold or placed in stock and reissued; second, they will be charged with the duty of ascertaining from the records furnished by the central property accounting bureau, that each accountable officer has in his possession the property with which he is charged. In order to secure the class of men necessary for this important duty it is believed that they should receive a compensation of not less than $2,000 each, making a total appropriation necessary for this purpose of $6,000. "(2) Your committee believe that, in carrying out the accounting end of the work necessary in the handling of these records, two employees will be necessary, one to be known as chief property accountant, at a compensation of $1,800 per annum and one clerk, at $1,200 per annum. For the time being, at least, these two employees should be attached to the office of the auditor where all the records relating to property accounting are to be recorded and the records are to be handled. "(3) Your committee, following the report made on this subject of June 5, 1913, continue the recommendation therein made that a central warehouse for all supplies of the District of Columbia should be established and, after careful consideration, have prepared the following estimate of what is believed to be necessary for the erection, operation, and maintenance of a general warehouse. The main considerations that have lead your committee to recommend a general warehouse are, first, the large saving of money that will accrue by reason of being able to purchase supplies for the District of Columbia in wholesale lots at wholesale prices; second, the opportunity for a thorough and close inspection and comparison of all articles and goods received which, under the present plan of purchasing property for the District of Columbia, is not possible; third, the saving of time and money to the District government by having in stock those things that are necessary for immediate use; and fourth, to overcome the great difficulty that now exists by reason of the fact that the railroad companies entering the city of Washington no longer furnish free delivery, with the result that out-of-town bidders are charging very much higher prices and it is giving great inconvenience to the District of Columbia in the receipt of goods." | | | |
| *Improvements and Repairs*— | | | |
| Assessment and permit work: | | | |
| For assessment and permit work (increase of $30,000 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Aug. 7, 1894, vol. 28, p. 247, sec. 1; Mar. 4, 1913, vol. 37, p. 945, sec. 1*) | 250,000.00 | | |
| NOTE.—This estimate is for surface work. An estimate is also made under the estimates for sewers for assessment and permit work specifically for sewer work. The necessity for curb and sidewalk construction and alley pavement coming under this appropriation has, as is well known, greatly increased in recent years. There are numerous dilapidated alley pavements throughout the city that should be speedily replaced, as well as many old brick sidewalks to which the same remarks apply. Moreover, it is most desirable that suburban developments should be promptly followed by sidewalk construction, since it is easily several years before roadway improvements in the outlying sections can be undertaken. The increased appropriations for resurfacing work involves an incidental increased need for new curbs, which is chargeable to this fund under the law. For the above reasons the amount herein asked for can be most advantageously expended during the coming fiscal year. There is a legitimate demand for such work that $250,000 will not more than half meet. | | | |
| Work on streets and avenues: | | | |
| For work on streets and avenues named in Appendix P, Book of Estimates, 1915, to be expended in the discretion of the commissioners upon streets and avenues specified in schedules named in said appendix and in the aggregate for each schedule as stated herein, namely (increase of $105,400 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, pp. 945, 946, sec. 1*) | 173,200.00 | | |
| Georgetown schedule | $6,000 | | |
| Northwest section schedule | 41,200 | | |
| Southwest section schedule | 21,000 | | |
| Southeast section schedule | 60,000 | | |
| Northeast section schedule | 45,000 | | |
| *Provided*, That streets and avenues named in said schedules already paved with Belgian block or granite shall not be paved or otherwise improved under this appropriation, and the remaining streets and avenues, except as herein specified, shall be contracted for in the order in which they appear in said schedules, and be completed in such order as nearly as practicable, and shall be paved, in the discretion of the commissioners, instead of being graded and regulated. Under appropriations contained in this act no contract shall be made for making or relaying asphalt pavement at a higher price than $1.80 per square yard for a quality equal to the best laid in the District of Columbia prior to July 1, 1886; and, with same depth of base, not more than $1.80 per square yard for laying standard asphalt block pavement equal to the best laid in the District of Columbia prior to July 1, 1904: *Provided*, That these conditions as to price and depth of base shall not apply to those streets on which, in the judgment of the commissioners, by reason of heavy traffic, poor foundation, or other causes, a pavement of more than ordinary strength is required, in which case the limit of price may be increased to $2 per square yard. | | | |

| For constructing a suitable viaduct and bridge to carry Benning Road over the tracks of the Philadelphia, Baltimore & Washington Railroad Co., and of the Baltimore & Ohio Railroad Co., in accordance with plans approved by the Commissioners of the District of Columbia, to be available until expended (*submitted*)..... | $110,000.00 | |
| And the commissioners are hereby authorized to make the necessary expenditures for the construction of said viaduct and bridge and approaches under the like conditions prescribed for the expenditure of the appropriation for a subway and bridge at Cedar Street, contained in the act of May 18, 1910, making appropriations for the expenses of the District of Columbia for the fiscal year 1911: *Provided*, That the cost of constructing said viaduct and bridge within the limits of the rights of way of said Philadelphia, Baltimore & Washington Railroad Co. and the Baltimore & Ohio Railroad Co. shall be borne and paid, half by said railroad companies in proportion to the widths of their respective rights of way and half by the United States and the District of Columbia, as provided in section 10 of an act entitled "An act to provide for a union railroad station in the District of Columbia, and for other purposes," approved Feb. 28, 1903, and said sums shall be paid by said companies to the Treasurer of the United States, one half to the credit of the District of Columbia and the other half to the credit of the United States, and the same shall be valid, and subsisting liens against the franchises and property of said Philadelphia, Baltimore & Washington Railroad Co. and the Baltimore & Ohio Railroad Co., respectively, and shall be a legal indebtedness of said companies in favor of the District of Columbia, jointly for its use and the use of the United States as aforesaid, and the said lien or liens may be enforced in the name of the District of Columbia by bill in equity brought by the commissioners of said District in the supreme court of said District, or by any other lawful proceedings against the said Philadelphia, Baltimore & Washington Railroad Co. or said Baltimore & Ohio Railroad Co., or both, and any relocation in the line or change in the grade of the tracks of the Washington Railway & Electric Co. necessary to permit the completion in accordance with approved plans of the viaduct and bridge and approaches herein provided for shall be made by and at the cost of said railway company, and in the event of said railway company failing or refusing to do such work the same shall be done by the Commissioners of the District of Columbia, the cost to be paid from the appropriation for said bridge and viaduct and collected from said street railway company in the manner provided for in section 5 of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878, and paid into the Treasury, one-half to the credit of the United States and one-half to the credit of the District of Columbia. | | |
| NOTE.—This estimate is intended to provide for the elimination of a dangerous grade crossing at Benning. It is submitted in continuance of the policy of gradually removing all grade crossings in the District. It is provided that one-half of the cost of the work within the railroad right of way shall be paid for by the railroad company. | | |
| Grading streets, alleys, and roads: | | |
| For labor and for the purchase and repair of cars, carts, tools, or the hire of the same, and horses and the inmates of the Washington Asylum and Jail may be used in connection with this work (increase of $5,000 submitted) (*act June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 946, sec. 1*)..... | 20,000.00 | |
| NOTE.—The legitimate demands on this fund are always largely in excess of past appropriations, and the removal of the jail to Occoquan has resulted in an increased cost for hired labor. This work is very widely distributed and all sections receive its benefits in a notable degree. | | |
| Condemnation of streets, roads, and alleys: | | |
| For purchase or condemnation of streets, roads, and alleys (*same acts*)..... | 1,000.00 | |
| Construction of suburban roads: | | |
| For construction of suburban roads and suburban streets, to be disbursed and accounted for as "construction of suburban roads and suburban streets," and for that purpose it shall constitute one fund as follows: (increase of $28,350 submitted) (*same acts*)..... | 222,600.00 | |
| NOTE.—Past appropriations for this work have not been in proportion to the suburban development, and there are many built-up suburban streets and roads not heretofore authorized to be improved. Estimates for construction of suburban streets and roads, 1915: | | |

Pave with asphalt or bituminous concrete roadway, Nichols Avenue from Good Hope Road to present end of granite-block pavement south of Sheridan Street, 40 feet wide, and of the south approach of the Navy Yard Bridge across the Eastern Branch from Good Hope Road to the bridge abutment (*submitted*) ..... $30,500.00

NOTE.—The present roadway of Nichols Avenue is paved with granite block, 35 feet wide. The street carrie a double track over-head trolley line. The type of pavement has been objectionable for many years and a smoother type is more suitable to the traffic on the street. When this is laid opportunity is presented to gain an additional roadway width and to use the present block pavement at a small cost on other roadways where its use is desirable and economical. The paving of this roadway is under the law a condition precedent to the reconstruction as an underground system of the existing overhead trolley tracks.

This is the main business street of this section and is the principal thoroughfare leading to the Government Asylum and the thickly settled part of the District and Maryland beyond Anacostia. The length of the proposed pavement is 3,500 feet.

**Repairs, streets, avenues, and alleys:**

For current work of repairs of streets, avenues, and alleys, including resurfacing and repairs to asphalt pavements with the same or other not inferior material, and maintenance of motor vehicle for use of engineer commissioner and his assistants (decrease of $25,000 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 5; Mar. 4, 1913, vol. 37, p. 947, sec. 1*).. 340,000.00

And this appropriation shall be available for repairing the pavements of the street railways when necessary; the amounts thus expended shall be collected from such railroad companies as provided by section 5 of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which they are collected.

The authority given the Commissioners of the District of Columbia in the act making appropriations for the expenses of the District of Columbia, approved March 2, 1907, to make such changes in the lines of the curb of Pennsylvania Avenue and its intersecting streets in connection with their resurfacing as they may consider necessary and advisable is made applicable to such other streets and avenues as may be improved under appropriations contained in this act: *Provided*, That no such change shall be made unless there shall result therefrom a decrease in the cost of the improvement.

Repave with asphalt the roadway of Seventh Street NW., from New York Avenue to Q Street (*submitted*)..... 30,000.00

Repaving with asphalt the granite roadway of P Street NW., between Rock Creek and Twenty-eighth Street, 30 feet wide (*submitted*)..... 11,500.00

Repave with asphalt the granite roadway of P Street NW., between Twenty-eighth Street and Wisconsin Avenue, 40 feet wide (*submitted*)..... 18,000.00

Repairs suburban roads:

For current work of repairs to suburban roads and suburban streets, including the maintenance of motor vehicles, 4 motor cycles, and 1 truck (increase of $35,000 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 948, sec. 1*)..... 175,000.00

Bridges:

For construction and repair of bridges (increase of $5,000 submitted (*same acts*)..... 22,000.00

And this appropriation shall be available for repairing when necessary any bridge carrying a public street over the right of way or property of any railway company, and unless the cost of such repairs are specifically by existing law imposed on the District of Columbia the amounts thus expended shall be collected from such railway company in the manner provided in section 5 of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878, and shall be deposited to the credit of the appropriation for the fiscal year in which they are collected.

NOTE.—The engineer of bridges, in view of the increased cost of lumber, urges as necessary a moderate increase in the appropriation for repairs to bridges. There is an additional specific justification for this increase in the event that the proviso attached to the appropriation is adopted, which is strongly recommended, that the cost of these necessary repairs now known to require execution will largely consume the increase suggested.

The occasion for the legislative provision is that certain structures carrying streets across railroad rights of way which need repair are believed under the law to be a proper charge for maintenance against the railroad corporations to whom the rights of way belong, but these corporations deny this liability and claim that these repairs are chargeable to the District of Columbia. The proviso incorporated in the appropriation would definitely fix the responsibility for these bridge repairs, which are of high importance, and provide practicable means for securing the repairs at the cost of the corporations; whereas at present there is only the ground for a suit at law without any funds.

| *Improvements and Repairs*—Continued. | | | |
| Highway Bridge across Potomac River: | | | |
| Two draw operators, at $1,020 each (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 948, sec. 1*) | $2,040.00 | | |
| Two draw operators, at $720 each (1 additional submitted) (*same acts*) | 1,440.00 | | |
| NOTE (by Chief of Engineers, United States Army).—An additional draw operator is estimated for so that the three operators now employed may not have to work over six days a week or more than eight hours a day each. As the draw has to be ready for operation at any time of the day or night throughout the year, three operators would have to work on Sundays and holidays, and whenever one man was absent on leave or sick the others would have to work 12 hours a day. | | | |
| Four watchmen, at $720 each (increase of $120 each submitted) (*same acts*) | 2,880.00 | | |
| NOTE (by Chief of Engineers, United States Army).—An increase is recommended in the salary of the four watchmen employed at the Highway Bridge from $600 a year each to $720. These watchmen have arduous duties of a police nature to perform and should be paid nearly the same amount as the park watchmen, who have similar duties. Great difficulty is being found in securing capable and able-bodied men to fill the position at the present rate of pay. | | | |
| Labor (*same acts*) | 1,500.00 | | |
| Lighting, power, and miscellaneous supplies, and expenses of every kind necessarily incident to the operation and maintenance of the bridge and approaches, including printing, binding, and blank books (*same acts*) | 8,620.00 | | |
| NOTE (by Chief of Engineers, United States Army).—Senate bill 4239, 62d Congress, which passed the Senate, contained the provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditure. For that reason "printing, binding, and blank books" has been included in this estimate. | | | |
| NOTE (by Chief of Engineers, United States Army).—The details of the above estimates, as required by the District of Columbia appropriation act approved June 27, 1906, are as follows: | | | |
| Salaries: | | | |
| Two draw operators, at $1,020 each | $2,040 | | |
| Two draw operators, at $720 each | 1,440 | | |
| Four watchmen, at $720 each | 2,880 | | |
| Labor for cleaning roadway, etc | 1,500 | | |
| Total for regular services | $7,860 | | |
| Lighting 44 arc lights, at $72.50 per annum each | 3,190 | | |
| Incandescent electric lights | 260 | | |
| Telephone service | 63 | | |
| Fuel for heating operating house | 65 | | |
| Miscellaneous supplies (grease, oil, waste, etc.) | 375 | | |
| Painting and repairs of bridge and approaches | 4,167 | | |
| Contingencies (additional labor, etc.) | 500 | | |
| | 16,480 | | |
| For surfacing with asphalt the roadways of approach on both sides of the Highway Bridge, provided that the Commissioners of the District of Columbia are authorized and directed to do this work with their portable asphalt plant if, in the judgment of the officer in charge of public buildings and grounds, such work can be economically performed by the use of said plant (*submitted*) | 30,000.00 | | |
| NOTE (by Chief of Engineers, United States Army).—The pavement on the bridge approaches carries probably the hardest traffic of any street in Washington and will have to be resurfaced during the coming fiscal year. The present concrete pavement was put down seven years ago, but the heavy traffic is telling on it, and it should be surfaced with asphalt before it goes to pieces. This will be more economical than to attempt to repair the present surface. | | | |
| Operation of Anacostia River Bridge: For employees, miscellaneous supplies, and expenses of every kind necessary to the operation and maintenance of the bridge (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 948, sec. 1*) | 5,600.00 | | |
| For completion of the construction of a bridge across Rock Creek on the lines of Pennsylvania Avenue, in accordance with plans approved by the Commissioners of the District of Columbia (increase of $110,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 949, sec. 1*) | 135,000.00 | | |
| For alteration of the Pennsylvania Avenue Bridge across the Eastern Branch of the Potomac River, so as to provide for a draw span therein, to be located and constructed in accordance with plans to be approved by the Commissioners of the District of Columbia, to be immediately available (*submitted*) | 60,000.00 | | |
| | | $1,664,080.00 | $1,200,730.00 |
| NOTE.—This item is requested by the War Department in connection with the improvement of the Anacostia River. | | | |
| *Sewers*— | | | |
| For cleaning and repairing sewers and basins (*acts June 11, 1878, vol. 20, p. 103, sec. 3; Mar. 4, 1913, vol. 37, p. 950, sec. 1*) | 68,000.00 | | |

| *Sewers*—Continued. | | | |
| For operation and maintenance of the sewage pumping service, including repairs to machinery, boilers, and pumping stations, and the employment of mechanics, laborers, and watchmen, the purchase of coal, oils, waste, and other supplies, and for the maintenance of motor trucks (increase of $2,000 submitted) (*acts June 11, 1878, vol. 20, p. 103, sec. 3; Mar. 4, 1913, vol. 37, p. 950, sec. 1*) | $46,500.00 | | |
| NOTE.— | | | |
| Coal | $18,444 | | |
| Oils, waste, etc. | 3,600 | | |
| General supplies and repairs | 4,600 | | |
| Machinist, as required | 3,100 | | |
| Machinist's helper, as required | 1,252 | | |
| Cleaner and helper, boiler room | 1,407 | | |
| Cleaners, engine room | 1,565 | | |
| Painter, as required | 1,095 | | |
| Laborers, as required | 2,504 | | |
| Electrician, as required | 1,408 | | |
| Electrician's helper, as required | 782 | | |
| Carpenter, as required | 1,252 | | |
| Blacksmith, as required | 626 | | |
| Blacksmith's helper, as required | 313 | | |
| Screen men | 4,552 | | |
| The increase in this estimate is necessary to provide for the operation of the Poplar Point substation, which will be placed in service on July 1, 1914. This substation will handle the sewage from the Anacostia River valley and deliver same to the outfall sewer of the sewage disposal system. It will be an automatic electrically operated station, designed for the least possible expenditure for operating force. The sediment chamber, screens, skimming tank, etc., for preliminary treatment of the sewage will be handled by force detailed from the main sewage pumping station, from which will also be supplied current for operating the substation pumping machinery. This provides for the most economical operation possible, and the increase is the least amount necessary for this work. | | | |
| For main and pipe sewers and receiving basins (increase of $5,000 submitted) (*same acts*) | 70,000.00 | | |
| NOTE.— | | | |
| Relief sewers | $23,000 | | |
| Reconstructing old sewers | 12,000 | | |
| New main sewers | 15,000 | | |
| New pipe sewers | 12,000 | | |
| Basins and connections | 8,000 | | |
| A considerable portion of this estimate is required for rebuilding old and insanitary brick sewers now urgently required to be replaced by new sewers of modern construction. A larger sum is required also for relief sewers, where the existing drainage, based on old and faulty drainage data, has proven inadequate.<br>These sewers are in the old portion of the city and have been in service for a half century or more.<br>It is especially urged that the maintenance of the sewerage system by reconstruction, where repairs are no longer a remedy, is of primary importance, and the estimate is the least possible for this work.<br>The amount for the new main sewers is required to construct outlets for existing sewers on the right bank of the Anacostia River to the established bulkhead line in connection with the Anacostia River improvements. | | | |
| For suburban sewers (increase of $103,500 submitted) (*same acts*) | 258,500.00 | | |
| NOTE.— | | | |
| 1. Minor trunk sewers and suburban service mains | $110,000.00 | | |
| 2. Anacostia Valley trunk outlets required in connection with Anacostia River improvements between Pennsylvania Avenue bridge and Pennsylvania Railroad bridge, as follows: | | | |
| Burnt Bridge run trunk outlet | $12,600.00 | | |
| Hawes Run trunk outlet | 20,000.00 | | |
| Nailor's Run trunk outlet | 19,000.00 | | |
| Total | 51,600.00 | | |
| 3. Extension of the College Pond trunk sewer to discharge into the Potomac River | 28,000.00 | | |
| This sewer now discharges into the Chesapeake & Ohio Canal at the Georgetown level, and an increasingly insanitary condition results therefrom with the growing volume of sewage discharged by this main. | | | |
| 4. Extension Piney Branch trunk sewer to Illinois Avenue | 30,000.00 | | |
| This extension is necessary to provide for surface drainage in a large built up area east of Georgia Avenue, required in connection with surface improvements, and to provide for the drainage where the surface grades will no longer permit surface gravity discharge. | | | |
| 5. Extension of the Pinehurst trunk sewer from Rock Creek to Thirty-second Street west | 22,900.00 | | |
| This extension will receive the drainage from a large area west of Rock Creek Park, where there is a growing subdivision, now provided with the city water supply, but having no sewerage except to cesspools, which drain to small streams flowing through Rock Creek Park. The construction is required to prevent the pollution of these streams. | | | |
| 6. Extension of the Michigan Avenue trunk sewer from Twelfth Street east to the Baltimore & Ohio Railroad | 16,000.00 | | |
| This extension will provide for a considerable area, including a portion of the Catholic University grounds, sewerage from which is now discharged into a small open stream. Its extension will provide the trunk line necessary to utilize the recently completed East Side intercepting sewer. | | | |
| For assessment and permit work, sewers (increase of $25,000 submitted) (*same acts*) | 150,000.00 | | |
| For the purchase or condemnation of rights of way for construction, maintenance, and repair of public sewers, or so much thereof as may be necessary (*same acts*) | 1,000.00 | | |
| Anacostia main interceptor: For continuing the construction of the Anacostia main interceptor along the Anacostia River between the outfall sewer, sewage disposal system, at Poplar Point and Benning, D. C., to be available until expended (*same acts*) | 50,000.00 | | |
| NOTE.— | | | |
| Estimated cost | $299,500.00 | | |
| Appropriation, 1911 | $50,000.00 | | |
| Appropriation, 1912 | 20,000.00 | | |
| Appropriation, 1913 | 40,000.00 | | |

| This estimate will complete the construction between the Pennsylvania Avenue Bridge and the line of F Street south, and is necessary in order that the construction of this interceptor, which provides for the removal of sewage discharging into the river may keep pace with the Anacostia River improvement. This portion of the interceptor covers the section of the river front provided for improvement in the estimates for 1915 for the Anacostia River improvements. The total estimated cost of the Anacostia main inceptor is increased over the original estimates to $299,500 to provide for the changed conditions of drainage partly required by the Water Park plans for the Anacostia River improvement, which necessitates an intercepting sewage conduit of larger capacity in the upper valley than originally contemplated. | | | |
| Rock Creek main interceptor: For continuing the construction of the Rock Creek main interceptor from P Street to Military Road, to be available until expended (increase of $10,000 submitted) (*acts June 11, 1878, vol. 20, p. 103, sec. 3; Mar. 4, 1913, vol. 37, p. 950, sec. 1*)... | $50,000.00 | | |
| NOTE.— | | | |
| Estimated cost | $298,000.00 | | |
| Appropriation, 1911 | $40,000.00 | | |

| Appropriation, 1914 | 40,000.00 | | |
| | 160,000.00 | | |
| Balance to complete | 138,000.00 | | |
| This estimate will complete the construction of this important interceptor between Klingle Ford Road and Broad Branch Road, intercepting the sewage from a very large area on the west side of Rock Creek Valley. | | | |
| | | $694,000.00 | $548,500.00 |
| *Streets*— | | | |
| Dust prevention, cleaning, and snow removal: For dust prevention, sweeping, and cleaning streets, avenues, alleys, and suburban streets under the immediate direction of the Commissioners of the District of Columbia, and for cleaning snow and ice from streets, sidewalks, crosswalks, and gutters in the discretion of the commissioners, including services and the purchase and maintenance of equipment, rent of storage rooms; maintenance and repairs of stables, hire, purchase, and maintenance of horses; hire, purchase, maintenance, and repair of wagons, harness, and other equipment; allowance to inspectors and foremen for maintenance of horses and vehicles used in the performance of official duties, not to exceed $30 per month for each inspector or foreman; purchase, maintenance, and repair of motor-propelled vehicles necessary in operation and supervision; purchase, maintenance, and repair of bicycles; purchase of uniforms, not to exceed $3,000; and necessary incidental expenses, and the commissioners shall so apportion this appropriation as to prevent a deficiency therein (increase of $25,000 submitted) (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 950, sec. 1*).... | 285,000.00 | | |
| NOTE.—The changes in wording in the above item have been made for the following reasons: To the clause "allowance to inspectors for maintenance of horses and vehicles used in the performance of official duties, not to exceed $30 per month for each inspector," the word "foreman" has been introduced as the titles of some of these men using horses and vehicles have been changed from inspector to foreman by an act of Congress. The new clause "purchase, maintenance, and repair of bicycles" has been added because it has been found, by many years of experiment, that bicycles are the most economical means of transportation for certain foremen and inspectors, but by a recent decision of the comptroller it has become impossible to furnish bicycles under the present wording of the appropriation. The new clause "purchase of uniforms, not to exceed $3,000" is inserted for the reason that at the present time all laborers in the hand patrol section are required to appear in clean uniforms twice per week, which necessitates their supplying themselves with, at least, two uniforms. It is proposed to relieve them of this expense and require all of the street-cleaning forces to wear uniforms furnished by the District government. The following is a detailed statement of the estimated amount of expenditures under this appropriation for the fiscal year 1915: | | | |
| Hand patrol cleaning: | | | |
| 775,000,000 square yards, at 15.5 cents per thousand square yards | $120,125 | | |
| Sunday work | 800 | | |
| Machine cleaning: | | | |
| 285,000,000 square yards, at 16 cents per thousand square yards | 45,600 | | |
| Alley cleaning: | | | |
| 65,000,000 square yards, at 31 cents per thousand square yards | 20,015 | | |
| Suburban cleaning | 20,000 | | |
| Oiling and dust prevention | 15,000 | | |
| Street washing, squeegees: | | | |
| 170,000,000 square yards, at 12 cents per thousand square yards | 20,400 | | |
| Street washing, flushers: | | | |
| 23,000,000 square yards, at 26 cents per thousand square yards | 5,980 | | |
| Miscellaneous: | | | |
| Dump men, livery, motor maintenance, care of property, etc | 10,000 | | |
| Equipment | 9,080 | | |
| Snow and ice | 10,000 | | |
| Unimproved alley cleaning | 5,000 | | |
| Purchase of uniforms | 3,000 | | |
| Total | 285,000 | | |
| The above estimate is increased, in general, on account of the growth of the city and increased cost of supplies, particularly forage and road oil. It has been the policy of the commissioners in the past to clean only alleys which are well defined and paved, but there have been a great many complaints received on account of the dirty condition of unimproved alleys and it is thought advisable to make some attempt to clean the worst of these alleys. Therefore $5,000 is estimated for this purpose. In the last five years the territory requiring attention has been increased approximately 43 per cent, but the appropriations available for street-cleaning purposes have only increased about 1.8 per cent. | | | |

| ***Streets*—Continued.** | | |
| Disposal of city refuse: | | |
| For the collection and disposal of garbage and dead animals; miscellaneous refuse and ashes from private residences in the city of Washington and the more densely populated suburbs; for collection and disposal of night soil in the District of Columbia: *Provided*, That hereafter night soil may be collected and disposed of by any process satisfactory to the Commissioners of the District of Columbia; for the payment of necessary inspection, livery of horses, and incidental expenses (*acts June 11, 1878, vol. 20, p. 103, sec. 3; Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | $179,945.00 | |
| NOTE.—The new wording "*Provided*, that hereafter night soil may be collected and disposed of by any process satisfactory to the Commissioners of the District of Columbia" is inserted, as by an act of Congress, approved Jan. 25, 1898, "To regulate in the District of Columbia, the disposal of certain refuse, and for other purposes" (30 Stats., 231), section 8 requires "That no part of the contents of any privy shall, in said District, be removed therefrom, nor shall the same be transported through or over any streets or highways, except as the same shall be removed and transported by means of some air-tight apparatus, pneumatic or other process, so as to prevent the contents from being agitated or exposed to the open air during the process of such removal or transportation," and this method has been found impracticable. | | |
| This estimate is made up as follows, the amounts for collection and disposal being the actual contract rates entered into under the authority of the act approved May 18, 1910: | | |
| Collection and disposal of city refuse: | | |
| Collection and disposal of garbage | $68,400 | |
| Collection and disposal of ashes | 73,150 | |
| Collection and disposal of miscellaneous refuse | 17,000 | |
| Collection and disposal of night soil | 15,000 | |
| Collection and disposal of dead animals | 2,855 | |
| Purchase and maintenance of motor vehicles or livery of horses | 1,500 | |
| Miscellaneous expenses | 1,980 | |
| Telephone | 60 | |
| Total | 179,945 | |
| For the purpose of investigating and reporting upon the collection and disposal of garbage and other city waste originating in the District of Columbia, including the preparation of plans and specifications for the construction of disposal plants, the necessary accessories, and the employment of personal services and such other incidental expenses as may be necessary to carry out the purposes of this appropriation, to be immediately available (*submitted*) | 7,500.00 | |
| NOTE.—It has been demonstrated that street cleaning has been done more economically and efficiently since the contract system was abolished, and it is thought that the collection and disposal of city waste can be done more economically under the direct control of the commissioners, for the same reason. | | |
| The contracts for the collection and disposal of city wastes are let for not more than five-year periods and the cost of disposal plants amount to several hundred thousand dollars, all, or at least a large portion of which, the contractors must figure on having returned to them by their contract price, as these disposal plants would be of no service to them if they were unsuccessful in obtaining the same contracts for the next period. In other words the District of Columbia is probably paying to the contractors, in addition to the cost of the work and the contractors' profit, the cost of complete disposal plants and collection equipment every five years, whereas, the disposal plants, if owned by the District, would probably have a life of 40 or 50 years. It therefore appears advisable, at least, for the District of Columbia to own these disposal plants, which could be operated under the direction of the commissioners or leased to the contractors. | | |
| Parking commission: | | |
| For contingent expenses, including laborers, trimmers, nurserymen, repair men, and teamsters, cart hire, trees, tree boxes, tree stakes, tree straps, tree labels, planting and care of trees on city and suburban streets, care of trees, tree spaces, maintenance of automobile truck, and miscellaneous items (increase of $7,500 submitted) (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | 50,000.00 | |
| NOTE.—The following is the estimate for general expenses under the above item: | | |
| Extension of planting system and general care of nurseries | $10,000.00 | |
| Removing dead, decayed, dangerous and objectionable varieties of trees | 7,500.00 | |
| During the current year $4,500 has already been expended in removing trees along the curb line, a majority of which it is proposed to replace. Therefore, this sum is needed to maintain the established lines of trees. | | |
| Trimming | 6,500.00 | |
| All the silver maples in the northwest section of the city should be severely pruned, topped, etc., and this sum is needed for the work. Wherever such treatment has been given, the results have been most satisfactory. | | |
| General care and improvements of street parkings and reservations | 6,000.00 | |
| Cultivation of street trees and miscellaneous repairs to boxes, stakes, and straps | 3,000.00 | |
| Extermination of insects | 5,000.00 | |
| Good results have been obtained in checking the ravages of insects infesting street trees for the last two seasons, and this sum will keep the trees free from the pests. | | |
| Forage | 2,500.00 | |
| General supplies (including lumber, tree stakes, stable and blacksmith items, and all materials necessary for the proper execution of the work | 9,000.00 | |
| Maintenance of automobile truck | 500.00 | |
| Bathing beach: | | |
| For superintendent (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | 600.00 | |
| Watchman (*same acts*) | 480.00 | |
| Temporary services, supplies, and maintenance, $500 to be immediately available (*same acts*) | 2,250.00 | |
| For repairs to buildings, pools, and upkeep of grounds, to be immediately available (*same acts*) | 1,500.00 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Streets*—Continued. | | |
| Bathing beach—Continued. | | |
| For bathing beach, with buildings, wharves, board walks, cribs, floats, and appurtenances (*submitted*) | $66,000.00 | |
| And authority is hereby given the Commissioners of the District of Columbia to locate a bathing beach on the shore of the tidal basin in Potomac Park, and the jurisdiction over so much of said shore and tidal basin as is necessary for such purpose is hereby transferred to the Commissioners of the District of Columbia. | | |
| NOTE.—The location for this bathing beach was mentioned in a letter from the president of the Board of Commissioners of the District of Columbia to the chairman of the Subcommittee on Appropriations for the District of Columbia, Jan. 13, 1913, as the southwest cove of the tidal basin in Potomac Park, and reference is made to the approval of the plans by the Commission of Fine Arts before the buildings are erected. | | |
| Provision is to be made for 800 dressing rooms; 400 for males (two in a room) and 400 for females, in a building 480 feet long, 25 feet wide and two stories high, including offices, drying rooms, etc., and would contain 394,000 cubic feet, at 15 cents per foot | $59,100.00 | |
| Two cribs, or floating baths, supported at the proper depths by iron cylinders; each crib 30 by 70 feet | 2,000.00 | |
| A wharf, with steps leading to water, and 100 feet of board walk | 2,000.00 | |
| A float, with springboards and guards' tower | 1,000.00 | |
| Plans, specifications, inspection, and incidental expenses | 1,900.00 | |
| For a bathing beach, with necessary buildings, wharves, board walks, cribs, floats and appurtenances, to be located on the shore of the Eastern Branch, or Anacostia River, between 500 and 1,000 feet westwardly from the Pennsylvania Avenue Bridge (*submitted*). | 21,396.00 | |
| And authority is hereby given to the Commissioners of the District of Columbia to locate said bathing beach and buildings on said shore, with jurisdiction over sufficient space on said shore and river to properly maintain said beach. | | |
| NOTE.—The location for this bathing beach was suggested by the superintendent of the bathing beach, and it is intended to give accommodations for 100 dressing rooms for males (two in each room) and 100 rooms for females. | | |
| The building would be 190 feet long, 25 feet wide and two stories high, and would contain 142,500 cubic feet, at 12 cents per cubic foot | $17,096.00 | |
| Floats, similar to, but smaller than those at Potomac Park beach, would cost | 1,000.00 | |
| Cribs, or floating baths | 1,000.00 | |
| Wharf and board walk | 1,000.00 | |
| And plans, specifications, superintendence, and incidental expenses | 1,300.00 | |
| NOTE.—These two estimates immediately preceding, one for the bathing beach on the tidal basin and one for the bathing beach on the Eastern Branch, are submitted in compliance with the following direction contained in "An act making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ending June 30, 1914, and for other purposes," approved Mar. 4, 1913: "The commissioners shall submit for the consideration of Congress, in the annual estimates for the government of the District of Columbia for the fiscal year 1915, detailed estimates for the construction of not exceeding two public bathing beaches, with all necessary buildings, on separate sites other than that now used and where tidal water shall be constantly available for bathing purposes." | | |
| Public scales: | | |
| For replacement and repair of public scales; and all public scales may be used for weighing and verifying the weight of all commodities (*acts June 11, 1878, vol. 20, p. 103. secs. 2, 3; Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | 200.00 | |
| NOTE.—The latter portion of the above legislation is added to make clear the intended use of the public scales. | | |
| For the purchase and installation of a new 25-ton railroad scale (increase of $350 submitted) (*act Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | 1,200.00 | |
| NOTE.—The rapidly increasing use of motor trucks to replace horse vehicles makes it necessary to install, from time to time, scales of increased capacity. During the current fiscal year it was found necessary to ask for a deficiency appropriation for repairs to considerably strengthen the scales for the purpose of protecting them. An item for one new scale was included in the District of Columbia appropriation bill for 1914, and the new scale is now in service. During the fiscal year 1915 it is desired to install another 25-ton scale, known as a two-section scale, which will accommodate the very large trucks and the estimate of the cost was placed at $1,175 to $1,200, which amount covers the cost of all work in connection with permanent concrete foundation and the installing of the same. | | |
| Playgrounds: | | |
| For maintenance, equipment, supplies, tools, construction of toilet facilities, installation of telephones and telephone service, fencing, grading, and repairs, including labor and materials, transportation, and necessary incidental and contingent expenses for all playgrounds, including rent of storage houses, under the direction and supervision of the commissioners (increase of $4,955 submitted) (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | 12,490.00 | |
| NOTE.—Detailed as follows: | | |
| Painting fence, apparatus, shelters, and toilets on all of the playgrounds | $350 | |
| Repairs to grading where rains have destroyed same | 250 | |
| Repairs to plumbing in shelters, toilets, and wading pools | 100 | |
| Repairs to fencing. Posts are rotted and need replacing. Wire is rusted and broken | 200 | |
| Trees killed to be removed and others planted | 100 | |
| Repairs to cement work and roofs connected with the shelters and wading pools | 150 | |
| Repairs to equipment which can be made by the watchmen during the winter months if materials are furnished, resulting in the saving of considerable money | 300 | |
| Materials (supplies for use on the grounds): | | |
| Athletic supplies for 10 months | 2,000 | |
| Industrial supplies for 10 months | 500 | |
| Supplies for watchmen | 200 | |
| During the past year, with the increased attendance, it has been found impossible to carry on the work efficiently with the amount of money available for materials. The appropriation last year for industrial supplies was not sufficient to carry on the work more than 3 months. | | |

| Rosedale playground— | | | |
| Fence | $1,000 | | |
| Running track | 900 | | |
| Grading | 500 | | |
| Football goals | 20 | | |
| New York Avenue playground— | | | |
| For connecting toilet house with sewers, as per bid | 210 | | |
| For replacing old equipment destroyed by storm | 300 | | |
| Mount Pleasant playground— | | | |
| For connecting toilet house | 290 | | |
| For replacing old equipment and building baseball backstop | 150 | | |
| Gallinger playground— | | | |
| Removing apparatus and replacing same on another site, this ground having been selected by the Government to place a Government building on | 300 | | |
| Howard playground— | | | |
| Replace apparatus destroyed by storm | 350 | | |
| For toilet facilities and connecting same | 300 | | |
| Backstops for baseball and tennis | 100 | | |
| Neighborhood House playground— | | | |
| For replacing old equipment | 200 | | |
| Virginia Avenue playground— | | | |
| Replacing roof on shelter | 120 | | |
| Garfield Park playground— | | | |
| Fencing to protect hedge | 100 | | |
| Fifth and L Streets SE.— | | | |
| For grading and fencing as an athletic field, and equipment for same | 2,500 | | |
| Incidental and contingent expenses, including office supplies, printing, and labor in case of emergency, also an allowance for transportation and for delivery of materials to playgrounds, and for such expenses as heretofore have been paid by the Washington Playground Association and with money raised by congressional baseball games and subscriptions. This is requested in order that the practice of calling for voluntary contributions may be discontinued | 1,000 | | |
| | 12,490 | | |
| At the present time whenever the delivery of goods or the change of apparatus from one place to another is necessary bids have to be obtained for a team and then the necessary requisition made out, thus holding up the work on the grounds sometimes for several days. | | | |
| Equipment of new playground in Tenleytown on property owned by the District (*submitted*). | | $1,000.00 | |
| NOTE.—For equipment of a playground in Tenleytown on property owned by the District. Location of this ground would be at the intersection of the River Road with the southeasterly line of the Murdoch Mill Road, on property secured for the erection of a branch of the Public Library. | | | |
| Purchase of site now occupied by the Mount Pleasant Playground (*submitted*) | | 60,000.00 | |
| NOTE.—This tract lies between Park Road and Kenyon Street and Thirteenth and Fourteenth Streets, and contains approximately 48,000 square feet. This is the last available space in the northwest, and is the the only tract containing anything like the amount of space necessary for a playground in this congested part part of the city. It has fine shade trees and will require no grading to make it available. Highest attendance 1 day, 2,740. Average attendance, 600. | | | |
| Director of recreation grounds in Rock Creek Park for 10 months, at $65 per month (*submitted*) | | 650.00 | |
| Watchman for recreation grounds in Rock Creek Park for 12 months, at $45 per month (*submitted*) | | 540.00 | |
| For salaries— | | | |
| Clerk (stenographer and typewriter) (*acts June 11, 1878, vol. 20, p. 103, secs. 2, 3; Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | | 900.00 | |
| Director of public recreation to be employed 12 months (change of title) (*same acts*) | | 2,500.00 | |
| To be employed not exceeding 10 months, as follows: | | | |
| Thirteen directors of playgrounds or recreation centers, at $65 per month each (*same acts*) | | 8,450.00 | |
| Assistant director, at $60 per month (*same acts*) | | 600.00 | |
| To be employed not exceeding 7 months, as follows: | | | |
| Two assistant directors, at $60 per month each (*same acts*) | | 840.00 | |
| Assistant director, at $50 per month (*same acts*) | | 350.00 | |
| To be employed not exceeding 4 months, as follows: | | | |
| Director, at $65 per month (*submitted*) | | 260.00 | |
| NOTE.—This director is requested for a new ground if it is allowed. This ground would not be ready to open until Mar. 1 and therefore the director would not be needed until that time. | | | |
| To be employed not exceeding 3 months, as follows: | | | |
| One assistant director, at $60 per month (*acts June 11, 1878, vol. 20, p. 103, secs, 2, 3; Mar. 4, 1913, vol. 37, p. 951, sec. 1*) | | 180.00 | |
| Thirteen assistants, at $45 per month each (*same acts*) | | 1,755.00 | |
| Watchmen, to be employed not exceeding 12 months, as follows: | | | |
| Eleven, at $45 per month each (1 additional submitted) (*same acts*) | | 5,940.00 | |
| NOTE.—The additional watchman is for the Cardozo playground and is to take the place of the position of watchman, at $25 a month. It has been found necessary to have the watchman at Cardozo work the same hours as the other watchmen and therefore he is entitled to the same salary as the others. | | | |

| Watchman to be employed not exceeding 6 months, as follows: | | | |
| One, at $45 per month (*submitted*) | $270.00 | | |
| NOTE.—This watchman is requested for duty on a new ground if it is allowed. This ground will not be completely equipped until about Jan. 1, 1915, and therefore the watchman would not be needed until that that time. | | | |
| One general utility man at $60 per month for 7 months (*submitted*) | 420.00 | | |
| NOTE.—Much money would be saved by repairing apparatus before the opening of the playground season during the school vacation by having a carpenter and mechanic in the employ of the playgrounds department. During the summer months the repair department uses every available man on the school property getting it in shape for the opening of the schools in the fall. Therefore this amount is necessary. | | | |
| Hereafter in case of unauthorized absence, or disability, of any member of the playgrounds staff, the salary during such absence or disability shall be available to pay substitute employees during the fiscal year. | | | |
| Public convenience stations: | | | |
| For maintenance of public convenience stations, including compensation of necessary employees (increase of $3,000 submitted) (*acts Mar. 3, 1905, vol. 33, p. 984, secs. 1–4; Mar. 4, 1913, vol. 37, p. 952, sec. 1*) | 10,500.00 | | |
| NOTE.—Owing to the reduction of the appropriation two years ago from $11,200 to $7,500, it became necessary to place two of the three convenience stations on "short time," operating them 12 hours per day instead of 18 hours per day as formerly. The present employees in the two stations work 12 hours per day, which in modern times is unquestionably too long to expect faithful and efficient service. These employees should not work over 8 hours per day in accordance with the intention expressed by several acts of Congress and by bills which are now in Congress. These employees are at the present time not construed to be laborers on public work of the United States or the District of Columbia, but simply to be attendants or cleaners. Their work is hard and they should have reasonable hours.<br>On account of the shutting down of these stations it was necessary to cut off some of the morning hours and some of the evening hours, and an investigation made at the direction of Maj. Markham, recently assistant to the engineer commissioner, indicates that the number of persons deprived of the use of these stations for the hours during which they are not now opened but were open formerly averages one per minute. It might also be added that the cash receipts from these stations has fallen off 50 per cent since the new hours of opening. This is due to the fact that during the middle of the day little or no service is exacted of these stations, but it is in the morning when people are on their way to work, in the evening when they are on their way home, and later when people are down town during the evening that the stations would have their greatest service; but inasmuch as it is not possible to obtain employees to work a few hours in the morning, then shut the stations in the middle of the day, and then open them at night, it is not possible to serve the greatest number of citizens with these conveniences which have demonstrated themselves to be so much a part of the civic furniture of the city. These stations were, when their average maintenance cost was $3,500 per annum, maintained as cheaply as any convenience stations in the country which have isolated heating and ventilating plants, and more cheaply than the great majority that are known. The average cost is between $4,000 and $5,000, and many of the stations in this country absorb $6,000 a year in operating each. | | | |
| For purchase of a site for a public convenience station in the vicinity of Fifteenth and H Streets NE. (*submitted*) | 1,000.00 | | |
| NOTE.—See note below. | | | |
| For the construction of a public convenience station in the vicinity of Fifteenth and H Streets NE. (*submitted*) | 10,000.00 | | |
| NOTE.—The congestion of traffic at the intersection of H Street, Fifteenth Street, Florida Avenue, Benning Road, and Bladensburg Road, together with the converging of three street car lines at that point, establishes the strong public necessity for a convenience of this kind. There are no facilities of any character in this vicinity at present. | | | |
| For site and for construction of one public comfort station in Georgetown, in the vicinity of Wisconsin Avenue and M Street (*submitted*) | 20,000.00 | | |
| NOTE.—There is a heavy congestion of pedestrian and vehicular traffic at Wisconsin Avenue and M Street, and at present there are no facilities such as the public comfort station is intended to provide. Next to Fifteenth and H Streets NE., a public comfort station is needed here more than at any other point in the city. | | | |
| Board for the condemnation of insanitary buildings: | | | |
| For all expenses necessary and incident to the enforcement of an act antitled "An act to create a board for the condemnation of insanitary buildings in the District of Columbia, and for other purposes," approved May 1, 1906, including personal services, when authorized by the Commissioners of the District of Columbia (*acts May 1, 1906, vol. 34, p. 157, secs. 1–16; Mar. 4, 1913, vol. 37, p. 952, sec. 1*) | 2,500.00 | | |

| *Electrical Department*— | | | |
| Electrical engineer (increase of $500 submitted) (*acts Apr. 26, 1904, vol. 33, p. 306, secs. 1–5; Mar. 4, 1913, vol. 37, p. 952, sec. 1*) | 3,000.00 | | |
| NOTE.—First appointed to the District service July 27, 1894. See recommendations of commissioners in estimates for the fiscal years 1908, 1909, 1910, 1911, 1913, 1914. | | | |
| Assistant electrical inspector (*same acts*) | 2,000.00 | | |
| Three electrical inspectors, at $1,200 each (*same acts*) | 3,600.00 | | |
| Electrical inspector (*submitted*) | 1,200.00 | | |
| NOTE.—In a special report to the Sixty-first Congress (H. R. 18157) the commissioners recommended an additional inspector, whose time was to be devoted principally to the inspection of theaters and places of public assembly, and to moving-picture places, of which a great many have been built in the last five years. The number of inspections of such places increased from 1,610 during the fiscal year 1911 to 3,073 during the fiscal year 1913. | | | |

| Inspector (change of title from "inspector of lamps") (*acts Apr. 26, 1904, vol. 33, p. 306, secs. 1-5; Mar. 4, 1913, vol. 37, p. 952, sec. 1*) | $1,000.00 | | |
| NOTE.—It is recommended that this title be changed as indicated. The duties of this position are of a general character, not confined to lamp work alone. | | | |
| Electrician (*same acts*) | 1,200.00 | | |
| Two draftsmen, at $1,000 each (*same acts*) | 2,000.00 | | |
| Three telegraph operators, at $1,200 each (increase of $200 each submitted) (*same acts*) | 3,600.00 | | |
| NOTE.—These operators are engaged in receiving and transmitting alarms of fire and have charge of the fire-alarm apparatus in the operating room. They also have immediate supervision over the telephone operators on the District board. They keep a record of all alarms received and transmitted and receive telephone reports of accidents coming under the jurisdiction of the public utilities commission. It is their duty to notify District officials outside of office hours of fires, accidents, etc., requiring their presence. One operator is always on duty and they work in tricks varying from 3 hours to 14 hours in duration. They are on duty Sundays and holidays. There has been no increase in their compensation for a long period of years. | | | |
| Three inspectors, at $900 each (*same acts*) | 2,700.00 | | |
| Expert repairman (*same acts*) | 960.00 | | |
| Three repairmen, at $900 each (*same acts*) | 2,700.00 | | |
| Inspector (title changed from "repairman") (*same acts*) | 900.00 | | |
| NOTE.—It is recommended that the title of one of the four positions of repairmen be changed to "inspector" as the duties of the position are general in character and not confined to repair work alone. | | | |
| Three telephone operators, at $720 each (*same acts*) | 2,160.00 | | |
| Four telephone operators, at $540 each (*same acts*) | 2,160.00 | | |
| Telephone operator (*same acts*) | 450.00 | | |
| Electrical inspector (*same acts*) | 2,000.00 | | |

| Electrical inspector (*same acts*) | 1,350.00 | | |
| Cable splicer (*same acts*) | 1,200.00 | | |
| Assistant cable splicer (*same acts*) | 620.00 | | |
| Clerk (*same acts*) | 1,400.00 | | |
| Clerk (*same acts*) | 1,200.00 | | |
| Two clerks, at $1,125 each (*same acts*) | 2,250.00 | | |
| Clerk (*same acts*) | 1,050.00 | | |
| Clerk (*same acts*) | 750.00 | | |
| Clerk (title changed from "assistant repairman") (*same acts*) | 620.00 | | |
| NOTE.—This employee is now rated as "assistant repairman." It is recommended that the title be changed to "clerk," so as to clearly indicate the duties of the position. | | | |
| Two assistant repairmen, at $540 each (*same acts*) | 1,080.00 | | |
| Laborer (*same acts*) | 630.00 | | |
| Two laborers, at $540 each (*same acts*) | 1,080.00 | | |
| Laborer (*same acts*) | 460.00 | | |
| Two laborers, at $400 each (*same acts*) | 800.00 | | |
| Storekeeper (*same acts*) | 875.00 | | |
| For general supplies, repairs, new batteries, and battery supplies, telephone rental and purchase, wire for extension of the telegraph and telephone service, repairs of lines and instruments, purchase of poles, tools, insulators, brackets, pins, hardware, cross arms, ice, record books, stationery, printing, livery, washing, blacksmithing, extra labor, new boxes, rent of storeroom, purchase and maintenance of means of transportation, and other necessary items (increase of $1,500 submitted) (*same acts*) | 15,000.00 | | |
| NOTE.—From this appropriation the entire expense incurred in maintaining the fire-alarm, the police-patrol, and the District telephone systems is paid. Moreover, the incidental costs of the municipal wiring inspection, and all stable and office expenses of the department are paid from this fund. This appropriation is not for contingent expenses; it is a maintenance fund, used principally to keep in operation certain systems the expenses of which increase each year, due to extensions and additions thereto.<br>Attention is invited to the fact that this department receives no allotment from the miscellaneous contingent fund of the District, but is compelled to purchase all supplies usually charged to that fund from the appropriation for general supplies.<br>For the fiscal year 1908 this appropriation was $15,000, and it is earnestly recommended that it be restored to that amount. | | | |
| For placing wires of fire-alarm, telegraph, police-patrol, and telephone service underground in existing conduits, including cost of cables, terminal boxes, and posts, connections to and between existing conduits, manholes, handholes, posts for fire-alarm and police boxes, extra labor, and other necessary items, to be immediately available (*same acts*) | 7,000.00 | | |
| For extension of police-patrol system, including purchase of new boxes, purchase and erection of the necessary poles, cross arms, insulators, pins, braces, wire, cable, conduit connections, extra labor, and other necessary items (*same acts*) | 3,000.00 | | |

| Lighting: For the purchase, installation, and maintenance of public lamps, lamp-posts, street designations, lanterns, and fixtures of all kinds on streets, avenues, roads, alleys, and public spaces, and for all necessary expenses in connection therewith, including rental of stables and storerooms, this sum to be expended in accordance with the provisions of sections 7 and 8 of the act making appropriations to provide for the expenses of the government of the District of Columbia for the fiscal year ended June 30, 1912, approved March 2, 1911, and with the provisions of the act for the same purpose for the fiscal year ending June 30, 1913, approved June 26, 1912, and other laws applicable thereto, livery and extra labor (increase of $7,892 submitted) (*acts Apr. 26, 1904, vol. 33, p. 306, secs. 1–5; Mar. 4, 1913, vol. 37, p. 952, sec. 1*) | $398,892.00 | | |

NOTE.—Statement of lighting appropriation for 1915:

| | | |
|---|---|---|
| Maintenance of present system including proposed improvements and extensions during 1914 | | $383,500 |
| Proposed miscellaneous extensions during 1915 | | 2,500 |
| Proposed alley extensions during 1915 | | 3,000 |
| Proposed improvements during 1915, as follows— | | |
| Pennsylvania Avenue SE., Second to Seventeenth Streets | $5,900 | |
| Replacing arc lamps in C, D, Fifth, and Sixth Streets, Louisiana Avenue, and Indiana Avenue, and John Marshall Place | 3,992 | |
| | | 9,892 |
| | | 398,892 |

This amount includes $6,239 for the purchase of the necessary posts for these improvements, thereby reducing the maintenance of the lamps $1.65 each per annum.

*Washington Aqueduct—*

For operation, including salaries of all necessary employees, maintenance, and repair of Washington Aqueduct and its accessories, the McMillan Park Reservoir, the Washington Aqueduct Tunnel, and also including the purchase and maintenance of 1 motor truck, horses, vehicles, and harness, and the care and maintenance of the stable, and also including printing, binding, and blank books (decrease of $1,500 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 953, sec. 1*) ..... $33,000.00

NOTE (by Chief of Engineers, United States Army).—Senate bill 4238, Sixty-second Congress, which passed the Senate, contained the provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law, it would apparently prevent paying for printing and binding from any appropriation which does not specifically provided for such expenditures. For that reason "printing, binding, and blank books" has been included in this estimate.

For continuing surfacing and improvement of the Conduit Road from Foxhall Road to Great Falls (*same acts*) ..... 15,000.00

For ordinary repairs, grading, opening ditches, and other maintenance of the Conduit Road (*submitted*) ..... 5,000.00

NOTE (by Chief of Engineers, United States Army).—The increasing use of the Conduit Road by all sorts of vehicles, and especially by automobiles, has so much increased the wear and tear upon it that not less than the sum of $5,000 will be needed anpually to keep it in good order.

For care, including salaries of all necessary employees, maintenance, and operation of the Washington Aqueduct, D. C., filtration plant, and the plant for the preliminary treatment of the water supply, authorized water meters on Federal services, and for each and every purpose connected therewith, including printing, binding, and blank books (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 953, sec. 1*) ..... 91,000.00

NOTE (by Chief of Engineers, United States Army).—Senate bill 4239, Sixty-second Congress, which passed the Senate, contained the provision that no appropriations other than those made specifically for printing and binding shall be used for such purposes. If such a provision should be enacted into law, it would apparently prevent paying for printing and binding from any appropriation which does not specifically provide for such expenditures. For that reason "printing, binding, and blank books" has been included in this estimate.

For emergency fund, to be used only in case of a serious break requiring immediate repair in one of the important aqueduct or filtration plant structures, such as a dam, conduit, tunnel, bridge, building, or important piece of machinery; all expenditures from this appropriation shall be reported in detail to Congress (*same acts*) ..... 5,000.00

NOTE (by Chief of Engineers, United States Army).—The above paragraph differs from the corresponding one in the act for the fiscal year 1914 in that the latter only appropriates the unexpended balance from the act for the fiscal year 1913. During the past fiscal year the balance was reduced by emergency expenditures to $3,429.16. The full amount of $5,000 should be appropriated in order to provide sufficiently for emergencies which may arise.

For continuation of parking grounds around McMillan Park Reservoir (increase of $6,000 submitted) (*same acts*) ..... 8,000.00

NOTE (by Chief of Engineers, United States Army).—This item is increased $6,000 over the appropriation for the fiscal year ending June 30, 1914, as it is estimated that the economical prosecution of the work of continuing grading, sodding, seeding, planting of trees and shrubs, and the construction of sidewalks, will require the expenditure of the sum of $8,000 during the fiscal year ending June 30, 1915.

For continuing the lining of such portions of the unlined sections of the tunnels of the Washington Aqueduct as may be necessary to prevent the disintegration and fall of rock (increase of $2,000 submitted) (*same acts*) ..... 12,000.00

NOTE (by Chief of Engineers, United States Army).—This item is increased $2,000 over the appropriation for the fiscal year ending June 30, 1914, on account of the fact that the installation of plant and accessories will permit more rapid progress. It is estimated that $12,000 will be required for economically and expeditiously prosecuting the work as opportunities offer during the fiscal year 1915. On account of the fact that the actual work of lining can only be done when conditions permit draining the aqueduct an accurate estimate of the total cost can not now be submitted.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |

| *Washington Aqueduct*—Continued. | | | |
| For completing the purchase, installation, and the maintenance of water meters, to be placed on the water services to the United States buildings, reservations, or grounds in the District of Columbia, and for each and every purpose connected therewith, said meters to be purchased, installed, and maintained by and remain under the observation of the officer in charge of the Washington Aqueduct (increase of $23,750 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 953, sec. 1*) | $28,450.00 | | |
| NOTE (by Chief of Engineers, United States Army).—It is believed that the installation of meters will assist in the detection of leakage and in the material diminution of waste. The estimated cost as stated in the report on increasing the water supply of the District of Columbia, published in House Document No. 347, Sixty-first Congress, second session, was $50,000. The appropriation for the purpose made for the fiscal year ending June 30, 1914, is $4,700. The item of $28,450 requested above is for the purpose of completing the work. | | | |
| For the erection of a house for the assistant to the overseer at Great Falls, Md., including the purchase of the necessary materials not now on hand, the work to be done by the present force of men engaged on the Washington Aqueduct, when their services can be spared from other work (*submitted*) | 1,000.00 | | |
| | | $198,450.00 | $157,200.00 |
| NOTE (by Chief of Engineers, United States Army).—It is difficult to secure a proper man for an assistant to the overseer at Great Falls unless quarters can be furnished. It is thought that by using material now on hand from the forming for concrete for the Georgetown Reservoir, and material also from other structures, and from an experimental filter house which is no longer needed, that a suitable house can be erected for not to exceed $1,000. | | | |
| GREAT FALLS WATER-POWER PROJECT. | | | |
| In the District of Columbia appropriation bill for the fiscal year ending June 30, 1913, there was carried an item of $20,000 to be expended under the direction of the Secretary of War, through the Corps of Engineers, for the purpose of making a survey and a possible recommendation for the Great Falls power development and increased water supply. This work has been done by Col. Langfitt, the engineer officer in charge of the Washington Aqueduct, and his report has been forwarded to Congress. In it he recommends the carrying out of the double project at an ultimate expenditure of about $15,000,000.<br>In Col. Langfitt's estimates for the Washington Aqueduct and other water-supply projects for the District, which are regularly transmitted to the Secretary of the Treasury through the Commissioners of the District of Columbia, he included an estimate of $1,000,000 to be applied to construction needed for an increased water supply to be drawn half from the funds of the United States and half from the funds of the District of Columbia, the other $2,000,000 for power construction, to be estimated for by the Secretary of War.<br>Upon completing their estimates the commissioners found, after careful revision of the items to be provided for, that they were unable to include the amount of $1,000,000 for the Great Falls project and at the same time care for the pressing needs of the District on other accounts without exceeding the total net revenues of the District of Columbia, plus 100 per cent, which they are forbidden by law to do. The commissioners were compelled, therefore, to omit this item from their estimates. They desire to emphasize the fact, however, that this was done solely on account of the requirement of law. The commissioners regard the project as extremely desirable and urgent, and hope that the matter may be covered in a separate bill to be submitted otherwise than through the District commissioners. They have advised the Secretary of War to this effect. | | | |
| *Rock Creek Park*— | | | |
| For care and improvement of Rock Creek Park, and of the Piney Branch parkway, exclusive of building for superintendent's residence, but including repairs to the foreman's quarters necessary for the preservation thereof, to be expended under the direction of the board of control of said park in the manner now provided by law for other expenditures of the District of Columbia (decrease of $3,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 954, sec. 1*) | | 18,000.00 | 21,000.00 |
| NOTE.—To be expended approximately as follows:<br>For ordinary maintenance $10,000<br>Repairs to foreman's quarters 750<br>For construction of additional shelters, toilet facilities, footpaths, bridges, and roads 7,250<br>Total 18,000 | | | |
| *Public Schools*— | | | |
| NOTE.—The estimates for public schools, as prepared by the board of education, are submitted by the Commissioners of the District of Columbia without change, and are therefore not republished in the appendix. | | | |
| Officers: | | | |
| Superintendent of public schools (*acts June 11, 1878, vol. 20, p. 104, sec. 3; June 20, 1906, vol. 34, pp. 316–321, secs. 1–13; Mar. 4, 1913, vol. 37, p. 954, sec. 1*) | 6,000.00 | | |
| Two assistant superintendents, at $3,000 each (*same acts*) | 6,000.00 | | |
| Director of intermediate instruction, 13 supervising principals, supervisor of manual training, and director of primary instruction, 16 in all, at a minimum salary of $2,200 each (one additional submitted) (*same acts*) | 35,200.00 | | |
| *Provided*, That the director of primary instruction now in the service of the schools, or hereafter to be appointed, shall be placed at a basic salary of $2,200, and shall be entitled to an increase of $100 per year for five years (*submitted*). | | | |
| NOTE (by board of education).—Provision is made for the transfer of the director of primary instruction to this group, an increase of one $2,200 salary and a decrease of one $1,800 salary elsewhere. A net increase of $400. The work of the director of primary instruction is such as to classify her with the supervising officers and her service entitles her to the salary of this group. | | | |
| Secretary (*acts June 11, 1878, vol. 20, p. 104, sec. 3; June 20, 1906, vol. 34, pp. 316–321, secs. 1–13; Mar. 4, 1913, vol. 37, p. 954, sec. 1*) | 2,000.00 | | |
| Clerk (increase of $800 submitted) (*same acts*) | 1,800.00 | | |
| NOTE (by board of education).—It is intended to promote a clerk now receiving $1,000 because of special efficiency and the responsibilities of his office as the accounting clerk for the school system. | | | |

| NOTE (by board of education).—It is intended to promote a clerk now receiving $1,000. | | |
| Three clerks, at $1,000 each (three additional submitted) (*submitted*) ..... | 3,000.00 | |
| NOTE (by board of education).—A decrease of two clerks promoted as above provided and an increase of three clerks. These additional salaries are intended to increase the force in the accounting and statistical offices by three clerks. The installation of a modern detailed accounting system and extension of the statistical work, both intended to make possible an accurate detailed record of school expense, etc., and also to make possible the prompt handling of the business of the school system, make vitally necessary an increase in the clerical force. | | |
| Clerk to carry out the provisions of the child-labor law (*acts June 11, 1878, vol. 20, p. 104, sec. 3; June 20, 1906, vol. 34, pp. 316–321, secs. 1–13; Mar. 4, 1913, vol. 37, p. 954, sec. 1*)... | 900.00 | |

| Messenger (*same acts*)..... | 720.00 | |
| Total, officers ..... | $60,000 | |
| Attendance officers: | | |
| One attendance officer in class 4, at a minimum salary of $800; four attendance officers in class 3, two of whom shall be men, at a minimum salary of $650 each; in all (two additional submitted; increase of $50 each for two; decrease of $100 for one) (*same acts*)..... | 3,400.00 | |
| *Provided*, That all attendance officers now in the service of the public schools and hereafter to be appointed shall be placed in class 3 and 4 of the salary schedule provided in the act approved June 20, 1906, and shall receive the annual increase provided for in said schedule: *Provided further*, That such attendance officers now in the service of the public schools shall receive for the fiscal year ending June 30, 1915, the salary in said class 3 or 4 next above the present salary, and no such attendance officer shall receive a salary less than that received at the time of the passage of this act (*submitted*). | | |
| NOTE (by board of education).—An increase of $1,300. Attendance officers now in the service and hereafter to be appointed recommended to be placed on class 3 and class 4 basis, and two new attendance officers recommended. Condition that two must be men. Increased force necessary to properly enforce compulsory-education laws. | | |
| Teachers: For 1,768 teachers, to be assigned as follows: | | |
| NOTE (by board of education).—An increase of 17 teachers, as itemized below: | | |
| Principals of normal, high, and manual-training high schools, 9 in all, at a minimum salary of $2,500 each (increase of $500 each submitted) (*act Mar. 4, 1913, vol. 37, p. 954, sec. 1*)..... | 22,500.00 | |
| *Provided*, That the principals of normal, high, and manual-training high schools now in the service of the public schools or hereafter to be appointed shall be placed at a basic salary of $2,500 per annum and shall be entitled to an increase of $100 per annum for five years: *Provided further*, That for the year ending June 30, 1915, each principal of the normal, high, and manual-training high schools shall receive the salary in his class next above his present salary (*submitted*). | | |
| NOTE (by board of education).—The word "high" is inserted to distinguish manual-training high schools from grade manual-training schools.<br>The item provides for an increase of basic salary from $2,000 to $2,500, or a total basic increase of $4,500. Owing to the fact that most of these principals have already reached the maximum salary in their present class, the actual increased expense for 1915 over 1914 is only $1,200.<br>NOTE (by board of education).—The item "Director of primary instruction at a minimum salary of $1,800" has been transferred to the heading "Officers." | | |
| Directors of music, drawing, physical culture, domestic science, domestic art, and kindergartens, 6 in all, at a minimum salary of $1,500 each (*act Mar. 4, 1913, vol. 37, p. 954, sec. 1*)..... | 9,000.00 | |
| *Provided*, That hereafter the directors of domestic science, domestic art, and kindergartens shall receive a salary of $1,500 per annum, with an increase of $100 per annum for five years: *Provided further*, That for the year ending June 30, 1915, each of said directors shall receive the salary next above his present salary (*submitted*). | | |
| NOTE (by board of education).—No increase in basic salary. The proviso will grant the directors named the same longevity increase now given the directors of music, drawing, and physical culture. At present the directors of domestic science, domestic art, and kindergartens receive longevity pay of only $50 per annum. | | |
| Assistant director of primary instruction, at a minimum salary of $1,800 (increase of $400 submitted) (*act Mar. 4, 1913, vol. 37, p. 954, sec. 1*)..... | 1,800.00 | |
| *Provided*, That the assistant director of primary instruction now in the service of the public schools or hereafter to be appointed shall be placed at a basic salary of $1,800, and shall be entitled to an increase of $50 per year for five years (*submitted*). | | |
| NOTE (by board of education).—This item provides for the increase of the basic pay from $1,400 to $1,800. | | |

| NOTE (by board of education).—An increase of five teachers and of $5,000. This group includes high-school teachers. The increase is desired to meet pressing demands for additional teaching force in the high schools. | | | |
| Teachers in class 5, 118 in all, at a minimum salary of $950 each (*same act*) | 112,100.00 | | |
| Teachers in class four, 430 in all, at a minimum salary of $800 each (16 additional submitted) (*same act*) | 344,000.00 | | |
| NOTE (by board of education).—An increase of 16 teachers and of $12,800. This item provides for the transfer of 16 teachers from class 3 to class 4. These teachers by reason of long service have reached the maximum salary of the lower class. | | | |
| Teachers in class three, 481 in all, at a minimum salary of $650 each (decrease of 7) (*same act*) | 312,650.00 | | |
| NOTE (by board of education).—A decrease of 7 teachers and $4,550. A decrease of 16 teachers transferred to class 4, and an increase of 9 teachers in order to provide additional teachers for kindergartens, additional teachers for third and fourth grades, and for the transfer of 1 teacher from a class 2 to a class 3 salary, this latter teacher having reached the maximum salary in the lower class. | | | |
| Teachers in class two, 336 in all, at a minimum salary of $600 each (decrease of 1) (*same act*) | 201,600.00 | | |
| NOTE (by board of education).—A decrease of 1 teacher in this class caused by transfer of 1 teacher to class 3. | | | |
| Teachers in class one, 71 in all, at a minimum salary of $500 each (5 additional submitted) (*same act*) | 35,500.00 | | |
| NOTE (by board of education).—An increase of 5 teachers and $2,500 to provide kindergarten assistants for new kindergarten classes. | | | |
| Special beginning teacher in the normal school (*same act*) | 800.00 | | |
| Total, teachers | $1,380,150 | | |
| Librarians and clerks: Twenty-six librarians and clerks to be assigned as follows: | | | |
| Librarian in class 4, one at a minimum salary of (*act Mar. 4, 1913, vol. 37, p. 954, sec. 1*) | 800.00 | | |
| Librarians and clerks in class 3, 12 in all, at a minimum salary of $650 each (*same act*) | 7,800.00 | | |
| Librarians and clerks in class 2, 5 in all, at a minimum salary of $600 each (*same act*) | 3,000.00 | | |
| Librarians and clerks in class 1, 8 in all, at a minimum salary of $500 each (*same act*) | 4,000.00 | | |
| Total, librarians and clerks | $15,600 | | |
| Longevity pay: | | | |
| Longevity pay for director of intermediate instruction, supervising principals, supervisor of manual training, principals of normal, high, and manual training high schools, principals of the grade manual training schools, heads of departments, director and assistant director of primary instruction, directors and assistant directors of drawing, physical culture, music, domestic science, domestic art and kindergartens, teachers, clerks, librarians and clerks, and librarians to be paid in strict conformity with the provisions of the act entitled "An act to fix and regulate the salaries of teachers, school officers, and other employees of the board of education of the District of Columbia," approved June 20, 1906, as amended by the acts approved May 26, 1908, May 18, 1910, and June 26, 1912 (increase of $87,935 submitted) (*same act*) | 462,935.00 | | |
| NOTE (by board of education).—An increase of $87,935. The actual increase is considerably less. The board of education after careful computation asked last year for $407,910. Only $375,000 was appropriated, however, and a deficiency for 1914 of over $32,000 is faced, or practically the difference between amount appropriated and amount requested. The estimate for 1915, carefully computed, is only $55,000 over amount asked for in last act. | | | |
| Allowance to principals: | | | |
| Allowance to principals of grade school buildings for services rendered as such, in addition to their grade salary, to be paid in strict conformity with the provisions of the act entitled "An act to fix and regulate the salaries of teachers, school officers, and other employees of the board of education of the District of Columbia," approved June 20, 1906 (*act Mar. 4, 1913, vol. 37, pp. 955, 956, sec. 1*) | 34,000.00 | | |
| *Provided*, That in assigning salaries to teachers no discrimination shall be made between male and female teachers employed in the same grade and performing a like class of duties; and it shall not be lawful to pay, or authorize or require to be paid, from any of the salaries of teachers herein provided, any portion or percentage thereof for the purpose of adding to salaries of higher or lower grades. | | | |
| *Provided further*, That no teacher, of the whole number appropriated for herein, shall be employed as, or required to discharge the duties of, a clerk or librarian. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Public Schools*—Continued. | | |
| Night schools: | | |
| For teachers and janitors of night schools, including teachers of industrial, commercial, and trade instruction, and teachers and janitors of night schools may also be teachers and janitors of day schools (increase of $7,500 submitted) (*act Mar. 4, 1913, vol. 37, pp. 955, 956, sec. 1*) | $25,000.00 | |
| NOTE (by board of education).—An increase of $7,500. This work should be extended in part along industrial lines, and it should be made possible to keep schools open for a longer period. | | |
| For contingent and other necessary expenses of night schools, including equipment and the purchase of all necessary articles and supplies for classes in industrial, commercial, and trade instruction (increase of $500 submitted) (*same act*) | 3,000.00 | |
| NOTE (by board of education).—An increase of $500. Necessitated by desired extension of night-school work. There is urgent need also for new industrial equipment. | | |
| Kindergarten supplies: | | |
| For kindergarten supplies (*same act*) | 3,000.00 | |
| Janitors and care of buildings and grounds: | | |
| Superintendent of janitors (increase of $600 submitted) (*same act*) | 1,800.00 | |
| NOTE (by board of education).—An increase of $600. The growth of the work of this efficient officer through the addition of new buildings and the development of modern heating plants, and the constant effort of securing efficient engineers, janitors, and laborers more than justify this increase. The superintendent of janitors has the oversight of the janitor and engineer service in all owned and rented school buildings. He supervises 268 employees. | | |
| Central High School and annex, janitor, $900; laborer, $420; three laborers, at $360 each; in all (*same act*) | 2,400.00 | |
| Business High School, janitor, $900; laborer, $420; three laborers, at $360 each; in all (*same act*) | 2,400.00 | |
| J. Ormond Wilson Normal School and Ross School, engineer, $1,000; janitor, $600; laborer, $420; three laborers, at $360 each; in all (increase of $100 submitted) (*same act*) | 3,100.00 | |
| NOTE (by board of education).—An increase of $100 in salary of engineer. His work as engineer compares in difficulty and demands on his ability with that of the engineer in manual training high schools. He controls the central heating plant of the large new normal school and of the Ross School, a grade school building adjoining. He has also under his charge extensive electrical equipment, for lighting, etc. | | |
| Jefferson School, janitor, $800; fireman, $420; two laborers, at $360 each; in all (increase of $420 submitted) (*same act*) | 1,940.00 | |
| NOTE (by board of education).—An increase of one fireman at $420. Owing to the reconstruction and modernization of the heating plant an additional fireman is needed. | | |
| Western High School, janitor, $900; laborer, $420; three laborers, at $360 each; in all (*same act*) | 2,400.00 | |
| Franklin School, janitor, $840; laborer, $420; two laborers, at $360 each, in all (*same act*) | 1,980.00 | |
| Normal School No. 2, janitor, $900; laborer, $420; two laborers, at $360 each, in all (*same act*) | 2,040.00 | |
| Eastern High School, janitor, $900; laborer, $420; laborer, $360; in all (*same act*) | 1,680.00 | |
| Stevens School, janitor, $900; two laborers, at $360 each; in all (*same act*) | 1,620.00 | |
| McKinley Manual Training School, janitor, $900; engineer and instructor in steam engineering, $1,500; assistant engineer, $1,000; two assistant janitors, at $720 each; fireman, $420; two laborers, at $360 each; in all (*same act*) | 5,980.00 | |
| Armstrong Manual Training School, janitor, $900; assistant janitor, $720; engineer and instructor in steam engineering, $1,200; assistant engineer, $900; fireman, $420; two laborers, at $360 each; in all (increase of $600 submitted) (*same act*) | 4,860.00 | |
| NOTE (by board of education).—An increase of $600. An increase of $180 in the salary of the assistant engineer, and the addition of a fireman at $420. There have been extensive additions to the mechanical plant of this school in recent years, and the increases are asked for in order to secure capable help to run and to safeguard this equipment. | | |
| M Street High School and Douglas and Simmons Schools, engineer, $1,000; janitor, $900; laborer, $420; 3 laborers, at $360 each; in all (*same act*) | 3,400.00 | |
| Birney and annex, Emery, and the new Mott, Henry D. Cooke, Van Buren, and Wallach Schools, 6 janitors, at $840 each; 6 laborers, at $360 each; in all (increase of $1,200 submitted) (*same act*) | 7,200.00 | |
| NOTE (by board of education).—An increase in this item of $1,200, due (1) to the transfer of the Birney School from the $720 class to the $840 class, and (2) to the need of one additional laborer for the care of the six-room addition to the Birney School provided for in the last appropriation act. | | |
| Brookland, Bryan, Congress Heights, Curtis, Dennison, Force, Gage, Gales, Garfield, Garnet, Grant, Grover Cleveland, Henry, Johnson and annex, Langdon, Lincoln, Lovejoy, Miner, Monroe and addition, Peabody, Seaton, Sumner, Webster, and Strong John Thomson Schools, 24 janitors, at $720 each; 24 laborers, at $300 each; in all (*same act*) | 24,480.00 | |
| NOTE (by board of education).—The Birney School and annex is transferred to the $840 class. The Congress Heights School is transferred from the $600 class to the $720 class, on account of the four-room addition provided for in the last appropriation act. | | |

| NOTE (by board of education).—A decrease of $600, due to the transfer of the Congress Heights School to the $720 group. Name of Potomac School has been officially changed to Isaac Fairbrother School. | | |
| Crummell School, Wisconsin Avenue Manual Training School, Cardozo Manual Training School, and one six-room building in the twelfth division, 4 janitors, at $540 each; in all (*same act*) ..... 2,160.00 | | |
| Brightwood Park and Kenilworth Schools, 2 janitors, at $360 each; in all (*same act*) ..... 720.00 | | |
| Bunker Hill, Deanwood, Hamilton, McCormick, Orr, Reno, Reservoir, Smothers, Stanton, Threlkeld, Military Road, and Burrville Schools, 12 janitors, at $300 each; in all (*same act*) ..... 3,600.00 | | |
| Conduit Road, Chain Bridge Road, and Fort Slocum Schools, 3 janitors, at $150 each; in all (*same act*) ..... 450.00 | | |
| In the event of the absence of any engineer, assistant engineer, janitor, assistant janitor, laborer, fireman, or caretaker at any time during school sessions the board of education is hereby authorized to appoint a substitute, who shall be paid the salary of the position in which employed, and the amount paid to such substitute shall be deducted from the salary of the absent employee. | | |
| For care of smaller buildings and rented rooms, including cooking and manual training schools, wherever located, at a rate not to exceed $72 per annum for the care of each schoolroom (increase of $1,000 submitted) (*act Mar. 4, 1913, vol. 37, pp. 956, 957, sec. 1*). 9,000.00 | | |
| NOTE (by board of education).—An increase of $1,000. The present amount has not been found sufficient to meet demands for service now required. The desired increase will meet these demands and provide for care of additional cooking and sewing rooms that may be opened. | | |
| Total, janitors, etc ..... $134,110 | | |
| Medical inspectors: | | |
| Thirteen medical inspectors of public schools, one of whom shall be a woman, two of whom shall be dentists, and four of whom shall be of the colored race, at $500 each, in all (*same act*) ..... 6,500.00 | | |
| *Provided*, That said inspectors shall be appointed by the commissioners only after competitive examination, and shall have had at least three years' experience in the practice of medicine or dentistry in the District of Columbia, and shall perform their duties under the direction of the health officer and according to rules formulated from time to time by him, which shall be subject to the approval of the board of education and the commissioners. | | |
| For three graduate nurses, one of whom shall be colored, who shall act as public-school nurses, at $900 each (*submitted*) ..... 2,700.00 | | |

| NOTE (by board of education).—An increase of $3,000. This increase is required to meet the additional cost for the rental of a safer and better storehouse, for the handling of supplies, and for the rental of quarters for much-needed cooking and sewing schools. | | |
| The following is a list of probable expenditures for rent, 1913–14. It is not advisable to state just what buildings will be required next year, as experience has shown the necessity for changes each year to meet changing conditions and shifts of population. All rented quarters, except storehouses, are used for school-teaching: | | |

| 720 Twenty-fourth Street NW | 660 | | |
| For new cooking and manual training schools, etc | 2,514 | | |
| | 20,000 | | |
| For amount required to equip temporary rooms for classes above the second grade, now on half time, and to provide for the estimated increased enrollment that may be caused by the operation of the compulsory education law, and for the purchase of all necessary articles and supplies to be used in the course of instruction which may be provided for atypical and ungraded classes (*act Mar. 4, 1913, vol. 37, p. 957, sec. 1*) | | $5,000.00 | |
| For repairs and improvements to school buildings and grounds and for repairing and renewing heating, plumbing, and ventilating apparatus, and the installation of sanitary drinking fountains in buildings not supplied with the same (*same act*) | | 100,000.00 | |
| For altering and remodeling school buildings and grounds, as follows: For central heating plant in the group of buildings containing the Central High, Polk, and Henry Schools; for the completion of the remodeling of the Franklin School Building to provide the necessary offices for school officers and the Board of Education; for the construction of approaches and steps on the Georgia Avenue front of Normal School No. 169; for covering over the roof space at the Grover Cleveland School No. 165, for open air classes; for constructing retaining wall and fence and making alterations for the lunch room at the Business High School; for retaining walls, copings, fence, grading and surfacing parking spaces surrounding the Abbot School; for reconstructing the entrance and approach of the M Street front, and improving the lighting conditions at the Sumner School; for installing sanitary drinking fountains and shower baths in school buildings where same are required; for completing the electric lighting of the Eastern High School, for modern lavatories, drinking fountains, sewer connections, and necessary building for the Conduit Road School; and for remodeling the toilets of the Western High School (*submitted*) | | 90,000.00 | |
| NOTE.—This is a new item covering some of the imperative needs of the school system. | | | |
| For the purchase and repair of tools, machinery, material, and books, and apparatus to be used in connection with instruction in manual training, and for incidental expenses connected therewith (*act Mar. 4, 1913, vol. 37, p. 957, sec. 1*) | | 25,000.00 | |
| For fuel, gas, and electric light and power (*same act*) | | 85,000.00 | |
| For furniture, including also clocks, pianos, and window shades, for additions to buildings, kindergartens, and also tools and furnishings for manual training, cooking, and sewing schools, as follows: One 4-room addition to the Congress Heights School, $1,000; one 6-room addition to the Birney School, $1,500; five kindergartens, $1,700; one sewing school, $150; one cooking school, $300; one manual training shop, $300; in all (*submitted*) | | 4,950.00 | |
| NOTE (by board of education).—This is a new item to cover the furnishing and equipment of building additions already provided for, and to furnish additional cooking, sewing, and manual training schools for which there is demand. | | | |
| For contingent expenses, including furniture and repairs of same, stationery, printing, ice, purchase and repair of equipment for high-school cadets, and other necessary items not otherwise provided for, including an allowance of $300 for livery of horse for the superintendent of janitors, and including not exceeding $1,000 for books, books of reference, and periodicals (increase of $1,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 957, sec. 1*) | | 48,500.00 | |
| For the purchase of a motor car for the superintendent of schools, at a cost not exceeding $1,900, and for the purchase of two motor delivery trucks—one at a cost not exceeding $2,500 and one at a cost not exceeding $1,800—the maintenance of the said motor and trucks, and for the hire of three drivers for the same at a salary not exceeding $600 per annum each, to be immediately available (*submitted*) | | 9,000.00 | |
| NOTE (by board of education).—This is a new item. The motor trucks are required for the delivery of supplies and text books, the moving of furniture, etc. The board of education owns no vehicle of any kind and is obliged to pay out for wagon hire and extra service connected therewith $3,000 per year from the contingent and text books and supplies fund.<br>The motor car for the superintendent of schools is essential for his proper supervision of the 160 widely distributed school buildings in the District of Columbia. | | | |
| For the purchase of pianos for school buildings and kindergarten schools, at an average cost not to exceed $300 each (*act Mar. 4, 1913, vol. 37, p. 957, sec. 1*) | | 900.00 | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Public Schools*—Continued. | | | |
| Miscellaneous—Continued. | | | |
| *Provided*, That the board of education in its discretion is authorized to make exchanges of such books and other educational publications now on hand as may not be desirable for use. | | | |
| NOTE (by board of education).—An increase of $2,600. Authorization is given to employ one assistant custodian at $800. This additional help is vitally necessary in order that the handling of supplies may be expedited. The steadily increasing enrollment in the public schools makes necessary an increase in the fund for free text books and supplies. | | | |
| For purchase of United States flags (*act Mar. 4, 1913, vol. 37, p. 957, sec. 1*) | $800.00 | | |
| For equipment, grading and improving six additional school playgrounds (*same act*) | 900.00 | | |
| For maintenance and repairing 48 playgrounds now established (increase of $300 submitted) (*same act*) | 2,400.00 | | |
| NOTE (by board of education).—An increase of $300 to provide for maintenance and repair of the additional playgrounds provided for in the last appropriation act. | | | |
| For utensils, material, and labor, for establishment and maintenance of school gardens (*same act*) | 1,200.00 | | |
| For purchase of apparatus, and technical books, and for extending the equipment and for the maintenance of the physics departments in the Business, Central, Eastern, Western, and M Street High Schools (*same act*) | 3,000.00 | | |
| NOTE (by board of education).—Provision is made to buy needed technical reference books from this fund. There is no other fund to meet this expense except the contingent book fund, and that is too small to meet proper demands. | | | |
| For the purchase of fixtures, apparatus, specimens, and materials, and technical books, for the laboratories of the departments of chemistry and biology in the Central, Eastern, Western, Business, and M Street High Schools, J. Ormond Wilson Normal School, and Normal School No. 2, and the installation of the same (increase of $900 submitted) (*act Mar. 4, 1913, vol. 37, p. 957, sec. 1*) | 3,000.00 | | |
| NOTE (by board of education).—An increase of $900 for equipment of new laboratories. | | | |
| For cabinetmaker for repairing school furniture (*same act*) | 1,000.00 | | |
| For the employment of temporary personal services, including labor (*submitted*) | 2,500.00 | | |
| Total, miscellaneous | $470,750 | $2,601,145.00 | $2,359,090.00 |
| NOTE (by board of education).—This is a new item. An allowance of this nature is required for temporary service and labor at times of special pressure in the administrative and business offices, in the handling and distribution of supplies, and for other special needs that can not be met by the regular employees. | | | |
| *Buildings and Grounds, Public Schools*— | | | |
| Toward the construction of the new Central High School on the site purchased for that purpose, and toward the grading and other work necessary to prepare the site, the grading of an athletic field, the construction of retaining walls, and the construction of an athletic stadium (*act Mar. 4, 1913, vol. 37, pp. 957, 958, sec. 1*) | 450,000.00 | | |
| Toward the construction of the new M Street High School, for colored pupils, on the site purchased for that purpose, and toward the grading of said site (*same act*) | 150,000.00 | | |
| For the purchase of ground adjacent to the Petworth School (*same act*) | 3,500.00 | | |
| NOTE.—The occasion for this estimate is that the unexpended balance of $11,670 of the current appropriation of $15,000 out of which two lots, viz, 37 and 38 in square 3026, have been purchased, is insufficient to secure the necessary additional land which it is believed will cost about $15,000. | | | |
| For the erection of a 16-room building on the site purchased west of Soldiers' Home grounds, south of Rock Creek Road (*submitted*) | 132,000.00 | | |
| For the purchase of a site for a new Eastern High School, to be located east of Tenth Street east and north of D Street south (*submitted*) | 150,000.00 | | |
| For the purchase of additional ground adjoining the Burrville School (*submitted*) | 3,000.00 | | |
| For a 4-room addition to the Burrville School, and grading of site (*submitted*) | 35,000.00 | | |
| For a four-room addition to the John F. Cook School (*submitted*) | 33,000.00 | | |
| For an eight-room addition to the Powell School (*submitted*) | 66,000.00 | | |
| For a site for a new school building in the sixth division, north of G Street and east of Tenth Street (*submitted*) | 45,000.00 | | |
| For a four-room addition to the Deanwood School (*submitted*) | 31,000.00 | | |
| For the purchase of additional ground adjoining the Takoma School (*submitted*) | 6,000.00 | | |
| For the purchase of adjoining ground north of the Gage School as a site for the erection of an addition to said school (*submitted*) | 9,000.00 | | |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|---|
| *Buildings and Grounds, Public Schools*—Continued. | | | |
| That the total cost of the sites and of the several and respective buildings herein provided for, when completed upon plans and specifications to be previously made and approved, shall not exceed the several and respective sums of money herein respectively appropriated or authorized for such purposes. | | | |
| That the plans and specifications for all buildings provided for in this act shall be prepared under the supervision of the municipal architect of the District of Columbia, and shall be approved by the Commissioners of the District of Columbia, and shall be constructed in conformity thereto. | | | |
| School buildings authorized and appropriated for herein shall be constructed with all doors intended to be used as exits or entrances opening outward, and each of said buildings having in excess of eight rooms shall have at least four exits. No part of any appropriation carried in this act shall be used for the maintenance of school in any building unless all outside doors thereto used as exits or entrances shall open outward and be kept unlocked every school day from one-half hour before until one-half hour after school hours. | | | |
| *Columbia Institution for the Deaf*— | | | |
| For expenses attending the instruction of deaf and dumb persons admitted to the Columbia Institution for the Deaf from the District of Columbia, under section 4864 of the Revised Statutes, and as provided for in the act approved Mar. 1, 1901, and under a contract to be entered into with the said institution by the Commissioners of the District of Columbia, or so much thereof as may be necessary (increase of $350 submitted) (*R. S., p. 942, sec. 4864; acts June 16, 1880, vol. 21, p. 275, sec. 1; Mar. 2, 1889, vol. 25, p. 962, sec. 1; Mar. 1, 1901, vol. 31, p. 844, sec. 1; Mar. 4. 1913, vol. 37, p. 958, sec. 1*) | | $12,250.00 | $11,900.00 |
| NOTE.—This estimate is based on the rate of three hundred and fifty dollars ($350) per capita for 35 children. As there are now 35 deaf children from the District of Columbia in the institution and the per capita rate is $350, this amount is asked for. | | | |
| *Education of Colored Deaf-Mutes*— | | | |
| For the maintenance and tuition of colored deaf-mutes of teachable age belonging to the District of Columbia in Maryland or some other State, under a contract to be entered into by the Commissioners of the District of Columbia, $4,550, or so much thereof as may be necessary (*acts Mar. 3 1905, vol. 33, p. 901, sec. 1; Mar. 4, 1913, vol. 37, p. 958, sec. 1*) | | 4,550.00 | 4,550.00 |
| NOTE.—The change in language in this paragraph is recommended because the current law is at variance with the facts. There is no institution known as the "Maryland School for Colored Deaf-Mutes." The place to which the children are sent is known as the Department for Colored Deaf of the Maryland School for the Blind, and the contract is made with the Maryland School for the Blind. The act approved Mar. 3, 1905, to which reference is made in the current law, so far as it applies to the maintenance and tuition of colored deaf-mutes, is now obsolete. That act provides for the admission of these children to the Columbia Institution for the Deaf and Dumb thfough the Secretary of the Interior, and the transfer of such children by the trustees of the Columbia Institution for the Deaf and Dumb to the Maryland School for Colored Deaf-Mutes. It is inconsistent with the present law, which provides that contract shall be made by the Commissioners of the District of Columbia with the Maryland school. | | | |
| *Instruction of Blind Children*— | | | |
| For the instruction of blind children of the District of Columbia in Maryland or some other State, under a contract to be entered into by the Commissioners of the District of Columbia, or so much thereof as may be necessary (increase of $1,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 958, sec. 1*) | | 8,000.00 | 7,000.00 |
| NOTE.—It is recommended that the word "indigent" be eliminated from this paragraph, thus making the appropriation available for the education of all blind children. The commissioners believe that blind children should be educated at public expense, just as are the seeing children, without regard to the question of indigency. The qualification of indigency is not required in reference to the deaf and dumb, and it is inconsistent to require it in the case of the blind. | | | |
| *Metropolitan Police*— | | | |
| Major and superintendent (*acts June 11, 1878, vol. 20, p. 104, sec. 3; June 8, 1906, vol. 34, pp. 221-223, sec. 1; Mar. 4, 1913, vol. 37, p. 959, sec. 1*) | $4,000.00 | | |
| Assistant superintendent, with rank of inspector (*same acts*) | 2,500.00 | | |
| Three inspectors, at $1,800 each (*same acts*) | 5,400.00 | | |
| Eleven captains, at $1,500 each (*same acts*) | 16,500.00 | | |
| Chief clerk, who shall also be property clerk (*same acts*) | 2,000.00 | | |
| Clerk and stenographer (*same acts*) | 1,500.00 | | |
| Clerk, who shall be assistant property clerk (*same acts*) | 1,200.00 | | |
| Three clerks, at $1,000 each (*same acts*) | 3,000.00 | | |
| Four surgeons of the police and fire departments, at $720 each (*same acts*) | 2,880.00 | | |
| Additional compensation for 20 privates detailed for special service in the detection and prevention of crime, or so much thereof as may be necessary (*same acts*) | 4,800.00 | | |
| Thirteen lieutenants, one of whom shall be harbor master, at $1,320 each (*same acts*) | 17,160.00 | | |
| Forty-six sergeants, one of whom may be detailed for duty in the harbor patrol, at $1,250 each (*same acts*) | 57,500.00 | | |
| One sergeant, who shall be detailed to enforce the pharmacy, dental, and veterinary laws (*submitted*) | 1,320.00 | | |
| NOTE.—See note below. | | | |
| One sergeant, who shall have charge of the local bureau of criminal identification (*submitted*). | 1,320.00 | | |
| NOTE.—In order to keep pace with conditions, two sergeants are asked for, one of whom shall be detailed to enforce the laws relating to the practice of medicine, pharmacy, etc., and the other to conduct the local bureau of criminal identification, the homicide record, and those wherein are kept memoranda of accidents of all kinds. The officers detailed for these special duties should be men above the average in qualifications and be required to work extraordinary hours. Their compensation should be the same as provided for sergeants who supervise the working of the members of the force, $1,320. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Metropolitan Police*—Continued. | | |
| Four hundred and eighty-five privates of class 3, at $1,200 per annum (decrease of 6 submitted) (*acts June 8, 1906, vol. 34, p. 221, sec. 1; Mar. 4, 1913, vol. 37, p. 959, sec. 1*)..... $582,000.00 | | |
| NOTE.—The above number of privates of class 3 must be provided for under the operation of existing law. | | |
| One hundred and twenty-three privates of class 2, at $1,080 each (23 additional submitted) (*same acts*)..... 132,840.00 | | |
| NOTE.—Under the automatic system of promotion the above number of privates of class 2 must be provided for. | | |
| Fifty-eight privates of class 1, at $900 each (*same acts*)..... 52,200.00 | | |
| Amount required to pay salaries of privates of class 2 who will be promoted to class 3, and privates of class 1 who will be promoted to class 2 during the fiscal year 1915 (increase of $2,367.53 submitted) (*same acts*)..... 5,096.53 | | |
| NOTE.—The above amount is asked for to provide for automatic promotions which can not be anticipated. | | |
| Six telephone operators, at $720 each (*same acts*)..... 4,320.00 | | |
| Fourteen janitors, at $600 each (*same acts*)..... 8,400.00 | | |
| Messenger (*same acts*)..... 700.00 | | |
| Messenger (increase of $100 submitted) (*same acts*)..... 600.00 | | |
| Inspector, mounted (increase of $60 submitted) (*same acts*)..... 300.00 | | |
| NOTE.—See note below. | | |
| Fifty-five captains, lieutenants, sergeants, and privates, mounted, at $300 each (increase of $60 each submitted) (*same acts*)..... 16,500.00 | | |
| NOTE.—It is required that mounted members of the force own their own horses, which must be acceptable to the department upon inspection. This imposes an expense on the officers which does not maintain in other municipalities where a mounted service is required. Not only is the investment to be considered, but the possible loss of a horse at any time through injury or disease. The high cost of maintenance and amount of investment has stopped requests for this duty and there is no law under which members of the force can be required to invest their earnings in horses for this service.<br>The period it at hand when a change will have to be made in the method of securing mounted members of the force.<br>Existing appropriation provides extra compensation for care and forage of horses for those who are capable and can afford to purchase their own mounts, but the increased cost of animals and the advanced price of forage make such appointments undesirable on the part of members of the force. The salaries of the men will not enable them to buy horses, and the keep allowance will not encourage maintenance by them. This condition will necessitate the District providing mounts and feeding, shoeing, and otherwise caring for same within a short time or result in the abandonment of this necessary adjunct.<br>The necessity for a mounted force is that all parades must be flanked by it; it must be present at all large gatherings, and the extensive beats in the suburban sections, involving many square miles, must be crossed and recrossed by these men. While a horse may cost more and be worth more than the assessed value, that value is used in making the following estimate of cost and maintenance: | | |
| Horse..... $150.00<br>Forage..... 14.00<br>Shoeing..... 2.50<br>Rent of stable..... 5.00 | | |
| Sixty-four lieutenants, sergeants, and privates, mounted on bicycles, at $50 each (*same acts*).. 3,200.00 | | |
| Eighteen drivers, at $720 each (*same acts*)..... 12,960.00 | | |
| Six police matrons, at $600 each, to possess police power of arrest (3 additional submitted), (*same acts*)..... 3,600.00 | | |
| NOTE.—An estimate is made for an increase in the number of matrons; these to be assigned to the sixth police precinct, which, like the first police precinct, is located in the congested or business section of the city. These women are at times called upon to perform a duty in connection with the detection of crime, and it might be well to confer upon them the power of police officers, to the end that if called upon to make an arrest they would be secure, as are members of the force. | | |
| To aid in the support of the National Bureau of Criminal Identification, to be expended under the direction of the Commissioners of the District of Columbia, provided the several departments of the General Government may be entitled to like information from time to time as is accorded the police departments of various municipalities privileged to membership therein (increase of $800 submitted) (*same acts*)..... 1,000.00 | | |
| Total..... $944,796.53 | | |
| Miscellaneous: | | |
| Fuel (*same acts*)..... 4,000.00 | | |
| Repairs and improvements to police stations and grounds (increase of $1,500 submitted) (*same acts*)..... 7,000.00 | | |
| NOTE.—An increase is recommended in the above item in order that the antiquated plumbing in some of the stations may be replaced. | | |
| For miscellaneous and contingent expenses, including the purchase of new wagons, rewards for fugitives, modern revolvers, maintenance of card system, stationery, city directories, books of reference, periodicals, telegraphing, telephoning, photographs, printing, binding, gas, ice, washing, meals for prisoners, furniture and repairs thereto, beds and bed clothing, insignia of office, purchase of horses, horse and vehicle for superintendent, bicycles, motor- | | |

| *Metropolitan Police*—Continued. | | |
| Miscellaneous—Continued. | | |
| cycles, police equipments and repairs to the same, harness, forage, repairs to vehicles, van, patrol wagons, motor patrol, and saddles, mounted equipments, and the expenses incurred in the prevention and detection of crime, and other necessary expenses (increase of $5,500 submitted) (*acts June 8, 1906, vol. 34, p. 221, sec. 1; Mar. 4, 1913, vol. 37, p. 959, sec. 1* ..... | $35,000.00 | |
| Of which amount a sum not exceeding $500 may be expended by the major and superintendent of police for the prevention and detection of crime, under his certificate, approved by the Commissioners of the District of Columbia, and every such certificate shall be deemed a sufficient voucher for the sum therein expressed to have been expended: *Provided*, That the War Department may, in its discretion, furnish the District Commissioners for the use of the police, upon requisition, such worn mounted equipment as may be required. | | |
| NOTE.—A change has been made in the above list of items by adding books of reference, in order that the department may be provided with such when required, and have also increased the amount to $35,000. All the expenses incident to the conduct of the department have increased during the last several years, and $35,000 will be a fair estimate of the amount required during the ensuing year. | | |
| Flags and halyards (*submitted*)..... | 100.00 | |
| NOTE.—No appropriation was made at the last session of Congress for this item, and if flags are to be maintained on the several station houses, it will be necessary to make the appropriation asked for. In this connection it might be added that there are 13 post and 25 storm flags on hand at the present time. | | |
| For maintenance of motor vehicles, or so much thereof as may be necessary (increase of $2,500 submitted) (*act Mar. 4, 1913, vol. 37, p. 959, sec. 1*)..... | 5,000.00 | |
| NOTE.—It is necessary that this item be increased in order to maintain the 6 motor patrol wagons which are in the service. | | |
| For the reconstruction of cell corridors and the making, erecting, and placing therein in the second, third, seventh, and ninth precinct station houses, 8 modern locking devices (*submitted*)..... | 18,080.00 | |
| NOTE.—For several years the department has called attention to the necessity of modernising the cell corridors and cell rooms of the police stations. Lack of ventilation, light, and modern accommodations is not characteristic of the station-house provisions of a well-regulated city. There are times when prisoners must be confined in these cells in numbers, which adds a severe penalty to the restraint. In the heated season of the year it is especially oppressive. Those interested in reforms in the treatment of the unfortunate, many of whom are held for trivial offenses, would hasten to condemn the facilities afforded here. The department long since entered its protest against the maintenance of antiquated quarters for prisoners in several of the stations, and urgently renews its recommendations for the enlargement of the window spaces and the erection of up-to-date steel cages together with the latest sewer connection and safety appliances. This has already been done in the first, fourth, sixth, and eighth precinct station houses. | | |
| One motor vehicle for the use of the Detective Bureau, or so much thereof as may be necessary (*submitted*)..... | 2,500.00 | |
| Total, miscellaneous ..... | $71,680 | |
| NOTE.—It is contemplated that this machine be kept at police headquarters in order to make hurry responses to calls made for detectives when their services are required, which is many times a day. The reasonableness for having an expeditious service in this connection is apparent. As to the value of these machines, it may be stated that the patrol wagon at the second police precinct station has been used in overtaking and arresting persons guilty of having committed crimes, and the department has been compelled on occasions to hire automobiles in pursuing criminals in the outlying sections and in near-by jurisdictions. | | |
| House of Detention: To enable the Commissioners of the District of Columbia to provide transportation, including the purchase and maintenance of necessary horses, wagons, and harness, and a suitable place for the reception, transportation, and detention of children under seventeen years of age, and, in the discretion of the commissioners, of girls and women over seventeen years of age, arrested by the police on charge of offense against any law in force in the District of Columbia, or held as witnesses, or held pending final investigation or examination, or otherwise, as follows: | | |
| Three clerks at $900 each (1 additional submitted) (*acts July 1, 1902, vol. 32, p. 607, sec. 1; Mar. 4, 1913, vol. 37, pp. 959, 960, sec. 1*)..... | 2,700.00 | |
| NOTE.—There are now but two clerks employed at the House of Detention, and in order that the work may be divided into reliefs of eight hours each, it is recommended that an additional clerk at $900 per annum be provided. | | |
| Four drivers, at $600 each (*same acts*)..... | 2,400.00 | |
| Hostler (*same acts*)..... | 600.00 | |
| Six guards, at $600 each (*same acts*)..... | 3,600.00 | |
| Three matrons, at $600 each, to possess police powers of arrest (*same acts*)..... | 1,800.00 | |
| NOTE.—A change is made in this item by adding that these matrons should possess police powers of arrest. The necessity for this change is explained under the estimate for matrons in the police department. | | |
| Miscellaneous expenses, including rent, forage, fuel, gas, horseshoeing, ice, laundry, meals, horses, wagons and harness and repairs to same, and other necessary expenses (*same acts*). | 3,440.00 | |
| Total, house of detention..... | $14,540 | |

| Deputy chief engineer (*same acts*) | 2,500.00 | | |
| Four battalion chief engineers, at $2,000 each (1 additional submitted) (*same acts*) | 8,000.00 | | |
| NOTE.—The additional battalion chief is intended to cover the large territory included in Mount Pleasant, Brightwood, Petworth, Cleveland Park, Takoma Park, Chevy Chase, Tenleytown, Lanier Heights, and Washington Heights, which have grown so rapidly in recent years. This territory is now divided between two battalion chiefs who should not be required to respond to alarms outside of the downtown and business sections of the city. At present they are often required to respond to fires more than 5 miles from their quarters, and, as the result of the time consumed in reaching the scene, are seldom, if ever, able to properly supervise and direct the work of the firemen. | | | |
| Fire marshal (*same acts*) | 2,000.00 | | |
| Deputy fire marshal (*same acts*) | 1,400.00 | | |
| Two inspectors, at $1,080 (*same acts*) | 2,160.00 | | |
| Chief clerk (*same acts*) | 1,800.00 | | |
| Clerk (*same acts*) | 1,200.00 | | |
| Thirty-seven captains, at $1,400 each (*same acts*) | 51,800.00 | | |
| Thirty-nine lieutenants, at $1,200 each (*same acts*) | 46,800.00 | | |
| Second deputy chief and superintendent of machinery (change of title) (*same acts*) | 2,000.00 | | |
| NOTE.—Change in title from "superintendent of machinery." The present incumbent has been in the service for 27 years and his sphere of responsibility covers the entire apparatus of the fire department, the gross value of which is $374,994, and in connection with the proper use of which it is frequently necessary for him to instruct officers and members of the department, among whom are found those who consider themselves his superior in rank.<br>His expert knowledge, including that of the latest motor-propelled fire apparatus, makes him an efficient inspector of all apparatus purchased for the department, upon the specifications for which he is one of the expert consultants of the board of commissioners.<br>With the erection of the repair shop provided by the last Congress the duties and responsibilities of the superintendent of machinery will be greatly increased, as it is proposed by the commissioners to have all work on motor vehicles and apparatus as well as horse-drawn vehicles and apparatus of the fire department, done in this shop. | | | |
| Assistant superintendent of machinery who shall rank as captain (increase of $200 submitted) (*same acts*) | 1,400.00 | | |
| NOTE.—An increase of $200 in salary and a designation of rank. The duties and responsibilities of the assistant superintendent of machinery increase in proportion to the increase in the duties and responsibilities of the superintendent.<br>Explanation of the desirability of the changes recommended is clearly set forth in the foregoing paragraphs relative to the superintendent of machinery.<br>The assistant superintendent of machinery has been in the service 9 years. | | | |
| Mechanician who shall have had not less than five years' experience in the actual building and repair of motor vehicles (*submitted*) | 1,400.00 | | |
| Five machinists, at $1,200 each (*submitted*) | 6,000.00 | | |
| Electrician (*submitted*) | 1,200.00 | | |
| Boiler maker and blacksmith (*submitted*) | 1,200.00 | | |
| Coppersmith (*submitted*) | 1,200.00 | | |
| Coach painter (*submitted*) | 1,100.00 | | |
| Wood worker (*submitted*) | 1,100.00 | | |
| Two machinists' helpers, at $900 each (*submitted*) | 1,800.00 | | |
| Two skilled laborers, at $600 each (*submitted*) | 1,200.00 | | |
| Clerk (*submitted*) | 1,000.00 | | |
| NOTE.—The fire department repair shop provided by the last Congress will shortly be built and it is the intention of the commissioners to have all repairs to fire department apparatus and appliances made therein instead of having a portion of such work done in outside shops as has been necessary heretofore, with increased cost and loss of time to the District of Columbia. The saving in cost and time to be effected by this arrangement is shown in the appended table. | | | |

*Estimates of appropriations required for the service of the fiscal year ending June 30, 1915*—Continued.

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |
|---|---|---|
| *Fire Department*—Continued. | | |
| Miscellaneous: | | |
| For repairs and improvements to engine houses and grounds (increase of $1,000 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; June 20, 1906, vol. 34, pp. 314, 315, secs. 1–7; Mar. 4, 1913, vol. 37, p. 960, sec. 1*) | $17,000.00 | |
| NOTE.—It is estimated that $12,000 will be needed to make the necessary repairs on the 37 buildings of the fire department. In several of these buildings improvements in plumbing are needed, and in others improvements in the heating, and especially in the ventilation. An additional sum of $5,000 is needed for special repairs, or, more properly for improvements in several of the older houses which have depreciated rapidly and can not be made to accommodate modern apparatus with the small amount allowed for ordinary repairs. Such repairs are needed at No. 5 engine house, on M Street near Thirty-second Street; at No 17, in Brookland; at Truck No. 3, at Fourteenth and Ohio Avenue, and for grading and drainage at No. 2 chemical, on Pennsylvania Avenue and Twenty-eighth Place SE. | | |
| For repairs to apparatus and motor vehicles and other motor-driven apparatus, and for new apparatus, new motor vehicles, and new appliances (increase of $1,000 submitted) (*same acts*) | 15,000.00 | |
| NOTE.—The amount estimated will be required to keep the different engines, trucks, wagons, etc., in proper condition, and to purchase new apparatus and appliances when needed. Each year the number of pieces of apparatus to be kept in condition has increased, without an appropriate increase in the appropriation. | | |
| For purchase of hose (*same acts*) | 15,000.00 | |
| For fuel (*same acts*) | 15,000.00 | |
| For purchase of horses (*same acts*) | 12,750.00 | |
| For forage (increase of $10,896 submitted) (*same acts*) | 43,146.00 | |
| NOTE.—The daily allotment of forage for each fire-department horse, and the cost thereof, is as follows: | | |
| Oats, 15 pounds — Cost. $0.25 | | |
| Straw, 5 pounds — .06 | | |
| Hay, 15 pounds — .18 | | |
| For corn, bran, meal, and flaxseed — .02 | | |
| Cost per horse per day — .51 | | |
| Cost per horse per month — 15.30 | | |
| The number of horses which will be required for the operation of the fire department during the fiscal year 1915 is estimated at 235, a reduction of 15 from the present number. There might have been a still further reduction in the number of horses but for the length of time required to obtain the motor apparatus appropriated for by the last appropriation act. Therefore the amount required for forage will be $43,146, basing the estimates on the prices paid at this time. | | |
| For repairs and improvements of the fire boat (*same acts*) | 800.00 | |
| For contingent expenses, horseshoeing, furniture, fixtures, oil, medical and stable supplies, harness, blacksmithing, gas and electric lighting, flags and halyards, and other necessary items (increase of $1,000 submitted) (*same acts*) | 27,000.00 | |
| NOTE.—This increase is asked in order to permit the proper maintenance of fire-department houses. | | |
| For regrading and paving driveways and approaches to engine houses and other buildings of the fire department (*submitted*) | 5,000.00 | |
| NOTE.—The fire department has submitted a list of 17 buildings where the driveways and approaches are on too great an incline for the proper handling of apparatus in leaving and entering the buildings; in some cases the drop at the curbs or gutters is too abrupt and is liable to cause damage to the engines and other heavy vehicles used by this department. As these driveways are upon public space, outside of the buildings, and are a portion of the sidewalks and parking, these improvements can not properly be made from the repair appropriations for the buildings themselves. | | |
| Total, miscellaneous | $150,696 | |
| Permanent improvements, fire department: | | |
| For house, site, furniture, and furnishings for an engine company to relieve No. 20 engine company, Tenley, D. C., including the cost of necessary instruments for receiving alarms and connecting said house with fire-alarm headquarters (*submitted*) | 40,500.00 | |
| NOTE.—No. 20 engine company, Tenley, D. C., which is relied upon to furnish fire protection for the suburbs of Chevy Chase, Tenley, and Cleveland Park, now has to depend for assistance upon No. 5 engine company, located at Thirty-second and M Streets NW., Georgetown, D. C., over 3 miles away. The location for this proposed new engine house has been selected with great care and due consideration from a strategical standpoint, and this company, if provided for, will be in a position not only to reenforce No. 20 engine company but also to render great assistance to No. 5 engine company in the northwest section of the city. | | |
| For new house, furniture, and furnishings for No. 1 engine company, K Street, between Sixteenth and Seventeenth Streets NW., including cost of necessary instruments for receiving alarms and connecting said house with fire-alarm headquarters (*submitted*) | 33,000.00 | |
| NOTE.—This house was built in 1867 and has deteriorated to such an extent that it would be practically a waste of money to undertake its substantial alteration and repair. A new house for this company is urgently needed. At the time this house was constructed the apparatus was of an entirely different type and much smaller than it is to-day. It has been necessary in recent years to construct stalls for horses in the sitting room and in the rear part of the building, rendering it uncomfortable and insanitary. The dormitory is too small for the accommodation of the men, and they have no space for the storage or proper care of their materials and hose. The building is so crowded in the rear that proper arrangements can not be made for the manure and bedding. The house is located in a residential neighborhood where the private buildings are of great value, and a new house would comport with the neighboring improvements. | | |

| Fire engine, motor driven (see note below) (*submitted*) | $10,000.00 | | |
| Combination chemical engine and hose wagon, motor driven (*submitted*) | 6,000.00 | | |
| NOTE.—This motor apparatus is desired to replace the horse-drawn steam fire engine and the horse-drawn hose wagon now in service at the No. 20 engine company, Tenleytown, D. C. The present horse-drawn engine and horse-drawn hose wagon in service in this company will be placed in service at No. 3 chemical company, Langdon, D. C., which is to be converted into a steam fire-engine company and designated No. 26 engine company. | | | |

| For combination chemical and hose wagon (*submitted*) | 6,000.00 | | |
| | | $827,416.00 | $734,320.00 |
| NOTE.—Under this appropriation it is proposed to purchase one motor-propelled combination chemical and hose wagon to replace one of the present horse-drawn hose wagons in the engine companies which are to have motor-propelled steam fire engines. The horse-drawn wagon so replaced will be transferred to another company to replace old-style hose carriage now in use. | | | |

| *Health Department*— | | | |
| Health officer (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 961, sec. 1*) | 4,000.00 | | |

| Chief clerk and deputy health officer (*same acts*) | 2,500.00 | | |
| Three clerks, at $1,400 each (increase of $200 each for 2) (see note after next item) (*same acts*) | 4,200.00 | | |
| Three clerks, at $1,200 each (decrease of 2) (*same acts*) | 3,600.00 | | |
| NOTE.—By providing 2 additional clerkships, at $1,400, two $1,200 clerks can be promoted to the $1,400 grade, and this will permit the reduction of the clerkships of the $1,200 grade from 5 to 3.<br>The clerks whom it is desired to promote from the $1,200 grade to the $1,400 grade are: (1) Clerk in charge of the records of deaths and births and the compilation and the analyses of vital statistics. The present incumbent was appointed Dec. 19, 1903, and is a graduate of the medical department of Columbian University. (2) The senior stenographer in the service of the health department, who acts as secretary to the health officer as occasion requires. The present incumbent was first appointed July 2, 1906. With the normal increase in the population of the District and with the growth of the health department, the work of both of these clerks has increased in volume and complexity. | | | |
| Five clerks, at $1,000 each (1 additional submitted) (*same acts*) | 5,000.00 | | |
| NOTE.—The proposed increase in the number of clerks in the $1,000 grade from 4 to 5 is for the purpose of releasing from clerical duty a food inspector now detailed to assist the chief food inspector in the clerical work incident to that position. The ultimate result of the increase in the clerical force would be, therefore, increased efficiency in the food-inspection service. | | | |

| Sanitary inspector (increase of $200 submitted) (see note after next item) (*same acts*) | 1,400.00 | | |
| Seven sanitary inspectors, at $1,200 each (decrease of 1) (*same acts*) | 8,400.00 | | |
| NOTE.—The establishment of a sanitary inspectorship at $1,400 will permit the promotion of 1 sanitary inspector of the $1,200 grade and will justify the reduction from 8 to 7 in the number of sanitary inspectors at $1,200. An outlook into the future, in which appears no reasonable likelihood of any increase in salary as a reward for increased efficiency, is not likely to stimulate or to maintain the interest of an employee so situated. For that reason it is recommended that provision be made for increasing the salary of one of the sanitary inspectors from $1,200 to $1,400.<br>The incumbent whose salary it is desired to increase if this recommendation be favorably acted upon was first appointed May 1, 1899. He is a graduate of the Sprague Law College and is a member of the bars of Maryland and the District of Columbia. While his work is ordinarily that of a sanitary inspector, his familiarity with law and the records of the courts enables him expeditiously to determine many matters pertaining to the ownership of property that otherwise would have to be referred to the corporation counsel's office, with a consequent increase in the work of that office and resultant delay, and as a consequence he is called upon to do such work as occasion requires. He acts as chief sanitary inspector in the absence of that officer. Both the examining of titles and the assumption of the duties of the chief sanitary inspector are in addition to the duties performed by the incumbent when first appointed to his present grade. | | | |
| Four sanitary inspectors, at $1,000 each (2 additional submitted) (see note after next item) (*same acts*) | 4,000.00 | | |
| Four sanitary inspectors, at $900 each (2 additional submitted) (*same acts*) | 3,600.00 | | |
| NOTE.—The increase recommended in the number of sanitary inspectors of the $1,000 grade, from 2 to 4, and in the number of sanitary inspectors of the $900 grade, from 2 to 4, is for the purpose of enabling the health department to establish and maintain something in the nature of a house-to-house inspection service, so that objectionable conditions may be discovered and remedied without waiting for them to become so bad as to give rise to complaint, as is now to a very great extent the case. A statement of the work done by the sanitary-inspection service which includes the smoke-inspection service, during the fiscal year 1913, appears below. | | | |

| NOTE.—The technical knowledge required to discharge satisfactorily the duties of this office, the amount of work incident to it, and the responsibility, all combine to favor the proposed increase in salary. The present incumbent was first appointed July 1, 1900, as an inspector of dairies and dairy farms, and having served satisfactorily in that position was induced to accept, on April 29, 1911, the position of assistant chief inspector with the same salary he now receives. Designation of the office was changed to "chief food inspector" by the appropriation act of June 26, 1912. The incumbent is a graduate of the veterinary department of the University of Pennsylvania. The work incident to this position is increasing in volume and in difficulty all the time, owing to changes in the number, identity, and distribution of the places from which the food supply of the city comes, and a better understanding of the supervision and control of the food supply of the community. | | | |
| Two food inspectors, at $1,400 each (increase of $200 each submitted) (*same acts*) | | 2,800.00 | |
| NOTE.—It is desired to increase the salary of 2 food inspectors from $1,200 to $1,400. In view of their long and efficient service, it is believed that they are entitled to substantial increases in compensation. One was first appointed July 18, 1898, and is a graduate of the veterinary department of the University of Pennsylvania. The other was first appointed Apr. 2, 1901, and is a graduate of the veterinary department of Columbian University. The work of both of these inspectors, inspecting dairy farms and live stock intended for slaughter, requires the special knowledge acquired by veterinary surgeons. | | | |
| Six food inspectors, at $1,200 each (increase of $200 each for 3) (*same acts*) | | 7,200.00 | |
| NOTE.—By increasing 2 food inspectorships from $1,200 to $1,400, 2 inspectors of the $1,200 class can be promoted, and 3 of the existing inspectorships of the $1,200 class will remain. As it is desired, however, to raise 3 of the inspectorships of the $1,000 class to the $1,200 class, it is recommended in this item that the number of inspectorships of the $1,200 class be 6. Three food inspectors of the $1,000 grade can then be promoted to the $1,200 grade. The inspectors whose salaries it is desired to increase are engaged in the inspection of dairy farms, and the reasons for increasing them are identical with those set forth above recommending increases in the salaries of 2 other veterinary inspectors of the food-inspection group. Of the inspectors whose salaries it is desired to increase from $1,000 to $1,200, 2 are graduates of Toronto Veterinary College and were first appointed July 1, 1901, and Oct. 25, 1910, respectively, and 1 is a graduate of the National Veterinary College and was first appointed Aug. 8, 1902. | | | |
| Six food inspectors, at $1,000 each (increase of $100 each for 3) (*same acts*) | | 6,000.00 | |
| NOTE.—By raising 3 food inspectorships from the $1,000 class to the $1,200 class, 3 inspectors of the $1,000 class can be promoted to $1,200, and 3 of the existing inspectorships of the $1,000 class will remain. It is desired to raise 3 inspectorships from the $900 class to the $1,000 class, and it is therefore recommended that the number of inspectors of the $1,000 class remain 6. | | | |
| Three food inspectors, at $900 each (decrease of 2 submitted) (*same acts*) | | 2,700.00 | |
| NOTE.—By increasing 3 food inspectorships from $900 to $1,000, 3 inspectors of the $900 class can be promoted and 2 of the existing inspectorships at $900 will remain. It is desired, however, to increase the food-inspection force by 1 inspector so as to permit of better inspection of lunch rooms, grocery stores, markets, and like places, and for that reason 3 inspectorships of the $900 class are recommended.<br>NOTE.—The net result of the changes recommended in the 4 items immediately preceding this note will be the increase of 2 inspectorships from $1,200 to $1,400; of 3 inspectorships from $1,000 to $1,200; of 3 inspectorships from $900 to $1,000, and the providing of 1 additional inspector in the food-inspection service at $900.<br>Attention is invited, however, to the fact that if 1 additional clerk be provided as heretofore recommended, this will release for field duty a food inspector now detailed to assist the chief food inspector in the clerical work pertaining to the food-inspection service. The net result of these recommendations in addition to the increases in salary will be the assignment of 1 additional inspector to the inspection of lunch rooms, grocery stores, markets, and like places, and 1 additional inspector to the inspection of dairy farms.<br>The following statement shows the work done by the food-inspection service during the fiscal year 1913, exclusive of the food work done in the chemical and bacteriological laboratories, which appears on following page. | | | |

Dairy Farm inspection:
- Farms inspected ..... 1,108
- Inspections ..... 4,409

Food inspections; markets, stores, bakeries, lunch rooms, etc.:
- Inspected ..... 4,468
- Inspections ..... 29,855

Chemist (increase of $600 submitted) (*acts, June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 961, sec. 1*) ..... $2,400.00

NOTE.—The incumbent was first appointed in the service of the health department Nov. 12, 1898, and became chemist Feb. 17, 1905. He is a graduate of the National College of Pharmacy and of the medical department of Columbian University. The technical character of the work he is called upon to do and the responsibility incident to it are ample to justify the proposed increase in salary. There has been a large increase in the work of the chemist since the incumbent first assumed the office, due to the growth of the population of the District and to the better enforcement of laws relating to the sale of foods and drugs.

Assistant chemist (increase of $200 submitted) (*same acts*) ..... 1,400.00

NOTE.—The technical character of the work that the assistant chemist is called upon to perform and the ability with which he performs it both entitle him to the increase recommended. The present incumbent is a graduate of the National College of Pharmacy and has the degree of bachelor of science in chemistry from the George Washington University. His appointment in the service of the health department dates from Jan. 15, 1909 and in his presen grade from Dec. 22, 1909.

Skilled laborer (*submitted*) ..... 720.00

NOTE.—The one skilled laborer now provided devotes his entire time necessarily to the bacteriological laboratory. In the interest of economy and efficiency, a similar laborer should be provided for the chemical laboratory. Employees of this kind relieve the higher salaried employees of much drudgery, in the way of cleaning, etc., and thus enable the laboratory to accomplish much more work than is possible otherwise. In order, however, to give the widest practicable range to the work of the skilled laborer, he should be paid a wage sufficient to insure an amount of intelligence greater than that possessed by the ordinary laborer, and for that reason a salary of $720 is recommended.

The following statement shows the work done in the chemical laboratory during the fiscal year 1913:

Statement showing the amount of work done in the chemical laboratory during the fiscal year ending June 30, 1913:
- Samples analyzed ..... 8,675
- Samples of food ..... 8,262
- Samples of water ..... 265
- Samples of miscellaneous ..... 148

NOTE.—The bacteriologist is paid from the lump appropriation for the contagious-disease service. See estimate for that service.

Assistant bacteriologist (increase of $200 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 961, sec. 1*) ..... 1,400.00

NOTE.—The incumbent was first appointed Dec. 22, 1909, and was appointed to his present grade July 8, 1912. He is a graduate of the National College of Pharmacy, and to the knowledge he originally possessed as a graduate pharmacist, he has added a knowledge of bacteriology to fit himself better to do his work. For this reason he is entitled, it is believed, to an increase in his compensation.

Assistant bacteriologist (*submitted*) ..... 1,200.00

NOTE.—With a view to the enlargement of the work of the bacteriological laboratory both in the quantity and variety of the work done and particularly with a view to conducting a thorough sanitary survey of the water supplies of all dairy farms, an additional assistant should be provided. For the amount stated it will not be possible to procure a trained bacteriologist, but probably some one can be obtained susceptible of being trained.

Skilled laborer (increase of $120 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 961, sec. 1*) ..... 720.00

NOTE.—The value of a laborer in the bacteriological laboratory increases rapidly with any increase in his skill. For the present salary it is impossible to obtain a laborer with even a fair degree of skill or to retain such a skilled laborer as can be induced to enter the service. For these reasons an increase in the salary is recommended.

The following statement shows the work done in the bacteriological laboratory during the calendar year 1912:

| NOTE.—The one messenger now available serves the entire health department, and in the discharge of his duties is frequently out of the office rooms occupied by the department. Under such circumstances, the duty of answering telephone calls, directing callers to the particular employee whom they desire to see, carrying messages, etc., devolves upon other employees of the department, from the health officer down. And notwithstanding the effort that is made to supplement the work of the present messenger by the services of the driver whenever he is not in the field, the result is a serious inroad upon the time and energy of officers and employees who can not economically do messenger duty, as it diminishes the amount of the more valuable work they are able to do. | | |
| Driver (*same acts*) ..... 600.00 | | |
| Poundmaster (*same acts*) ..... 1,200.00 | | |
| Assistant poundmaster (*submitted*) ..... 900.00 | | |
| NOTE.—The operations of the pound service are conducted in part at the pound and in part on the streets. It is important that a responsible representative of the service be in both places at all times, and yet with the present force this is impossible. Moreover, it is essential that a legally authorized substitute be provided to act in place of the poundmaster when the poundmaster is absent.<br>Formerly a police officer, physically incapacitated for police duty, was assigned to assist at the pound during the period of incapacity, but of recent years that assistance has been denied. And in view of the reduction of the number of laborers available for the pound work and the reduction of their wages, as is more fully set forth in the next succeeding item, the pound service is becoming less and less effectively equipped for the ever-increasing work that it has to perform. For the reasons stated, it is recommended that an assistant poundmaster be provided. | | |
| Laborers, at not exceeding $50 per month each (increase of $1,600 submitted) (*acts June 11, 1878, vol. 20, p. 104, sec. 3; Mar. 4, 1913, vol. 37, p. 961, sec. 1*) ..... 3,600.00 | | |
| NOTE.—For the fiscal year ended June 30, 1912, $3,000 was appropriated for the employment of laborers in the pound service. This permitted the employment of five laborers, at $50 per month each. The reduction of this appropriation to $2,000 in 1913 necessitated the reduction of the number of laborers to four, and the reduction of the salary of each to $500. The laborers so employed are, therefore, not receiving a wage sufficient for the proper maintenance of themselves and of their families, and the number of laborers is not sufficient for the proper execution of the work of the pound service.<br>Under direction of the poundmaster, the four laborers provided have to care for the pound and its equipment, keeping the pound open from 7 o'clock a. m. to 5 o'clock p. m. every working day and from 8 o'clock a. m. to 4 o'clock p. m. on Sundays and legal holidays. Every working day they impound dogs and other animals running at large and call for dogs and cats whose custodians desire to surrender them. They have to be prepared to go upon call immediately, as nearly as is possible, for dogs and other animals whose custodians report them as possibly suffering from hydrophobia. Moreover, the recently added duty of impounding all cats found running at large, and of collecting, upon request of the custodians thereof, all offered for surrender, has added work to the pound service that should be compensated by an increase in the working force. And, in view of the considerable number of horses and of the valuable equipment that are in the pound and stable, one laborer should be at the pound all night; but with the present working force this is impossible. It is quite apparent, therefore, that four laborers is not sufficient to render the public effective service. | | |

| For the enforcement of the provisions of an act to prevent the spread of contagious diseases in the District of Columbia, approved Mar. 3, 1897, and an act for the prevention of scarlet fever, diphtheria, measles, whooping cough, chickenpox, epidemic cerebro-spinal meningitis, and typhoid fever in the District of Columbia, approved Feb. 9, 1907, and an act to provide for registration of all cases of tuberculosis in the District of Columbia, for free examination of sputum in suspected cases, and for preventing the spread of tuberculosis in said District, approved May 13, 1908, under the direction of the health officer of said District, and for the prevention of other communicable diseases, including salaries or compensation for personal services, when ordered in writing by the commissioners and necessary for the enforcement and execution of said acts, and for the prevention of such other communicable diseases as hereinbefore provided, purchase and maintenance of necessary horses, wagons, and harness, purchase of reference books and medical journals, and maintenance of quarantine station and smallpox hospital (increase of $6,000 submitted) (*acts Mar. 3, 1897, vol. 29, p. 635, secs. 1–32; Feb. 9, 1907, vol. 34, p. 889, secs. 1–5; May 13, 1908, vol. 35, p. 126, secs. 1–10; Mar. 4, 1913, vol. 37, p. 961, sec. 1*) ..... 30,000.00 | | |
| *Provided*, That any bacteriologist employed under this appropriation shall not be paid more than $10 per day, and may be assigned by the health officer to the bacteriological examination of milk and other dairy products and of the water supplies of dairy farms, and to such other sanitary work as in the judgment of the health officer will promote the public health, whether such examinations be or be not directly related to contagious diseases. | | |
| NOTE.—The limit upon the amount that may be expended for personal services should be omitted. The purpose of this appropriation is to prevent communicable diseases. The very foundation of such work is personal service. How much personal service will be required depends upon the extent to which contagious diseases prevail, and upon the nature of the prevalent diseases. A nucleus of an organization must, however, be maintained, at all times, sufficient to cope with ordinary conditions and ready to expand in case of emergency. The nucleus as organized at present is as follows: | | |
| Per diem.<br>Inspector in charge ..... $4.50<br>Inspector ..... 4.00<br>Bacteriologist ..... 6.00<br>Driver, contagious-disease ambulance ..... 2.00<br>Janitor, quarantine station ..... 2.00<br>Janitor, smallpox hospital ..... 2.00<br>Stableman ..... .75<br>21.25 | | |
| The work of each of the employees designated above, with the exception of the inspector, continues daily, including Sundays and legal holidays, throughout the entire year. The work of the inspector continues about 310 days. | | |

| General object (title of appropriation), date of acts, references to Statutes at Large, or to Revised Statutes, and estimated amount required for each detailed object. | Total amount to be appropriated under each head of appropriation. | Amount appropriated for the fiscal year ending June 30, 1914. |

*Health Department*—Continued.

The net annual cost of maintaining a nucleus for a contagious-disease corps is $7,536.25, and upon this basis, and with a $12,000 limit upon expenditures for personal services, there remains of this appropriation but $4,463.75 for any emergency that may arise. In other words, no matter how prevalent scarlet fever, diphtheria, typhoid fever, and smallpox may be; no matter how urgent may be the need for supervision of tuberculous patients in their homes and places of employment; no matter what unusual diseases, like typhus fever, the plague, leprosy, yellow fever, Asiatic cholera, and infantile paralysis, may be brought into the District, $4,463.75 must cover the cost of such additional inspectors as may be necessary to see that the laws relating to such matters are complied with; of all such watchmen at the quarantine station, the smallpox hospital, and elsewhere, as may be necessary to see that violators of the law are arrested; of all such help as may be necessary to care for inmates of the smallpox hospital and the quarantine station—physicians, nurses, cooks, laundresses, and ward maids; and of such additional ambulance drivers as may be needed. And it must be borne in mind that it is not easy to find persons who are willing to accept temporary work in the contagious-disease service except at prices above those ordinarily paid for similar work elsewhere and under other conditions.

The limit upon the compensation that may be paid to any bacteriologist should be raised to, say, $10 per day or be removed. Competent bacteriologists are exceedingly difficult to obtain at almost any price. The demand for them is in excess of the supply, and men of this class who have been long in the employ of any one community, or other employees, seem exceedingly loath to enter the service of a new employer even at an increased salary.

The proposed increase in the amount of this appropriation is asked chiefly in order that a larger amount may be available for the enforcement of the law for the prevention of tuberculosis. Recent investigations have shown that persons suffering from this disease move from place to place without reporting that fact to the health department as is required by law, probably approximately 40 per cent of all cases in the register having disappeared beyond the possibility of discovery by the health department. Moreover, some patients suffering from this disease are careless in their habits and need the supervision and advice of a trained inspector in order to be held up to proper standards in methods of living with a view to the prevention of the spread of the disease. This work can not be undertaken on any sufficient scale with the money now available. Of course, if the limit upon the amount available for personal services be not removed, or at least very considerably raised, nothing will be gained by increasing the appropriation alone, since it is personal service rather than materials that is needed.

**For the cost of extending water mains to provide fire protection for the smallpox hospital (*submitted*)** ..... $1,800.00

NOTE.—In response to a request from the health officer, the chief engineer of the fire department reported upon the necessity for fire protection at the smallpox hospital. His report is as follows:

"* * * The smallpox hospital is a brick structure and located, in my opinion, about 400 feet east of the old almshouse. There are two 3-gallon fire extinguishers in the hospital proper and one in the dwelling, which I deem ample in case of emergency. There is no fire plug in the immediate vicinity of the hospital, but the nearest fire plug is about 400 feet from the building and located just on the inside of gate on drive leading direct to the hospital; the entrance to this drive is from Nineteenth Street, between the north end of old almshouse and the south end of jail; the two next nearest plugs, however, are some distance, and are located as follows:

"The plug on B Street, between Twenty-second and Twenty-third Streets, is about 1,000 feet distant, and the next nearest plug is opposite the female workhouse, to the south about 1,200 feet distant, owing to the distance of the last two plugs mentioned from the hospital.

"I recommend that the water main be extended from the nearest point, which I deem is the plug on inside grounds mentioned, to the north of old almshouse to a convenient point and a plug installed near the hospital, or whatever location that the officials of the water department deem best.

"There are also fire plugs located as follows: Nineteenth and C Streets SE., Nineteenth and D Streets SE., and Nineteenth and E Streets SE., but to use any of these plugs would require long leads of hose and in all probability the fire engines using the farthest plugs would be compelled to line in.

"I would further recommend that a small reel carrying from 200 to 400 feet of hose be procured for use at the crematorium and quarantine station, something that two men can handle, and the plug opposite the quarantine station could be used until the arrival of the fire department. If the water main to hospital is installed as recommended, then I would recommend a similar reel be procured for the use of hospital and buildings in the immediate vicinity."

The cost of laying the mains necessary to afford the protection recommended was reported by the superintendent of the water department as approximately $1,800.

The auditor having reported that the fire protection afforded by these proposed mains could not be regarded as a part of the maintenance of the institutions named, it is recommended that a special appropriation be made to provide such protection.

**For the construction and equipment of a stable for the smallpox hospital, on reservation 13, including necessary grading and roadways (*submitted*)** ..... 6,000.00

NOTE.—In time of outbreaks of smallpox it becomes necessary to operate an ambulance service from the smallpox hospital as a base. The stable now in use is an old frame building erected by the contractor who erected the smallpox hospital in 1896, practically as a gratuity. It has never been a suitable building for the purpose and is becoming more and more dilapidated every year. A suitable building should be erected without delay.

In this stable are housed two ambulances when the hospital is in active operation, and at other times one; one wagon for the transportation of infected bedding, etc., and one buggy for the transportation of the resident physician when called out to visit smallpox suspects. The number of horses accommodated varies from one to three, according to the demands of the service.

**For maintenance of the disinfecting service, including salaries or compensation for personal services when ordered in writing by the Commissioners and necessary for the maintenance of said service, and for purchase and maintenance of necessary horses, wagons, and harness (increase of $1,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 961, sec. 1*)** ..... 6,000.00

NOTE.—This fund, like that for the contagious-disease service, is to cover work that depends upon circumstances to a considerable extent beyond the control of the health department. Six thousand dollars was appropriated for the year 1913 and only with difficulty was the service maintained for that amount. For that reason it is believed to be unsafe to appropriate only $5,000 to cover such work for a similar 12-month period.

| NOTE.—This appropriation should be increased so as to provide for a reasonable amount for the connection of premises with the public sewer and water main and for the abatement of nuisances generally, in cases in which it is impossible—for instance, by reason of nonresidence—to compel the owners to do such work. One thousand five hundred dollars is not a sufficient amount, since the making of sewer and water connections for even a single house and lot may cost $200 and more. The money paid out for such work is recovered by assessment against the property on or from which the nuisance arises. The expenditure of this appropriation in so far as it relates to the drainage of lots is under the control of the inspector of plumbing, engineer department, and at the time of the writing of these estimates he has before him 16 premises awaiting connection with the public sewer under the assessment system.<br>While of course the work that has been done in past years has reduced the number of premises to be connected with the sewer in the older parts of the District, yet the extension of the sewer into the suburbs, a process that is going on continually, creates new calls for the making of connections. Moreover, this appropriation must be drawn upon for the abatement of nuisances of all kinds whatsoever, and with the increase of the population there is an increasing number of nuisances calling for action. | | |

| For maintaining and keeping chemical laboratory in good order and the purchase of chemicals, filter paper, absorbent cotton, gauze, etc., reference books and journals (*submitted*).. | $500.00 | |
| NOTE.—Such support as the chemical laboratory now receives comes from the appropriation, "For contingent expenses incident to the enforcement of an act to regulate the sale of milk in the District, etc.," $1,000 in all. Under it the chemical laboratory is barely able to exist and the other objects for which that appropriation is made suffer in like manner. It is believed that a specific appropriation should be made for the support of the laboratory. | | |
| For contingent expenses incident to the enforcement of an act to regulate the sale of milk in the District of Columbia, and for other purposes, approved Mar. 2, 1895; an act relating to the adulteration of foods and drugs in the District of Columbia, approved Feb. 17, 1898; an act to prevent the adulteration of candy in the District of Columbia, approved May 5, 1898; an act for preventing the manufacture, sale, or transportation of adulterated or misbranded or poisonous or deleterious foods, drugs, medicines, and liquors, and for regulating traffic therein, and for other purposes, approved June 30, 1906 (*acts Mar. 2, 1895, vol. 28, p. 709, secs. 1–15; Feb. 17, 1898, vol. 30, p. 246, secs. 1–10; May 5, 1898, vol. 30, p. 398, secs. 1–4; June 30, 1906, vol. 34, p. 768, secs. 1–13; Mar. 4, 1913, vol. 37, p. 962, sec. 1*)..... | 1,000.00 | |
| NOTE.—No increase is asked in this item, because if the items that have been submitted to cover the cost of the chemical laboratory be allowed, then this item will be relieved of the cost of the maintenance of that laboratory and will in effect be increased by that amount. The increase thus effected will be needed to care for increased activities in the food work of the department, notably in a more active control of the sale of ice cream and of drugs, and in an investigation of the water supply of dairy farms, with a view to its improvement.<br>If the appropriations that have been asked for the chemical laboratory be not allowed, then this item should be increased so as to provide a reasonable amount for the maintenance of that branch of the department. | | |
| For necessary expenses of inspection of dairy farms, including amounts that may be allowed the health officer, the assistant health officer, medical inspector in charge of contagious-disease service, and inspectors assigned to the inspection of dairy farms, for the maintenance by each of a horse and vehicle, or motor vehicle, for use in the discharge of his official duties, not to exceed $365 per annum, and allowances for such other inspectors in the service of the health department as the commissioners may determine, of not exceeding $100 per annum for the maintenance of a motor cycle each, or of not exceeding $25 per annum for the maintenance of a bicycle each, for use in the discharge of their official duties, and other necessary traveling expenses, or so much thereof as may be necessary (increase of $1,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 962, sec. 1*)..... | 7,000 | |
| NOTE.—It is impossible to maintain a horse and vehicle for the amount now authorized by the appropriation act, unless the person maintaining it does all the stable work himself, and even then the amount allowed would not cover depreciation. And a man doing his own stable work would hardly have the time or energy or be ordinarily presentable for the official duties of his position. A similar statement may be made with even more force with respect to the maintenance of motor vehicles. The recent reduction by Congress of the amount allowable for the maintenance of horses and vehicles and of motor vehicles has, in effect, therefore, been a reduction in the salary of every officer and employee to whom it related. It is urged that the amount allowable be increased to the amount formerly allowed, as recommended above, or else that in the health department, as in other branches of the District government service, the Government buy and maintain the horses, vehicles, and motor vehicles used and provide drivers and chauffeurs to the same extent and in like manner that it does so there.<br>The increase in the amount asked for under this item is not based upon the increase asked for in the allowance for horses and vehicles and of motor vehicles, but it is designed to cover the increased cost of traveling expenses and of maintaining a horse and vehicle that are necessary to permit any increased activity on the part of the department in the supervision of dairy farms. Such increased activity is contemplated through the appointment of an additional inspector of dairy farms, covered by these estimates, and particularly by the proposed examination of the water supply of such farms. In so far as typhoid fever is spread through milk, the water supply of the farm is supposed to play an important part. | | |
| Garfield and Providence Hospitals: | | |
| For isolating wards for minor contagious diseases at Garfield Memorial and Providence Hospitals, maintenance, $7,400 and $5,400, respectively, or so much thereof as in the opinion of the commissioners may be necessary, in all (increase of $2,800 submitted) (*same act*) ..... | 12,800 | |
| NOTE.—The amounts necessary for the maintenance of these wards vary with the prevalence of the diseases which the wards care for and for that reason can not be accurately foretold. Money appropriated for Garfield Memorial Hospital is now being expended under a contract providing for the payment of $4,000, in equal monthly installments, and $1 per day per patient, with a proviso that when $2,000 has been paid for the care and treatment of patients the hospital will thereafter, during the life of the contract, receive, care for, and treat, without further compensation, all patients sent to it. The District thus receives the benefit of any diminution in the prevalence of any of the communicable diseases such as are treated at Garfield Memorial Hospital, viz, scarlet fever, measles, whooping cough, chicken pox, mumps, erysipelas, and mixed infections. The money appropriated for the maintenance of the isolating ward at Providence Hospital, where diphtheria alone is treated, is paid in 12 equal monthly installments, on the certificate of the superintendent of the hospital that the amount so paid represents the necessary cost incurred pursuant to law in maintaining the isolating ward, as nearly as such cost can be ascertained, and that the moneys received from private patients treated in said ward were expended for the maintenance thereof.<br>The increase asked in the appropriations for these two institutions are those submitted by the authorities of said institutions, based upon their experience, but in order that the expenditure of these funds may be definitely under the control of the commissioners there has been inserted the phrase, "in the opinion of the commissioners," in the clause, limiting the use of the appropriation to "so much thereof as may be necessary." Probably, with an increased appropriation for Providence Hospital, the money appropriated can with advantage be expended under a contract similar to the one now in force with respect to Garfield Memorial Hospital. | | |

| For constructing more substantial foundations and for necessary repairs and improvements at the District crematory, on reservation No. 13 (*submitted*) | $2,000.00 | | |
| NOTE.—This appropriation is recommended for the purpose of preserving the building by substituting noncombustible materials in the foundations for the present construction, which is framework, and this method would be more economical than an expenditure from the repair allotment to patch or repair the present material. | | | |
| For maintenance, including personal services, of the public crematory (*act Mar. 4, 1913, vol. 37, p. 962, sec. 1*) | 2,000.00 | | |
| For treatment of ponds of stagnant water, for the creation or maintenance of which the District government is responsible, so as to prevent propagation of mosquitoes therein, including payment for personal services when necessary (*same act*) | 200.00 | | |
| For the purchase of one motor wagon for use in the pound service, at a cost not exceeding $1,500, and for the maintenance thereof, $400, in all (*submitted*) | 1,900.00 | | |
| NOTE.—The pound service now uses three wagons and three horses—one large wagon for the impounding of dogs, one smaller wagon for the collection of dogs and cats surrendered by the custodians thereof, and one small wagon or "business man's buggy" for the use of the poundmaster when he accompanies the poundmen on their trips or has occasion to go about the District on official business. It is believed that one motor wagon would render the service now performed by the impounding and collecting wagons, and would permit the field of operations to be covered more frequently and more effectually than is now possible. It would, moreover, perform much of the service now performed by the poundmaster's buggy, as the poundmaster could ride on the autowagon while supervising the work of his men, while he can not ride on the impounding wagon, for fear of overloading the horses.<br>Unless provision be made for the purchase and maintenance of this proposed motor vehicle for the pound service, then an item should be inserted authorizing the maintenance of an additional wagon in this service. | | | |
| One motor ambulance, for the transportation of patients suffering from minor contagious diseases, at a cost not exceeding $3,000, and for the maintenance thereof, $600, in all (*submitted*). | 3,600.00 | | |
| NOTE.—An ambulance is now operated in connection with the contagious disease service for the removal of patients suffering from minor contagious diseases to the wards provided for such cases. The distances it has to go are great, and sometimes it has to make several trips in rapid succession. It is necessary, therefore, to keep two horses for the work. One auto-ambulance would, it is believed, do this work more expeditiously and economically than the present horse-operated vehicle. | | | |
| One motor vehicle for the sanitary and food inspection service of the health department, at a cost not exceeding $800, and for the maintenance thereof, $400, in all (*submitted*) | 1,200.00 | | |
| NOTE.—For these services there are now maintained one light buggy and one Dayton wagon. The wagon is used daily for the collection of samples of food for analysis, chiefly milk. Its use is necessary for that purpose in order that a sufficient number of samples may be collected in the morning to keep the analysts busy for the day, and in order that such samples may be carried to the health office with the least possible delay. The buggy is used by the chief sanitary inspector and the chief food inspector, and by the entire inspection force, for the purpose of visiting places in the District beyond the reach of street cars, and in the case of the chief sanitary inspector and the chief food inspector when in the course of their supervisory duties they have to visit a number of more or less distantly separated places within a short time. Two horses are maintained for this service. One is a broken-down horse, discarded by some other department, the use of which probably costs in a year in the loss of time of driver and the occupant of the vehicle more than a sound horse would cost. One automobile would do all this work more rapidly and economically, efficiency and employees' time considered, than the two horses and vehicles now in use.<br>With respect to the economy and efficiency resulting from the use of motor vehicles, attention is invited to the statement of the chief of police of Detriot, Mich., printed on p. 158 of the House hearings on the District of Columbia appropriation bill for 1914. | | | |
| for the enforcement of the provisions of an act to cause the removal of weeds from lands in the city of Washington, D. C., and for other purposes, approved Mar. 1, 1899, as amended by an act to provide for the abatement of nuisances in the District of Columbia by the commissioners of said District of Columbia, and for other purposes, approved Apr. 14, 1906 (*submitted*) | 5,000.00 | | |
| NOTE.—The act for the removal of weeds should be generally enforced or it should be repealed. The most that is done now is to act on complaints received, and then only as the other work of the office will permit. The law can not be generally enforced unless a very considerable appropriation be made to pay for the services of necessary inspectors, for the cost of removing weeds from lands belonging to nonresidents, and for incidentals. The amount asked for above would, it is believed, be sufficient to pay for a fairly general enforcement of the law, although not to cover the cost of anything nearly approaching a literal enforcement. The estimate above is based upon the maintenance of a working force for 75 days during the summer months, as follows: | | | |
| | Per diem. | | |
| 1 inspector | $4 | | |
| 10 inspectors, each | 3 | | |
| 1 clerk | 3 | | |
| Total daily salary list, $37; estimated cost of services of inspectors and clerk, $2,775; estimated cost of incidentals and of the removal of weeds under the assessment system, $2,225: total, $5,000. | | | |
| For the completion of the pound and stable, including necessary equipment and paving (*submitted*) | 2,200.00 | | |
| | | $169,335.00 | $121,520.00 |
| NOTE.—This item contemplates the following work: | | | |
| Provide metal folding shutters for the wagon shed to protect the vehicles from the weather | $1,000 | | |
| Pave courtyard | 875 | | |
| Paint inside walls | 50 | | |
| Erect flagpole | 75 | | |
| Provide screens and awnings | 100 | | |
| Install fire hose | 100 | | |
| When the pound was erected the money available for that purpose did not permit anything to be done beyond what was necessary to render the building usable. The improvements asked for are needed to protect Government property housed in the establishment and for its orderly and convenient operation. | | | |

To pay the reporter of the Court of Appeals of the District of Columbia for volumes of the reports of the opinions of said court, authorized to be furnished by him under section 229 of the Code of Law for the District of Columbia as amended July 1, 1902, 22 volumes, at $5 each, namely, 11 copies each of volumes 42 and 43 (*acts July 1, 1902, vol. 32, p. 609, sec. 1; Mar. 4, 1913, vol. 37, p. 692, sec. 1*) ..... $110.00

Total ..... $110

Probation system:

Probation officer, Supreme Court, District of Columbia (*acts June 25, 1910, vol. 36, p. 864, secs. 1, 5; Mar. 4, 1913, vol. 37, p. 693, sec. 1*) ..... 2,000.00

Stenographer and typewriter and assistant (*submitted*) ..... 800.00

NOTE (by Justice Stafford, Supreme Court, District of Columbia).—The reason an assistant who is a stenographer and typewriter is asked for, is that the work of the office has increased to such an extent that it is impossible for one person to attend to same and keep up the large correspondence that is necessary incident to following each parole. The probation officer (Supreme Court, District of Columbia) has for the last year had to employ persons to assist him with the clerical work and pay for the same himself.

Probation officer, police court, District of Columbia (*acts June 25, 1910, vol. 36, p. 864, secs. 1, 5; Mar. 4, 1913, vol. 37, p. 693, sec. 1*) ..... 1,500.00

Assistant probation officer, police court, District of Columbia (*same acts*) ..... 1,200.00

Contingent expenses (*same acts*) ..... 500.00

Total, probation system ..... $6,000

Juvenile court:

Judge (*acts Mar. 19, 1906, vol. 34, pp. 73–78, secs. 1–26; Mar. 4, 1913, vol. 37, p. 693, sec. 1*) .. 3,600.00

Clerk (*same acts*) ..... 2,000.00

Deputy clerk, who is authorized to act as clerk in the absence of that officer (increase of $300 submitted) (see note below) (*same acts*) ..... 1,500.00

One stenographer and typewriter for judge's work, and to aid in keeping records in clerk's office (see note below) (*submitted*) ..... 900.00

Chief probation officer (increase of $1,000 submitted) (see note below) (*acts Mar. 19, 1906, vol. 34, pp. 73–78, secs. 1–26; Mar. 4, 1913, vol. 37, p. 693, sec. 1*) ..... 2,500.00

| Janitor (increase of $60 submitted) (see note below) (*same acts*) | [illegible] |
| Total | $19,800 |
| Miscellaneous: | |
| For compensation of jurors (*same acts*) | 1,[illegible] |
| For rent (*same acts*) | [illegible] |
| For furniture, fixtures, and equipments and repairs to the courthouse and grounds (increase of $300 submitted) (see note below) (*same acts*) | [illegible] |
| For fuel, ice, gas, and laundry work, stationery, printing, law books, books of reference, periodicals, typewriter and repairs thereto, binding and rebinding, preservation of records, mops, brooms, and buckets, removal of ashes and refuse, telephone service, traveling expenses, and other incidental expenses not otherwise provided for (increase of $500 submitted) (*same acts*) | 1,500.00 |
| Total, miscellaneous | $3,640 |

NOTE.—An increase of $300 in the salary of the deputy clerk is requested. This is a bonded officer, who, in addition to his many other duties, is the financial clerk of the court. During the 7 years since the court was established it has been the means of collecting $240,930.95 under the nonsupport law from delinquent husbands and fathers. These collections have increased from $6,250.59 in 1907 to $51,831.79 in 1913, thus greatly increasing the work of accounting by the deputy clerk.

NOTE.—One stenographer and typewriter, at $900, is also requested. This clerical assistance for the judge and to aid in keeping the records in the clerk's office is absolutely necessary. No stenographer or typewriter is now provided by law.

NOTE.—If the juvenile court is to do the important work for which it was created, it is imperative that the probation office be properly equipped and that sufficient trained officers be provided. At present there are but 3 probation officers, who must, in addition to their work with the children, keep all the records of the office and make the preliminary investigations in all of the children's cases. During the fiscal year ended June 30, 1913, there were approximately 450 children always on probation. Experience has everywhere demonstrated that 1 officer can not hope to get satisfactory results where the number under his supervision exceeds 50. In Louisville, Brooklyn, and Cleveland, for example, where the average number on probation is 400, they have 7, 8, and 12 probation officers, respectively; or, in Louisville, 1 probation officer to each 57 children; in Brooklyn, 1 to each 50 children; and in Cleveland, 1 to each 34 children. Our officers have each had about 150 children, and to this work could devote but a part of their time.

It is probably unnecessary to present any argument in support of probation work with erring children. That splendid results can be obtained under proper conditions has been thoroughly demonstrated wherever those conditions exist.

In order to enable this court to look after the large number of children needing the care, supervision, and frequent counsel of the probation officer, it will be necessary to provide the additional officers requested in the estimates.

The chief probation officer should be a man of education, executive ability, and experience, and the services of such a person can not be long retained for less than the amount asked, $2,500. This is the amount paid that officer in St. Louis, Cleveland, and Pittsburgh, while in New York and Chicago he receives $3,000.

To provide an assistant chief probation officer, who must be a person of more ability than required of an ordinary probation officer, $1,500 is asked.

In order that the probation officers may give their time to actual probation work rather than having to spend, as at present, so much time in keeping up the details of the office, a clerk, at $900, is requested.

NOTE.—The small increases submitted for the bailiff and janitor ought to be made as a matter of justice to these officers, and would place their compensation at the same amount provided for those officers in the police court.

NOTE.—The increase in the appropriation for furniture, fixtures and equipments, and repairs to courthouse and grounds, from $300 to $600, and in the appropriation for miscellaneous expenses from $1,000 to $1,500, are made necessary by the tremendous increase in the volume of business of the court. Additional equipment must be provided in the clerk's office and in the probation office, including one adding machine and two new typewriters. There has been no increase in this appropriation since 1908, and the lack of necessary facilities has been a serious handicap in the work.

Police court:

| Two judges, at $3,600 each (*R. S. D. C., p. 122, sec. 1042; acts Mar. 3, 1891, vol. 26, p. 848, sec. 6; Mar. 4, 1913, vol. 37, p. 963, sec. 1*) | 7,200.00 |
| Clerk (*same acts*) | 2,200.00 |
| Deputy clerk (*same acts*) | 1,600.00 |
| Deputy clerk (*same acts*) | 1,500.00 |
| Two deputy clerks, at $1,200 each (*same acts*) | 2,400.00 |
| Deputy financial clerk (*same acts*) | 1,500.00 |
| Deputy clerk, who shall be a competent and qualified stenographer and typewriter (*submitted*) | 1,200.00 |

NOTE.—The services of an additional deputy clerk who shall be a competent male stenographer and typewriter are imperatively needed to enable the court to properly and expeditiously dispatch its very large and constantly growing business.

So great has become the volume of the official correspondence of the court since the establishment of the probation system, that a large percentage of the valuable time of the judges is consumed through their personal efforts to meet the demand of the public upon them in the matter of court correspondence.

It is respectfully submitted that to compel the judges to personally conduct this very large amount of routine work without the aid of modern methods of accomplishing results (stenography and typewriting) is an unnecessary burden upon them.

| Janitor (*same acts*) | 600.00 | |
| Engineer (increase of $100 submitted) (*same acts*) | 1,000.00 | |
| NOTE.—The engineer at the police court is a competent and faithful employee and is entitled to the small increase in salary asked for in this estimate. | | |
| Assistant engineer (increase of $180 submitted) (*same acts*) | 900.00 | |
| NOTE.—The assistant engineer is not only an engineer of a very high order of efficiency, but is also an excellent mechanic and yearly saves considerable expense in making necessary repairs about the interior of the court building and to the furniture. He has also a practical knowledge of electricity, which he utilizes from time to time or whenever occasion requires. Thus depending upon him to do much of the difficult repair work in addition to performing his regular duties, it is believed that such a valuable employee should have the increase provided for in this estimate. | | |
| Fireman (increase of $120 submitted) (*same acts*) | 600.00 | |
| NOTE.—Upon the basis of general payments to firemen in large establishments in the District of Columbia and in the service of the Government, the request for this increase is justified, and it is hoped this fireman may, in the matter of pay, be placed upon an equality with others performing like service for the District government. It is believed he should not receive less than $50 per month. | | |
| Two assistant janitors, at $300 each (*same acts*) | 600.00 | |
| Matron (*same acts*) | 600.00 | |
| Three charmen, at $360 each (*same acts*) | 1,080.00 | |
| Telephone operator (*submitted*) | 480.00 | |
| NOTE.—The services of a competent switchboard operator are needed here in order that the fullness of intended benefits to the public service may be realized through the proper operation of the telephone switchboard recently erected in the police court. The demands of the service are such that the constant and uninterrupted presence of an operator at the switchboard station in the clerk's office has become an imperative necessity, and if the full benefit of the system now established and of recognized importance is to be realized, the appointment of a special operator without other duty than that of operating the switchboard must be made. | | |

S. D. C., p. 122, sec. 1042; acts Mar. 3, 1891, vol. 26, p. 848, sec. 6; Mar. 4, 1913, vol. 37, p. 963, sec. 1*) | 2,500.00 | |
| NOTE.—The increasing business of the court necessitates a larger contingent fund, and $2,500 seems to be as small an amount as the court can properly be maintained upon. | | |
| For witness fees (increase of $250 submitted) (*same acts*) | 3,250.00 | |
| For furniture for the police court and repairing and replacing same (*same acts*) | 200.00 | |
| For meals of jurors and of bailiffs in attendance upon them when ordered by the court (increase of $25 submitted) (*same acts*) | 50.00 | |
| For compensation of jurors (increase of $500 submitted) (*same acts*) | 7,500.00 | |
| For repairs to police court building (increase of $1,000 submitted) (*same acts*) | 2,000.00 | |
| NOTE.—It is recommended that an appropriation of $2,000 be made for the repairs needed to this building, heating plant, and plumbing fixtures. The daily occupants of this building are not careful in the use of fixtures, etc., which has caused numerous extensive repairs. It is thought that the additional amount asked for is a conservative one. | | |
| Total, miscellaneous | $15,500 | |
| Municipal court: | | |
| Five judges, at $2,500 each (*acts Feb. 17, 1909, vol. 35, p. 623, sec. 1; Mar. 4, 1913, vol. 37, p. 963, sec. 1*) | 12,500.00 | |
| Clerk (*same acts*) | 1,500.00 | |
| Four assistant clerks, at $1,000 each (1 additional submitted) (*same acts*) | 4,000.00 | |
| NOTE.—Owing to the increase and volume of the work falling upon the clerical force, an allowance for an additional assistant clerk has been provided for. It is earnestly requested that this allowance be made. It is impossible for the present force to properly handle the work within the regular office hours. Heretofore the clerks have been obliged to extend their labors beyond the usual closing time in addition to dispensing with a large portion of their annual leave. | | |
| Janitor (*same acts*) | 600.00 | |
| Messenger (*submitted*) | 600.00 | |
| Total | $19,200 | |
| NOTE.—The necessity of authorizing a messenger for the court is urged, as the duties of the janitor are so manifold that he can not efficiently perform them and at the same time act as messenger, although the exigencies have heretofore so required. | | |

| **CHARITIES AND CORRECTIONS.** | | | |
| NOTE.—The estimates of the Board of Charities are submitted by the Commissioners of the District of Columbia without change, and are therefore not republished in the appendix. | | | |
| *Salaries and Expenses, Board of Charities—* | | | |
| Secretary (*acts June 6, 1900, vol. 31, p. 664, sec. 1; Mar. 4, 1913, vol. 37, p. 965, sec. 1*) | $3,500.00 | | |
| Chief clerk (change of title and increase of $300 submitted) (*same acts*) | 1,500.00 | | |
| NOTE.—This man is in charge of the application bureau of the Board of Charities and handles about 18,000 applications a year. He must be a physician as well as a man of executive ability. | | | |
| Assistant secretary (change of title and increase of $200 submitted) (*same acts*) | 1,400.00 | | |
| NOTE.—This employee is a woman of unusual efficiency. She is in charge of the general office and is acting secretary in the absence of the secretary. She is an expert stenographer and takes all the testimony at the hearings of the board. | | | |
| Messenger (*same acts*) | 600.00 | | |
| Inspector (*same acts*) | 1,200.00 | | |
| Three inspectors, at $1,000 each (*same acts*) | 3,000.00 | | |
| Two inspectors, at $900 each (*same acts*) | 1,800.00 | | |
| Two inspectors, at $840 each (*same acts*) | 1,680.00 | | |
| Driver (*same acts*) | 780.00 | | |
| Three drivers, at $720 each (*same acts*) | 2,160.00 | | |
| Hostler (*same acts*) | 540.00 | | |
| Traveling expenses, including attendance on conventions (*same acts*) | 400.00 | | |
| For the purchase and equipment of 3 motor ambulances (*submitted*) | 10,000.00 | | |
| | | $28,560.00 | $18,060.00 |
| NOTE.—The present ambulance service is a service of horse-drawn vehicles exclusively, and the board regards it as of the utmost importance that motor service should be substituted immediately in the interest of efficiency. There will probably result also considerable economy in maintenance. The average cost per annum, including the wages of hostler, of the present service of 10 horses and 5 vehicles for 3 years past has been $2,740. It is estimated that $600 per annum for each vehicle will maintain a motor service—a total of $1,800, or a saving of $940 per annum. The above estimate of $10,000 is to cover the purchase of vehicles only. They could be maintained from the allotment which is now allowed from the general contingent fund for the maintenance of horses and wagons. | | | |

| *Washington Asylum and Jail*—Continued. | | | |
| Payments to destitute women and children: For payment to the beneficiaries named in section 3 of "An act making it a misdemeanor in the District of Columbia to abandon or willfully neglect to provide for the support and maintenance by any person of his wife or his or her minor children in destitute or necessitous circumstances," approved Mar. 23, 1906, or so much thereof as may be necessary, to be disbursed by the disbursing officer of the District of Columbia on itemized vouchers duly audited and approved by the auditor of said District (increase of $1,000 submitted) (*acts Mar. 23, 1906, vol. 34, p. 86, sec. 1; Mar. 4, 1913, vol. 37, p. 965, sec. 1*) | $5,000.00 | | |
| | | $75,575.00 | $69,335.00 |
| *Support of Prisoners*— | | | |
| For expenses of maintenance of jail prisoners of the District of Columbia at the Washington Asylum and Jail, including pay of guards and all other necessary personal services, and for support of prisoners therein (increase of $2,000 submitted) (*acts Mar. 2, 1911, vol. 36, p. 1003, sec. 1; Mar. 4, 1913, vol. 37, p. 965, sec. 1*) | 46,000.00 | | |
| Repairs to jail roof and chimney (*submitted*) | 500.00 | | |
| For installing laundry plant in jail, including dry box, washing machine, and other appurtenances (*submitted*) | 1,500.00 | | |
| NOTE.—It is proposed, if this appropriation is made, to combine the two laundry plants now existing—one at the jail and one at the old female workhouse building. One new washing machine will be required and a dry box will have to be installed. If this work is done, the old plant at the female workhouse can be closed, the services of an engineer dispensed with, and some helpers who are employed on the temporary roll can be discontinued, as the work can be done by the prisoners, as the new laundry will be within the jail inclosure and not a quarter of a mile away as is the present hospital laundry in the old female workhouse. | | | |
| For material and labor for piping, conduit work, and extension of central heating plant (*submitted*) | 4,500.00 | | |
| | | 52,500.00 | 59,000.00 |
| NOTE.—This improvement would eliminate two heating plants—one at the psychopathic building and one for the other hospital buildings—now in operation, and would save the salaries of two engineers. It would also result in very great economy of fuel, as the old plants are very defective and great waste is caused by poor insulation. | | | |
| *Transportation of Prisoners*— | | | |
| For conveying prisoners to the Washington Asylum and Jail, including salary of driver, not to exceed $720, and the purchase and maintenance of necessary horses, wagons, and harness (*acts June 26, 1912, vol. 37, p. 170, sec. 1; Mar. 4, 1913, vol. 37, p. 965, sec. 1*) | | 2,000.00 | 2,000.00 |
| *Home for the Aged and Infirm*— | | | |
| Superintendent (increase of $300 submitted) (*acts June 6, 1900, vol. 31, p. 664, sec. 1; Mar. 4, 1913, vol. 37, p. 966, sec. 1*) | 1,500.00 | | |
| Clerk (*same acts*) | 900.00 | | |
| Matron (*same acts*) | 600.00 | | |
| Chief cook (*same acts*) | 720.00 | | |
| Baker (*same acts*) | 540.00 | | |
| Laundryman (*same acts*) | 540.00 | | |
| Chief engineer (increase of $200 submitted) (*same acts*) | 1,200.00 | | |
| Assistant engineer (increase of $180 submitted) (*same acts*) | 900.00 | | |
| Physician and pharmacist (*same acts*) | 480.00 | | |
| Second assistant engineer (increase of $120 submitted) (*same acts*) | 600.00 | | |
| Two male attendants, at $360 each (*same acts*) | 720.00 | | |
| Two nurses, at $360 each (*same acts*) | 720.00 | | |
| Two female attendants, at $300 each (*same acts*) | 600.00 | | |
| Three firemen, at $360 each (increase of $60 each submitted) (*same acts*) | 1,080.00 | | |
| Assistant cook (increase of $180 submitted) (*same acts*) | 480.00 | | |
| Assistant cook (*same acts*) | 180.00 | | |
| Blacksmith and woodworker (increase of $180 submitted) (*same acts*) | 720.00 | | |
| Farmer (*same acts*) | 540.00 | | |
| Three farm hands, at $360 each (*same acts*) | 1,080.00 | | |
| Dairyman (*same acts*) | 360.00 | | |
| Tailor (*same acts*) | 360.00 | | |
| Seamstress (*same acts*) | 240.00 | | |
| Laundress (*same acts*) | 240.00 | | |
| Hostler and driver (*same acts*) | 240.00 | | |
| Three servants, at $144 each (*same acts*) | 432.00 | | |
| Temporary labor (*same acts*) | 1,000.00 | | |
| For provisions, fuel, forage, harness and vehicles and repairs to same, ice, shoes, clothing, dry goods, tailoring, drugs and medical supplies, furniture and bedding, kitchen utensils, and other necessary items (*same acts*) | 27,000.00 | | |
| For repairs and improvements to buildings and grounds (increase of $500 submitted) (*same acts*) | 3,000.00 | | |
| For purchase of material for permanent roads (*submitted*) | 500.00 | | |
| For purchase of two high grade rubber and leaded electric light cables and installation in underground conduit now in place (*submitted*) | 1,965.00 | | |
| NOTE.—These cables would take the place of 2 overhead cables now in use since the plant was installed 7 years ago. The insulation on the present cables has deteriorated and in numerous places the wires are exposed for a considerable distance. Ducts for underground cables are now available in the new conduit and the life of the cables would be practically indefinite. | | | |
| For purchase and installation of two electric generators (*submitted*) | 4,875.00 | | |
| | | 54,312.00 | 54,682.00 |
| NOTE.—The present electric generators have been in use for 7 years since the installation of the plant and are now badly worn and liable to break down at any time. | | | |

| *Tuberculosis Hospital*—Continued. | | | |
| Three laundresses, at $240 each (*act Mar. 4, 1913, vol. 37, p. 967, sec. 1*) | $720.00 | | |
| Farmer (*same act*) | 360.00 | | |
| Laborer (*same act*) | 360.00 | | |
| Night watchman (*same act*) | 360.00 | | |
| Three orderlies, at $360 each (*same act*) | 1,080.00 | | |
| Assistant laundryman (*same act*) | 360.00 | | |
| Two ward maids, at $180 each (*same act*) | 360.00 | | |
| Four servants, at $240 each (*same act*) | 960.00 | | |
| For provisions, fuel, forage, harness and vehicles and repairs to same, gas, ice, shoes, clothing, dry goods, tailoring, drugs and medical supplies, furniture and bedding, kitchen utensils, books and periodicals not to exceed $50, temporary services not to exceed $1,000, and other necessary items (increase of $2,000 submitted) (*same act*) | 32,000.00 | | |
| For repairs and improvements to buildings and grounds (*same act*) | 2,000.00 | | |
| For erection of residence for superintendent (*submitted*) | 6,000.00 | | |
| | | $58,120.00 | $54,820.00 |
| NOTE.—The superintendent now lives in an old cottage that was on the land when it was purchased. It is damp and dilapidated, and its condition does not warrant extensive repairs. | | | |
| For the preparation of plans and specifications, necessary grading of site, and toward the erection of hospital buildings, including power house and domestic service building, to be located and erected on the site now owned by the District of Columbia at Fourteenth and Upshur Streets, with authority to contract for the completion of said buildings at a total cost not to exceed $300,000 (*submitted*) | | 60,000.00 | |
| NOTE.—It is extremely important that work on the proposed hospital building should be commenced at once. The old frame buildings now used for hospital purposes at the Washington Asylum and Jail are utterly unfit for hospital uses and the patients now there can not be provided for until new buildings are erected. | | | |
| CHILD-CARING INSTITUTIONS. | | | |
| *Board of Children's Guardians*— | | | |
| For administrative expenses, including expenses in placing and visiting children, city directory, purchase of books of reference and periodicals not exceeding $25, and all office and sundry expenses (increase of $400 submitted) (*acts July 26, 1912, vol. 27, p. 268, secs. 1–7; Mar. 4, 1913, vol. 37, p. 967, sec. 1*) | 3,500.00 | | |
| For agent (*same acts*) | 1,800.00 | | |
| Clerk (change of title) (*same acts*) | 1,200.00 | | |
| NOTE.—The present title of this employee is "executive clerk." | | | |
| Chief placing and investigating officer (change of title from "placing officer," and increase of $200 submitted) (see note below) (*same acts*) | 1,200.00 | | |
| Nine placing and investigating officers, at $1,000 each (change of title of 5; increase of $100 each for 3; increase of $280 each for 2; and 4 additional submitted) (*same acts*) | 9,000.00 | | |
| NOTE.—The Board of Charities has made a very exhaustive study of the work of the Board of Children's Guardians, and as a result has felt impelled to submit an estimate for a very considerably increased force for making investigations, placing children in homes and inspecting such children after placement. The examination revealed the fact that there was not a sufficient force to thoroughly investigate cases when first presented to the board, to place children in homes, or to visit such children after placement. Instead of the six employees now carried in the bill under the titles of "placing officers," "investigating clerk," and "visiting inspectors," a total of 10 employees to be known as "placing and investigating officers" is recommended. | | | |
| Record clerk (*acts June 26, 1892, vol. 27, p. 268, secs. 1–7; Mar. 4, 1913, vol. 37, p. 967, sec. 1*) | 720.00 | | |
| Clerk (increase of $60 submitted) (*same acts*) | 720.00 | | |
| Messenger (*same acts*) | 360.00 | | |
| For maintenance of feeble-minded children (white and colored) (increase of $4,000 submitted) (*same acts*) | 22,000.00 | | |
| For board and care of all children committed to the guardianship of said board by the courts of the District, and for the temporary care of children pending investigation or while being transferred from place to place, with authority to pay not more than $1,500 to institutions adjudged to be under sectarian control and not more than $300 for burial of children dying while under charge of the board (increase of $15,000 submitted) (*same acts*) | 60,000.00 | | |
| | | 100,500.00 | 75,980.00 |
| The disbursing officer of the District of Columbia is authorized to advance to the agent of the Board of Children's Guardians upon requisitions previously approved by the auditor of the District of Columbia and upon such security as may be required of said agent by the Commissioners of the District of Columbia, sums of money not to exceed $200 at any one time, to be used for expenses in placing and visiting children, traveling on official business of the board, and for office and sundry expenses, all such expenditures to be accounted for to the accounting officers of the District of Columbia within one month on itemized vouchers properly approved (*act Mar. 4, 1913, vol. 37, p. 967, sec. 1*). | | | |
| *Industrial Home School for Colored Children*— | | | |
| Superintendent (*act Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | 1,200.00 | | |
| Matron of school (*same act*) | 480.00 | | |
| Two caretakers, at $360 each (*same act*) | 720.00 | | |
| Two assistant caretakers, at $360 each (*same act*) | 720.00 | | |
| Nurse (*same act*) | 360.00 | | |
| Sewing teacher (*same act*) | 360.00 | | |
| Two teachers, at $480 each (*same act*) | 960.00 | | |
| Manual training teacher (*same act*) | 600.00 | | |
| Farmer (increase of $60 submitted) (*same act*) | 540.00 | | |

| *Industrial Home School for Colored Children*—Continued. | | | |
| Blacksmith and wheelwright (increase of $60 submitted) (*act Mar 4, 1913, vol. 37, p. 968, sec. 1*). | $540.00 | | |
| Stableman (*same act*) | 300.00 | | |
| Watchman (*same act*) | 300.00 | | |
| Cook (*same act*) | 240.00 | | |
| Laundress (*same act*) | 240.00 | | |
| Temporary labor (*submitted*) | 500.00 | | |
| For maintenance, including purchase and care of horses, wagons, and harness (increase of $1,500 submitted) (*act Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | 9,500.00 | | |
| For manual training equipment (change of phraseology) (*same act*) | 250.00 | | |
| For repairs and improvements to buildings and grounds (increase of $1,500 submitted) (*same act*) | 2,500.00 | | |
| For rebuilding barn (*submitted*) | 1,500.00 | | |
| NOTE.—The only general barn the school has is an old structure that was erected when the buildings were first opened. It was a makeshift in the beginning and is falling to pieces. Temporary repairs of one kind and another have been made for several years, but it is impossible to make the building serviceable. With the labor of the teachers and the boys it is believed that for $1,500 a really serviceable large barn can be erected. | | | |
| For erection of residence for superintendent (*submitted*) | 5,000.00 | | |
| NOTE.—The superintendent and his family are obliged to occupy one of the cottages, which should be available for the boys. These school cottages cost $12,000 each, and it is poor economy to have one of them used by the superintendent when for $5,000 a suitable residence could be built. This would enable the school to receive 20 additional boys and would materially reduce the per capita cost of maintenance. | | | |
| For materials for construction of roads and sidewalks (*submitted*) | 300.00 | | |
| | | $27,110.00 | $16,990.00 |
| NOTE.—Money for materials only is requested. It is proposed to do the work of building roads and sidewalks by the boys under the supervision of the industrial teachers. | | | |
| *Provided*, That all moneys received at said school as income from sale of products and from payment of board, of instruction, or otherwise, shall be paid over to the Commissioners of the District of Columbia to be expended by them in support of the school during the fiscal year 1915. | | | |
| *Industrial Home School*— | | | |
| Superintendent (*acts June 11, 1896, vol. 29, p. 410, sec. 1; Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | 1,500.00 | | |
| Matron (increase of $120 submitted) (*same acts*) | 600.00 | | |
| Three matrons, at $420 each (increase of $60 each submitted) (*same acts*) | 1,260.00 | | |
| Housekeeper (increase of $60 submitted) (*same acts*) | 420.00 | | |
| Sewing teacher (increase of $60 submitted) (*same acts*) | 420.00 | | |
| 2 assistant matrons, at $300 each (*same acts*) | 600.00 | | |
| Nurse (increase of $60 submitted) (*same acts*) | 360.00 | | |
| Manual-training teacher (increase of $60 submitted) (*same acts*) | 660.00 | | |
| Florist (*same acts*) | 840.00 | | |
| Engineer (*same acts*) | 720.00 | | |
| Farmer (*same acts*) | 540.00 | | |
| Cook (increase of $60 submitted) (*same acts*) | 300.00 | | |
| Laundress (increase of $60 submitted) (*same acts*) | 300.00 | | |
| Two housemaids, at $180 each (*same acts*) | 360.00 | | |
| Temporary labor not to exceed (increase of $100 submitted) (*same acts*) | 500.00 | | |
| For maintenance, including purchase and care of horse, wagon, and harness (*same acts*) | 16,000.00 | | |
| For repairs and improvements to buildings and grounds (increase of $300 submitted) (*same acts*) | 2,000.00 | | |
| | | 27,380.00 | 26,320.00 |
| NOTE.—Estimates for an additional cottage at $25,000 and a new greenhouse at $8,500 were recommended by the trustees of this school. The Board of Charities deems these items necessary and desirable, but has not submitted an estimate therefor because it believes that this school should be removed from its present location to a new site in the country. For this purpose the board has recommended the introduction of a separate bill authorizing the Commissioners of the District of Columbia to sell the present property and use the proceeds for new grounds and the erection of suitable buildings. If Congress does not authorize the removal and rebuilding of the school, it is recommended that a new cottage at $25,000 and new greenhouse at $8,500 be authorized. | | | |
| *National Association for Colored Women and Children*— | | | |
| For the care and maintenance of children under a contract to be made with the National Association for the Relief of Destitute Colored Women and Children by the Board of Charities not to exceed (*act Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | | 9,900.00 | 9,900.00 |
| *Washington Home for Foundlings*— | | | |
| For the care and maintenance of children under a contract to be made with the Washington Home for Foundlings by the Board of Charities (*act Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | | 6,000.00 | 6,000.00 |
| *St. Ann's Infant Asylum*— | | | |
| For the care and maintenance of children under a contract to be made with St. Ann's Infant Asylum by the Board of Charities (*act Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | | 6,000.00 | 6,000.00 |
| TEMPORARY HOMES. | | | |
| *Municipal Lodging House*— | | | |
| Municipal lodging house and wood and stone yard, namely: | | | |
| Superintendent (*act Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | 1,200.00 | | |
| Foreman (*submitted*) | 480.00 | | |
| NOTE.—This institution has always had a foreman until the current year, and it has been found impossible to properly carry on and supervise the work without this employee. The foreman has charge of the employment of the men who saw wood and make kindling as well as clean up the place generally. The foreman is the only other male employee other than the superintendent, except during the winter months when a night watchman is employed. | | | |

| | | 5,920.00 | 5,920.00 |
| To be expended under the direction of the Commissioners of the District of Columbia. And ex-soldiers and sailors of the Spanish War and the War with Mexico shall be admitted to the home. | | | |
| NOTE.—Provision for the admission of Spanish-War veterans to the Temporary Home for ex-Union Soldiers and Sailors was first made in the District appropriation act for the fiscal year 1904, and at that time the appropriation for the support of the home was increased from $4,000 to $5,500. The Spanish-War veterans were included each year thereafter until the fiscal year 1913, when mention of them was omitted. The amount of the appropriation for the home for the current year is $5,920, it having been increased from $5,000 to that amount for the year 1910. The Temporary Home for ex-Union Soldiers and Sailors is primarily for the benefit of nonresidents. It is chiefly used by soldiers from the various States who come to Washington to see about their pensions and various other matters connected with the United States Government. Of 212 admissions last year, only 38 were residents of the District. | | | |
| *Hope and Help Mission*— | | | |
| For the care and maintenance of women and children under a contract to be made with the Florence Crittenton Hope and Help Mission by the Board of Charities, maintenance (*act Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | | 3,000.00 | 3,000.00 |
| *Hospital for the Insane*— | | | |
| For support of the indigent insane of the District of Columbia n the Government Hospital for the Insane in said District, as provided by law (increase of $35,000 submitted) (*acts Mar. 3, 1879, vol. 20, p. 395, sec. 1; Mar. 4, 1913, vol. 37, p. 968, sec. 1*) | | 385,000.00 | 350,000.00 |
| NOTE.—The increase in the estimate for the insane is due in part to the fact that the District of Columbia now pays for all patients from the District—both indigent and pay patients—at the Government Hospital for the Insane. Collection is made by the District on account of persons able to pay, but this money is deposited in the Treasury. The collections for the current year will probably be about $16,000. | | | |
| For deportation from the District of Columbia of nonresident insane persons, in accordance with the act of Congress "to change the proceedings for admission to the Government Hospital for the Insane in certain cases and for other purposes," approved Jan. 31, 1899 (*acts Jan. 31, 1899, vol. 30, p. 811, secs. 1–8; Mar. 4, 1913, vol. 37, p. 969, sec. 1*) | | 3,000.00 | 3,000.00 |
| That in expending the foregoing sum the disbursing officer of the District of Columbia is authorized to advance to the secretary of the Board of Charities, upon requisitions previously approved by the auditor of the District of Columbia, and upon such security as the Commissioners of the District of Columbia may require of said secretary, sums of money not exceeding $300 at one time, to be used only for deportation from the District of nonresident insane persons, and to be accounted for monthly on itemized vouchers to the accounting officer of the District of Columbia. | | | |
| *Relief of the Poor*— | | | |
| For relief of the poor, including pay of physicians to the poor at not exceeding $1 per day each, who shall be appointed by the Commissioners of the District of Columbia on the recommendation of the health officer (*act Mar. 4, 1913, vol. 37, p. 969, sec. 1*) | | 12,000.00 | 12.000.00 |
| *Transportation of Paupers*— | | | |
| For transportation of paupers (*act Mar. 4, 1913, vol. 37, p. 969, sec. 1*) | | 3,000.00 | 3,000.00 |
| *Workhouse*— | | | |
| For the following now employed or authorized under the appropriation for the workhouse, namely: | | | |
| Administration: | | | |
| Superintendent (*acts June 25, 1910, vol. 36, p. 786, sec. 1; Mar. 4, 1913, vol. 37, p. 969, sec. 1*) | 2,500.00 | | |
| Chief clerk (*same acts*) | 1,200.00 | | |
| Assistant superintendent (increase of $180 submitted) (*same acts*) | 900.00 | | |

| Captain of steamboat (*same acts*) | 900.00 | | |
| Engineer of steamboat (*same acts*) | 840.00 | | |
| Fireman (*submitted*) | 480.00 | | |
| For the maintenance of the District of Columbia Workhouse at Occoquan, Va., including the superintendence, custody, clothing, guarding, maintenance, care, and support of prisoners; rewards for fugitives; provisions, subsistence, medicine, and hospital instruments, furniture, and quarters for guards and other employees and inmates; the purchase of tools and equipment; the purchase and maintenance of farm implements, live stock, tools, equipment, and miscellaneous items; transportation; maintenance and operation of means of transportation, and means of transportation; and supplies and personal services, and all other necessary items (*acts June 25, 1910, vol. 36, p. 786, sec. 1; Mar. 4, 1913, vol. 37, p. 969, sec. 1*) | 70,000.00 | | |
| For fuel for maintenance (*same acts*) | 15,000.00 | | |
| Fuel for manufacturing and construction, oils and repairs to plant (*same acts*) | 30,000.00 | | |
| That the unexpended balance of the appropriation of $25,000 for tugboat contained in the District appropriation act for the fiscal year ending June 30, 1914, is hereby made available for the purpose of equipping the tugboat now in use with electric light and such other additional repairs as in the judgment of the Commissioners of the District of Columbia are necessary, and for the purchase of additional barges (*submitted*). | | | |
| For duplicate electric machinery, building to inclose boilers and electrical machinery and building brick stack (*submitted*) | 6,000.00 | | |
| NOTE.—The duplicate electric machinery is to guard against the danger of a breakdown. This institution is isolated and it would be a serious matter if for even a few days we were unable to produce electric light. The work of erecting a building for the power plant and building a brick stack will be done by the prisoners with a little expert supervision. | | | |
| For new building for machine shop and equipment for same (*submitted*) | 5,000.00 | | |
| NOTE.—The institution now has several industrial plants and for economy in making repairs it is necessary to have a machine shop. No increase in the pay roll will be involved, as employees we now have can take care of the shop. | | | |
| For material for repairs to buildings, roads, and walks (increase of $1,000 submitted) (*acts June 25, 1910, vol. 36, p. 786, sec. 1; Mar. 4, 1913, vol. 37, p. 969, sec. 1*) | 5,000.00 | | |
| NOTE.—The superintendent recommends a thousand dollars' increase because the buildings, which are of a cheap wooden type, will require more repairs than was the case the past year. | | | |
| For farm implements, including wagons, plows, planters, harrows, drills, etc. (*submitted*) | 3,000.00 | | |
| NOTE.—By the spring of 1914 about 200 acres of additional land will be cleared of stumps and ready for cultivation. It will be necessary to have plows, planters, and other agricultural machinery, as the institution has not yet been equipped with sufficient farm implements. | | | |
| For canning factory, including building and machinery (*submitted*) | 2,500.00 | | |
| NOTE.—It is proposed to can fruits and vegetables raised in excess of immediate needs for consumption. These products will be kept for winter use in the institution, and when a sufficient quantity is available they will be sold to the other institutions. | | | |
| For slaughterhouse and equipment (*submitted*) | 1,000.00 | $197,150.00 | $211,610.00 |
| NOTE.—The institution will be able to raise for slaughter approximately 300 hogs per annum and occasionally some cattle. To do this work efficiently and avoid waste a proper slaughterhouse and equipment is necessary. The building, of course, will be erected by the prisoners with our own brick, and the small amount of appropriation will be used largely for the equipment, including also such items as doors and windows, which can not be produced at the workhouse. | | | |

| *Reformatory*— | | |
| For grading, fencing, road making, water supply, sewerage, draining, and other necessary work of preparation for the erection of buildings for a reformatory, including necessary traveling expenses and the employment of necessary personal service, and for the beginning of construction of such buildings to be erected on the site authorized to be acquired for that purpose, to be constructed in accordance with the provisions of the act approved Mar. 3, 1909, authorizing the acquirement of land and the construction of buildings for a reformatory and workhouse and all acts amendatory thereof (*submitted*) | $15,000.00 | |
| *Municipal Lodging House*— | | |
| For a new municipal lodging house to be erected on the site of the present municipal lodging house (*submitted*) | 50,000.00 | |
| NOTE.—The present municipal lodging house is wholly inadequate to meet the demands. It is an institution where a man without money can apply for lodging and meals and be cared for in consideration of doing a certain amount of work, the character of which is mostly sawing wood. The building occupied by this institution at present would be a disgrace to any civilized community, in addition to being too small. | | |
| *Hospital for Inebriates*— | | |
| For a hospital for inebriates (*submitted*) | 75,000.00 | |
| NOTE.—At present the District of Columbia has no facilities for treating inebriates properly. An inebriate is treated as a criminal, and inebriation is treated as a crime. The modern theory is that inebriation is a disease for which the victim should be treated in a hospital and not in a jail. It is to meet this theory and the existing demand for such an institution that the recommendation for this appropriation is made. It is recommended that the hospital be located on property already owned by the District, where the tuberculosis hospital is located and where it is proposed to build a municipal hospital. | | |
| MILITIA. | | |
| *Militia of the District of Columbia*— | | |
| For the following, to be expended under the authority and direction of the commanding general, who is hereby authorized and empowered to make necessary contracts and leases, namely: | | |
| For expenses of camps, including hire of horses for officers required to be mounted, and such hire not to be deducted from their mounted pay, instruction, practice marches, and practice cruises, drills and parades, fuel, light, heat, care and repair of armories, offices and storehouses, practice ships, boats, machinery and dock, dredging alongside of dock, telephone service, and for general incidental expenses of the service (increase of $900 submitted) (*acts Mar. 1, 1889, vol. 25, p. 780, sec. 58; May 11, 1898, vol. 30, p. 404, secs. 1–3; Mar. 4, 1913, vol. 37, p. 970, sec. 1*) | $25,900.00 | |
| NOTE.—The increase asked for under this head is for salary of caretaker at armory of Signal Corps company ($900 per annum), a new position to be created as a condition precedent to the issue by the War Department of a complete technical Signal Corps equipment of modern design. | | |
| For rent of armories, offices, storehouses, and quarters for noncommissioned officers of the Army detailed for duty with the militia (decrease of $600 submitted) (*same acts*) | 17,064.00 | |
| NOTE.—This reduction is due to the fact that at the expiration of the present fiscal year the rent of premises 471 and 473 Missouri Avenue (Battery Armory) will be reduced $600 per annum, owing to completion of payment, made in the form of rent, of cost of 200 metal lockers installed by the lessor as per agreement in 1909. | | |
| For lockers, furniture, and gymnastic apparatus for armories (*same acts*) | 600.00 | |
| For printing, stationery, and postage (*same acts*) | 1,500.00 | |
| For cleaning and repairing uniforms, arms, and equipments and contingent expenses (*same acts*) | 2,000.00 | |
| For custodian in charge of United States property and storerooms (*same acts*) | 1,000.00 | |
| For clerk, office of the adjutant general (*same acts*) | 1,000.00 | |
| For expenses of target practice and matches (increase of $3,000 submitted) (*same acts*) | 4,250.00 | |
| NOTE.—The increase asked for under this head is for the rebuilding of target butts and backstops which have given way under the action of time and weather and also by reason of rifle fire in regularly ordered practice. The amount of increase requested is based on lowest bid made under written proposals. | | |
| For pay of troops, other than Government employees, to be disbursed under the authority and direction of the commanding general (*same acts*) | 24,000.00 | |
| | 77,314.00 | $76,788.11 |
| REFUND OF ERRONEOUS COLLECTIONS. | | |
| *Refund of Erroneous Collections*— | | |
| To enable the commissioners, in any case where special assessments, school tuition charges, rents, or fees of any character have been erroneously covered into the Treasury to the credit of the United States and the District of Columbia in equal parts, to refund such erroneous payments, wholly or in part, including the refunding of fees paid for building permits authorized by the District appropriation act approved Mar. 2, 1911, $2,500, or so much thereof as may be necessary (increase of $2,000 submitted) (*act Mar. 4, 1913, vol. 37, p. 970, sec. 1*) | 2,500.00 | 500.00 |
| *Provided*, That this appropriation shall be available for such refunds without regard to the date of the erroneous payment. | | |
| NOTE.—An increase in this appropriation is asked from $500, the amount allowed for the fiscal year 1914, to $2,500. The reason for this is that the smaller amount is not at all sufficient, as shown by experience, to pay claims covered by this appropriation. To illustrate, it may be stated that in the deficiency act of Mar. 4, 1913, there was appropriated for the refund of erroneous collections the sum of $540.16; in the deficiency estimates before the present extra session of Congress there is an item of $709.62, and in addition there is still pending in the office claims aggregating $533, which will be included in the general deficiency estimates to be submitted to the next session of Congress.<br>It is asked that the appropriation for refund of erroneous collections shall be available for the payment of claims irrespective of the date on which the erroneous payment was made, as under the present construction placed upon this law only those payments which have been erroneously made within the period of a particular fiscal year may be refunded from the appropriation authorized for that year. This results in the necessity for recommending deficiency appropriations which might be obviated should the proviso suggested be made a part of the law granting the appropriation, and the amount of the appropriation increased as requested. | | |

| **ANACOSTIA RIVER FLATS.** | | |
| *Reclamation of Anacostia River Flats—* | | |
| For continuing the reclamation and development of the Anacostia River and flats, from the Anacostia Bridge northeast to the District line, to be expended under the supervision of the Chief of Engineers, United States Army, upon plans heretofore authorized to be prepared; said sum to be available for the preparation of plans, the prosecution of the work, the employment of personal service, and for such other purposes as may in the judgment of the Chief of Engineers be necessary to carry out the purposes of this appropriation (*act Mar. 4, 1913, vol. 37, pp. 970, 971, sec. 1*)..... | $100,000.00 | $100,000.00 |
| In connection with said reclamation and development of the river and flats from the Anacostia Bridge to the District line, the Secretary of War is authorized to acquire by purchase or by condemnation, for highway and park purposes, the fee simple and absolute title to the land along the Anacostia River on both sides thereof between the high-water lines of said river, as determined by the United States Coast and Geodetic Survey, and lines following approximately the contour of 10 feet elevation on each side of said river above mean low water at the United States Navy Yard, from the Anacostia Bridge to the northeast boundary line between the District of Columbia and Maryland; and also all land below the high-water lines on each side of said Anacostia River between the limits named that is not now owned by the United States; and the appropriation herein made for the reclamation and development of the Anacostia River and flats from the Anacostia Bridge northeast to the District line, and all appropriations heretofore made for said purpose are hereby made available for the purchase or condemnation of said land and for the payment of amounts awarded as damages for said land and the costs and expenses of the condemnation proceedings in the event that it is necessary to institute such condemnation proceedings: *Provided*, That if said land or any part thereof can not be acquired by purchase from the owners thereof at a price satisfactory to the Secretary of War, the Commissioners of the District of Columbia, upon the request of the Secretary of War, shall institute condemnation proceedings to acquire such land under the provisions of chapter fifteen of the Code of Law for the District of Columbia. | | |
| **SMALL PARKS.** | | |
| *Small Parks—* | | |
| For the condemnation of small park areas at the intersections of streets outside the limits of the original city of Washington, to be acquired from such areas shown on the map on file in the office of the engineer commissioner, in the discretion of the Commissioners of the District of Columbia (*act Mar. 4, 1913, vol. 37, p. 971, sec. 1*)..... | 25,000.00 | 25,000.00 |
| *Provided*, That such condemnation shall be under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia: *Provided further*, That of the amount found to be due and awarded by the jury in any such proceedings as damages for and in respect of the land to be condemned for said parks, plus the costs and expenses of the proceeding thereunder, not less than one-half thereof shall be assessed by the jury as benefits, which, when collected, shall be covered into the Treasury of the United States, one-half to the credit of the United States and one-half to the credit of the District of Columbia. The public parks so acquired shall become a part of the park system of the District of Columbia and be under the control of the Chief of Engineers of the United States Army. | | |
| **PARK.** | | |
| *Park—* | | |
| That the Commissioners of the District of Columbia be, and they are hereby, authorized and directed to acquire, by condemnation, under and in accordance with the provisions of subchapter 1 of chapter 15 of the Code of Law for the District of Columbia, for a public park, the tract of land known as the Patterson tract, lying north of Florida Avenue east, and bounded on the east by the gounds of the Columbia Institution for the Deaf and Dumb, on the west by New York Avenue and the tracks of the Baltimore & Ohio R. R. Co., and on the north by Fairview Avenue, as shown on a plat on file in the office of the engineer commissioner of the District of Columbia, containing 81 acres, more or less. And there is hereby appropriated an amount sufficient to pay the necessary costs and expenses of said condemnation proceedings taken pursuant hereto, and for the payment of amounts awarded as damages: *Provided, however*, That of the amount found to be due and awarded by the jury in said proceedings as damages for and in respect of the land to be taken in the condemnation proceedings herein authorized, not less than one-third thereof shall be assessed as benefits under the provision for the assessment of benefits in connection with the condemnation of land for public parks as contained in the District appropriation act for the fiscal year 1913, approved June 26, 1912, and said park when acquired shall become a part of the park system of the District of Columbia and be under the control of the Chief of Engineers, United States Army (*submitted*)..... | 375,000.00 | |
| NOTE.—This tract of land lies about 1½ miles northeast of the Capitol, just beyond Florida Avenue. It is one of the tracts recommended by the McMillan Park Commission to be acquired as a public park. As stated by the park commission:<br>"It is on the edge of the hilly section overlooking the city proper, and its northern part, high and undulating, is covered with a growth of large old trees, from the edge of which there is an inspiring outlook over the open southerly slope leading down to a broad, gentle pasture enlivened by a very few outstanding trees. There is probably no better example in the whole District of the 'park-like' type of landscape, using the word in its stricter sense, and its acquisition is desirable not only for the sake of its great natural beauty, but because its stretch of nearly level greensward, lying between Eckington and northeast Washington, would be of the utmost value to the future population of the surrounding region."<br>This tract is already largely used for recreation purposes by the residents of this section, and unless it is acquired for park purposes it is probable that it will soon be developed for building purposes, as a large portion of it is level ground available for building purposes. | | |

| **WATER DEPARTMENT.** | | |
| *Water Department*— | | |
| The following sums are appropriated to carry on the operations of the water department, to be paid wholly from its revenues, namely: | | |
| For revenue and inspection branch: | | |
| Water registrar, who shall also perform the duties of chief clerk (*R. S., pt. 2, p. 22, secs. 195–198; acts June 10, 1879, vol. 21, p. 9, sec. 1; Mar. 4, 1913, vol. 37, p. 971, sec. 1*). | $2,400.00 | |
| Clerk (*same acts*) | 1,500.00 | |
| Clerk (*same acts*) | 1,200.00 | |
| Two clerks, at $1,000 each (*same acts*) | 2,000.00 | |
| Index clerk (*same acts*) | 1,400.00 | |
| Six meter computers, at $1,000 each (3 additional submitted) (*same acts*) | 6,000.00 | |
| Clerk (*submitted*) | 1,000.00 | |
| NOTE.—The 3 meter computers at $1,000 each and the clerk at $1,000 are to take the place of per diem men at $2.50 a day continuously employed 310 days in a year, and are recommended because of the large increase in work due to the installation of meters. There has been no addition to the clerical force during the past two years, except that in order to handle the increased business it has been necessary to employ more per diem men. As these men are required for continuous service they should be provided for on the annual roll. | | |
| Chief inspector (*R. S., pt. 2, p. 22, secs. 195–198; acts June 10, 1879, vol. 21, p. 9, sec. 1; Mar. 4, 1913, vol. 37, p. 972, sec. 1*) | 1,000.00 | |
| Meter clerk (*same acts*) | 1,000.00 | |
| Tap clerk (*same acts*) | 1,000.00 | |
| Eight inspectors, at $900 each (*same acts*) | 7,200.00 | |
| Eleven inspectors, at $800 each (*same acts*) | 8,800.00 | |
| Messenger (*same acts*) | 600.00 | |
| For distribution branch: | | |
| Superintendent (*same acts*) | 3,300.00 | |
| NOTE.—The position of "draftsman at $1,600" is superseded by "assistant engineer at $2,000." See below. | | |
| Foreman (*same acts*) | 1,800.00 | |
| Clerk (*same acts*) | 1,500.00 | |
| Clerk (increase of $300 submitted) (*same acts*) | 1,800.00 | |
| NOTE.—This clerk has been in the employ of the department since October, 1903, and on July 1, 1913, was placed in charge of the accounting division, thereby increasing the force under him more than three-fold and his responsibilities to a degree which makes his present rate of compensation in marked disproportion to the service he renders. As the accounts under his charge amount in the aggregate to approximately $1,000,000 per annum for labor and material expended, the increase here asked is urged as being just and reasonable. | | |
| Three clerks at $1,200 each (*same acts*) | 3,600.00 | |
| Stores clerk (change of title from "clerk" and increase $300 submitted) (*same acts*) | 1,500.00 | |
| NOTE.—The division of stores has been wholly reorganized and largely through the efforts of the clerk for whom this increase is desired is now in excellent condition. The position of stores clerk (who is also the storekeeper) is a most responsible one, and is now inadequately paid. The approximate value of material bought yearly, all of which passes through the hands of this employee, is $475,000, and the value of stock on hand for the care of which he is responsible is about $200,000. The designation "stores clerk" is suggested as more appropriate than his present one. | | |
| Four clerks at $1,000 each (3 additional submitted) (*same acts*) | 4,000.00 | |
| NOTE.—The 3 additional clerks submitted are to take the place of per diem men at $2.50 a day continuously employed 310 days per year. The necessary volume of clerical work has increased greatly during the past few years, due in part to the growth of the department, and in part to more accurate methods of general accounting and cost keeping. Much of this work is now of necessity done by skilled laborers paid on a per diem basis. | | |
| Clerk (*same acts*) | 900.00 | |
| Timekeeper (*same acts*) | 900.00 | |
| Assistant foreman (*same acts*) | 900.00 | |
| Three steam engineers at $1,200 each (increase of $100 each submitted) (*same acts*) | 3,600.00 | |
| NOTE.—One of these engineers has been in the employ of the department since August, 1900; one since January, 1895; and one since July, 1898. Besides being thoroughly efficient and deserving promotion for that reason alone, these three employees are paid less than men engaged on similar work at the sewage pumping station at $1,200 per annum. | | |
| Assistant engineer (*same acts*) | 2,400.00 | |
| Assistant engineer (*submitted*) | 2,000.00 | |
| NOTE.—In a recent reorganization of the department a new division was formed, known as that of "Plans, estimates, and tests." This division is charged with the preparation of all plans and estimates; all necessary drawings and specifications, and the execution of all tests and experiments. The man in charge of this work is necessarily an engineer and should be so rated and paid. The new position of assistant engineer at $2,000 is desired for this, and it is the intention if the position should be created to appoint the employee now in charge of the division and carried as "draftsman," and to abolish his present position as "draftsman." | | |
| Assistant engineer (*R. S., pt. 2, p. 22, secs. 195–198; June 10, 1879, vol. 21, p. 9, sec. 1; Mar. 4, 1913, vol. 37, p. 972, sec. 1*) | 1,600.00 | |
| Leveler (*same acts*) | 1,200.00 | |
| Two rodmen, at $900 each (*same acts*) | 1,800.00 | |

| For distribution branch—Continued. | | | |
| Two chainmen, at $675 each (*R. S., pt. 2, p. 22, secs. 195–198; June 10, 1879, vol. 21, p. 9, sec. 1; Mar. 4, 1913, vol. 37, p. 972, sec. 1*) | $1,350.00 | | |
| Draftsman (*same acts*) | 1,050.00 | | |
| NOTE.—It is recommended that the positions of "storekeeper at $1,000" and "assistant storekeeper at $750" be discontinued as the stores clerk, assisted by skilled laborers, performs all duties pertaining to the care and issue of material. | | | |
| Assistant foreman (*same acts*) | 1,275.00 | | |
| Assistant foreman (*same acts*) | 1,200.00 | | |
| Assistant foreman (*same acts*) | 1,125.00 | | |
| Chief steam engineer (*same acts*) | 1,750.00 | | |
| Three assistant steam engineers at $1,050 each (increase of $175 each submitted) (*same acts*) | 3,150.00 | | |
| NOTE.—One of these men has been in the employ of the department since July, 1898; one since November, 1899, and one since July, 1900. They are deserving of promotion for their efficiency alone, and are entitled to the increase asked to put them on the same pay basis with employees of the sewage pumping station who receive $1,050 per annum for similar services. | | | |
| Four oilers, at $610 each (*same acts*) | 2,440.00 | | |
| Three firemen, at $875 each (*same acts*) | 2,625.00 | | |
| Inspector (*same acts*) | 1,200.00 | | |

| Watchman (*same acts*) | 700.00 | | |
| Watchman (*same acts*) | 610.00 | | |
| Driver (*same acts*) | 700.00 | | |
| Two messengers, at $540 each (*same acts*) | 1,080.00 | | |
| Driver (*same acts*) | 630.00 | | |
| Chief inspector of valves (increase of $400 submitted) (*same acts*) | 1,800.00 | | |
| NOTE.—This is a position which has developed in connection with the systematic care of the five or six thousand street valves of the distribution system. Mr. Beckett has been on this work for 10 years and his service is eminently satisfactory. The position is now vacant. Mr. Beckett's pay as an inspector on the per diem roll at $5 per day exceeds the current appropriation of $1,400, and on account of it being frequently necessary for him to work overtime, for which he is paid, about equals the increase here asked. | | | |
| Master mechanic (*submitted*) | 2,000.00 | | |
| NOTE.—The man now employed as chief steam engineer of the department is also acting as master mechanic. The volume of work done has so increased that in justice both to the work and to the man in charge this new position should be created. The chief steam engineer now has direct personal supervision not only over an $800,000 steam pumping plant with a capacity of 100,000,000 gallons daily, but of a brass foundry, blacksmith shop, machine shop, woodworking shop, paint shop, and electrical shop. He also has charge of two minor pumping stations at Reno and Anaconda. | | | |
| For contingent expenses, including books, blanks, stationery, printing, postage, damages, purchase of technical reference books and periodicals not to exceed $75, and other necessary items (increase of $700 submitted) (*R. S., pt. 2, p. 22, secs. 195–198; acts June 10, 1879, vol. 21, p. 9, sec. 1; Mar. 4, 1913, vol. 37, p. 972, sec. 1*) | 5,500.00 | | |
| NOTE.—The increase asked is urged because the current appropriation is so inadequate as to seriously embarrass the business of the department. | | | |
| For fuel, repairs to boilers, machinery, and pumping stations, pipe distribution to high and low service, material for high and low service, including public hydrants and fire plugs, and labor in repairing, replacing, raising and lowering mains, laying new mains and connections, and erecting and repairing fire plugs, purchase and maintenance of motor vehicles, horses, wagons, carts and harness necessary for the proper execution of this work, and including a sum not exceeding $800 for the purchase and use of bycicles by inspectors of the water department: *Provided*, That no part of this fund shall be expended for the purchase or maintenance of horses or horse-drawn vehicles for inspection purposes for those employees provided with motor vehicles thereunder (*same acts*) | 37,000.00 | | |
| | | $136,860.00 | $126,685.00 |

LEGISLATION.

For continuing the extension of and maintaining the high service system of water distribution, laying necessary service and trunk mains for low service, and purchasing, installing, and maintaining water meters on services to such private residences and to such business places as may not be required to install meters under existing regulations as may be directed by the Commissioners of the District of Columbia, said meters at all times to remain the property of the District of Columbia, to include all necessary land, machinery, buildings, mains, and appurtenances, and labor, and the purchase and maintenance of horses, wagons, carts, and harness necessary for the proper execution of this work, so much as may be available in the water fund during the fiscal year 1915, after providing for the expenditures hereinbefore authorized, is hereby appropriated.

SEC. 2. That the services of draftsmen, assistant engineers, levelers, transitmen, rodmen, chainmen, computers, copyists, overseers, and inspectors temporarily required in connection with sewer, street, street cleaning, or road work, or the construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations may be employed exclusively to carry into effect said appropriations when specifically and in writing ordered by the Commissioners of the District, and all such necessary expenditures for the proper execution of said work shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners of the District in their annual estimates shall report the number of such employees performing such services, and their work, and the sums paid to each, and out of what appropriation: *Provided*, That the expenditures hereunder shall not exceed $55,000 during the fiscal year nineteen hundred and fifteen.

NOTE (by superintendent of street cleaning).—The foremen provided for dust prevention, cleaning and snow removal under salaries, District of Columbia, are sufficient for the minimum of work, but when the maximum amount of work is being done the number of foremen is not sufficient and the new wording is submitted to provide additional foremen temporarily at this time.

NOTE.—The limitation for expenditures for per diem service of employees provided for in this section has been reduced from the amount named last year, $70,000, to $55,000, this reduction being the total of per diem salaries chargeable to this limitation which have been recommended to be placed on an annual basis. If these salaries are not placed on the annual basis the amount should remain $70,000.

The Commissioners of the District of Columbia are further authorized to employ temporarily such laborers, skilled laborers, drivers, hostlers, and mechanics as may be required exclusively in connection with sewer, street, and road work, and street cleaning, or the construction and repair of buildings and bridges, furniture and equipments, or any general or special engineering or construction or repair work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, drivers, hostlers, and mechanics to be employed to perform such work as may not be required by law to be done under contract, and to pay for such services and expenses from the appropriations under which such services are rendered and expenses incurred.

SEC. 3. That all horses, harness, horse-drawn, and motor vehicles necessary for use in connection with the construction and supervision of sewer, street, street lighting, road work, and street-cleaning work, including the maintenance of said horses and harness, and the maintenance and repair of said vehicles, and the purchase of all necessary articles and supplies in connection therewith, or on construction and repair of buildings and bridges, or any general or special engineering or construction work authorized by appropriations, may be purchased, hired, and maintained exclusively to carry into effect said appropriations, when specifically and in writing ordered by the Commissioners of the District of Columbia; and all such expenditures necessary for the proper execution of said

| LEGISLATION—continued. | | |
| work, exclusive of personal services, shall be paid from and equitably charged against the sums appropriated for said work; and the Commissioners of the District in the annual estimates shall report the number of horses, vehicles, and harness purchased, and horses and vehicles hired, and the sums paid for same, and out of what appropriation; and all horses owned or maintained by the District shall, so far as may be practicable, be provided for in stables owned or operated by said District: *Provided*, That such horses, horse-drawn vehicles, and carts as may be temporarily needed for hauling and excavating material in connection with works authorized by appropriations may be temporarily employed for such purposes under the conditions named in section two of this act in relation to the employment of laborers, skilled laborers, and mechanics: *And provided further*, That no expenditures of funds herein appropriated shall be available for the purchase or maintenance of horses or horse-drawn vehicles for inspection purpose for those officials or employees provided with motor vehicles. | | |
| SEC. 4. That the services of assistant engineers, draftsmen, levelers, rodmen, chainmen, and inspectors temporarily required in connection with water-department work authorized by appropriations may be employed exclusively to carry into effect said appropriations, and be paid therefrom, when specifically and in writing ordered by the Commissioners of the District, and the Commissioners of the District in their annual estimates shall report the number of such employees performing such services and their work and the sums paid to each: *Provided*, That the expenditures hereunder shall not exceed $13,200 during the fiscal year nineteen hundred and fifteen. | | |
| NOTE.—The increase here asked is justified by the growth of the department. | | |
| The Commissioners of the District of Columbia are further authorized to employ temporarily such laborers, skilled laborers, and mechanics as may be required in connection with water-department work, and to incur all necessary engineering and other expenses, exclusive of personal services, incidental to carrying on such work and necessary for the proper execution thereof, said laborers, skilled laborers, and mechanics to be employed to perform such work as may not be required by existing law to be done under contract, and to pay for such services and expenses from the appropriation under which such services are rendered and expenses incurred. | | |
| SEC. 5. The Commissioners of the District of Columbia are authorized to employ in the execution of work the cost of which is payable from the appropriation account created in the District of Columbia appropriation act for the fiscal year 1905, approved Apr. 27, 1904, and known as the "Miscellaneous trust fund deposits, District of Columbia," all necessary personal and other services, to purchase, maintain, and hire means of transportation for supervision and operation, to purchase, maintain, and hire equipment and machinery, and to incur all necessary engineering and other expenses incidental to carrying on such work and necessary for the proper execution thereof, and all expenses in connection wi h said appropriation account shall be paid therefrom. | | |
| NOTE.—The moneys comprising this account represent deposits made with the collector of taxes, which are covered into the Treasury, by corporations, firms, and individuals to cover the cost of work in public space, for their benefit. The work is performed by the District and the cost thereof charged against the several deposits. This account should therefore bear all expenses of whatever character that the commissioners, in their discretion, deem necessary for the proper execution of work for which the deposits are made. The present wording of the appropriation account is obsolete in several respects and fails to give the commissioners the latitude that they should possess in authorizing expenditures payable from the deposits. Furthermore, the language of the present wording is vitally defective, in that it fails to overcome certain legislative restrictions as to the purchase and maintenance of horses and wagons, and the employment of necessary personal services. This appropriation account is self-supporting and in no way a charge upon the revenues of the United States or the District of Columbia. As a matter of fact, the commissioners have not at this time as large authority in the expenditure of moneys to the credit of this appropriation account as they have under regular engineering and construction appropriations. It is to remedy this condition and to give the commissioners ample power that the change in the law is recommended. | | |
| SEC. 6. The Commissioners of the District of Columbia shall not make requisitions upon the appropriations from the Treasury of the United States for a larger amount during the fiscal year 1915 than they make on the appropriations arising from the revenues, including drawback certificates, of said District. | | |

| *Miscellaneous Indefinite Appropriations.* | | | |
| *Refunding Taxes, District of Columbia—* | | | |
| For payment of amounts collected by the District erroneously, on account of taxes, fines, fees, and similar charges, which are returned to the respective parties who may have erroneously paid the same (chargeable to the revenues of the District of Columbia) (*act June 11, 1878,*[1] *vol. 20, pp. 102–108, secs. 3, 4*) | 35,000.00 | 30,000.00 | 31,002.96 |
| *Extension of Streets and Avenues, District of Columbia—* | | | |
| In the various appropriations on account of extension of streets and avenues in the District of Columbia it has been the practice to make the payment of the amounts awarded as damages resulting from condemnation proceedings indefinite, inasmuch as no estimate could be made as to the amount that would be awarded by the jury of condemnation in the several causes (chargeable to the revenues of the District of Columbia) (*act Mar. 3, 1899,*[2] *vol. 30, p. 1345, sec. 6*) | 40,000.00 | 40,000.00 | 22,901.68 |
| *Payment of Canceled Checks, District of Columbia—* | | | |
| No expenditures have been made from this appropriation for some time past, and it is presumed no payments will be made during 1915 (*act June 30, 1898, vol. 30, p. 543, sec. 1*). | | | |
| *Damages, Change of Grade, Union Station, District of Columbia—* | | | |
| This appropriation is indefinite in amount, being dependent upon the amounts assessed as damages incident to changes of grade arising by reason of new railway terminal work (chargeable one-half to the revenues of the District of Columbia and one-half to the United States) (*act Apr. 22, 1904, vol. 33, p. 251, sec. 7*) | | | 150.00 |
| *Special Funds.* | | | |
| *Water Fund, District of Columbia—* | | | |
| Estimated for in the District of Columbia chapter, page 707 (*acts June 11, 1878, vol. 20, pp. 102–107, secs. 1–5; July 1, 1882, vol. 22, p. 144, sec. 2*). | | | |
| *Industrial Home School Fund, District of Columbia—* | | | |
| This fund is derived from collections made on account of sale of farm and greenhouse products by inmates of said school, and is used for miscellaneous expenses of maintenance, etc., on account of that institution (*act June 11, 1896, vol. 29, p. 411, sec. 1*) | 6,000.00 | 4,500.00 | 5,085.98 |
| *Industrial Home School for Colored Children Fund, District of Columbia—* | | | |
| This fund arises from receipts, as explained in the preceding paragraph (*act May 26, 1908, vol. 35, p. 306, sec. 1*) | 300.00 | 500.00 | 193.44 |
| *Militia Fund from Fines, District of Columbia—* | | | |
| This fund is derived from fines imposed upon officers and men of the District Militia, and is used for the payment of clerical and miscellaneous expenses of the said militia (*act Mar. 1, 1901, vol. 31, p. 845, sec. 1*) | 4,000.00 | 5,000.00 | 3,000.00 |

| *Refund to Depositors Excess of Deposits, National Forests Fund—* | | | |
| That all money received after July 1, 1907, by or on account of the Forest Service for timber, or from any other source of forest-reservation revenue, shall be covered into the Treasury of the United States as a miscellaneous receipt; and there is hereby appropriated and made available as the Secretary of Agriculture may direct, out of any funds in the Treasury not otherwise appropriated, so much as may be necessary to make refunds to depositors of money heretofore or hereafter deposited by them to secure the purchase price on the sale of any products or for the use of any land or resources of the national forests in excess of amounts found actually due from them to the United States. | | | |
| That so much of an act entitled "An act making appropriations for the Department of Agriculture for the fiscal year ending June 30, 1908," approved Mar. 4, 1907 (34 Stat. L., pp. 1256, 1270), which provides for refunds by the Secretary of Agriculture to depositors of moneys to secure the purchase price of timber or the use of lands or resources of the national forests such sums as may be found to be in excess of the amounts found actually due the United States, be, and is hereby, amended hereafter to appropriate and to include so much as may be necessary to refund or pay over to the rightful claimants such sums as may be found by the Secretary of Agriculture to have been erroneously collected for the use of any lands, or for timber or other resources sold from lands located within, but not a part of, the national forests, or for alleged illegal acts done upon such lands, which acts are subsequently found to have been proper and legal; and the Secretary of Agriculture shall make annual report to Congress of the amounts refunded hereunder (*acts Mar. 4, 1907, vol. 34, pp. 1256, 1270, sec. 1; Mar. 4, 1911, vol. 36, p. 1253, sec. 1*)..... | $60,000.00 | $60,000.00 | $75,652.72 |
| *Acquisition of Lands for Protection of Watersheds of Navigable Streams—* | | | |
| That there is hereby appropriated, for the fiscal year ending June 30, 1910, the sum of $1,000,000, and for each fiscal year thereafter a sum not to exceed $2,000,000 for use in the examination, survey, and acquirement of lands located on the headwaters of navigable streams or those which are being or which may be developed for navigable purposes: *Provided*, That the provisions of this section shall expire by limitation on the 30th day of June, 1915 (*act Mar. 1, 1911, vol. 36, p. 961, sec. 5*)..... | 2,000,000.00 | 2,000,000.00 | 897,245.99 |
| *National Forest Reservation Commission—* | | | |
| That a sum sufficient to pay the necessary expenses of the commission and its members, not to exceed an annual expenditure of $25,000, is hereby appropriated out of any money in the Treasury not otherwise appropriated. Said appropriation shall be immediately available and shall be paid out on the audit and order of the president of the said commission, which audit and order shall be conclusive and binding upon all departments as to the correctness of the accounts of said commission (*act Mar. 1, 1911, vol. 36, p. 963, sec. 14*)..... | 25,000.00 | 25,000.00 | |
| *Special Funds.* | | | |
| *Payment to States and Territories from the National Forests Fund—* | | | |
| That hereafter 25 per cent of all money received from each forest reserve during any fiscal year, including the year ending June 30, 1908, shall be paid at the end thereof by the Secretary of the Treasury to the State or Territory in which said reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which the forest reserve is situated: *Provided*, That when any forest reserve is in more than one State or Territory or county the distributive share to each from the proceeds of said reserve shall be proportional to its area therein (*acts Mar. 4, 1907, vol. 34, p. 1270, sec. 1; May 23, 1908, vol. 35, p. 260, sec. 1*)..... | 600,000.00 | 586,593.39 | 506,603.58 |
| *Payment to States from Receipts from Lands Acquired for Protection of Watersheds of Navigable Streams—* | | | |
| That 5 per cent of all moneys received during any fiscal year from each national forest into which the lands acquired under this act may from time to time be divided shall be paid, at the end of such year, by the Secretary of the Treasury to the State in which such national forest is situated, to be expended as the State legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which such national forest is situated: *Provided*, That when any national forest is in more than one State or county the distributive share to each from the proceeds of such forest shall be proportional to its area therein: *Provided further*, That there shall not be paid to any State for any county an amount equal to more than 40 per cent of the total income of such county from all other sources (*act Mar. 1, 1911, vol. 36, p. 963, sec. 13*)..... | 1,000.00 | 1,000.00 | |
| *Cooperative Work, Forest Investigations—* | | | |
| Hereafter all moneys received as contributions toward cooperative work in forest investigations shall be covered into the Treasury and shall constitute a special fund, which is hereby appropriated and made available until expended, as the Secretary of Agriculture may direct, for the payment of the expenses of said investigations by the Forest Service and for refunds to the contributors of amounts heretofore or hereafter paid in by them in excess of their share of the cost of said investigations (*acts Mar. 3, 1905, vol. 33, p. 1070, sec. 1; June 30, 1906, vol. 34, p. 684, sec. 1*)..... | 10,000.00 | 10,000.00 | 1,962.83 |

REMARKS.

*Manuscripts division.*—One assistant (stenographer and typewriter), at $900.

An assistant who is a stenographer and typewriter is required to attend to the correspondence of the division in connection with the acquisition of manuscript material and to aid in the preparation of the publications of the division. One is needed with the necessary education and training to search intelligently for historical data, to transcribe manuscripts into typewriting (often difficult because of the handwriting), to prepare copy for the printer, and to read and correct proof.

*Reading room.*—Two junior stack assistants, at $600 each.

Since July 1, 1911, there have been added to the Library 236,502 volumes of which 200,000 are shelved in the reading-room stacks—in particular in the recently erected southeast stack. In the meantime there has been no increase in the number of stack assistants and the force as provided is inadequate properly to cover the additional stack space now in use. The need for two additional junior stack assistants is, therefore, pressing.

*Proposed increases of salary not included in former estimates.*—When in 1897 the Library was moved over from the Capitol it was a mass of nearly a million books and pamphlets, and nearly a half million of other articles—undigested and largely unsorted. It lacked a modern classification or catalogue, a shelf-list, and the other, even the most elementary, apparatus of record and use. When, in 1899, I assumed charge of it the most of this was still to be provided.

At the first opportunity I described the needs and outlined an organization to meet them. In doing so I recognized that the staff proposed—and the aggregate of salaries—must seem large in comparison with the one then existing. I wished to keep it as low as possible. I foresaw that a good deal of the preliminary work—upon the mass of material—could be taken care of by "junior" employees not necessarily permanent; and I anticipated that even persons with considerable education and library training might be attracted to our service by small salaries, in the hope of advancement later. Accordingly I proposed a number of positions ranging from $900 down as low as $360 per annum.

Another situation now presents itself. With the collection now doubled by accessions, the mass to be treated requires still every position now on the rolls, but the processes require a service substantially permanent. For the present work now paid at from $600 to $1,000 per annum we are now under duty not merely to get but to hold the employees, or to lose the invaluable asset of their experience and training in our methods. We are not succeeding. The best of them are leaving us for better salaries elsewhere, and those who remain are engaged in an incessant struggle to meet expenses which during the 14 years have increased steadily with the cost of living. It is hard for them, it is injurious to their efficiency, and it brings the Library into discredit in comparison with other Government establishments.

A few of the lower salaries—for elementary junior work—may still be retained to advantage, and without injustice; and 29 of them are retained in the estimates. I recommend, however, a regrading of 150 positions ranging now from $360 to $1,080 per annum.

In place of $360 for the lowest grade, I recommend $480. There are 28 such positions. The 19 positions now paid $480, $520, and $540, and now largely occupied by adults, I would raise to $600. One at $600 should go to $900. (The position is that of a telephone operator in the reading room. She has to handle calls largely from the scientific bureaus for books with difficult titles and in foreign languages, and should not merely be quick and accurate, but have a knowledge of foreign languages.)

To the other groups I refer in detail in the inverse order of the salaries:

Fifty-eight assistants at $900; 4 increased from $800 and 54 from $720.

The positions at $800 and $720, which it is proposed to increase to $900, require the services of men and women of education. Sixty dollars a month is no longer an adequate compensation for such adults.

Of the 58 assistants at $800 and $720, 11 have been in the service of the Library for over 10 years and 17 for more than 5 and less than 10 years. Of the remaining 30, 13 are graduates of universities or colleges, and nine of these had had library training before their appointment to the Library service. Of the other 17, 4 had had library training and 6 are stenographers and typewriters.

Thirty assistants at $1,080; increased from $900.

Of the 30 positions that would be affected 10 are filled at present by persons trained before entering the Library, all of them college graduates and all of them with a knowledge of at least two foreign languages, and some of four or five foreign languages. Seven more had had library training or experience before coming to the Library of Congress; and of the remaining 13, one has been in the Library service for 16 years, two for 14 years, one for 13 years, three for 11 years, one for 8 years, three for 7 years, and one for 5 years.

Eight assistants at $1,080; increased from $1,000.

Of these 8 positions 6 are connected with the Catalogue Division, and call for special training and experience. I list below the assistants who hold these positions at the present time, together with a statement of their qualifications when appointed. I may add that of these 6 assistants one has been in the service for 10 years, three for 9 years and the other two for 6 and 5 years, respectively.

Brown, Nellie B. Iowa. Central High School, Washington; George Washington University; Washington Public Library (7 years), 1900–1907; United States Bureau of Education, 1908. Languages: Good working knowledge of German; slight knowledge of French.

Koehler, Hedwig J. Massachusetts. High school, Roxbury, Mass.; editor's assistant, American Art Review; with Boston Society of Decorative Art and Associated Artists, New York; assistant curator, prints department, Boston Museum of Fine Arts, 1890–1899; assistant, 1899–1904 (classifying and cataloguing prints). Special service, Library of Congress. Languages: German, French; working knowledge of Italian, Dutch, and Spanish.

Ladd, Mary B. District of Columbia. Western High School, Washington; Columbian University, certain courses; Columbian University Library School. Languages: Reading knowledge of French and German; cataloguing knowledge of Latin and Spanish.

Digitized by Google

Manypenny, Sara L. Tennessee. Private tutors in Paris, Berlin, Geneva; Girls' High School, Hanover, Germany; Southern Library Training School, Atlanta, Ga.; proof reader, teacher. Languages: German, French; cataloguing knowledge of Italian and Spanish.

Nelson, Ina F. West Virginia. West Virginia State Normal School (graduate); Eastman Business College; West Virginia University; Drexel Institute Library School (graduate); teacher of English and mathematics; cataloguing work, Jefferson Medical College library; assistant librarian, West Virginia University library; typewriting. Languages: Good working knowledge of French and German; slight knowledge of Latin.

Patterson, Grey. Pennsylvania. University of Wooster, Ohio; Carnegie Free Library, Allegheny, Pa. (delivery and reference work, 1891–1893; head cataloguer, 1894–1902). Languages: German, French; working knowledge of Latin.

Finally, there is a group of five positions as to which there are additional special considerations. They are listed as—

Five assistants, at $1,200; increased from $900.

These five positions are at the delivery desk in the main reading room. They are concerned with the direct service of books, and aid to readers; not merely to the general public, but to Senators and Representatives presenting requests or inquiries there. Even with the best efforts of the higher officials to deal with the more difficult questions a large percentage of these must be handled by these men. To handle them efficiently and discreetly they must have had the equivalent of a college education, library training or experience, tact, and address. At $900 we have never succeeded in keeping such men. Now we can no longer even get them.

Certain letters received during the past year will sufficiently indicate the situation. I quote from three of them:

Letter of J. I. Wyer, jr., director New York State Library School, December 14, 1912:

I know that in times past we have occasionally been able to recommend a man for your reading room who has seemed to have suitable equipment and who was willing to begin at $900. I declare that we may never be able to do this again. * * * Certainly at the present time I know of no one to suggest to you.

Letter of J. C. M. Hanson, associate director, University of Chicago libraries, December 19, 1912:

I have delayed my answer to your inquiry of December 12 in the hope that some person might come to my notice likely to qualify for the position mentioned. If a woman were wanted I could supply several names, but it seems almost hopeless now to secure a man with some education and training for $900 a year, at any rate here in Chicago. * * *

Letter of Miss J. A. Rathbone, vice director, School of Library Science, Pratt Institute, January 6, 1913:

You may be sure that your letter of December 12 would not have gone so long unanswered if I had had any man to recommend to you. Not one of our men graduates, whom I think at all fitted for the work at Washington, is getting as little as $900, so I can be of no assistance in the matter.

I give below a list of the present assistants together with a statement of the qualifications they presented when appointed:

Castimore, Clarence. Pennsylvania. Waverly (Pa.) High School; Colgate University, A. B.; with Colgate University library 3 years. Languages: Working knowledge of German, French, and Greek.

Collins, Charles W. Alabama. Alabama Polytechnic Institute, B. Sc.; University of Chicago, Ph. B. and A. M.; student librarian of Haskell Oriental Museum, University of Chicago (1 year); Harvard University (1 year)—graduate student constitutional law; law student (private tuition—3 years); admitted to Alabama bar, 1901; author of "The Fourteenth Amendment and the States"; "Contemporary British Criticism of the Fourteenth Amendment." Languages: Reading knowledge of French and German; working knowledge of Latin, Greek, Hebrew, and Arabic.

Dowdell, Thomas J. Alabama. Public schools, Montgomery, Ala.; Alabama Polytechnic Institute, B. S. 1903; assistant in library, Alabama Polytechnic Institute, 1903–4; typewriting. Languages: Working knowledge of French and German.

Keyser, Herbert F. New Hampshire. Colgate University, A. B.; with Colgate University library (summer 1911); teacher; typewriting, bookkeeping. Languages: Working knowledge of French, German, and Latin.

Wilson, George H. Pennsylvania. Central High School, Washington; George Washington University, 1906–7; Washington Public Library; typewriting. Languages: French; working knowledge of German; high-school courses in Latin and Greek.

*The regrading of these 150 positions would involve an additional annual expenditure of $23,020. This is no trifling sum. It would represent, however, an addition of but 6 per cent to the present appropriations for salaries; it would benefit no less than 150 persons—nearly 40 per cent of the entire staff; and it would give a lift to the service and assurance to the work far beyond the amount involved.*

*Note.—The proposal does not extend to the Copyright Office, the service in which is now more nearly on the basis of the executive departments.*

*Card distribution.*—Increase of $3,500 requested.

The volume of business increases at the rate of about 20 per cent per annum.

During the year 1912–13 the receipts from sales covered into the Treasury exceeded by $22,206.44 the appropriation for service.

In the past four years the receipts have increased from $24,452 in 1909 to $46,706 in 1913; a gain of $22,254, or nearly 100 per cent.

For the same period the appropriation for service has increased from $16,800 for 1909 to $24,500 for 1913; an advance of $7,700, or 45 per cent.

The appropriation for 1914 is $30,000.

The sales for the first quarter of the year 1913–14 ($12,096) exceed by nearly $2,800 the sales for the first quarter of the year 1912–13 ($9,308), an increase of 30 per cent.

*Increase of the Library.*—For purchase of books: For general increase $100,000 per annum is but a normal sum. From 1908 until 1911, inclusive, it was annually granted. For 1911–12 it was reduced to $90,000, and continued at that sum for the years 1912–13 and 1913–14.

Very respectfully,

HERBERT PUTNAM, *Librarian of Congress.*

The SECRETARY OF THE TREASURY,
*Washington, D. C.*

### *STATE DEPARTMENT.*

DEPARTMENT OF STATE,
*Washington, November 8, 1913.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to inclose herewith the estimates of this department for the fiscal year ending June 30, 1915.

* * * * * * * * *

Report required by section 2 of the act of July 11, 1890 (26 Stat. L., p. 268), and section 7 of the act of March 2, 1895 (28 Stat. L., p. 808):

EFFICIENCY OF EMPLOYEES.

There are no employees of the Department of State below a fair standard of efficiency.

CONDITION OF BUSINESS.

The business of the Department of State is not in arrears, with the exception of certain claim cases, which are necessarily delayed, and the cataloguing of the library, which is being done as the current work will permit.

* * * * * * * * *

I have the honor to be, sir, your obedient servant,

W. J. BRYAN.

### *TREASURY DEPARTMENT.*

*WAR DEPARTMENT.*

WAR DEPARTMENT,
*Washington, November 10, 1913.*

The SECRETARY OF THE TREASURY,
*Washington, D. C.*

SIR: In compliance with the provisions of section 2 of the act approved July 11, 1890 (26 Stat., p. 268), I have the honor to report, for the information of Congress, that the only employees in the War Department below a fair standard of efficiency are as follows:

1 clerk at $1,400 per annum in the Office of the Secretary of War.
2 clerks at $1,200 per annum in the Office of the Chief of the Quartermaster Corps.
1 assistant messenger at $720 per annum in the Office of the Chief of Engineers.

The department is taking steps to remedy these cases.

In compliance with the requirements of section 7 of the act approved March 2, 1895 (28 Stat., p. 808), I have also to report that the current work of the War Department is not in arrears, and that one clerk, at $1,200 per annum, in the Office of the Secretary of War, has been detailed to the General Supply Committee for a period exceeding one year.

Very respectfully,

HENRY BRECKINRIDGE,
*Acting Secretary of War.*

*NAVY DEPARTMENT.*

NAVY DEPARTMENT,
*Washington, October 15, 1913.*

SIR: I have the honor to transmit herewith estimates of the appropriations required by this department for the fiscal year ending June 30, 1915. * * *

In accordance with the requirements of section 7 of the act of March 2, 1895 (28 Stat., 808), I have to report that the current work of the Navy Department is not in arrears, and, further, that employees filling the following-described positions have been on detail for a period of more than one year, viz:

1 clerk, at $1,600 per annum, from the Office of the Secretary to the Office of the Judge Advocate General.
1 clerk, at $1,800 per annum, from the Office of the Judge Advocate General to the Office of the Secretary.
1 clerk, at $1,000 per annum, from the Office of the Judge Advocate General to the Office of the Secretary.
1 laborer, at $660 per annum, from the Hydrographic Office to the Office of the Secretary.
1 clerk, at $1,000 per annum, from the Bureau of Supplies and Accounts to the Secretary's Office.
1 clerk, at $1,600 per annum, from the Bureau of Yards and Docks to the Bureau of Supplies and Accounts.
1 clerk, at $1,200 per annum, from the Office of the Secretary to the Office of the Solicitor.
1 clerk, at $1,400 per annum, from the Office of the Solicitor to the Office of the Judge Advocate General.

Respectfully, yours,

JOSEPHUS DANIELS.

The SECRETARY OF THE TREASURY.

*INTERIOR DEPARTMENT.*

DEPARTMENT OF THE INTERIOR,
*Washington, October 24, 1913.*

MY DEAR MR. MCADOO: I have the honor to state, in compliance with section 7 of the act of Congress approved March 2, 1895 (28 Stat., 808), that the work of this department is substantially up to date with exception of the office of the assistant attorney general for this department, the General Land Office, the Bureau of Pensions, and the Patent Office. The work in the bureaus named is, however, being expeditiously prosecuted and the arrearages are being gradually reduced. As to the assistant attorney general's office, an increase in the force thereof will be necessary to the reduction of arrearages in the work therein, and estimates for such additional force have been submitted.

Respectfully,

FRANKLIN K. LANE.

Hon. WILLIAM G. MCADOO,
*Secretary of the Treasury.*

SIR: In compliance with the provisions of the act of Congress approved July 11, 1890 (26 Stat., 268), I have to report that the persons holding the following-described positions in the Department of Commerce are rated below a fair standard of efficiency:

1 clerk $1,400 per annum, Bureau of the Census.
1 clerk at $1,200 per annum, Bureau of the Census.
1 engineer at $1,000 per annum, Bureau of the Census.
1 skilled laborer at $720 per annum, Bureau of the Census.
2 charwomen at $240 each per annum, Bureau of the Census.

Complying with the act of Congress approved March 2, 1895 (28 Stat., 808), I have to report that no employees of the department were detailed from one bureau or office to any other bureau or office for a period of more than one year prior to June 30, 1913.

With reference to the provision of the act of March 2, 1895 (28 Stat., 808), I have to advise that the work of the department is not in arrears at the present time.

Respectfully,

E. F. SWEET,
*Acting Secretary.*

The SECRETARY OF THE TREASURY.

*DEPARTMENT OF LABOR.*

DEPARTMENT OF LABOR,
OFFICE OF THE SECRETARY,
*Washington, October 21, 1913.*

The SECRETARY OF THE TREASURY.

SIR: * * * In accordance with section 2 of the act of July 11, 1890 (26 Stat., 268), I have to report that the only person in the Department of Labor who is rated below a fair standard of efficiency is a copyist at $900 per annum in the Bureau of Labor Statistics.

Complying with the provisions of the act of Congress approved March 2, 1895 (28 Stat., 808), I have to report that one clerk of class three was detailed from the Bureau of Immigration to the disbursing office in the Office of the Secretary during the entire fiscal year ended June 30, 1913. The position held by this clerk was transferred from the Bureau of Immigration to the Office of the Secretary by the legislative, executive, and judicial appropriation act approved March 4, 1913.

I have also to report, in accordance with the last-mentioned act, that the business of the various branches of the Secretary's Office and of the Bureau of Naturalization is in arrears at the present time.

Respectfully,

W. B. WILSON,
*Secretary.*

*DEPARTMENT OF JUSTICE.*

DEPARTMENT OF JUSTICE,
*Washington, D. C., October 15, 1913.*

The SECRETARY OF THE TREASURY.

SIR: * * * In accordance with section 2 of the act of July 11, 1890 (26 Stat. L., p. 268), it is reported that there are no employees in this department, so far as officially informed, who are below a fair standard of efficiency in the work assigned them, and, in conformity with section 7 of the act approved March 2, 1895 (28 Stat. p. 808), it is reported that the business of the department is not in arrears.

Respectfully,

J. C. MCREYNOLDS,
*Attorney General.*

*SMITHSONIAN INSTITUTION.*

SMITHSONIAN INSTITUTION,
*Washington, October 13, 1913.*

The SECRETARY OF THE TREASURY, *Washington, D. C.*

SIR: In compliance with section 7 of the act of Congress approved March 2, 1895, I have the honor to state that, within the limits of the appropriations, the business of the several branches of the Government service under the direction of the Smithsonian Institution, namely, the International Exchanges, the Bureau of American Ethnology, the International Catalogue of Scientific Literature, the Astrophysical Observatory, the United States National Museum, and the National Zoological Park, has been conducted in a satisfactory manner, and no arrearages exist in the current work. The usefulness of these several branches would, however, be increased should additional funds be granted.

I am, sir, your obedient servant,

CHARLES D. WALCOTT,
*Secretary.*

*INTERSTATE COMMERCE COMMISSION.*

INTERSTATE COMMERCE COMMISSION,
*Washington, October 11, 1913.*

The SECRETARY OF THE TREASURY.

SIR: In conformity with the requirements of section 7 of the act approved March 2, 1895 (28 Stat., p. 808), I have the honor to advise, for the information of Congress, that the work of the commission is not actually in arrears, but it is manifest that some additions to the force will have to be made, unless the matters brought to the commission are reduced in number, which at this time seems improbable. On the contrary, the work is continually increasing in all departments, and if additional duties are placed upon the commission it would be essential that the appropriation be increased.

Respectfully,

E. E. CLARK,
*Chairman.*

# APPENDIX D.

*Memorandum explaining increases, changes, etc., in the estimates of the Department of State for the fiscal year ending June 30, 1915. (Estimates on pp. 27, 28, and 217–224.)*

## DEPARTMENTAL.

### SALARIES, DEPARTMENT OF STATE.

[Pages 27 and 28.]

Strike out the words "assistant solicitor, at $3,000."

Strike out "2" before the words "assistant solicitors" and insert "3." (The grouping of assistant solicitors is simply a consolidation and make no change in the appropriation.)

Strike out the words "law clerk" and insert the word "editor." (The change of the name of the law clerk to editor is explained by reading his duties. The present text is confusing and needs constant explanation, both before committees and the Civil Service Commission.)

In the grade of clerks, class 4, strike out "16" and insert "17."

In the grade of clerks, class 3, strike out "18" and insert "19." (One clerk at $1,800 and one clerk at $1,600, charged with the distribution of information to the diplomatic missions, have been added to class 4 and class 3, respectively, and are merely changes in phraseology and make no change in the appropriation.)

In the grade of clerks at $1,000 strike out "18" and insert "36." (The transfer of 18 clerks from the $900 grade to the $1,000 grade is deemed in the interest of general efficiency, it being found difficult to secure and retain the services of competent clerks at the lower salary.)

In the grade of clerks, class 1, strike out the words "three of whom shall be telegraph operators." (The omission of the words "three of whom shall be telegraph operators" is simply a change in phraseology and makes no change in the appropriation.)

These estimates call for one less clerk than is provided for in current law, one clerk at $900 being dropped. The total estimates herewith submitted are $120 less than the appropriations for the current year.

### MISCELLANEOUS EXPENSES.

After the word "Harness" insert the words "and equipment of drivers." (This is merely a change in phraseology and involves no increase in the appropriation.)

## FOREIGN INTERCOURSE.

[Pages 217 to 224.]

### EMBASSY TO SPAIN.

The act approved September 4, 1913, raises the rank of the mission to Spain to that of an embassy and fixes the salary of the ambassador at $17,500. It will, therefore, be necessary in the estimates to eliminate the item for minister to Spain at $12,000 and substitute the item "Ambassador to Spain, $17,500."

### ENVOY EXTRAORDINARY AND MINISTER PLENIPOTENTIARY TO PARAGUAY.

The government of Paraguay having established a diplomatic mission at Washington, it has been intimated to the department that the Government of Paraguay would consider it a friendly act if the United States would maintain an independent mission at Asuncion. A bill to that end has passed the Senate, been favorably reported on by the Committee on Foreign Affairs of the House of Representatives, and is now on the House of Representatives calendar. News of this action has been received with great satisfaction by the people of Paraguay.

The union of Paraguay and Uruguay in one mission is not based upon geographical, political, or commercial connections between the two countries. In order to go from one country to the other (as the minister is required to do several times a year, at an expense to the Government of about $1,000 for each trip), it is necessary to take a six days' journey, during the course of which the traveler passes for five days through the territory of the Argentine Republic.

The Argentine Republic, Brazil, Bolivia, France, Italy, Germany, and Peru all maintain resident diplomatic officers at the Paraguayan capital. The interests of the United States should be no less than theirs. There are a number of American citizens in Paraguay, one of whom is said to be the owner of about 1,500,000 acres of land in that country, and our trade with the Republic, while at present not large, amounting for the calendar year 1912:

| | |
|---|---|
| Exports | $123,740 |
| Imports | 22,518 |

is capable of expansion.

The creation of an independent misssion to Paraguay is urgently recommended, and an item of $10,000 for the salary of a minister to Paraguay is included in the estimates.

SECRETARY OF EMBASSY TO SPAIN.

The mission to Spain having been raised to ambassadorial rank by the act approved September 4, 1913, it becomes necessary to provide for a secretary of embassy to Spain instead of a secretary of legation to Spain as at present, and for an increase in the salary of the officer from $2,625 to $3,000 to correspond with the salary paid to each secretary of embassy.

SECRETARY OF LEGATION TO HAITI.

The legation to Haiti is the only diplomatic mission of the United States for which no secretary of legation is provided. This mission is an important one and the work required of the minister is often heavy, and he should have the assistance of a secretary of legation.

It is important also that there should be a secretary at each mission to take charge of the mission in the absence of its head when he is on leave of absence or there is a vacancy by reason of death, resignation, or otherwise. In case of the absence of the minister to Haiti from his post there is no one at present there who could take charge of the legation in a representative character or who would be able to treat with the Haitian Government on behalf of the United States.

It is therefore the opinion of the department that, not only in fairness to the minister but in the public interest as well, provision should be made for a secretary of legation to Haiti, and I have included an item for one in the present estimates with a salary of $2,000, the rate of salary paid to secretaries of legation at missions whose heads receive a salary of $10,000 per annum.

SECRETARY OF LEGATION TO PARAGUAY.

If the recommendation of the estimates for a separate mission to Paraguay is favorably considered, it will be necessary to provide also for a secretary of legation to Paraguay, whose salary should be at the rate of $2,000 per annum to correspond with the salaries paid to secretaries of legations of the same grade.

Request for this is made.

SECOND SECRETARY OF THE EMBASSY TO SPAIN.

The mission to Spain having been recently raised to the grade of embassy, the increased rank and dignity of the post make it necessary that provision should be made for a second secretary of embassy. This is in accordance with the treatment of other embassies of this country and with the practice of foreign governments. Moreover, it is anticipated that the increased activities of the embassy will make the appointment of a second secretary essential to the efficient transaction of business.

CLERKS AT EMBASSIES AND LEGATIONS.

I have recommended an increase in the appropriation for this object from $75,000 to $100,000.

The law which requires clerks at embassies and legations to be American citizens, while praiseworthy and safeguarding, involves a much larger expenditure for clerk hire than was the case when foreigners could be appointed. It is impossible to find capable young American citizens who are willing to go abroad as clerks at embassies or legations without fair compensation, required as they are to pay their own traveling expenses. The appropriation of $75,000 heretofore made for this object is found to be inadequate. It is entirely apportioned among the different missions, so that, when unusual conditions arise, such as have for some time existed in Mexico, the department has found itself unable to make provision from the present appropriation for the additional clerical services made necessary by the greatly increased work of the mission.

Moreover, allotments made to some of the missions are insufficiently attractive to tempt efficient American citizens. Furthermore, the establishment of a separate mission to Paraguay will require an additional expenditure for clerk hire. The department is of the opinion that it should have at its command an appropriation for clerks at embassies and legations sufficiently large to obtain for all efficient and trustworthy American clerical service and have, in addition, a surplus fund from which it could draw to meet the additional demands which unusual conditions, possible at any of the missions, may require. It is thought that the sum of $100,000 will be sufficiently large, and this amount is asked for.

BOUNDARY LINE, ALASKA AND CANADA AND THE UNITED STATES AND CANADA.

The amount appropriated for these objects for the fiscal year 1914 was $100,000, together with the unexpended balance of previous appropriations. The expenditures for the fiscal year 1913 are estimated at $154,809 and the balance available on July 1, 1913, at $35,000. The estimated expenditures for 1914 are $130,000 and the appropriation submitted for 1915 is $135,000, together with the unexpended balance of previous appropriations.

Owing to the remoteness of some of the field parties in Alaska, from whom no communications have been received since April last, an accurate financial statement is impossible at this time, but it is believed that the figures given above are sufficiently accurate for purposes of administration and as a basis for the estimates for 1915. It may be, however, that the amount submitted as necessary for the work in 1915 will have to be modified when the matter is before the

House committee for consideration. As showing the progress made in the two surveys, the commissioner of the United States makes the following report:

During the season of 1912 the line tracing of the one hundred and forty-first meridian boundary was carried from latitude 69° 20′ to the shores of the Arctic Ocean in latitude 69° 39′, a distance of 22 miles.

In the same season the triangulation was completed from latitude 68° 54′ to the Arctic Ocean, 51 miles, and was extended eastward along the shore for 25 miles, to determine the relation of the terminal monument to the shore line.

Topography was carried northward along the meridian by one double topographic party from latitude 69° 04′ to latitude 69° 39, a distance of 40½ miles, and was then expanded westward along the coast to longitude 141° 30′ and eastward to longitude 148° 48′. This topography takes in the natural features nearest the boundary, including Icy Reef, Beaufort Bay, and Demarcation Point to the west, and Clarence Bay to the east.

Vista cutting and stadia measurements were carried on from latitude 68° 50′ 40″ to the ocean coast, a distance of 58 miles. Another vista cutting and stadia party operated south of the Porcupine River for a distance of 33 miles, connecting with the work completed in 1911.

The final monumenting north of the Porcupine River was completed to the Arctic Ocean from latitude 68° 30′, where it terminated in 1911, a distance of 80 miles, and south of the Porcupine, over 78 miles. In all 56 monuments were placed in 1912.

The monuments were inspected and numbered from the Arctic coast to the Yukon River, the most northerly monument being No. 1. From the Arctic Ocean to the Yukon River there are 115 monuments in a distance of 344 miles, or an average of 1 monument to 3 miles.

The demarkation of the boundary line has therefore been completed north of the Yukon River. Between the Yukon and Mount Natazhat there remains only the inspection and numbering of the monuments which it is expected will be completed during the present season.

In June, 1913, preparations were made for a joint inspection of the boundary monuments south of the Yukon River by an American and a Canadian surveyor, but owing to various delays work was not begun until June 27.

South of Mount Natazhat the boundary extends to the vicinity of Mount St. Elias, a distance of 84 miles, in a very difficult mountainous region. A triangulation party and a topographic party were sent in 1912 to make surveys preliminary to defining the line in this region. Triangulation was carried from stations which had been established in Scolai Pass in 1909, down Scolai Creek, across country to the Chitina River, and up the Chitina River to within about 30 miles of the boundary, a distance altogether of about 90 miles. Plane table topography was carried across the boundary, from the mouth of the Canyon Creek on the Chitina up the valley of the latter, taking in the top of the ridges on either side, and photographs were taken from which a considerable additional area can be plotted.

In May, 1913, a base line was measured and arrangements were made for extending the triangulation up the Logan Glacier. By June 1 the reconnoissance was completed to within 8 miles of the boundary, where progress was delayed by a heavy snowfall.

A topographic party took the field in the Mount Natazhat region in April, 1913. By June 30 about 100 square miles of topography had been surveyed.

The survey and monumenting of the water boundary on Portland Canal was conducted by a Canadian party, to which an American surveyor was attached. A scheme of triangulation is being extended along Portland Canal and the topography of the adjacent shores is being mapped. Permanent reference monuments are placed on both sides of the canal and these are connected with the triangulation. During the season of 1912 the triangulation was extended for a distance of about 64 miles, and 31 reference monuments were placed. Field work was resumed at the end of May, 1913, and was in progress at the close of the fiscal year.

### UNITED STATES AND CANADA BOUNDARY.

On the boundary between the United States and Canada east of the summit of the Rocky Mountains from the Red River of the North to Lake of the Woods, the party engaged in topography, vista cutting, leveling, and interpolation of monument sites advanced the topography for a distance of 95 miles along the boundary, and the vista cutting for a distance of 82 miles; 102 miles of boundary were located and 155.5 miles of levels run.

The party engaged in triangulation on this portion of the boundary occupied 24 triangulation stations and completed 550 square miles of triangulation, a distance along the boundary of 87 miles. The triangulation of Lake of the Woods was completed by June 20, 1913. A base line was measured near Fort Francis, Ontario, and a rapid reconnoissance was made with a view to the extension of the triangulation as far as the mouth of Rainy River. Seventy-five monuments were set on the boundary during the season of 1912. The meridian boundary and the southeast boundary, intersecting at northwest angle, were located and marked in the spring of 1913 with reference monuments. The meridian line was measured twice with an invar tape. Eleven triangulation stations were occupied in May and June, 1913. A Canadian party, to which an American surveyor was attached, was at work during the season of 1912 from the northwest angle of Lake of the Woods to the southward. The triangulation was extended down the lake for a distance of about 25 miles; reference marks were established, and a hydrographic survey of the lake along the boundary was made by the American surveyor. Work in this locality was resumed May 27, 1913, at Bear Island, Ontario, and was in progress at the close of the fiscal year.

The party working between Pigeon River and Lake of the Woods during the season of 1912 carried the triangulation and topography from Round Lake to the western end of Knife Lake, a distance of about 35 miles. Twelve topographic sheets were completed.

Work was resumed in the spring of 1913 and by June 30, 50 square miles of triangulation and 78 square miles of topography had been completed, covering a distance along the boundary of 6½ miles.

The party at work on the survey and monumenting of the northeastern boundary between Maine and New Brunswick completed the measurement of 31.5 miles of boundary with invar tape, ran 37 miles of levels, and surveyed 42.39 square miles of topography, included on six topographic sheets. A lane 30 feet in width was cut through the dense forest along this portion of the boundary. The monuments set by the commission of 1842 were reset and additional monuments were interpolated where necessary.

The party engaged in the survey of the boundary in the valley of the St. Croix River completed 18 square miles of triangulation and 2 square miles of topography, included on four topographic sheets. This work was done during the season of 1912. In the latter part of June, 1913, work was resumed and marks were placed to which that portion of the boundary formed by Monument Stream was referred. A plane table survey was commenced at the initial monument to show in detail the shore line of Monument Stream. Work was in progress at the close of the fiscal year.

### WORK TO BE PERFORMED IN 1914.

During the fiscal year 1914 the boundary along the one hundred and forty-first meridian, from Mount Natazhat northward to the Arctic Ocean, will be completed, the final inspection of the monuments from the Yukon River to the Arctic being now under way. South of Mount Natazhat on the one hundred and forty-first meridian, two parties are now operating and one will be returned to complete the work next season.

The final maps of the boundary from Mount Natazhat are being engraved and will probably be completed in 1914, but the quadruplicate sets will hardly be approved by the commissioners in 1914.

A representative of this commission is with the Canadian party on the Portland Canal this season.

Two topographic and one triangulation parties, together with similar Canadian parties, are operating this year in the vicinity of Rainy River, along the United States and Canada boundary. A representative of this commission is with the Canadian party operating in the locality.

The final maps in 19 sheets from the Rocky Mountains to the Pacific Ocean have been completed, but the quadruplicate copies have not yet received the approval of the commissioners. The sheets for the boundary from the Lake of the Woods to the Rocky Mountains are under way and some will be completed during the year 1914.

On the northeast boundary two parties are at work in conjunction with Canadian parties and will resume operations in the spring of 1914.

The necessary computers, draftsmen, and clerks will continue the reductions of the field notes in the office during the year.

PLAN OF WORK FOR FISCAL YEAR 1915.

The plan of work for the fiscal year 1915 has not been formally agreed upon by the commissioners, as the detailed reports of progress are not yet at hand. It will suffice to state that in the estimates herewith submitted, I have made provision for one survey party in Alaska and representation in a Canadian party in that region.

It is further intended that I should have two topographic parties and one triangulation party in the Rainy River country of the United States and Canadian boundary and suitable representation on the Canadian parties. Two parties on the northeastern boundary and suitable representation on the Canadian parties operating there are also provided for. I have also estimated for the preparation of some of the final maps and for draftsmen, computers, and clerks engaged in the reduction of the accumulated field results in the office.

## INTERNATIONAL PRISON COMMISSION.

The department is informed by the president of the International Prison Commission at Berne that it has been found absolutely necessary that the financial resources of the commission shall be considerably increased; that hitherto the various countries forming the commission have contributed only the minimum sum mentioned in the regulations, viz, 25 francs for each 1,000,000 inhabitants, and in some instances, including the United States, the sum contributed annually has remained the same for many years, although the population has increased enormously; that it is now proposed to request the Governments represented in the commission to contribute annually the maximum sum mentioned in the regulations, viz, 50 francs per 1,000,000 inhabitants; and that several of the Governments, including England, Holland, Belgium, France, Norway, and Sweden have already intimated a readiness to grant this increased contribution. Request is made that the United States will also indicate its willingness to increase its contribution to 50 francs per 1,000,000 population. The reasons for this increase are stated to be as follows:

1. To improve the methods of preparing for the next congress, London, 1915, so as to make it as useful as possible to prison administration and preventive agencies in all the world.

2. To extend the facilities for gathering, sifting, and publishing studies relating to the institutions of correction in all the civilized nations.

Congress has for many years been annually appropriating the sum of $2,000 "for subscription of the United States as an adhering member of the International Prison Commission, and the expenses of a commissioner, including preparation of reports." Out of this amount the Government of the United States has paid each year $350 as its subscription, this subscription being based on a population of 70,000,000 people. Estimating the population of the United States at 90,000,000 people, the subscription of the United States at 50 francs per 1,000,000 would be $900, requiring an increase in the appropriation of $550, and this amount is submitted.

In this connection attention is invited to the following provisions contained in the diplomatic and consular appropriation act for the fiscal year ending June 30, 1914, by which authority of law is given for the continuance of the United States as an adhering member of the International Prison Commission:

The United States shall continue as an adhering member of the International Prison Commission and participate in the work of said commission.

The Secretary of the Treasury be, and he is hereby, authorized annually to pay the pro rata share of the United States in the administration expenses of the International Prison Commission and the necessary expenses of a commissioner to represent the United States on said commission at its annual meetings, together with necessary clerical and other expenses, out of any money which shall be appropriated for such purposes from time to time by Congress.

## INTERNATIONAL INSTITUTE OF AGRICULTURE AT ROME.

An increase of $3,200 has been requested for the payment of the quota of the United States for the support of the International Institute of Agriculture at Rome.

The international convention creating this institute provides in its article 10, as follows:

ARTICLE 10.

The nations adhering to the institute shall be classed in five groups, according to the place which each of them thinks it ought to occupy. The number of votes which each nation shall have and the number of units of assessment shall be established according to the following gradations:

| Groups of nations. | Numbers of votes. | Units of assessment. |
|---|---|---|
| I | 5 | 16 |
| II | 4 | 8 |
| III | 3 | 4 |
| IV | 2 | 2 |
| V | 1 | 1 |

The convention provides that the maximum contribution shall never exceed the sum of 2,500 francs per unit, and as a temporary provision fixed the assessment for the first two years at 1,500 francs per unit. The United States, being classed in the first group of nations and having 16 units assessed against it, has annually for the past five years paid as its contribution 16 times 1,500 francs or $4,800.

The department is now informed by the president of the International Institute of Agriculture that at the fourth session of the general assembly of the institute it was unanimously decided to bring up to the maximum the contributions of the Governments, which raises the annual contribution of this Government from 24,000 francs to 40,000 francs, or from $4,800 to $8,000.

As the general assembly of the institute is given, by the convention, supreme control of the institute, the increase by it of the assessments to the maximum permitted by the convention, imposes an international obligation on the part of the United States.

ARBITRATION OF OUTSTANDING PECUNIARY CLAIMS BETWEEN THE UNITED STATES AND GREAT BRITAIN.

For this object $50,000 were appropriated for the fiscal year 1914. For the fiscal year 1915, $63,775 are asked for. This request is based on the following items of expense:

| | | |
|---|---|---|
| United States agency: | | |
| 1. Salaries, present force | $35,400.00 | |
| 2. Expenses and compensation of counsel and assistants in emergencies | 5,000.00 | |
| 3. Printing memorials, replies, evidence, briefs | 8,250.00 | |
| 4. Rent of offices, Woodward Building | 2,760.00 | |
| 5. Stationery and supplies | 700.00 | |
| 6. Miscellaneous expenses | 500.00 | |
| 7. International reference works and reports | 500.00 | |
| | | $53,110.00 |
| Tribunal (the Governments of the United States and Great Britain have agreed to share the expenses of the joint tribunal equally): | | |
| 1. Salaries of (3) arbitrators, 3 months, at $1,200 each per month, $10,800 | 5,400.00 | |
| 2. Traveling expenses of (3) arbitrators, $2,000 | 1,000.00 | |
| 3. Rent of office for joint secretaries | 360.00 | |
| 4. One clerk for joint secretaries, $1,200 | 600.00 | |
| 5. One stenographer for arbitrators, 3 months, at $100 per month, $300 | 150.00 | |
| 6. Attendants, (1) messenger, 3 months, at $60 per month, $180 | 90.00 | |
| 7. Stenographic reporting of proceedings, $5,630 | 2,815.00 | |
| 8. Printing, stationery, and supplies, $500 | 250.00 | |
| | | 10,665.00 |
| Total amount of money required for 1915 | | 63,775.00 |

The agency items are based on what experience has shown is necessary.

With respect to the tribunal items, the agreement of August 18, 1910, between the United States and Great Britain provides for an equal division of the expenses of the tribunal. To meet these expenses provision is made for an assessment up to 4 per cent on the amounts awarded. It is necessary, however, that funds be provided by both Governments in advance for current expenses. Expenditures made under this head, therefore, will be carefully recorded with a view to reimbursement of the Treasury at the close of the arbitration.

The estimate has been prepared to meet all the requirements in the arbitration and is based on the actual expenditures heretofore made in the present arbitration.

The monthly compensation of the arbitrators has been fixed by agreement between the two Governments.

COMPILATION OF CHINESE TREATIES.

Last year Congress appropriated $2,500 for printing and binding a revised edition of the treaties, contracts, and international agreements entered into by the Empire of China with other Governments. The revised volume is in course of preparation, but it is found to be impracticable to complete it before the expiration of the present fiscal year. It is therefore recommended that the amount mentioned be reappropriated and made available for defraying the expense of printing and binding for the fiscal year ending June 30, 1915. This does not involve an additional appropriation.

INTERNATIONAL CONFERENCE ON MARITIME LAW.

The diplomatic and consular appropriation act for the fiscal year ending June 30, 1914, appropriated the sum of $5,000, or so much thereof as may be necessary, "for the expenses of participation by the United States by officially appointed delegates in the International Conference on Maritime Law to meet at Brussels in 1913."

At the time when this item was submitted and when the appropriation was made it was expected that the conference would meet in September of the present calendar year. The Department of State has since been informed by the Belgian Government that the meeting of the conference has been postponed until some time in 1914, the exact date to be hereafter determined. Inquiry of the Comptroller of the Treasury has elicited the information that the appropriation made in the diplomatic and consular act of February 28, 1913, is available until June 30, 1914, and no longer.

In view of a request from the Secretary of Commerce, I have included in the estimates for the fiscal year 1915 an item making the appropriation of the diplomatic and consular act of February 28, 1913, "for the expenses of participation by the United States in the International Conference on Maritime Law to meet at Brussels in 1913," available for the fiscal year ending June 30, 1915, so that if the conference does not meet until after June 30, 1914, there will be provision for United States participation.

FISHERIES CONVENTION, UNITED STATES AND GREAT BRITAIN.

For the payment of the compensation of a commissioner on the part of the United States under the convention between the United States and Great Britain concerning the fisheries in waters contiguous to the United States and the Dominion of Canada, signed at Washington on April 11, 1908, and of the share of the United States of the expenses that might be incurred in carrying out the convention during the fiscal year, Congress had for several years appropriated the sum of $10,000 annually. No appropriation, however, was made for the present fiscal year, although the item was carried as usual in the estimates. The convention provides that this commission shall continue in existence as long as the convention shall be in force, so that provision for the maintenance of the commission on the part of the United States is an international obligation.

Digitized by Google

The present commissioner on the part of the United States is the Commissioner of Fisheries, so that no provision for the payment of compensation to him is necessary, and it is required only that provision be made for the actual and necessary expenses which he may incur while engaged in work under the convention and for the share of the United States of the expenses that may be incurred in carrying out the convention. It is thought that the sum of $2,000 will be ample for these purposes.

### FIFTH INTERNATIONAL CONFERENCE OF AMERICAN STATES.

By a resolution adopted at the Fourth International Conference of American States, held at Buenos Aires in 1910, the governing board of the Union of American Republics was empowered to convoke, within a term of five years, the meeting of the Fifth International American Conference and authorized to designate the city at which the conference should be held.

The governing board of the Pan American Union at a meeting held in the city of Washington selected the city of Santiago, Chile, as the place of meeting for the Fifth Conference, and the month of September, 1914, has been fixed as the time of meeting.

To meet the actual and necessary expenses of the delegates of the United States to the Fourth Conference at Buenos Aires and of their clerical assistants the sum of $100,000 was appropriated in the urgent deficiency act for the fiscal year 1910. It is thought that the sum of $75,000 will be sufficient to meet the expenses incident to participation in the Fifth Conference.

### INTERNATIONAL CONGRESS ON CUSTOMS REGULATIONS, AT PARIS.

The Government of the United States having been invited by the Government of the French Republic to send representatives to the International Congress on Customs Regulations which was first fixed to be held at Paris in May, 1913, the invitation was communicated to the Secretary of the Treasury, who, in a letter to the Speaker of the House of Representatives, dated January 6, 1913, requested an appropriation of $2,000 to defray the expenses of a representative of the Treasury Department to the congress, to be designated by the Secretary of the Treasury. In this letter Secretary MacVeagh said:

> I have examined the program of this congress and find that it deals with questions involving many fundamental principles of large import to international trade. I am convinced that the participation of the United States in the proceedings of the congress will tend to reduce friction in our intercourse with other countries, to promote the efficiency of our own customs administration, and to place this (Treasury) department in a much better position to respond to the requests of the Congress of the United States for information or recommendations on customs matters. I trust, therefore, that the appropriation asked for will be granted.

The appropriation was not granted by Congress, possibly because it was not included in the annual Book of Estimates, as required by law.

Subsequently the department, being advised by the French ambassador that the meeting of the congress had been postponed until the month of June, 1914, inquired of the Secretary of the Treasury whether the present administration of the Treasury Department desired to have the matter submitted to Congress at its next regular session. To this inquiry the Treasury Department answered in the affirmative.

### SECOND PAN AMERICAN SCIENTIFIC CONGRESS.

From 1898 to 1905 three Latin American Scientific Congresses were held at various capitals in South America, and the fourth was fixed to be held at the city of Santiago, Chile, in 1908. The plans for this congress had not proceeded very far when it was determined to make the congress Pan American instead of Latin American, and an invitation was issued by the Government of Chile to that of the United States to join in and be represented by delegates at the congress.

This invitation was communicated to the Congress of the United States by President Roosevelt on December 21, 1907, with the recommendation that provision be made for its acceptance. In the sundry civil act, approved May 27, 1908, Congress appropriated the sum of $35,000 for the purpose and the Government of the United States was fittingly represented in the Santiago congress by gentlemen of high attainment in various branches of scientific knowledge. At the Santiago congress the city of Washington was designated as the place of meeting of the Second Pan American Scientific Congress.

It appears from the report of the delegates of the United States to the Santiago congress (Senate Doc. No. 64, 61st Cong., 1st sess.), that the hospitality of the Chilean Government to the members of the congress was warmhearted and generous.

The department's information is that on account of the Congress of 1908 the Chilean Government expended nearly $146,000.

Washington having been designated as the place for holding the second congress, failure on the part of the United States to provide for the assembling of the congress may not unnaturally be construed by the people of Latin America as evidence of lack of desire on the part of the United States to foster closer intellectual ties with our sister Republics: and it would seem desirable that some provision should be made for the Washington congress and for the entertainment of its members.

To enable the Government of the United States suitably to participate in the Second Pan American Scientific Congress to be held at Washington, and for the necessary expenses for clerks, printing (including the publishing of the proceedings of the congress in English and Spanish), stationery and supplies, and other incidental expenses (including rent in the District of Columbia), and for the entertainment of the delegates, an item of $50,000 was submitted in the estimates for foreign intercourse for the fiscal year ending June 30, 1913, to be expended under the

Digitized by Google

direction of the Secretary of State; and authority was sought to enable this Government to invite the Governments of the other American Republics to be represented by delegates at the congress.

The appropriation and authority sought were not granted by Congress, and the item is renewed in the present estimates.

It was originally intended to hold the congress at Washington in October, 1914. More than a year will be necessary to make adequate preparations for this international congress, and this fact, together with the fact that no invitations to the Governments can be issued until provision for the international congress has been made by our Congress, the item submitted fixes October, 1915, as the time for holding the international congress at Washington.

### ACQUISITION OF EMBASSY PREMISES AT MEXICO CITY, MEXICO, AND TOKYO, JAPAN, AND LEGATION PREMISES AT BERNE, SWITZERLAND.

The act of Congress approved February 17, 1911, entitled "An act providing for the purchase or erection, within certain limits of cost, of embassy, legation, and consular buildings abroad," provides as follows:

That the Secretary of State be, and he is hereby, authorized to acquire in foreign countries such sites and buildings as may be appropriated for by Congress for the use of the diplomatic and consular establishments of the United States, and to alter, repair, and furnish the said buildings; suitable buildings for this purpose to be either purchased or erected, as to the Secretary of State may seem best, and all buildings so acquired for the Diplomatic Service shall be used both as the residences of diplomatic officials and for the offices of the diplomatic establishment: *Provided, however*, That not more than the sum of $500,000 shall be expended in any fiscal year under the authorization herein made: *And provided further*, That in submitting estimates of appropriation to the Secretary of the Treasury for transmission to the House of Representatives the Secretary of State shall set forth a limit of cost for the acquisition of sites and buildings and for the construction, alteration, repair, and furnishing of buildings at each place in which the expenditure is proposed (which limit of cost shall not exceed the sum of $150,000 at any one place), and which limit shall not thereafter be exceeded in any case, except by new and express authorization of Congress.

Promptly after the passage of this act the Secretary of State (Mr. Knox) took steps to ascertain the lowest estimated cost at which properly located buildings suitable for and adapted to the needs of embassies and legations for residential and office purposes might be acquired by purchase or sites acquired and buildings erected thereon. It appears from a letter from Mr. Knox to the Secretary of the Treasury, dated January 16, 1912, and printed as House Document No. 470, Sixty-second Congress, second session, that the reports made by the diplomatic officers satisfied him that it was impossible to obtain, within the limits fixed by the act, suitable premises adapted to embassy and legation needs at most of the larger capitals. Of the places where he thought it might be possible to obtain premises within the limit of the act Mr. Knox concluded that the needs of the embassy at Mexico City, Mexico, the embassy at Tokyo, Japan, and the legation at Berne, Switzerland, were the most pressing and should receive the first consideration. He, therefore, in conformity with the act above quoted, submitted three estimates of appropriation, as follows:

For the purchase of a site and the construction of a building thereon at the City of Mexico, and for the furnishing of the building, or, as to the Secretary of State may seem best, for the purchase at said city of a site and a building already erected, and for the alteration, repair, and furnishing of such building and the construction of an addition thereto if necessary, for the use of the embassy to Mexico, both as the residence of the diplomatic officials and for the offices of the embassy, $150,000;

For the construction of a building on ground now held by the Government of the United States at Tokyo, Japan, for the use of the embassy to Japan, both as a residence of the diplomatic officers and for the offices of the embassy, and for furnishing the same, $150,000;

For the purchase of a site and building at Berne, Switzerland, for the use of the legation to Switzerland, both as the residence of the diplomatic officials and for the offices of the legation, and for the alteration, repair, and furnishing of the building, and the construction of an addition thereto, $140,000.

A bill to carry out Mr. Knox's recommendations was introduced in the last Congress and favorably reported on by the Committee on Foreign Relations, but no action was taken by Congress on the bill. The three items are renewed in the present estimates.

### INTERNATIONAL COMMISSION ON PUBLIC AND PRIVATE INTERNATIONAL LAW.

For the payment of compensation to, and the necessary expenses of, the representative or representatives of the United States on the International Commission of Jurists organized under the convention signed at the Third International American Conference, August 23, 1906, approved by the Senate February 3, 1908, and ratified by the President February 8, 1908, for the purpose of preparing drafts of codes of public and private international law; and for the payment of the quota of the United States of the expenses incident to the preparation of such drafts, including the compensation of experts under Article IV of the convention, $20,000, or so much thereof as may be necessary, to be immediately available and to continue available during the fiscal year ending June 30, 1915.

(By the act of March 2, 1909, 35 Stats., part 1, p. 680, the sum of $10,000 was appropriated to meet the obligations of the United States under the convention. This appropriation, by reason of delays in the organization of the commission, lapsed. Subsequently, under an agreement concluded through the governing board of the Pan American Union, January 15, 1912, the commission, having been duly appointed, met at Rio de Janeiro, June 26, 1912, and, after a month's session, devoted chiefly to organization, to the formulation of plans of procedure, and to the constitution of committees and the distribution of work among them, adjourned to reassemble at Rio de Janeiro in June, 1914. (See the Report of the United States Delegates, House Doc. 1343, 62d Cong., 3d sess.) The work of the commission, through the committees thus established, is now in full progress, and an appropriation is necessary to enable it to be carried on. The expenses of the United States in connection with the meeting at Rio in 1912, amounting to $7,793.13, were paid out of the emergency fund, the appropriation of 1909 having lapsed. Experience has demonstrated that the sum of $10,000, the amount originally appropriated, would be altogether inadequate for the further prosecution of the work and the expenses of the meeting to be held in 1914. At this meeting drafts of codes, in the preparation of which the committees are now engaged, will be considered with a view to their definitive approval by the commission, and the sessions, in connection with whose duration the high

Digitized by Google

cost of living at Rio is to be taken into account, probably will last more than twice as long as those of 1912. Additional clerical force and expert assistance will also be required, and a considerable amount of printing will have to be done. In this relation it is also to be observed that the convention of 1906, on which the original appropriation was exclusively based, provided for only one delegate from each country, while the agreement of 1912 provides that two delegates may be sent, as was done by a majority of the countries participating in the conference, the United States, Argentina, Brazil, Chile, Colombia, Ecuador, Guatemala, Peru, and Uruguay each being represented by two delegates. Considering the nature and amount of the work to be performed, and the probable duration of the forthcoming meeting of the commission, an appropriation of less than $20,000 would, it is believed, prove to be insufficient and would render necessary a further appropriation.)

INTERNATIONAL JOINT COMMISSION, UNITED STATES AND GREAT BRITAIN.

For the fiscal year ending June 30, 1914, the sum of $100,000 was appropriated for the work of this commission by the sundry civil appropriation act of June 23, 1913, together with the unexpended balance of the appropriation made for the fiscal year 1913, amounting to $48,059.62, making a total of $148,059.62. For the fiscal year 1915 the sum of $50,000 is asked for, together with the unexpended balance of previous appropriations. The total expenditures for the fiscal year ending June 30, 1913, amounted to $54,944.74. The unexpended balance at the end of the current fiscal year is estimated, on the basis of present fixed charges and current joint expenses, at about $60,000. This balance, if reappropriated, together with the $50,000 asked for, for the fiscal year ending June 30, 1915, will, it is thought, be sufficient for all fixed charges and joint expenses.

In submitting this estimate, the American section of the joint commission make the following explanatory statement:

The total of the appropriation for the current fiscal year, including the reappropriated unexpended balance at the end of the fiscal year 1913, is $148,059.62.

Except the amount expended on account of salaries, travel, and subsistence of members of the American section of the commission, the secretary of the American section, who is also its special disbursing officer, and one clerk who is also the stenographer for our section, the rent of offices at Washington, the cost of stationery and miscellaneous expenses, all of the expenses of the commission are, by the treaty, made joint expenses, payable in equal moieties by the United States and Canada.

These joint expenses include all the expense incurred by the commission in the doing of its work, except under Articles IX and X of the treaty. The work of the commission, like that of the courts in both countries, is continuous, and depends entirely upon the number of applications submitted to the commission for its approval by the two Governments or by the inhabitants of the two Governments under the treaty and rules of the commission. For this reason the commission can not in advance determine the amount of work it will have to do in the coming fiscal year, and, therefore, the expense incident thereto, which will be a joint expense, can not be accurately estimated. This expense includes printing, the service of process, the conduct of hearings on applications filed under Articles III, IV, and VIII of the treaty, the taking and transcribing of testimony and all other necessary costs, which must be paid from the appropriations made for that purpose by both Governments.

In addition to the foregoing joint expenses on applications under the last-named articles of the treaty, the United States is liable for one-half of the expenses incurred by the commission in carrying on investigations of questions referred by the two Governments, under Articles IX and X of the treaty. The authority to refer such questions is vested exclusively in the United States and Canada, and the expense of such investigations depends entirely upon the character and importance of the questions referred, and thus makes difficult the matter of estimating with any degree of certainty the amount necessary to meet the one-half of such expenses. In both cases, however, we have as a guide the experience of the past fiscal year as to the cost of the work of the commission in the consideration of applications for approval and in the investigation of the three matters referred during that time and mentioned in the statement hereto attached. In the light of that experience, we estimate that $100,000 will be necessary to meet the fixed charges of the American section and the one-half of the joint expenses incident to the carrying on of the work of the commission during the next fiscal year.

It is not possible at this time to estimate definitely the exact amount of the unexpended balance of the appropriation at the end of the current fiscal year, but we feel quite confident that at the present rate of expenditure that balance will not be less than $50,000. So that if this estimated unexpended balance is reappropriated, the appropriation of $50,000 additional, as estimated, will be sufficient to meet the fixed charges of the United States section and the one-half of all joint expenses incurred during the fiscal year 1915.

EXPENSES OF INTERPRETERS, GUARDS, ETC., IN TURKISH DOMINIONS, ETC.

It is important for the proper conduct of the consular offices in the Turkish dominions that competent and experienced interpreters, who are American citizens, be employed. The student interpreter corps, which was established July 1, 1909, is meeting many of the needs for such interpreters. The department has been carrying out in Turkey the system of promoting these students, which has been found to work so satisfactorily in China and Japan. Under this plan students are kept at the embassy for two years, during which period they devote their time almost exclusively to the study of languages which are necessary at the various posts in Turkey. At the end of that time they are given an examination to test their progress and fitness for assignment to the various consular offices as interpreters. If sufficient progress is shown by this examination, the department thereupon sends them to the various consulates as needed, promoting them to the position of interpreter with compensation at the rate of $1,500 a year. After another period of two years a second and more difficult examination is given these interpreters, success in the passing of which determines the question of their receiving increased compensation as interpreters or promotion to principal consular offices. This acts not only as an encouragement to the students, but by promotions from time to time, from the grade of student interpreter to interpreter, will enable the department to keep at the embassy at all times a sufficient corps of men to meet the needs of the service for interpreters.

The department has found it impossible to promote to the position of interpreter during the last year some of the members of the student interpreter corps who have successfully passed the examination, because of the fact that the above appropriation is insufficient to meet their compensation.

An additional reason making it desirable to promote the members of the student corps is, that while their compensation of $1,000 enables them to live at Constantinople while detailed at the embassy, it is insufficient to cover their necessary living expenses at most of the posts in the Turkish dominions in view of the increased cost of living. The $5,000 additional asked will enable the department to carry out the plan of promotion above set forth, thus placing the interpreter corps in Turkey upon the same basis as the corps in China and Japan.

EXPENSES OF PRISONS FOR AMERICAN CONVICTS.

The amount of $1,000 appropriated each year for some time past for the rent of a prison for American convicts in Turkey and for wages of keepers for the same, has been used for the maintenance of a prison at the American consulate general at Smyrna, and investigation by the department shows that it is necessary to continue this prison.

Reports received by the department during the last year show that there is also need for the maintenance of a prison at the American consulate general at Constantinople for the detention of persons who are brought before the American Consular Court at that post. It has been reported both by the American embassy and by the consulate general that frequently American citizens, mostly seamen, are brought to the consulate general by the Turkish police, and that the consulate general has no proper facilities for taking care of them. The commanding officer of the U. S. S. *Scorpion*, serving as guardship at Constantinople, has also indorsed the recommendation of the consulate general. The department believes that it is important that provisions be made for the maintenance of a prison at Constantinople.

EXPENSES, UNITED STATES COURT FOR CHINA.

The amount appropriated for this purpose for the fiscal years ended June 30, 1912, and June 30, 1913, was $8,000 In estimating for the expenses of the court for the fiscal year 1914 the department explained that owing to the heavy cost of loss by exchange and other increased expenses of the court, the appropriation was inadequate, and asked that it be increased to $9,000.

An appropriation of $1,500 was also requested for a library for the court and maintenance thereof. The appropriation act granted $9,000 for court expenses, "including $1,500 for reference law books." The result was that the appropriation for the running expenses of the court, instead of being increased, was decreased, in fact, from $8,000 to $7,500, with the result that the amount appropriated will not suffice to meet the actual and necessary expenses of the court for the current year.

One of the principal charges against the appropriation for court expenses is loss by exchange on all drafts for salaries of the court officials and the expenses of the court. Loss by exchange, which is something the department has been unable, with the most careful study, to eliminate or reduce, has rapidly increased in China during the past two years.

In view of the above, it is requested that the words "$1,500 for" be eliminated from this appropriation, thus granting the entire sum of $9,000 for court expenses, including reference law books, the cost of which will probably be less during the next year since a supply of general reference books has been purchased from the appropriation for the present year, and the principal expense will hereafter be for the continuation of various sets of law reports, etc. It is thought that this change in the appropriation will enable the court to meet the expenses from the amount requested.

## APPENDIX E.

*Explanation of estimates for salaries and expenses, Office of Commissioner of Indian Affairs.* (*Estimates on pp. 83 to 85.*)

DEPARTMENT OF THE INTERIOR,
OFFICE OF INDIAN AFFAIRS,
*Washington, August 13, 1913.*

MY DEAR MR. SECRETARY: I have the honor to transmit herewith estimates, in duplicate, of appropriations for the fiscal year ending June 30, 1915, providing for the salaries of officials, clerks, and other employees of the Indian Bureau, in compliance with section 5 of the act of March 3, 1901 (31 Stat. L., 1009).

It will be seen from the estimates herewith that I am asking for an increase of 42 employees for this bureau, making a total of 280, whose combined salaries would amount to $367,250, being an increase of $56,300 over the present appropriation. The employees of this bureau provided for in the current legislative act number 238, with total salaries amounting to $310,950. I am also asking for increases in salaries for a few places, as shown by the estimates, because I am convinced that the responsibilities of the positions in question fully justify the increased salaries requested.

I find that the work of this bureau is very materially in arrears, and that it is impossible with the present force to bring the work of the office up to date and keep it current. For example, the work of examining property accounts in the accounts section of the Finance Division is more than a year behind; also there are in the Land Division about 1,500 heirship cases, involving lands estimated to be worth $3,000,000, awaiting consideration and determination. The number of these cases will be largely increased very soon because of the fact that Congress provided an appropriation of $50,000 for conducting heirship work in the field, under the act of June 25, 1910 (36 Stat. L., 855), but failed to provide for additional clerks in this office to handle the increased number of cases which will necessarily be transmitted to the office for consideration.

Instructions have been given requiring that answers to letters from Senators and Representatives and reports on bills be made special, but the fact that congressional mail receives prompt consideration should not lead Congress to believe that the bureau is not in serious need of additional clerical assistance. The very fact that the work of the office is so far behind necessitates a large amount of additional work in answering inquiries regarding the status of pending cases.

I find that the employees of this office, as a rule, are diligent, competent, and faithful. The records show that they did 1,522 days voluntary overtime during the last fiscal year in an effort to keep the work of the bureau as near current as possible.

Digitized by Google

As a general justification for the increased number of clerks in this office asked for in the estimates, I invite attention to the fact that, because of the breaking up of tribal relations and the making of individual allotments, the necessary work of the Indian Office has been very much increased during recent years without a corresponding increase in the number of employees. For example, the increase of work for 1913 over 1899 was 361.34 per cent, while the increase in employees in the Indian Office for 1913 over 1899 was only 134.65 per cent. The number of letters received in the Indian Office during the year 1899 was only 59,707. The number of letters received during the fiscal year 1913 was 275,452, showing an increase of 23.97 per cent over the preceding year.

While the work of the office has very largely increased, the last Congress not only did not provide for the increased number of employees for the bureau, as requested in the estimates of the department, but failed to provide for all the employees of the bureau, and it became necessary to actually reduce the clerical force of the office on July 1.

In order that the department may have more detailed information regarding the work of the office and existing conditions, I am submitting the following brief résumé of the various divisions and sections:

## EDUCATION DIVISION.

This division, as its name implies, has charge of all matters connected with the education of the Indians. This includes not only the scholastic education of approximately 25,000 school children in 35 nonreservation boarding schools, 79 reservation boarding schools, and 223 day schools, but also the industrial and sanitary education of the adult Indians. The scope of this work includes also all matters concerning marriage and divorce, law and order upon the reservations, all health and sanitary conditions, including control of hospitals and matrons, the purchase of supplies for carrying on Indian schools and for Indian purposes, the construction and repair of the various buildings and the permanent school plants, and the appointment and control of over 5,000 employees.

This division is divided into six sections, as follows:

*Supplies section.*—This section at present consists of 14 clerks and handles in the course of a year purchases under contract and in open market involving approximately $4,000,000. In addition to this, the section routes all the freight and in connection with the awarding of contracts figures freight thereon. By reason of the fact that many of the reservations are without railroad facilities, and supplies must be freighted to them overland, it is essential that the supplies for the use of the Indians be delivered within the summer season, and in order to get the best prices it is necessary to hold the annual lettings for the purchase of the greater amount of supplies under contract at the same time. From this condition rush seasons result for this section.

At the same time construction work, involving building operations, must be carried on during the summer months for climatic reasons, or preparations for them rushed for financial reasons at the close of the fiscal year. Every case involving the purchase of goods or material requires a most careful examination of the bids and abstracts, with a view to determining the award which is for the best interests of the Government. Many factors are involved in these purchases, such as time, place of delivery, climate where the supplies or materials are to be used, topography of the country, and all kinds of similar questions which naturally arise in connection with the purchase of articles for use in various parts of the United States. The volume of work is entirely too heavy for the present clerical force to give the really careful attention and study to these matters which they deserve. An increase of at least two clerks for this section is almost imperative, if the work is to be handled properly.

*Industries section.*—The volume of the work of industries section, which is now carried on by six clerks, by reason of the additional attention given to the location of Indians upon their allotments and to farming their lands, and the administrative questions connected with the purchase of stock and implements for them, is rapidly increasing. The adoption of the use of tribal moneys for furnishing Indians funds with which to get them started upon their allotments under the reimbursable plan is adding materially to the work of this section, which handles also requests for individual Indian moneys approximating $4,000,000 a year. An additional clerk is seriously needed in this section.

*Employees section.*—This section is composed of six clerks and has charge of all matters in connection with the appointments, transfers, and promotions of employees in the Indian Service. It reports changes in the service to the Civil Service Commission and has charge of all matters in connection with the granting of annual leave. One additional position should be established for this section, so that the work thereof may be kept current.

*Health section.*—This section is composed of only one clerk, who is a physician. One additional clerk is seriously needed. The duties of this section pertain to all matters relating to health and sanitary work on the reservations and the work of physicians and field matrons. There is no more important work in connection with the Indian Service than the health and sanitary measures conducted on the various reservations for the prevention of disease and its eradication. The campaign being waged against trachoma and tuberculosis is of the first importance. An additional position for this section is very necessary.

*Law and order section.*—This section, which consists of five clerks, handles all office correspondence in connection with the suppression of the liquor traffic among Indians, marriage and divorce cases, dances and celebrations, claims for injured employees, crimes by and against Indians, complaints against employees, hunting and fishing on reservations. While the work of the section is very heavy, it is believed that it can be carried on with the present force.

*Schools section.*—This section consists of seven clerks and has charge of all matters coming to the Indian Office pertaining to reservation day, boarding, nonreservation boarding and mission schools, and the placing of Indians in public schools. While the work of this section is heavy, it is believed that it can be conducted with the present force and no additional assistance is requested.

## FINANCE DIVISION.

This division is divided into three sections corresponding to the three general classes of work under its jurisdiction. Each section, as well as all other sections of the office, is in immediate charge of a section chief, and the class of the work performed in each is indicated by its title.

*Bookkeeping section.*—There are now employed in this section 13 clerks. The work of the section consists generally of keeping ledger accounts of receipts and disbursements under over 1,000 different appropriations and funds, a detailed record of apportionments from and liabilities against appropriations, a detailed record of expenditures by agencies, schools and projects from each appropriation, requisitions for funds to be placed to the credit of disbursing officers, preparation of expenditure authorizations, financial statements, statistics, etc. The 13 clerks now employed in this section are barely able to keep up with the work, notwithstanding that much overtime work is performed. The work is constantly increasing, and there are many new features that might be added with profit, if the force were large enough to justify undertaking them. Two additional clerks are necessary to carry on the work of this section.

*Accounts section.*—The work of this section, now consisting of 21 clerks, is the administrative examination of quarterly cash and property accounts of approximately 215 disbursing officers and the monthly accounts of 212 banks which are custodians of tribal funds of the Five Civilized Tribes.

Section 12 of the act of July 31, 1894 (28 Stat. L., 209), commonly known as the "Dockery law," requires that monthly and quarterly accounts shall be made within 10 days and 20 days, respectively, after the periods to which they relate; also that they shall be forwarded to and received by the Treasury Department within 20 days and 60 days, respectively, after their receipt in the administrative office.

Accounts are increasing in number and size constantly, and the present force, though doing the best it can and performing much overtime labor, is barely able to examine and send the cash accounts within the time required by law. This leaves no time for examination of property accounts, which are much in arrears and are getting farther behind all the time. The examination of accounts should not be done hurriedly, as it is now of necessity, but deliberately, carefully, and thoroughly. To do this and keep up to date will require at least four competent clerks in addition to the present force.

*Claims section.*—The work of this section, now consisting of 16 clerks, is the administrative examination of claims, which term includes the vouchers and accounts of all kinds that are not paid by disbursing officers in the field. They are generally for supplies purchased under contract, supplies purchased in open market through Indian warehouses, freight and passenger transportation, unpaid shares of annuity, shares of individuals in tribal trust funds, and Sioux benefits under section 17 of the act of March 2, 1889 (25 Stat. L., 888), as amended by the act of June 10, 1896 (29 Stat. L., 333).

The work of this section, though increasing all the time, without a corresponding increase in the force, has been kept up fairly well except as to transportation claims and claims for unpaid annuities and tribal trust funds, which are considerably behind and must remain so until it becomes possible to augment the force. The number of claims received for settlement during the fiscal year ended June 30, 1913, was 15,514, which was an increase of 3,122 over the number received in the previous fiscal year. Four additional clerks are urgently needed in this section.

## LAND DIVISION.

This division has charge of the allotting, the sale, and the leasing of Indian lands, and numerous other subjects arising from these three main classifications. The correspondence of this division has greatly increased during the past year, and the clerical force has been decreased. The work of the division is divided into the following sections:

*Sales section.*—This section, consisting of five clerks, has charge of all sales of allotted and inherited Indian lands, the determination of heirs of deceased allottees, when the heirship papers accompany the petition of sale, the issuance of patents in fee under the acts of May 8, 1906 (34 Stat. L., 182), and June 25, 1910 (36 Stat. L., 855), the partition of Indian land, the issuance of certificates of competency to Kaw and Osage Indians, the issuance of certificates of competency under the provisions of the act of June 25, 1910, supra, Mission lands and the removal of restrictions in the Seneca Nation.

About 3,000 petitions for the sale of land have been approved by the department, and in many of these cases sales will soon be made. The work of this section is far behind, there being between four and five hundred cases undisposed of. To keep the work of sales section up to date, three additional clerks are required.

*Allotment section.*—This section consists of seven clerks, two of whom are engaged exclusively on work connected with the Five Civilized Tribes. The remaining five clerks handle all allotment correspondence, including that connected with allotments and Indian homesteads on the public domain. Exclusive of the Five Civilized Tribes, the correspondence of this section deals with 132 Indian reservations, not counting those in the State of New York, and considering the 19 Pueblos in New Mexico as one reservation, and the 28 or more different Mission Reservations in California as one reservation. A number of these reservations have from two to six different acts of Congress applicable to allotment matters and the disposal of surplus lands, and the correspondence connected therewith is necessarily large and varied. This section handles not only the allotment correspondence proper, but also that pertaining to the disposal of the surplus lands, reporting on bills to this end wherever necessary, any enlargement or reduction of the boundary lines, Government town sites, exchange of allotments before and after patents have been issued, and a large amount of correspondence of a miscellaneous nature. The work of allotments and Indian homesteads on the public domain is an important branch and demands the services of trained clerks, as it is technical and by no means easy of solution in its different phases. At least one additional clerk is needed in this section.

*Contracts section.*—This section consists of 16 clerks, and handles matters relating to leasing of tribal and allotted lands for all purposes, designation of banks as depositaries of Indian moneys, including examination of financial condition and examination and approval of bonds, enrollment with Indian tribes, annuity payments, applications for pro rata shares of trust funds and back annuities, claims of Indians against the Government, depredation claims, miscellaneous claims against the United States on account of Indian matters, employment of attorneys by Indian tribes and noncitizen Indians, taxation, citizenship, encumbrances on Indian lands, questions relating to New York and Pueblo Indians, and rights of way across Indian lands for all purposes. The desk handling the bank bonds is overwhelmed, the work having increased at least 100 per cent during the past year, and will apparently continue to increase. The right of way desk has too much work for one man, and an additional clerk is needed to assist in the matter of handling claims for back annuities and other questions relating to tribal payments. Three additional clerks are urgently needed for this section.

*Heirship section.*—This section, consisting of eight clerks, handles all matters relating to the determination of heirs of deceased Indian allottees, the consideration of wills of Indian allottees, and all miscellaneous questions pertaining to these subjects. There are about 1,500 heirship cases pending in the office on which final action has not been taken. It is estimated that there are now pending at the various agencies throughout the Indian country about 40,000 heirship cases, awaiting determination of the heirs under the act of June 25, 1910 (36 Stat. L., 855), which represent inherited lands valued at about $60,000,000. The Congress appropriated in the last Indian appropriation act $50,000 for conducting field work in connection with the determination of heirs of deceased Indian allottees, but no appropriation was made to provide for the increased work in the Indian Office, which will necessarily follow. It is believed that at least $100,000 should be requested in the estimates for the Indian appropriation bill for heirship work in the field for the next fiscal year, and if this appropriation is approved by Congress, it will further increase heirship work in the Indian Office. The longer this heirship work is delayed, the more complicated it becomes. I am exceedingly desirous of getting this work well in hand. It is work that is purely legal and requires care, very great care. At least five additional clerks, with legal training, are urgently needed for this most important work.

*Records section.*—This section consists of seven clerks, and their duties are to post on the records of the office all action involving the title of Indian land, the making of certified copies of records and handling of miscellaneous correspondence regarding title to lands. It is believed that the work of this section can be conducted without additional assistance.

## LAW DIVISION.

This division consists at present of two employees, Mr. James F. Allen, of the Board of Review, whose duty it is to review all heirship cases and certain classes of miscellaneous correspondence, and the law clerk of the bureau. The duty of the law clerk is to advise the employees of the office regarding law matters, review correspondence involving important law questions, review the reports relating to legislation, prepare estimates for the Indian appropriation bill and other appropriations for the bureau and the justifications therefor, and to supervise the preparation of the annual reports required to be submitted to Congress at the beginning of each session. The work of the law division is practically up to date.

*Mails and files section.*—The work of this section, composed of 38 employees, consists of making proper indexes of all Indian Office mail, both by name and subject, and assigning the incoming mail to the proper section of the office, keeping a record of the location of all important communications, and seeing that papers are properly filed with previous correspondence on the subject when they are returned from the correspondence clerks; also the work of dispatching mail and making and caring for press copies are part of the duties of the mails and files section. The files relating to the status of employees, the map files, several special files, and all the old records, dating back more than 100 years, are arranged and cared for by mails and files. It is also the duty of this section to make searches of indexes and files for any and all papers that may be wanted for any purpose by anyone who is entitled to such papers, or information they contain. Because of the increase of between 40 and 50 per cent in mail received during the past two years, with no corresponding increase in the clerical force, a great deal of the searching in the files is now done by correspondence clerks, the filing clerks being kept too busy in disposing of papers sent to files and charging out cases that are needed by employees of the office. At least four additional clerks are needed in the mails and files section. There are also needed four additional messengers to properly care for the messenger work of the office.

*Forestry section.*—This section consists of four employees. The total stand of timber on allotments is estimated at nearly 7,000,000,000 feet, with a value of nearly $12,000,000, while the amount on unallotted land is estimated at approximately 33,000,000,000 feet, with a value of $72,000,000. The administrative care of this timber, including the protection of the same from fire and trespass, the formulation of plans of management, and the effecting of sales is part of the work of the forestry section of this office. Approximately 200,000,000 feet were cut from Indian lands during the fiscal year 1913. It is probable that the amount cut during 1914 will be still larger. All plans for sales, forms of contract, and methods of cutting and supervision were handled in the forestry section.

In addition to this general field work, this section is required to take administrative action in regard to all requests of superintendents for the purchase of sawmills and their equipment, as to the number and class of employees at such mills, and as to the means to be adopted to make such mills contribute most to the welfare of the Indians. There are 36 Government and 41 private sawmills operating on Indian reservations. The proposed sales of allotments bearing merchantable timber are examined in the forestry section for the purpose of insuring that full value of the land and timber is obtained in such sales. The amount of work of this section is large and is increasing, but I believe that the present force is adequate to handle the work during the next fiscal year.

*Irrigation section.*—This section is now composed of four employees. The work of this section involves many administrative features in connection with the apportionment and expenditure of approximately $1,500,000 annually, the preparation of the necessary correspondence, the study of matters relating to the construction of irrigation systems, as well as maintenance and operation, and protection of water rights. The irrigation work makes necessary at times close cooperation with the General Land Office, the Geological Survey, and the Reclamation Service. All matters pertaining to water rights and rights of way for irrigation ditches, reservoirs, etc., receive consideration in this section. The work of the section is entirely too heavy for the present force, and at least one additional employee is necessary to keep the work of the section approximately current.

*Inspection section.*—The results of investigations into the character and efficiency of employees in the field service are submitted and passed on by one member of the Board of Review. These reports have been very voluminous during the past year and in several cases consisted of hundreds of pages of typewritten and other documents. These are reviewed and a letter prepared embodying the views of the office. The work requires careful revision of testimony and frequent research into the files of the office, entailing much more labor than that merely involved in preparing the decision on the record.

Reports of inspecting officers are received by one clerk, indexed, briefed, and the separate sections thereof charged out to the several divisions affected by the subject matter of the report. There appears to be no necessity for any increase in the clerical force in charge of this work.

*Stenographic section.*—This section consists of 21 employees, which number is grossly inadequate to do the work of the office. Under the present arrangement, due to the lack of sufficient stenographers, correspondence clerks are required frequently to wait days before being furnished a stenographer to dictate the cases prepared, and some correspondence clerks are now doing at least a part of their own typewriting because it is impossible to procure the services of a stenographer when needed.

No section of the Indian Office is in greater need of additional employees than the stenographic section, and it is estimated that it will require at least 10 additional stenographers to do the stenographic work of this office.

It is believed that the foregoing detailed information regarding the status of the work of this office fully justifies the request for the increased force for this office, as contained in the estimates herewith.

In compliance with the provisions of section 2 of the act of July 11, 1890 (26 Stat. L., 268), you are advised that there are no employees in this bureau who are below a fair standard of efficiency.

In conclusion I wish to emphasize the fact that the work of a great bureau handling a trust estate valued at approximately $1,000,000,000 belonging to nearly 300,000 wards of the Government, has been tremendously crippled because of the urgent need of and failure of Congress to provide an additional appropriation for employees whose services are absolutely necessary to keep the work of this bureau current.

*It is apparent that the policy of removing restrictions from the Indian as fast as he demonstrates competency, together with the proper protection of incompetents and minors will fast and greatly increase the work of this office, and that the faster these things are accomplished the greater the office force required to handle allotments, sales of tribal and allotted timber and agricultural lands, determine heirs, grant patents in fee, handle segregated trust funds, and the numerous other things necessarily incident thereto.*

I therefore have the honor to recommend that the estimates herewith receive the approval of the department and that they be transmitted, through the Treasury Department, as required by law, to the Congress for its consideration.

I shall be glad at the proper time to go before the Appropriation Committees of the House and Senate and explain the needs of the office and justify in detail the estimates herewith.

Very truly, yours,

CATO SELLS, *Commissioner.*

Hon. A. A. JONES,
*Acting Secretary of the Interior.*

NOTE.—This statement shows the full number of officers in each grade of the Navy as authorized for the fiscal year 1915, and the total amount of money that would be required for their pay; but it has been found that during the fiscal year 1913 the full quota of officers in the lower grades was not maintained, and using the percentage of shortage of officers for that year as a basis the estimate for the pay of 3,976 officers on the active list for 1915 has been reduced by $500,000, which accounts for the difference between the amount of money shown in this table and estimate under pay of the Navy for 3,976 officers.

# APPENDIX L.

*In connection with the estimates for "Expenses of Revenue-Cutter Service."* (*See p. 501.*)

TREASURY DEPARTMENT,
DIVISION OF REVENUE-CUTTER SERVICE,
*Washington, September 12, 1913.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to transmit herewith estimate of the amount required for the Revenue-Cutter Service for the fiscal year ending June 30, 1915, and attached thereto the statement required by act of August 24, 1912 (sundry civil bill). In accordance with the requirements of the act of Congress approved March 2, 1889 (vol. 25, p. 907), herewith is submitted a statement showing the authorized number of officers in the Revenue-Cutter Service, their rank and pay, civilian instructors and pilot, and the number of men constituting the crews of the vessels of the Service, with the particular rates of pay for each grade and rating, not including longevity pay of petty officers, viz:

CIVILIAN INSTRUCTOR.

1 instructor, at $2,000 per annum ..... $2,000.00

PILOT.

1 pilot, at $150 per month ..... 1,800.00

This estimate has been carefully prepared with a view to strict economy and contains only such amounts as are indispensable to the efficient maintenance of the service.

## RATIONS.

For many years past it has been the practice, when vessels are on extended cruises or obliged to leave port suddenly, to permit the cabin, wardroom, and warrant officers' messes to buy ration supplies from the stores purchased by the Government for the subsistence of the crew. The cash received from such sales of ration supplies has been expended by the commissary officer in replacing the supplies thus sold, or in purchasing other supplies needed by the general mess. It has been held by the comptroller that, in the absence of express provision of law to the contrary, the proceeds of sales of stores or supplies belonging to the Government must be covered into the Treasury as "Miscellaneous receipts." In consequence, whenever it becomes necessary in emergencies to issue to other messes ration supplies which were purchased for the general mess the proceeds of such sales must be covered into the Treasury, and the supplies thus issued can be replaced only as an additional charge against the appropriation for the maintenance of the service

To avoid this double charge, which in effect reduces the appropriation available for use, it is recommended that Congress be requested to enact into law the following provision, which would entail no additional expense to the Government:

Hereafter ration supplies may be purchased by the cabin, wardroom, and warrant officers' messes and payment therefor made in cash to the commissary officer; the prices to be charged for such supplies shall not be less than the invoice prices, and the cash received from such sales shall be accounted for on the Ration Return, and may be expended for the general mess.

## INADEQUATE APPROPRIATIONS.

Reference was made in the last annual report to the fact that notwithstanding the constantly increasing duties required of the Revenue Cutter Service, the appropriations for the maintenance of the service during the past two or three years have been reduced. In 1911 a horizontal cut of $100,000 was made, to be followed by a still further reduction of $28,000 for the fiscal year 1913; and this despite the almost universal advance in the cost of fuel, rations, and supplies. The statement was made in the last annual report that this condition would inevitably force an application to Congress for a deficiency appropriation, and it has been found necessary to obtain deficiency funds on two occasions in order to carry the service through the last fiscal year. In addition to this, and despite the fact that substantial economies were effected by purchasing supplies through the Navy contracts, other methods had to be adopted to keep the expenditures within the limit of the sums appropriated. Therefore the crews of certain cutters on the Atlantic coast were reduced and the activities of these vessels restricted during the months of May and June. These expedients are not in the true interests of economy, as they actually cripple the service by preventing the efficient performance of its legitimate functions. For the current fiscal year an increase of $40,000 over that of the appropriation for 1913 was allowed, but even with this increase the authorized appropriation is much less than the total amount for which carefully prepared estimates were submitted, and in all probability the expedients resorted to last year will have to be repeated before the close of the current fiscal year. It is therefore earnestly requested that Congress be urged to allot a sufficient amount for the maintenance during the next fiscal year, to the end that the service may be able to perform the duties required of it

Respectfully,

E. P. BERTHOLF,
*Captain Commandant.*

# APPENDIX M.

*In relation to the estimates of appropriations for the Public Health Service.* (*Estimates on pp. 509 to 512.*)

TREASURY DEPARTMENT,
PUBLIC HEALTH SERVICE,
*Washington, November 12, 1913.*

ESTIMATES, PUBLIC HEALTH SERVICE.

"Pay of commissioned officers and pharmacists."

NOTE.—Of the increase estimated for 1915, $32,218 is to provide for promotions and longevity pay as provided by law and regulations.

The additional $100,000 is for the employment of additional assistant surgeons. The duties imposed by the act of August 14, 1912, in the investigation of diseases of man and conditions influencing the propagation and spread thereof, including sanitation and sewage and the pollution, either directly or indirectly, of the navigable streams and lakes of the United States, have rendered the increase in the number of officers of the service imperative.

The work of the medical inspection of immigrants, with which this service is charged by law, is growing rapidly. The number of aliens inspected in the fiscal year 1913 was 1,574,371, as compared with 1,143,234 in 1912—an increase of 38 per cent. The number certified for rejection on account of mental and physical defects during 1913 was 38,558, as compared with 27,021 in 1912—an increase of 43 per cent.

Requests for the detail of service officers to assist and advise with State and local health authorities in outbreaks of disease and various sanitary problems have far outnumbered those of any previous year in the history of the service.

The enforcement of amendments to the interstate quarantine regulations relative to railway sanitation, and particularly relating to the purity of drinking water and ice supplied to passengers in interstate traffic, will require the services of additional officers.

"Pay of other employees."

NOTE.—The increase in the appropriation for "Pay of other employees" is urgently needed in order that adequate personnel may be employed at the various immigration stations.

The greater part of this amount is needed for the Ellis Island Immigration Station. During the fiscal year 1913 1,044,057 immigrants were inspected at the port of New York, as compared with 726,040 during the preceding fiscal year, or an increase of 44 per cent. The entire force at the station has been forced to work under high pressure, and while repeated requests have been received from the medical officers in charge of the work, the department has been unable to afford additional assistance, except in a very limited way, because of lack of funds.

Another great need at the Ellis Island station is that of additional interpreters. They are almost imperatively needed in the examination of aliens for mental defects. The increase in the number of admissions of insane persons of foreign birth to the various institutions in the State of New York has resulted in the necessity of a much more rigid mental examination. It is desired to supply at least five interpreters for this particular work at the earliest possible time.

What has been said of the increased work in the medical inspection of immigrants at New York applies also to the port of Philadelphia, with the new immigration hospital opened at Gloucester, N. J., and to the immigration station at Angel Island, Cal.

In this connection it may be said that the average cost of medical inspection of aliens during the past fiscal year has been 12.6 cents.

"Fuel, light, and water."

NOTE.—An increase of $5,000 is requested in this amount, and is accounted for by the increase in the cost of fuel. During the past fiscal year actual denial was in some cases necessary to keep within the appropriation.

"Purveying depot; purchase of medical, surgical, and hospital supplies."

NOTE.—The increase is needed to supply new surgical instruments and appliances at the 23 marine hospitals of the service, to replace those which have become either worn out, broken, or obsolete. An inspection committee recently reported the condition of these articles at several stations as unsatisfactory.

"Maintenance of marine hospitals."

NOTE.—The Public Health Service operates 23 marine hospitals, at which 14,097 patients were cared for during the fiscal year 1913, and the number of days' relief in hospital totaled 405,944. For the past two years the appropriation has been found insufficient to afford proper maintenance. The chief cause for the necessity of this increase is general increased cost of subsistence supplies. It will in all probability be necessary to apply to Congress for a deficiency appropriation for the present fiscal year.

"Medical examinations, care of seamen," etc.

NOTE.—From this appropriation are paid the expenses of medical treatment of seamen at stations other than marine hospitals. Hospital relief at these stations is furnished on a contract with a local hospital. At several such stations the per diem rate has been increased from 21 to 50 cents over the last fiscal year. The appropriation of $126,000 for the fiscal year 1914 will not be sufficient to conduct this branch of the service work, and it will be necessary to apply to Congress for a deficiency appropriation.

"Collecting information of the occurrence of epidemics and prevalence of disease throughout the United States."

NOTE.—Information of the occurrence and prevalence of disease is of paramount importance in public health work. At present the Public Health Service is entirely dependent upon the voluntary cooperation of local and State health authorities for this information. While in some instances this cooperation is all that could be desired, in others it is insufficient. This fund is requested to enable the service to collect full and complete reports of morbidity statistics from the entire registration area.

*Notes in explanation of the estimates under the Smithsonian Institution, for the fiscal year ending June 30, 1915.* *(See pp. 532 to 535.)*

### INTERNATIONAL EXCHANGES, SMITHSONIAN INSTITUTION.

The system of international exchanges is based on the convention and the resolutions of Congress briefly referred to below:

Convention between the United States and several other countries for the international exchange of official documents and scientific and literary publications, concluded at Brussels in 1886 and proclaimed by the President of the United States in 1889. (Stat., XXV, 1465.) (Since the ratification of this convention, several additional Governments have signified their adherence thereto; while a number of other countries, though they have not officially adhered to the convention, have established international exchange bureaus.)

Resolution providing for the exchange of certain public documents, approved March 2, 1867. (Stat., XIV, 573.) This resolution provides that 50 copies of all documents printed by order of either House of Congress, and also 50 copies of all publications issued by any bureau or department of the Government shall be placed at the disposal of the Joint Committee on the Library for exchange with foreign countries through the agency of the Smithsonian Institution.

Joint resolution to regulate the distribution of public documents to the Library of Congress for its own use and for international exchange, approved March 2, 1901. (Stat., XXXI, 1464.) By this resolution it is provided that, in lieu of the 50 copies of the publications referred to in the above-mentioned resolution, there shall be placed at the disposal of the Library of Congress for its own use and for international exchange 62 copies of such documents, with the privilege, at the request of the librarian, of enlarging this number to 100.

Joint resolution for the purpose of more fully carrying into effect the convention concluded at Brussels in 1886 in reference to the immediate exchange of the official journal, approved March 4, 1909. (Stat., XXXV, 1169.) This resolution provides that such number as may be required, not exceeding 100 copies, of the daily issue of the Congressional Record, shall be supplied to the Library of Congress for distribution, through the Smithsonian Institution, to the legislative chambers of such foreign Governments as may agree to send to the United States current copies of their parliamentary record or like publication.

The estimate here submitted for the international exchanges is the same as the appropriation for the current year.

### AMERICAN ETHNOLOGY, SMITHSONIAN INSTITUTION.

Ethnological researches among the American Indians have been conducted under the auspices of the Smithsonian Institution for a number of years, and many of the results, covering a wide range of subjects pertaining to American archæology and ethnology, have been published in the annual reports and as bulletins of the Bureau of American Ethnology. This work, as reflected by the published results, is regarded by scholars everywhere as of the greatest usefulness and scientific importance. Much of the material was recorded at a time which afforded opportunities that will never be repeated, and every effort is now being made to record a knowledge of the facts bearing on the customs, beliefs, mythology, languages, etc., of the Indians wherever they are threatened with extinction, so far as the means are available.

As an indication of the methods and the scientific value of the results of these ethnological researches, the following is quoted from an address by a recent president of the section of anthropology of the British Association for the Advancement of Science at an annual meeting of that great scientific body held at Winnipeg:

> Now, our neighbors south of that line have the reputation of being practical men; in other departments of knowledge they are believed to know well "what pays." And I am forced to believe that it is because they know it pays, to know all that can still be known about the forms of human society which are protected and supervised from Washington, that they have gone so far as they have toward rescuing that knowledge from extinction while still there is time. The Bureau of Ethnology of the United States of America is the most systematic, the most copious, and, I think, taking it all in all, the most scientific of the public agencies for the study of any group of men, as men.

A further indication of the value and character of the researches of the bureau is shown by the recent award to a member of its staff of a Loubat prize for two ethnologic memoirs prepared by him and published by the bureau.

The results of the bureau's work are drawn on very largely by teachers and compilers of histories, dictionaries, encyclopedias, and other educational publications, in order that authoritative information may be offered with respect to the basis of our Nation's history.

While much has been done toward recording the facts pertaining to the Indians, their beliefs, customs, arts, industries, social organization, physical characteristics, antiquities, history, and relations with white people, a great deal remains to be accomplished, and a number of tribes are still to be thoroughly studied. Many of the facts thus far gathered have been incorporated, or are being prepared for incorporation, in a series of handbooks, those already issued having met with great popular demand. It is designed to extend this more or less popular form of publication

Digitized by Google

in order that the knowledge gained through the researches of the bureau may be made useful to the public generally, and especially to the schools.

The opportunity for making investigations of many of the phases of Indian life, character, and beliefs is rapidly passing, and it is hoped that the means may be afforded to enable the Smithsonian Institution to extend its ethnologic researches in directions that still offer facilities for investigation but which have not been pursued owing to insufficient means. For this reason it is strongly recommended that an increase in the appropriation be made, as summarized herein.

The increase of $24,800 over the appropriation for the fiscal year 1913–14 is designed for the following purposes:

| | |
|---|---|
| (1) For the exploration and preservation of antiquities, including the cliff dwellings, in the arid region | $4,000 |
| (2) For ethnological researches in Alaska | 4,500 |
| (3) For the extension of ethnological investigations among the tribes of the Mississippi drainage | 5,000 |
| (4) For the excavation and study of archeological remains in the South and West | 1,500 |
| (5) Toward the preparation of a revised edition of the Handbook of American Indians, including the employment of specialists, and of clerical and editorial assistance | 3,800 |
| (6) Toward the preparation of a series of handbooks of the Indians of the respective States, with special reference to the needs of schools and colleges | 3,600 |
| (7) For the acquirement of manuscript material pertaining to the American Indians and the natives of Hawaii, for publication | 2,400 |
| | 24,800 |

(1) The appropriation requested for this item is designed for the excavation, study, and repair of prehistoric ruins in the Southwest—in Colorado, Arizona, and New Mexico. A beginning was made in this work a few years ago in the Mesa Verde National Park in southern Colorado, but a question having arisen respecting the expenditure, for this purpose, of an increase of $2,000 in the general appropriation for ethnological researches, the investigation was terminated. Several great ruins in the section named, including some of the cliff dwellings, still await excavation and preservation. Those that should receive first attention, in order that they may be saved from destruction by the elements, are situated on national reservations set aside by authority of law in order that they might be preserved for future generations.

(2) There is urgent need for ethnological researches among the native tribes of the Alaska mainland and adjacent islands because of the rapid modification taking place among them owing to the encroachment of civilization and the spread of disease. Unless this investigation is commenced very soon much important knowledge will be lost. The solution of the problem of the origin of the American Indians is to be sought by a comparative study of the natives of Alaska and those of northeastern Asia, consequently the proposed study is of world-wide interest.

(3) As stated in previous estimates, the sum requested for the extension of ethnological researches among the remnant tribes of the Mississippi drainage is needed in order that this information may be gained before it is too late. Some of the tribes are now represented by only two or three survivors who still retain a knowledge of the aboriginal customs and the languages of their people, hence delay in prosecuting this investigation will prove a loss to knowledge that can never be regained.

(4) For some time ethnological researches have been conducted among the tribes constituting what was formerly known as the Creek Confederacy, together with other southern tribes whose survivors, where such exist, now live in Oklahoma and Texas. In order to make this investigation as complete as practicable, it is necessary to undertake archeological investigations in parts of the South where these tribes once had their settlements. The same is true of parts of the West, notably in Nebraska, where archeological research alone can shed light on the problems involved. The sum of $1,500 is needed to enable the commencement of this work. Numerous requests have been made by residents of these sections that such work be done by reason of its importance to early local history as well as to the larger problems of American archeology and ethnology.

(5) The great popular demand for the Handbook of American Indians, published in 1907 and 1910, and reprinted in 1912 by authority of Congress, justifies the early revision of this work. So much knowledge respecting the history and customs of the Indians and their relations with the colonists and the United States has been gained since the Handbook was projected, that, to meet the increasing interest in the subject and the constant demand for the volumes, a new and revised edition is necessary. The most economical plan for preparing this revision will be to employ outside experts for work in their particular fields in conjunction with the staff of the bureau. By this means the regular investigations would not be retarded. As a further indication of the wide interest in and authoritativeness of this work, it may be said that the Canadian Government has extracted from the Handbook and recently republished all those parts pertaining to Canada.

(6) In order to meet a further popular demand it is recommended that the sum of $3,600 be appropriated for the preparation of material toward a series of handbooks on the archeology and ethnology of the respective States and Alaska. A good beginning can be made with this sum, and such a series would prove of great advantage to colleges and schools.

(7) It is found that the services of other investigators can often be obtained at a minimum of cost. Opportunities have been presented recently for the acquirement of such manuscript ethnological material at a merely nominal rate, and therefore the sum of $2,400 is requested to make possible its purchase.

## INTERNATIONAL CATALOGUE OF SCIENTIFIC LITERATURE, SMITHSONIAN INSTITUTION.

The purpose of the International Catalogue of Scientific Literature is to collect and publish in 17 annual volumes a classified index of the current scientific publications of the world.

This is accomplished through the cooperation of 32 of the principal countries of the world, which by means of regional bureaus, one in each country, prepare the data necessary to index all scientific publications published within their domains.

The material thus prepared is forwarded to a central bureau in London for publication in the annual volumes.

Digitized by Google

The various subscribers throughout the world bear the entire cost of printing and publishing by the central bureau.

Each country taking part in the enterprise bears the cost of indexing and classifying its own publications.

The 17 annual volumes combined contain between 10,000 and 12,000 printed pages.

The regional bureau for the United States furnishes yearly about 30,000 classified citations to American scientific literature, which is between 11 and 12 per cent of the total work.

Millions of dollars are being spent each year in scientific investigation, and many of the foremost men of the day are devoting their entire time to such work. The results of their labors find publicity through some scientific journal, of which there are over 5,000 being regularly indexed by the various regional bureaus—over 500 in the United States alone.

In addition to these periodicals are hundreds of books and pamphlets, all of which the International Catalogue aims to index in its yearly work.

The International Catalogue furnishes in condensed, accurate, and permanent form a minutely classified index to all of these publications.

It is necessary for each paper to be carefully studied by a person competent to thoroughly understand the subject treated, as the method of classification actually furnishes a digest of the contents in addition to the usual bibliographical data.

The catalogue is to science what the legal digest is to law.

Five persons are regularly employed in this bureau.

The estimate here submitted is the same as the appropriation for the current year and the year preceding.

### ASTROPHYSICAL OBSERVATORY, SMITHSONIAN INSTITUTION.

The work of the Astrophysical Observatory is recognized in the United States and abroad to be giving a large output of needed information, of great present service to men of science, of interest to the general reader, and of very great probable value in the future development of the sciences of meteorology and agriculture.

For some years the ordinary appropriation for the observatory has been $13,000 per annum. The salaries of its staff including Director, at $3,000; aid, at $2,100; assistant, at $1,560; instrument-maker, at $1,320; computer, at $1,200; messenger, at $480; and proportionate share of office and other services amounting to about $1,000, make a total for salaries and services of about $10,600, leaving a balance of only $2,400 for all expenditures for apparatus, supplies, observers in field, heat, light, freight, express, books of reference, and every sort of necessary expense whatsoever.

This balance is inadequate. The active prosecution of original investigation continually requires the construction and testing of new forms of apparatus. Great delay is experienced from the necessity of building home-make makeshift appliances to supply the places of pieces of standard laboratory apparatus, such as electrical resistances, potentiometers, galvanometers, electrical thermometers, air-pumps, gauges, manometers, comparators, etc., which other laboratories have, but which on account of poverty we are unable to procure. Besides these ordinary needs, we require to obtain expensive optical apparatus, such as mirrors, prisms, lenses, and the like, suited to new experiments.

In view of these urgent needs the sum of $14,000 is asked.

We propose to expend the appropriation asked for in investigating:

(*a*) The relation of the earth's temperature to the sun.

(*b*) The quantity and cause of the sun's variability.

About $10,600 will be for salaries and services, the remainder for supplies, periodicals, and books of reference, repairs of buildings, apparatus, and expenses of observers in the field.

In addition to the above $14,000 required to meet the regular expenses of the Astrophysical Observatory, $2,000 is requested for equipping the tower telescope of this observatory on Mount Wilson, Cal. It is asked that this amount be made immediately available, in order that this apparatus may be made ready with the least delay possible for a special investigation which promises results of unusual importance.

### BOOKSTACKS FOR GOVERNMENT BUREAU LIBRARIES, SMITHSONIAN INSTITUTION.

The original estimate for this work was $40,000, of which $15,000 was appropriated in the sundry civil act approved June 23, 1913. It is respectfully urged that the remaining sum of $25,000 be included in the bill making appropriations for the sundry civil expenses of the Government for the fiscal year ending June 30, 1915. The hall in which these stacks are to be erected will necessarily be closed during the period of construction. It is the principal hall in the Smithsonian Building, and the exhibits of graphic arts, and the library of the Bureau of American Ethnology, comprising many thousand volumes, installed in it, will have to be stored during the progress of the work. It is, therefore, requested that the sum asked for be made immediately available.

### REPAIRS, SMITHSONIAN BUILDING.

The exterior walls of the Smithsonian Building are in very bad condition in many places. The lime mortar originally used in setting up the masonry has lost its strength and in many parts of the building has been entirely washed out from between the stones by heavy rains, leaving deep cracks which expose the joints to the action of frost. Owing to this condition it will be necessary to reset many of the stones. The old lime mortar should be cleaned out of the joints over practically the entire building and replaced by cement mortar.

Many of the windows and the roof of some of the towers have not been renewed since the building was originally erected, and are in such bad condition as to require constant repairs.

## AERONAUTICAL INVESTIGATIONS, SMITHSONIAN INSTITUTION.

The Smithsonian Institution was the pioneer in the scientific investigation of the problem of mechanical flight, and it is generally agreed that the present great development of the science of aeronautics is based on the researches and publications of its late secretary, Dr. Samuel P. Langley.

New problems are constantly arising in aeronautics, which require for their solution larger means than the Institution can devote to them, and the sum of $50,000 is, therefore, asked for to continue and enlarge the activities of the Institution in the development of this science in cooperation with the Government departments and other organizations engaged in aeronautical work.

The need for the scientific investigation of these problems is universally recognized in the United States among those interested in the subject of aerial navigation, and it is hoped that the sum named may be appropriated in order that the work may be effectively carried on.

## NATIONAL MUSEUM, SMITHSONIAN INSTITUTION.

*Furniture and fixtures.*—This item of appropriation provides for the construction, purchase, and repair of all cases and other articles of furniture for the exhibition halls, storerooms, laboratories, and offices; for all case fittings, including drawers, trays and shelving; and for all receptacles for specimens, such as tanks, jars, bottles, and boxes. Of the amount estimated—namely, $25,000—about one-fifth will be required for the exhibition halls, and four-fifths for the other purposes stated.

*Heating and lighting.*—The amount requested in this item—namely, $50,000—is required for the operation and maintenance of the power plant located in the new building for heating, lighting, and supplying power to the buildings occupied by the National Museum, for the purchase of heating and electrical supplies and equipment, for operating the elevators and ice plant, and for the telephone and other electrical service. The estimate is the same as the appropriation for the current and previous three years.

*Preservation of collections.*—This appropriation covers all expenses for the maintenance and operation of the museum except such as are otherwise specifically provided for, including the salaries of the administrative and scientific staff, preparators, cataloguers, clerks, watchmen, laborers, and cleaners, and the cost of supplies, preservatives, materials for cleaning the building, stationery, freight, and expressage, travel and incidental field work, illustrations for the publications, etc.

The addition of $20,000 to the amount of the current appropriation of $300,000, indicated in the estimates, is requested to permit the organization and installation of the industrial collections, constituting the technological department of the Museum, which is receiving substantial support from the manufacturing and commercial interests of the country, but in which only very inadequate results can be reached under the present conditions.

*Books.*—The work of identification and classification of the collections of the Museum has been greatly impeded by the insufficiency of the funds appropriated for purchasing the reference books needed for that purpose, and it is earnestly requested that the entire amount of the estimate, namely, $4,000, be granted. The library of the Museum is restricted to the subjects to which its collections relate, and no attempt is made, through purchase, to duplicate works that can be furnished by the Library of Congress or other public libraries in Washington.

*Building repairs.*—The buildings occupied by the National Museum are in need of important repairs, which should be made with as little delay as possible, and which, without reference to any contingencies, will, it is estimated, cost between $25,000 and $20,000. The damaged gutters and cresting of the roofs of the new building have, it is believed, been placed in satisfactory condition, and the immediate requirements concern the older buildings almost wholly. One of these is over 60 years old, the other is 33 years, and despite the constant effort to keep them in normal condition it has been impossible to fully check their deterioration, resulting from ordinary wear and tear, with the repair work that has been put upon them. This is especially true in regard to the older Museum Building, in the erection of which under an inadequate appropriation many important matters were required to be finished in an inferior way. The structural parts of these buildings are, in the main, of a substantial character, but the floors, walls, ceilings, and roofs present many defects and disfigurements, in some respects amounting to insecurity. The very crowded condition of the older Museum Building and of parts of the Smithsonian Building for some years preceding the recent removal of the natural history collections to the new building is in some measure responsible for the present status, having prevented that close oversight of the interior of the buildings necessary to their satisfactory maintenance. Now, however, that, with the facilities afforded, the installations are being arranged throughout the extensive exhibition halls on a more appropriate basis, and in a presentable and satisfactory manner, the interior of the buildings themselves should also be made presentable and safe.

## NATIONAL ZOOLOGICAL PARK, SMITHSONIAN INSTITUTION.

The cost of maintaining the park has materially increased during recent years owing to the rapid advance in prices, especially of food supplies, and with no increase in the appropriation, the amount has been smaller each year that could be used in providing for the housing of the animals and for the convenience of the public.

The collection of animals, and especially the series of birds, compares favorably with those in other similar establishments, but the accommodations for the animals and the facilities for visitors are altogether inferior and inadequate.

A suitable house for birds is most urgently needed, as the rough building in which they are now kept is a temporary structure that does not afford sufficient space to exhibit the whole collection nor such features of construction and equipment as are needed to keep the birds in healthy condition. The collection includes some birds of great rarity and interest, and, if housed in a suitable aviary, would be a notable feature of the park.

Digitized by Google

Another serious need is a public comfort building with toilet facilities, where shelter could be had and lunch obtained at all times of the year. The rude, uninclosed platform on which the lunch stand is now kept is inadequate and affords no protection against cold and driving storms.

The boundary fence of the park, of woven wire, which was built some 11 years ago, needs extensive repairs, and will have to be largely rebuilt in places. A wire fence is, at best, only temporary, and it is to be hoped that this can soon be replaced with a fence of permanent character.

## APPENDIX O.

*In explanation of the estimates for "Support of National Home for Disabled Volunteer Soldiers," see pp. 549 to 552.*

*Explanations to estimates of the Board of Managers of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1914.*

HEADQUARTERS, NEW YORK, N. Y., *September 12, 1913.*

The SECRETARY OF WAR,
*Washington, D. C.*

1. In compliance with instructions contained in letter from your department dated August 27, 1913, I forward herewith inclosed estimates for appropriations required for the support of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1915, together with statements of expenditures for salaries, etc., of officers and employees of the board of managers and of compensation and allowances of the officers of the several branches of the National Home for Disabled Volunteer Soldiers for the fiscal year ending June 30, 1913, as required by act of August 5, 1892; also in connection with the item of $255,000 under Subsistence, Central Branch, the statement showing the number of persons employed and the amounts expended for each other object or class of expenditure as required by section 6 of the act of August 24, 1912.

2. The following explanations relating to the estimates are submitted:

### NORTHWESTERN BRANCH.

*For cement curbs and gutters, $7,500.*—Required to replace worn-out curbs and gutters, completing the renewal of all curbs and gutters in concrete.

### SOUTHERN BRANCH.

*For sea wall on Johns Creek, $22,000.*—The tidewater overflow along the banks of this creek creates a bad sanitary condition which this wall is designed to correct.

*For new administration building, $30,000.*—To replace the present administration building, which is inadequate. This is pursuant to the approved plan for the rebuilding of the branch and will complete the building scheme as designed.

*For sewage purification plant, $3,000.*—Required to prevent the contamination of the oyster beds along Hampton Roads, into which the sewage of the branch home is discharged.

### WESTERN BRANCH.

*For mess and kitchen connecting two barracks, $16,000.*—To provide necessary facilities for aged and infirm members who are unable to go to the general mess building without hardship.

### PACIFIC BRANCH.

*Repairs, $54,000.*—This increase of $6,000 over the appropriation for 1914 is required for necessary repairs to the buildings of the branch home.

*For combination dining hall and kitchen, $16,000.*—To provide messing facilities adjacent to the barracks for aged and infirm members who are unable to go to the general mess building without hardship.

*For repairs to seven barracks, $17,000.*—Required to renovate and repair seven old barracks; to provide modern plumbing, iron stairways for fire escapes, etc.

*For repairs to hospital, $16,000.*—Required to remodel the old hospital to make it more suitable for the care of the sick, and to provide an electric elevator.

# APPENDIX P.

*In connection with the estimates of the District of Columbia, as submitted by the Commissioners. (Estimates on pp. 641 to 710.)*

OFFICE COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
*Washington, October 15, 1913.*

The SECRETARY OF THE TREASURY.

SIR: The Commissioners of the District of Columbia transmit herewith, as required by law (31 Stats., 1909), their estimate of appropriations to provide for the expenses of the government of said District for the fiscal year to end June 30, 1915.

These estimates are slightly less in the aggregate than twice the amount of the total estimated revenues of the District for that fiscal year after taking into consideration, pursuant to the act of March 3, 1909 (35 Stats., 1728), all charges against such revenues arising under appropriations other than the regular District appropriation act.

The aggregate of these estimates is as follows:

| | |
|---|---|
| Chargeable to the general revenues | $14,354,754.49 |
| Chargeable to the revenues of the water department | 136,860.00 |

The estimated appropriation fund applicable to the portion of the foregoing estimates other than the estimates for the water department is $14,355,892.68, leaving a balance of $1,138.19 in favor of that fund.

The estimated revenue of the water department for the fiscal year 1915 is $790,000.

The appropriation fund is based on an estimate of the revenues of the District government derived from taxes, licenses, and other private sources, less the definite and potential items chargeable wholly against such revenues; then doubling the remainder in order to include the proportion due from the United States, according to the terms of "An act providing a permanent form of government for the District of Columbia," approved June 11, 1878; and finally, deducting from such combined fund an estimate of the appropriations for the fiscal year 1915, which will be contained in other acts than the regular District of Columbia bill, which estimate is based on the amount of such appropriation made for 1914.

Pursuant to the requirement of law (34 Stat., pt. 1, p. 317), that—

> The board of education shall annually on the 1st day of October transmit to the Commissioners of the District of Columbia an estimate in detail of the amount of money required for the public schools for the ensuing year, and said commissioners shall transmit the same in their annual estimate of appropriations for the District of Columbia, with such recommendations as they may deem proper—

the commissioners transmit herewith the estimates for the public schools for 1915 in the exact form and amount in which those estimates were submitted to them by the board of education.

Also the estimates of the Board of Charities for the fiscal year 1915, as submitted by that board, pursuant to the act creating the board, which prescribes that it shall prepare—

> such estimates of future appropriations as will, in the judgment of a majority of its members, best promote the effective, harmonious, and economical management of the affairs under its supervision; and such estimates submitted shall be included in the regular annual Book of Estimates. (31 Stat., 665.)

The commissioners also transmit herewith a schedule of proposed work on streets and avenues, a copy of the estimate of the general revenues for the fiscal year 1915, and a list of rented buildings.

Very respectfully,

BOARD OF COMMISSIONERS OF THE DISTRICT OF COLUMBIA,
By O. P. NEWMAN, *President.*

***Estimated general appropriation fund, fiscal year 1915.***

[Prepared in accordance with the provisions of the District of Columbia appropriation act, approved Mar. 3, 1909 (35 Stats., 728):
"Hereafter the Commissioners of the District of Columbia shall not submit, nor shall the Secretary of the Treasury transmit, to Congress regular annual estimates for the expenses of the government of the District of Columbia for any fiscal year that shall exceed in the aggregate a sum equal to twice the amount of the total estimated revenues of the District of Columbia for such fiscal year. Said estimates shall take into consideration and embrace all charges against the said revenues arising under appropriations other than the regular District of Columbia bill."]

| | | |
|---|---|---|
| Estimated revenues for fiscal year ending June 30, 1915, as per detailed statement of Sept. 9, 1913, herewith | | $7,687,174.00 |
| This amount is subject to reduction on account of the following items chargeable wholly to District revenues (estimated): | | |
| Reimbursement of United States for advances for special park improvements, being fourth and final instalment account— | | |
| Montrose Park | $13,750.00 | |
| Meridian Hill Park | 61,250.00 | |
| Costs of condemnation, Meridian Hill Park | 1,283.29 | |

| Interest at 3 per cent on deferred payment account special park improvements above, fiscal year 1915 | 2,288.50 | |
| Reimbursement of United States for half-cost of maintenance of indigent insane patients at Government Hospital for Insane, 1881–1911, third instalment of one-seventh of total to be reimbursed, pursuant to sundry civil act, Aug. 24, 1912, as amended by District appropriation act, Mar. 4, 1913 ($719,536.09) | 102,790.87 | |
| Indefinite appropriations estimated: | | |
| Extensions, etc., of streets and avenues | 40,000.00 | |
| Refunding taxes, etc | 35,000.00 | |
| Appropriation contained in legislative, executive, and judicial bill: Salaries of employees, public buildings and grounds, District charge | 32,875.00 | |
| Total estimated amount of items chargeable wholly to District revenues | | 289,237.66 |
| Leaving net revenues available for appropriations payable one-half from District revenues | | 7,397,936.34 |
| To this sum should be added an equal amount to be paid by the United States as its half | | 7,397,936.34 |
| Making available for appropriations payable half and half, by the District of Columbia and the United States, respectively | | 14,795,872.68 |

| **EXECUTIVE PROPER.** | | | |
| **CIVIL SERVICE COMMISSION.** | | | |
| *Traveling Expenses, Civil Service Commission—* | | | |
| Necessary traveling expenses, including those of examiners acting under the direction of the commission, and for expenses of examinations and investigations held elsewhere than at Washington, and attendance at meetings of public officials, being for the fiscal year 1914 (act Mar. 4, 1913, vol. 37, p. 750, sec. 1)..... | | $12,000.00 | $12,000.00 |
| NOTE.—The total appropriation for travel during the fiscal year 1914 is $12,000. Up to date there has been expended $7,824.61, leaving a balance of $4,175.39 available to cover expenditures of all kinds from this appropriation to July 1 next, which amount will be wholly inadequate to meet the needs of the commission for the balance of the fiscal year, the spring examination trips alone requiring an expenditure of approximately $2,300.<br>The deficiency in the appropriation under this item is caused by the extension of the district system to outlying services, requiring the district secretaries to visit the headquarters of these services at least quarterly for the purpose of marking examination papers and giving instructions to the different local secretaries; and also the fact that many cases of applicants require investigation as to their suitability, and that many cases of political activity, as well as charges that examinations were not properly conducted, require investigation.<br>In September last the commission directed that examinations for fourth-class postmasters for the purpose of filling vacancies should be held at the places where the vacancies existed. This required the sending of an examiner to the place to conduct the examination. This has been the principal cause of the deficiency. Since July 1, 1913, bills amounting to $3,888.18 for travel in connection with these examinations have been received. There are quite a number still outstanding. During the first quarter, when the examinations for fourth-class postmasters were held by fourth-class postmasters at an office other than where the vacancy occurred, there was expended $466.54; during the second quarter, when examinations were held by local secretaries at the places where the vacancies existed, bills amounting to $3,421.67 have been received, and there are quite a number still outstanding.<br>From the foregoing it will be seen that without a deficiency appropriation, it will be necessary to discontinue the practice of holding fourth-class postmaster examinations at the places where the vacancies exist, and to practically discontinue all the other travel of the commission. | | | |
| *Stationery, Civil Service Commission—* | | | |
| Stationery for the Civil Service Commission, being for the fiscal year 1914 (act Mar. 4, 1913, vol. 37, p. 776, sec. 1)..... | | 1,500.00 | 5,000.00 |
| NOTE.—The total appropriation for stationery for the fiscal year 1914 (exclusive of the amount of $500 for the Division of Efficiency) is $5,000. Up to the present time $3,125.94 has been expended, leaving a balance of $1,874.06 available for the balance of the fiscal year. During the first half of the last fiscal year $2,371.46 was expended under this appropriation, from which it will be seen that during the present fiscal year $754.48 more has been expended than during the corresponding period of last year. The commission has had no increase in the appropriation for stationery since 1906. Up to the last fiscal year the appropriation was sufficient for the needs of the commission; but during the last fiscal year it was inadequate, and the purchase of approximately $600 worth of stationery had to be postponed until the beginning of the present fiscal year. During the second half of the fiscal year 1913, $2,628.54 was expended, which, together with the $600 which it was necessary to carry over to the present fiscal year, would have made an expenditure during the last half of 1913 of $3,228.54. At the present time, as shown above, there is available $1,874.06 for the purchase of stationery between now and the end of the fiscal year, which will be entirely inadequate.<br>The deficiency in the appropriation for stationery is caused by the fact that no increase has been made in the appropriation since 1906, while the expansion of the classified service has caused a great increase in the number of applicants and the consequent growth of correspondence, thereby resulting in an increase in the expenditure for stationery. Over half of the fund is expended annually for envelopes used in the shipment and return of examination material, the distribution of application forms and pamphlets of information to applicants and the general public, the mailing of announcements of examinations, the carrying on of miscellaneous work assigned to the field offices, and for the general correspondence of the commission. There has also been expended a considerable amount for purchase of paper used in preparation of circular letters and circulars of information on duplicating machines, thereby saving the time of stenographers and typewriters and cost of printing. The remainder of the fund is expended chiefly for letter paper, carbon sheets, and typewriter supplies, leaving a small part of the appropriation for desk supplies. | | | |
| *Printing and Binding, Civil Service Commission—* | | | |
| Printing and binding for the Civil Service Commission, to be executed under the direction of the Public Printer, being for the fiscal year 1914 (act June 23, 1913, vol. 38, p. 69, sec. 1)..... | | 10,000.00 | 45,000.00 |
| NOTE.—The total appropriation for printing and binding for the fiscal year 1914 is $45,000. To date the cost of printing already done and that for which requisitions have been made is estimated to be $26,795.47. This deducted from the annual appropriation leaves a balance of $18,204.53 available for printing for all purposes between now and July 1 next. During the last half of the fiscal year 1913, $18,630.01 was expended, but on account of the insufficient appropriation it was necessary to carry over from the fiscal year 1913 to the present fiscal year $6,400 worth of printing. If this printing had been done during the fiscal year 1913, there would have been expended over $25,000 in the last half of that fiscal year. During the first half of the fiscal year 1913 there was expended $21,370 of the total appropriation of $40,000; against $26,795.47 this year, an increase of $5,425.47 over the same period of last year.<br>The deficiency in the printing appropriation is caused by the fact that for several years it has been necessary to carry over part of the printing of one fiscal year to the next, the appropriation not being sufficient. This amounted to $6,400 in the present year, as stated above. It is also due to the new conditions incident to the increase in the number of competitive positions from 236,061 to 297,067, principally due to the classification of the navy-yard service and of additional fourth-class postmasters. The passage of the eight-in-ten hour law for the post-office service caused an increase in force in many offices, thereby necessitating the holding of many additional examinations and the consequent printing of more application forms, instructions to applicants, and examination questions. The establishment of the parcel post system resulted in a large number of inquiries in regard to that system, necessitating the preparation of matter giving proper instructions; and also resulted in an increased force in several post offices and in the Railway Mail Service, thereby necessitating the holding of many additional examinations and the consequent preparation of material therefor. The consequent growth of the work of the commission, both at the home office and the various field offices, has greatly increased the general printing; the change of administration has also caused a large increase in the requests for general information in regard to the classified service. | | | |
| Total, Civil Service Commission..... | | 23,500.00 | |

| FOREIGN INTERCOURSE. | | | |
| *Salaries, Ambassadors and Ministers—* | | | |
| To pay the difference in salary between that of an envoy extraordinary and minister plenipotentiary to Spain at $12,000, provided by the diplomatic and consular appropriation act of Feb. 28, 1913, for the fiscal year ending June 30, 1914, and the salary of an ambassador to Spain at $17,500, authorized by the act of Sept. 4, 1913, to the close of the fiscal year ending June 30, 1914 (acts Feb. 28, 1913, vol. 37, p. 688, sec. 1; Sept. 4, 1913, vol. 38, p. 110, sec. 1).. | ..... | $4,537.50 | $12,000.00 |
| To pay the salary of the envoy extraordinary and minister plenipotentiary to Paraguay, at $10,000 per annum, from Dec. 6, 1913, to June 30, 1914, authorized by the act of Dec. 6, 1913, $5,722.22, or so much thereof as may be necessary, and the sum of $10,000 appropriated by the diplomatic and consular act of Feb. 28, 1913, for salary of the envoy extraordinary and minister plenipotentiary to Paraguay and Uruguay, for the fiscal year ending June 30, 1914, is hereby made available for payment of the salary of the envoy extraordinary and minister plenipotentiary to Uruguay, authorized by the said act of Dec. 6, 1913 (public act No. 39, Dec. 6, 1913)..... | ..... | 5,722.22 | 10,000.00 |
| *Relief and Transportation of Destitute American Citizens in Mexico—* | | | |
| For relief of destitute American citizens in Mexico, including transportation to their homes in the United States, to be expended under the direction and within the discretion of the Secretary of State (acts Sept. 16, 1913, public res. No. 8; Oct. 22, 1913, public act No. 32)..... | ..... | 40,152.47 | 200,000.00 |
| NOTE.—Amount required to reimburse the War Department for expenses incident to sending the Army transport Buford to ports on the west coast of Mexico in September and October, 1913, for the purpose of providing transportation to the United States for refugees. | | | |
| *Arbitration of Outstanding Pecuniary Claims Between the United States and Great Britain—* | | | |
| Additional amount required for the fiscal year ending June 30, 1914, for the expenses of the arbitration of outstanding pecuniary claims between the United States and Great Britain, in accordance with the special agreement concluded for that purpose Aug. 18, 1910, and the schedule of claims thereunder, including office rent in the District of Columbia and the compensation of arbitrator, umpire, agent, counsel, clerical, and other assistants, to be expended under the direction of the Secretary of State (acts Dec. 22, 1911, vol. 37, p. 47, sec. 1; Feb. 28, 1913, vol. 37, p. 694, sec. 1)..... | ..... | 23,094.42 | 50,000.00 |
| Total Department of State..... | ..... | 73,506.61 | |
| **TREASURY DEPARTMENT.** | | | |
| *Contingent Expenses, Treasury Department, Freight, Telegrams, etc.—* | | | |
| To supply a deficiency in the appropriation for freight, expressage, telegraph, and telephone service for the fiscal year ending June 30, 1914 (act Mar. 4, 1913, vol. 37, p. 757, sec. 1)..... | ..... | 2,600.00 | 7,000.00 |
| NOTE.—The enactment of the recent tariff act, the new currency bill, the establishment of the organization committee of the reserve banks, and other extraordinary emergencies since July 1, have made necessary a large volume of long-distance telephone calls and telegrams, which have burdened the appropriation to such an extent that there will undoubtedly be insufficient funds to pay all outstanding claims and care for the current business during the remainder of the fiscal year. This service is of such a character that it is impossible to estimate with any degree of accuracy the exact amount of funds required for a specified period. Following is a statement of expenditures from the appropriation for the five (5) months ending Sept. 30, 1913, and the estimated requirements for the remaining seven (7) months of the fiscal year: | | | |
| *Expenditures.* | | | |
| Telephone rental and local service, 5 months ending Nov. 30, 1913..... $1,434.83 | | | |
| Long-distance telephone service, 5 months ending Nov. 30, 1913..... 370.45 | | | |
| Freight and express accounts paid, 5 months ending Nov. 30, 1913..... 10.96 | | | |
| Miscellaneous purchases, including batteries, etc., 5 months ending Nov. 30, 1913..... 46.95 | | | |
| Dictograph service, 5 months ending Nov. 30, 1913..... 126.00 | | | |

| Total disbursements..... 3,149.51 | | | |
| Amount of appropriation..... 7,000.00 | | | |
| Balance available..... 3,850.49 | | | |
| *Estimated requirements for balance of fiscal year.* | | | |
| Telephone rental, including local service, 7 months, at $286.96..... $2,008.72 | | | |
| Long-distance telephone service, 7 months, at $74.09..... 518.63 | | | |
| Telegraph and cable service, 9 months, at $386.10..... 3,474.90 | | | |
| Dictograph service, 1 month, at $23.80..... 23.80 | | | |
| Dictograph service, 6 months, at $16.80..... 100.80 | | | |
| Miscellaneous supplies, including batteries, etc..... 65.73 | | | |

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
*Washington, January 9, 1914.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to report that the unexpended balance of the appropriation "Contingent expenses, Independent Treasury, 1914," is not sufficient to meet the needs of the service for the remainder of the fiscal year.

| | | |
|---|---|---|
| Amount appropriated | | $150,000.00 |
| Less amount required by law to be transferred to Printing and Stationery Division | | 6,000.00 |
| | | 144,000.00 |
| Amount expended up to and including Dec. 31, 1913 | | 113,153.61 |
| Leaving available for the remaining half of the fiscal year ending June 30, 1914 | | 30,846.39 |

It is estimated that there will be required for the remainder of the fiscal year $35,000 in addition to this balance.

The amounts of the estimates and appropriations for years 1913 and 1914 are the same; a deficiency of $35,000 was, however, asked for and obtained for 1913, and a like amount will be needed for 1914, as thus far there has been no diminution in the volume of transfers of funds between the office of the Treasurer of the United States at Washington and the several subtreasury offices, the cost for the transportation of which is payable from this appropriation, and, as previously reported, it is impracticable to ascertain in advance the amount required to be shipped for any period or to decline to ship when the exigencies of the service as shown by the requisitions from the several offices to the department require such shipments. Additional expenses have been and will be incurred for examinations of subtreasury offices owing to the expiration of the terms of service of some of the assistant treasurers, and for obtaining labor-saving devices which were needed last fiscal year, but were not purchased until this year's appropriation was available; also, additional expenses were necessary on account of the changes in the system of accounting under the department's Circular No. 5, of Jan. 5, 1913.

It is therefore recommended that there be included in the next estimate sent to Congress the following item as a deficiency:

"Contingent expenses, Independent Treasury, 1914, $35,000."

Respectfully,

E. B. DASKAM,
*Chief of Division of Public Moneys.*

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
*Washington, January 9, 1914.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to advise you that the allotment for printing and binding to the Treasury Department for the current fiscal year of $340,000 will be insufficient to meet the needs of the department for the remainder of the fiscal year. To Dec. 31, 1913, the charges against the allotment aggregated $190,425.75, which is $20,425.75 more than the allotment for the first six months of the fiscal year. It is probable that this rate of expenditure will continue to the end of the fiscal year, in which case a deficiency of $40,000 will be created.

The unusual expenditures over those contemplated when the appropriation was made have been caused by the reorganization of the Customs Service, which took effect July 1, 1913, and the passage of the tariff act of Oct. 3, 1913, both of which measures have required large expenditures for printing and binding, especially the income-tax provisions of the tariff act.

In view of the existing condition, therefore, I have to request that you ask Congress to insert in the urgent deficiency bill an item of $40,000 for printing and binding for the Treasury Department for the fiscal year 1914.

Respectfully,

F. F. WESTON,
*Chief Division of Printing and Stationery.*

TREASURY DEPARTMENT,
*Washington, December 30, 1913.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to transmit herewith my estimates of appropriations required for the fiscal year ending June 30, 1914, also for certain permanent employees whose services have been made necessary by an unexpected accumulation of work since the submission of my estimates for the legislative, executive, and judicial appropriation bill for the fiscal year 1915.

As you are aware, mechanical devices for the auditing of pension checks were installed in this bureau on Aug. 1, 1913. It was found necessary to use part of the appropriation "Compensation, employees, Bureau of Engraving and Printing" for the employment of young clerks to operate said mechanical devices and to use a part of the appropriation "Tabulating equipment, Office of Auditor for the Post Office Department" for the rental of mechanical devices, the purchase of cards, the payment for repairs, etc. The sums requested in the deficiencies submitted herewith will cover the total salaries, rentals, etc., to the close of the present fiscal year, June 30, 1914.

I inclose herewith copy of letter from Joseph E. Ralph, Director of the Bureau of Engraving and Printing, stating that the aggregate of expenditures from his fund for the year ending June 30, 1914, is $6,261.15.

I wish to observe in this connection that results have more than justified the installation of these mechanical devices. Not only has the work of auditing pension checks been handled in a highly satisfactory manner, but this bureau has found it possible to afford substantial and extensive relief to the office of the Treasurer of the United States. So advanced in age were practically all of the clerks engaged on the work of auditing pension accounts that it would have been impossible to have utilized their services on these mechanical devices. Had we not installed mechanical devices it would have been necessary to have asked Congress for at least 20 additional clerks to have handled the checks under the method made necessary by the act of Aug. 17, 1912.

As required by section 188 of the Revised Statutes of the United States, the Attorney General has called upon this office for a statement of the accounts of the United States with the Menominee Tribe of Indians for use in the suit now pending before the Court of Claims brought by Wallace P. Cook; also for a statement of the accounts of the United States with the Pawnee Tribe of Indians for use in a suit now before the Court of Claims brought by the Pawnee Tribe of Indians. The work involved in complying with each of these requests will be tremendous, and it will be utterly impossible for the bureau to do so unless additional help is furnished. Nearly two years ago the Attorney General requested a statement of the accounts of the United States with the Otoe and Missouri Tribes of Indians for use in a suit before the Court of Claims brought by the Otoe and Missouri Tribes, and since Feb. 11, 1912, Mr. O. M. Judd, an $1,800 clerk, has devoted his entire time to the preparation of said statement. He has still practically a year's work ahead of him.

In preparing my estimates for the fiscal year 1915 I kept down to rock-bottom. Therefore, to take two $1,800 clerks from their regular duties and assign them to gathering the aforementioned data would cripple the bureau most seriously.

The act of Congress approved June 30, 1913, appropriated $10,000 to enable the Secretary of the Interior to employ accountants to prepare a complete separate fiscal and financial history and statement of the affairs of the Five Civilized Tribes of Indians. The bulk of the work involved will necessarily be done in this office, in which the accounts and claims evidencing the expenditure of all moneys appropriated, under treaties or otherwise, for these tribes are audited and filed.

It is exceedingly important that the files of the office should not be handled indiscriminately by outside parties, and the services of two additional clerks, one at $900 and one at $720, will be required to withdraw from and return accounts and claims to the files. These clerks should be under my supervision and subject to my direction, in order that these important files may always be intact for current needs of the office and in answering calls from the Court of Claims in defense of suits brought by Indian tribes against the United States.

The work in this office has increased so rapidly during the last few years that it would be impracticable to assign any of the present force to this duty without great detriment to the current work of the office. Therefore, I find it imperative to ask for the additional clerks described.

Respectfully, R. W. WOOLLEY, *Auditor.*

TREASURY DEPARTMENT,
BUREAU OF ENGRAVING AND PRINTING,
*December 6, 1913.*

The AUDITOR FOR THE INTERIOR DEPARTMENT.

SIR: I have the honor to state that the expenditures from the appropriation, Compensation of employees, Bureau of Engraving and Printing, 1914, for services of employees on detail to your office in the first five months of the current fiscal year, ending June 30, 1914, amounted to $2,177.75; and the expenditures for the 10 employees now on such detail in the last seven months of the fiscal year, at their present salaries, will amount to $4,083.40, making an aggregate for the year of $6,261.15.

In accordance with the understanding that a deficiency appropriation to reimburse this bureau for these expenditures would be submitted at the proper time, I have the honor to request that you submit an estimate for appropriation in the urgent deficiency bill at the present session of Congress.

Respectfully, J. E. RALPH, *Director.*

TREASURY DEPARTMENT,
BUREAU OF THE PUBLIC HEALTH SERVICE,
*Washington, December 30, 1913.*

THE SECRETARY OF THE TREASURY,
*Washington, D. C.*

SIR: I have the honor to inclose herewith deficiency estimates of appropriations required for the expenses of the Public Health Service for the fiscal year ending June 30, 1914, amounting to $40,450.

The amount appropriated for the item "Maintenance of marine hospitals" for the present fiscal year is $245,000, and an additional sum of $21,000 is urgently required in order to properly conduct the 23 marine hospitals of the service. At the present time, in order to avoid creating a deficiency, patients legally entitled to hospital relief are being refused admission for lack of funds to pay for their proper care and subsistence.

The amount of $126,000 was appropriated for the care of seamen in other than marine hospitals for the present fiscal year, and an additional sum of $14,000 is urgently needed for the same reasons as stated above. At ports where there are no marine hospitals, contracts are made at local hospitals for the care of seamen at per diem rates. At several such stations the per diem rate has increased from 20 to 50 cents over the last fiscal year.

An annual appropriation for fuel, light, and water for the 23 marine hospitals of the service is made, that for the present fiscal year amounting to $70,000. This amount was insufficient in the last fiscal year and in order to avoid a deficiency it was necessary at some stations to stop the use of gas and electric lights, substituting candles and kerosene oil. There has also been an increase in the cost of fuel, and it is estimated that the minimum additional amount of $5,450 will be required for the balance of the present fiscal year.

Respectfully,

RUPERT BLUE, *Surgeon General.*

TREASURY DEPARTMENT,
BUREAU OF THE PUBLIC HEALTH SERVICE,
*Washington, December 30, 1913.*

THE SECRETARY OF THE TREASURY,
*Washington, D. C.*

SIR: I have the honor to transmit herewith deficiency estimate for the sum of $100,000 to be added to the appropriation for the prevention of epidemics. In the estimates of appropriations submitted to Congress for the fiscal year ending June 30 1914, the department submitted an estimate of $500,000, but the amount appropriated by Congress was $200,000. This sum is insufficient for the reason that an effort is being made to complete the eradication of plague in California, with particular reference to the infection among ground squirrels; also on account of the unexpected discovery of a widespread plague infection among rats in Seattle, Wash. Recently telegraphic information was received of suspicion of plague in a human being at Seattle, and it is urgently necessary to prosecute rat destruction in Seattle in conjunction with the State and local health authorities.

Respectfully,

RUPERT BLUE, *Surgeon General.*

| For paper for internal-revenue stamps, including freight, being for the fiscal year 1914 (R. S., p. 53, sec. 321; June 23, 1913, vol. 38, p. 20, sec. 1)..... | ..... | $25,000.00 | $80,000.00 |
| NOTE.—This estimate for a deficiency appropriation of $25,000 is based on the following: 1,876,759 pounds of paper were used in the fiscal year 1913 at a contract price of 4½ cents per pound. It is estimated that 2,334,000 pounds will be needed for the fiscal year 1914 at a cost of 4½ cents per pound, or approximately $25,000 in excess of the present appropriation. 947,380 pounds of paper have been consumed in the manufacture of stamps for the period from July 1, to Dec. 6, 1913 (for 5 months), a little less than 190,000 pounds per month, which is at the rate of 2,280,000 pounds for the year. This estimate provides for an increase of 54,000 pounds for the last 7 months of the fiscal year, a little less than 8,000 pounds per month. The increase in the consumption of paper is principally due to the demand for stamps for small cigarettes, fermented liquors, manufactured tobacco, and large cigars. | | | |

Additional funds are required for the completion of the dry-box system; the construction of a covering over the roof, to permit of its occupancy by lunch-room tables and chairs; window screens; 16 sizing machines; fire-fighting apparatus; paper defibering and packing outfit; electric lamps; hospital equipment; metal files cases, working tables and benches; 15 power plate-printing presses, with motor equipments complete; and for completing the watchmen's report system, and miscellaneous; and the estimated cost of the same is $228,500.<br>Fifteen additional power presses should be purchased and installed before July 1, 1914, to take care of the work to be transferred on that date from the hand plate-printing presses, and the economy resulting in the first year of their operation will be greater than the cost of the equipment.<br>The plans for a dry-box system and for the sizing and drying of notes were altered for the reason that more scientific devices have been adopted which will involve a greater cost for the equipment, but will result in considerable economy in operation.<br>All windows must be provided with substantial screens for the purpose not only of preventing sheets of valuable securities being blown out of the windows and becoming lost, but also of making it impossible for such sheets to be passed out through windows by dishonest employees to confederates on the outside.<br>The items of window screens, electric lamps, and of covering over roof had not been included in the estimates of this bureau for the reason that at the time it was believed that they would be provided by the appropriation for the construction of the building.<br>In order that this equipment may be purchased and installed to enable the work of this bureau to be commenced about April 1, 1914, in the new building, the appropriation should be made at the earliest practicable moment, either in the urgent deficiency act or by a special act. I therefore respectfully submit herewith the estimate, which is as follows:<br>Equipping of new building, Bureau of Engraving and Printing: For mechanical equipment, machinery, furniture, and fixtures, including the construction of covering over roof to be occupied with an outfit of lunch-room tables and chairs, for new building authorized by act of Congress approved May 27, 1908, to be expended under the direction of the Secretary of the Treasury, to be immediately available..... $228,500<br>Respectfully,<br>J. Practically an entire new breakwater will have to be provided, in order to avoid serious injury to the station. A delay in this work, with the possibilities due to other storms, will enhance the future cost of the undertaking. | NOTE.—This item has been submitted to Congress on several previous occasions. The balance available, $64,334, would permit of providing temporary landing facilities, although inadequate. Should the amount asked for not be granted at this time, the department will feel under the necessity of providing the temporary facilities. The building has been completed for some months, but can not be used because of the lack of any landing facilities whatever.<br>Should the temporary landing facilities now be provided, the department will be under the necessity of submitting, at a not very distant time, an estimate for permanent landing facilities, which will entail an additional expenditure of not less than $150,000. | *New York, N. Y., Courthouse*— | | | |
| For remodeling the old courthouse and post-office building, New York City, including alterations, rearrangements, and fittings, miscellaneous repairs and painting, changes in the mechanical equipment, lighting fixtures, etc., and the cleaning of the exterior walls of the building, in order to provide increased accommodations for the United States court, and as far as practicable, for all Government officials now occupying rented quarters, including moving expenses incident thereto (submitted)..... | ..... | 200,000.00 | |
| NOTE.—The occupancy of the new post office at Eighth Avenue and Thirty-third Street will permit the Post Office Department to vacate the upper part of this building.<br>A recent act of Congress provides for detailing additional Federal judges to sit in New York, in order to lessen the number of cases on the calendar. In order to carry out the provisions of the legislation, it will be necessary to provide additional court rooms. In addition the rearrangement of the upper portion of the building, in order to provide attorneys' offices, etc., entails considerable remodeling.<br>A bill has been introduced in Congress looking toward the construction of a new Federal courthouse. Even though this contemplated legislation should be approved, it is estimated that several years will elapse before the new structure could be completed and ready for occupancy. In the meantime, it is believed that the Federal courts housed in the present building should have reasonable facilities for efficiently conducting the public business.<br>Because of the facts stated above, and because of the desirability of modernizing the structure, it is recommended that the estimate herewith submitted be approved. | | | |

| *New York, N. Y., Marine Hospital—* | | | |
| For necessary repairs to the old buildings, including mechanical equipment, lighting fixtures, etc. (submitted) | | $67,000.00 | |
| NOTE.—The details of the foregoing item may be stated as follows: | | | |
| Incinerator, electric dumb waiters, vacuum cleaner, electric passenger elevator, interior telephone service, etc. | $16,000 | | |
| Refrigerating plant | 2,500 | | |
| Addition in rear to each wing of building for smoking and rest rooms | 5,000 | | |
| Roofing over of the rear and northerly areas with light steel framing and copper | 1,500 | | |
| Sand blasting and repointing building | 2,000 | | |
| Alteration in arrangement of toilet rooms so as to separate water-closets and urinals from bathrooms | 1,600 | | |
| Dispensary cases for both wings; partitions, shelving in linen storage closets, both wings; extension of dumb-waiter shaft, north wing; closing flue openings at beams in concrete | 1,135 | | |
| Lighting fixtures of building and grounds | 4,000 | | |
| Improving roadways and pavements, retaining walls, sidewalks, etc., around hospital building | 5,000 | | |
| New board fence along northern boundary | 1,200 | | |
| New laundry building | 5,000 | | |
| New building, medical officer | 12,000 | | |
| New pavement on Bay Street | 2,000 | | |
| Electric dumb waiter | 1,500 | | |
| Contingencies and miscellaneous expenses, including painting | 7,435 | | |
| Total | 67,000 | | |
| *New York, N. Y., Post Office—* | | | |
| For wire grilles, partitions, gates and rails, metal shelving for vaults, files and record rooms, etc., desks and bulletin boards, and other special fixtures (submitted) | | 50,000.00 | |
| NOTE.—A recent decision of the Comptroller of the Treasury is to the effect that counters, screens, shelving, and similar fixed equipment should be paid from the special construction appropriations for the various buildings authorized by Congress. Formerly these were largely charged to the appropriation for "Furniture, and repairs of same." Although the decision of the Comptroller acts to relieve the appropriation for "Furniture," it was not rendered until this building was completed and the special appropriation exhausted. For the reasons above stated this estimate is submitted. The matter is urgent. All of the necessary furniture has been ordered, and the Post Office Department will be ready to occupy the building as soon as it is installed, provided the railings, screens, etc., are also installed. | | | |
| *Oakland, Cal., Post Office and Customhouse—* | | | |
| For additional land under present limit (act Mar. 4, 1913, vol. 37, p. 869, sec. 2) | | 115,000.00 | |
| NOTE.—Proceedings in condemnation have already been instituted and have reached such a stage that it is believed payment may be made by Mar. 4, 1914. The entire amount authorized is therefore needed at this time. | | | |
| *Philadelphia, Pa., United States Mint Building—* | | | |
| For amount necessary to provide coal bunkers, etc., in addition to the sum of $20,000 heretofore provided under the act of June 30, 1906 (act June 30, 1906, vol. 34, p. 699, sec. 1) | | 30,000.00 | |
| NOTE.—An appropriation of $20,000 was made in 1906 for coal bunkers, which are very much needed to facilitate the handling of coal and for protection of the building and occupants. Two bids were received in competition, in amounts $35,961 and $49,270. Further efforts were then made to obtain bids within the appropriation, but without success. The request for this improvement has recently been renewed, but no satisfactory arrangement can be made within the present limit, and it is estimated that $30,000 additional will be required to install an equipment of a permanent character and satisfactory type. This item has heretofore been submitted to Congress, and was included in House Document No. 1292, Sixty-second Congress, third session. | | | |
| *Poughkeepsie, N. Y., Post Office—* | | | |
| For additional land under present limit (act Mar. 4, 1913, vol. 37, p. 869, sec. 2) | | 28,000.00 | |
| NOTE.—This is a condemnation case. The property was offered at $28,000, which amount the department deemed in excess of its true value. It is believed, however, that the amount of the estimate should be provided for. The fund will probably be needed before Mar. 4, 1914, in order to meet the award in condemnation proceedings. | | | |
| *Sherman, Tex., Post Office and Courthouse—* | | | |
| For additional land under present limit (act Mar. 4, 1913, vol. 37, p. 868, sec. 1) | | 5,000.00 | |
| NOTE.—This is a condemnation case. The amount authorized for this purpose should be provided, as it probably will be needed before Mar. 4, 1914. | | | |
| *Utica, N. Y., Post Office, Customhouse, and Courthouse—* | | | |
| For additional land under present limit (act Mar. 4, 1913, vol. 37, p. 888, sec. 27) | | 40,000.00 | |
| NOTE.—This is a condemnation case. The amount asked for will probably be needed before Mar. 4, 1914. | | | |
| *Washington, D. C., Post Office—* | | | |
| For completion of building under present limit (acts Mar. 4, 1909, vol. 35, p. 1069, sec. 15; June 25, 1910, vol. 36, p. 697, sec. 30; June 25, 1910, vol. 36, p. 698, sec. 30; Mar. 4, 1911, vol. 36, p. 1381, sec. 1; Aug. 24, 1912, vol. 37, p. 425, sec. 1; June 23, 1913, vol. 38, p. 15, sec. 1) | | 15,000.00 | $955,000.00 |
| NOTE.—The last appropriation made for this building was less than the limit of cost by $15,000, which was the estimated amount saved by the omission of the boilers. In order to adapt the plan of this building to changes in the organization of the Post Office Department, and changes in its methods of conducting the post-office business, as well as to meet contingencies not anticipated, it is found that the entire amount provided under the original limit of cost should be appropriated. | | | |

| *Repairs and Preservation of Public Buildings*— | | | |
| For additional amount under this caption for the service of the fiscal year ending June 30, 1914 (act June 23, 1913, vol. 38, p. 15, sec. 1) | | $100,000.00 | $675,000.00 |
| NOTE.—The current appropriation is $25,000 less than the department estimate. The general extension of the postal business and the expansion of the parcels-post business in particular, has resulted in demands upon this appropriation not contemplated when the estimate for the fiscal year 1914 was prepared. The department has used the greatest care in authorizing expenditures from this appropriation. It has considered it an obligation to preserve the buildings under its care wind and weather tight, but has made no expenditures of a general nature which could possibly be avoided or postponed. Notwithstanding the closest scrutiny of requests for repairs and the greatest efforts to assure the execution of all authorized work at the lowest possible prices, a deficiency has been encountered, in the amount submitted, which is absolutely necessary to meet the estimated requirements for the balance of this fiscal year. | | | |
| *General Expenses of Public Buildings*— | | | |
| The Secretary of the Treasury is hereby authorized to pay the Architectural Record Co., of New York City, the sum of $27.50, for 55 copies of The Great American Architect Series, furnished in the month of March, 1908, from the unexpended balance of the appropriation for "General expenses of public buildings, 1913" (submitted). | | | |
| NOTE.—The failure of the company to present its bill so that payment could have been made from the proper appropriation, accounts for the presentation of the claim at this time. The availability of the appropriation for the year 1908 expired June 30, 1910. The articles were duly received; the claim is a just one, and authority is requested to pay it from the unexpended balance of the appropriation for 1913. | | | |
| *Relief of S. R. Jacobs, Disbursing Clerk, Treasury Department*— | | | |
| The accounting officers of the Treasury Department are hereby authorized and directed to allow in the settlement of the accounts of S. R. Jacobs, disbursing clerk, the sum of $100 under the appropriation "Post office and customhouse, Eagle Pass, Tex." (submitted). | | | |
| NOTE.—The disallowance referred to arises as the result of an erroneous itemization of a proposal submitted by the contractor for the building as an addition to his contract for construction. The proposal was accepted by the department in a lump sum, which embraced the erroneous itemization referred to. The itemization was of a character which could not properly be associated with the work to be done for which the lump sum was submitted. This lump sum being reasonable in amount and within the estimate previously prepared by the department, the lump sum was accepted, and the erroneous itemization ignored. The accounting officers declined to accept the opinion of the department and disallowed the amount as stated in the accounts of the disbursing clerk. As stated, the lump sum proposal was reasonable, the Government has received full value for the work performed, and the disbursing clerk is entitled to relief. | | | |
| *Operating Force for Public Buildings*— | | | |
| For additional amount required under this caption, being a deficiency for the service of the fiscal year ending June 30, 1914 (act June 23, 1913, vol. 38, p. 21, sec. 1) | | 35,000.00 | 2,575,000.00 |
| NOTE.—The current appropriation is $75,000 less than the department estimate. Because of delays in the completion of a number of buildings, the deficiency which has been encountered is somewhat less than the difference between the original estimate for the fiscal year 1914 and the amount actually appropriated. While the delay in the completion of the buildings referred to reduces the deficiency for this fiscal year, it will probably increase the amount needed for the year 1915, as the force in these new buildings will become a charge against this appropriation in that year. Unless the deficiency estimate submitted herewith is approved, it will be necessary to discharge the mechanical labor force (plumbers, carpenters, etc.) in various buildings and to arrange to have performed under contract, and at an inevitably higher cost, the work these employees would perform. This would entail additional expenditures from the other annual appropriations. The custodian's force in the completed and occupied buildings under the control of this department is at all times held at the minimum, and the amount of this appropriation can not be reduced except by the discharge of employees, as described above. While the department is endeavoring constantly to expend the appropriation in an equitable manner by standardizing salaries, and is also endeavoring, when possible, to introduce a 48-hour week, the deficiency estimate submitted herewith does not contemplate any extension of these desirable reforms. | | | |

| *Reimbursement of Owner of launch "Winninish," damaged by collision—* | | | |
| That the Secretary of the Treasury is hereby directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $4,911.64 to Le Grand C. Cramer, of Troy, N. Y., to reimburse him as the owner of the launch Winninish, damaged by collision with the Government launch Gunedmertrix Mar. 31, 1911 (submitted) | | 4,911.64 | |
| NOTE.—The Gunedmertrix in attempting to make a landing at a float of the Seabury Works, Morris Heights, N. Y., and owing to her port engine failing to work, struck the Winninish, which was lying at the float, cutting through and sinking her. The damage is estimated at $4,911.64.—*Edw. Burr, Colonel, Corps of Engineers, Acting Chief of Engineers.* | | | |
| *Reimbursement of Crew of U. S. dredge "Captain C. W. Howell" for private property lost—* | | | |
| That the Secretary of the Treasury is hereby directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $545.90, to reimburse the crew of the Government dredge Captain C. W. Howell for private property lost on the dredge, which sank at sea on Sept. 14, 1911, as follows (submitted) | | 545.90 | |
| C. J. Gunther | $3.25 | | |
| John B. Carstens | 57.50 | | |
| Will Krauss | 11.00 | | |

| Wm. Hummel | 4.00 | | |
| Joseph Hern | 105.65 | | |
| Wm. Paijean | 31.00 | | |
| NOTE.—The dredge was lost at sea about midnight Sept. 14, 1911, while proceeding from Aransas Pass to the mouth of the Brazos River for the purpose of beginning work on the waterway between Brazos River and Galveston Bay. The overboard auxiliary condenser came adrift, filling the filter box and hot well with salt water: the starboard seams apparently opened, allowing the sea to enter the aft engine room. In a few moments the dredge went down, the crew being compelled to jump overboard.—*Edw. Burr, Colonel, Corps of Engineers, Acting Chief of Engineers.* | | | |

| *Reimbursement of Owners of Italian bark Fenice, damaged in collision—* That the Secretary of the Treasury is hereby directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $872.96 to the Italian consular agent at Gulfport, Miss., to reimburse the Italian bark Fenice for expenses incurred in repairing damages caused by collision with the United States barge No. 15 (submitted)..... | ..... | 872.96 | |
| NOTE.—On Jan. 12, 1911, the United States barge No. 15, under tow of the United States launch Biloxi, collided with the Italian bark Fenice, lying in the harbor of Gulfport, Miss., inflicting a dent about 1½ inches deep in one of the steel plates of the bark's hull. The collision was due to the fact that the barge in a narrow channel was caught at the forward end by a cross current, which threw it against the bark, the launch not being sufficiently powerful to control its movements under the circumstances. The bark was in no way at fault.—*Edw. Burr, Colonel, Corps of Engineers, Acting Chief of Engineers.* | | | |
| *Relief of Robert G. Lynn—* That the Secretary of the Treasury is hereby directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $154.75 to Robert G. Lynn, an inspector in the Engineer Department at Large, in full for all claims for personal property destroyed Oct. 21, 1910, by burning of floating plant pertaining to Government work on the inland waterway between Bayou Vermilion and Mermentau River, La., upon which said Robert G. Lynn was then employed as Government inspector (submitted)..... | ..... | 154.75 | |
| NOTE.—On the night of Oct. 21, 1910, the dredge Anderson took fire and, together with a barge attached thereto (Mr. Lynn occupying a private room on said barge), was destroyed. The dredge used oil as fuel and was oil soaked, so that the fire spread very rapidly and it was impossible to save any property whatever. Mr. Lynn lost his entire personal property on board, the entire structures being rapidly enveloped in flames, and he had only time to escape in his night clothes.—*Edw. Burr, Colonel, Corps of Engineers, Acting Chief of Engineers.* | | | |
| *Relief of C. C. O'Donnell—* That the Secretary of the Treasury is hereby directed to pay, out of any money in the Treasury not otherwise appropriated, the sum of $74.20 to C. C. O'Donnell, who was in 1905 an overseer in the Engineer Department at Large, for expenses incurred by him in defending a suit brought against him by Mrs. Anna Turley for damages for injuries alleged to have been received by her during blasting operations at Lock and Dam No. 3, Allegheny River, in 1905 (submitted)..... | ..... | 74.20 | |
| NOTE.—Mrs. Turley claimed to have been injured by a large spall carried to the property on which she resided, at the time of the preparation and placing of stone for protection of the downstream edge of Dam No. 3. In defending the suit before the trial court and the superior court of Pennsylvania, Mr. O'Donnell incurred expenses for witness fees, stenographer's report, paper book, and counsel fees.—*Edw. Burr, Colonel, Corps of Engineers, Acting Chief of Engineers.* | | | |
| *Credit in the Accounts of Lieut. Col. (now Col.) I. W. Littell, U. S. Army—* The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Lieut. Col. (now Col.) I. W. Littell, U S. Army, the sum of $98.65, disallowed against him on the books of the Treasury. | | | |
| NOTE.—This is the amount of voucher 24, abstract B, of the money accounts of Lieut. Col. I. W. Littell, U. S. Army, for Sept., 1909, covering the expenditures made by Capt. Halstead Dorey on account of entertaining the military attachés (foreign officers) who attended the maneuvers held in the State of Massachusetts during August 1909. Funds of the appropriation "Encampment and maneuvers, Organized Militia, 1909-1911" were furnished Gen. Leonard Wood for the purpose, and the payment was made therefrom by Col. Littell, but the Auditor for the War Department holds that that appropriation can only be used for the same purpose as Regular Army appropriations; that there is no fund available for the purpose, and that the charge is not a proper one against the United States. The officers concerned acted in good faith in this matter, and it is thought relief should be granted to Col. Littell.<br>Relief in this case was asked for in February, 1912, as will appear in H. Doc. No. 529, 62d Cong., 2d sess., and was again submitted in December, 1912, and reported in H. Doc. 1231, 62d Cong., 3d sess., but failed to receive favorable consideration.—*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.* | | | |
| *Credit in the Accounts of Capt. Orrin R. Wolfe, U. S. Army—* The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Capt. Orrin R. Wolfe, U. S. Army, the sum of $40 disallowed against him on the books of the Treasury. | | | |
| NOTE.—Brig. Gen. Marion P. Maus, having been directed to proceed to Klamath Lake in pursuance of an examination of a maneuver ground and having to travel to the camp of detachment, mapping the area involved, a distance of about 63 miles, hired an automobile from the South Oregon Automobile Co. at an expense of $40. There was no way of reaching this point except by hiring special transportation, and to ship such transportation from the nearest military post (about 500 miles) would have cost the Government many times the cost of the transportation hired. The hire of the automobile was authorized by the Secretary of War Sept. 7, 1911, and the account was paid by Capt. Wolfe.<br>This matter was submitted in December, 1912, and reported in H. Doc. 1231, 62d Cong., 3d sess., but failed to receive favorable consideration.—*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.* | | | |

*Credit in the Accounts of Maj. J. E. Normoyle, U. S. Army—*

The accounting officers of the Treasury are hereby authorized and directed to allow credit in the accounts of Maj. J. E. Normoyle in the sum of $5 disallowed against him on the books of the Treasury.

NOTE.—This expenditure was authorized Aug. 26, 1912, for annual dues for membership of the Adjutant General of the Army in the International Association of Chiefs of Police, for one year ending May, 1913, and payment was made by Maj. Normoyle on Voucher 238, Abstract B, of his money accounts for September, 1912, from the appropriation "Incidental Expenses, Quartermaster's Department, 1913," under the provision "For the apprehension, securing and delivery of deserters, including escaped military prisoners, and the expenses incident to their pursuit," which was at the time deemed available for payment of said dues.—*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*

*Credit in the Accounts of Maj. G. G. Bailey, U. S. Army—*

The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Maj. G. G. Bailey, United States Army, the sum of $106, disallowed against him on the books of the Treasury.

NOTE.—This amount was paid by Maj. Bailey for hire of a horse for the use of Lieut. Guy H. Wyman, Eleventh United States Cavalry, who was engaged in military map work in obedience to Special Order No. 20, Department of the Gulf, dated February 20, 1910, and disallowed by the Auditor for the War Department, who held that the hire of the horse was an additional allowance and therefore not authorized by law. Upon the appeal from this disallowance the Comptroller of the Treasury, under date of Dec. 8, 1910, sustained the contention of the auditor.

It appears that the mounted officer alluded to was, by the orders referred to above, directed to hire a horse and was not given an opportunity to use his own mount. It also appears that had he used his own mount instead of hiring a horse the expense to the Government because of cost of transportation, etc., would have been in excess of that incurred by the method employed.

This matter was submitted in February, 1912, and reported in H. Doc. No. 529, 62d Cong., 2d sess., and was again submitted in December, 1912, and reported in H. Doc. No. 1231, 62d Cong., 3d sess., but failed to receive favorable consideration.—*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*

*Credit in the Accounts of Col. Frederick G. Hodgson, Capt. Briant H. Wells, and Capt. Girard Sturtevant, U. S. Army—*

The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of the following-named officers of the Army the sums set opposite their names, respectively, which have been disallowed and charged against them on the books of the Treasury:

| | |
|---|---|
| Col. Frederick G. Hodgson, February, 1912 | $21.00 |
| Capt. Briant H. Wells, September and October, 1911 | 171.00 |
| Capt. Girard Sturtevant, December, 1911 | 2.99 |

*And provided*, That said accounting officers are hereby authorized and directed to remove any other suspensions or disallowances in the accounts of quartermasters of the Army for the fiscal years 1910, 1911, and 1912 for the temporary hire of animals and vehicles for use of officers of the Army while traveling on official duty under competent orders and hereafter to allow all proper accounts for such purposes.

NOTE.—It frequently becomes necessary for commanding generals of territorial departments to direct officers serving in their commands to proceed to points remote from railroad lines for the purpose of securing the necessary data for and the preparation of United States military maps, the inspection and selection of grounds for camps for joint Army and militia, and for investigating and reporting upon sites for military posts.

In order to perform these duties after leaving the railroad, officers are compelled to make use of saddle horses or vehicles which are hired and paid for by the Quartermaster Corps. Officers of the Army serving in foreign countries as military attachés are also required under certain conditions to hire means of transportation in performance of their official duties in traveling from one point to another and pay for such services from Government funds.

The Comptroller of the Treasury has decided that officers traveling in the manner described above are entitled to mileage at the rate of 7 cents per mile for the actual distance traveled by them, and that no expenditures can be made for the hire of animals or vehicles for transporting them from the end of their journey on the railroad to the points remote therefrom that they are required to visit, and has disallowed all such payments, including some made by military attachés. This ruling not only works a hardship to the disbursing officer, but if adhered to will prevent commanding generals from the performance of certain administrative duties which by orders and regulations now devolve upon them without sustaining pecuniary losses.

The item of $21 in the accounts of Col. Hodgson was for hire of a conveyance for Col. W. A. Mann, Chief of Staff, Eastern Division, and Capt. G. E. Thorne, Twenty-fourth Infantry, aid-de-camp, headquarters Eastern Division, in connection with proposed maneuvers in defense of New York City in 1912. The item of $171 in the accounts of Capt. Wells was for the hire of animals and vehicles on dates ranging from Sept. 19 to Oct. 18, 1912, of which the sum of $72 was on account of Lieut. Walter H. Frank, Fifth Infantry, and $99 on account of Lieut. Loren C. Grieves, Twenty-fourth Infantry, detailed on duty in connection with the preparation of United States military map. These expenses were incurred by the officers named in performance of military duty, acting under orders of the department and were necessary to the proper execution of their duties.

The item of $2.99 in the accounts of Capt. Sturtevant, military attaché in Mexico, was for hire of conveyance to make an official visit necessary to the military service.

Payments for these expenses were made by the officers mentioned in good faith and acting under the orders of superior authority, and it would work a hardship to require them to refund from their personal funds the amounts so paid, which they will be compelled to do unless relief is afforded them by Congress.

This matter was submitted in May, 1912, and was reported in H. Doc. No. 777, 62d Cong., 2d sess., and was again submitted in December, 1912, and reported in H. Doc. No. 1231, 62d Cong., 3d sess., but failed to receive favorable consideration.—*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*

## WAR DEPARTMENT—Continued.

*Credit in the Accounts of Capt. L. C. Brown, U. S. Army—*

The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Capt. L. C. Brown, U. S. Army, the sum of $124 suspended against him on the books of the Treasury.

NOTE.—Of this amount the sum of $72 was paid by Capt. Brown for hire of a horse for the use of Lieut. Guy H. Wyman, Eleventh United States Cavalry, who was engaged on military map work in obedience to Special Order No. 20, Department of the Gulf, dated Feb. 20, 1910, and suspended by the Auditor for the War Department, who held that the hire of the horse was an additional allowance and therefore not authorized by law. Thirty dollars was suspended against this officer for hire of a horse for the use of Lieut. Chas. S. Jackson, Eleventh United States Cavalry, and $22 for the hire of a team for that officer.

It appears that the orders referred to above directed the hire of the horses and did not give the officers concerned an opportunity to use their mounts. It also appears that had they used their own mounts instead of hiring horses the expense to the Government, because of cost of transportation, etc., would have been in excess of that incurred by the method employed.

This matter was submitted in February, 1912, and reported in H. Doc. No. 529, 62d Cong., 2d sess., and was again submitted in December, 1912, and reported in H. Doc. 1231, 62d Cong., 3d sess., but failed to receive favorable consideration. (*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*)

*Credit in the Accounts of Maj. H. L. Pettus, U. S. Army—*

The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Maj. H. L. Pettus, U. S. Army, the sum of $1,545 disallowed against him on the books of the Treasury.

NOTE.—Of the amount named $645 was paid from the appropriation "Barracks and quarters, 1911," for services rendered and materials furnished in cutting and setting one granite tablet at the Army War College, Washington, D. C., under contract with Ernest C. Bairstow, dated June 29, 1911, and $900 was paid from the said appropriation to "Jno. Williams (Inc.)" for services rendered and materials furnished in supplying and setting 343 bronze letters and 54 commas, periods, and dashes in granite slab at Army War College under contract dated June 29, 1911. The sums were disallowed on voucher No. 11B, January, 1912, and No. 18B, February, 1912, respectively. This matter was submitted in December, 1912, and reported in H. Doc. 1231, 62d Cong., 3d sess., but failed to receive favorable consideration. (*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*)

*Credit in the Accounts of Lieut. Col. John M. Carson, jr., U. S. Army—*

The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Lieut. Col. J. M. Carson, jr., Deputy Quartermaster General, U. S. Army (now lieutenant colonel, Quartermaster Corps), the sum of $1,975, disallowed against him on the books of the Treasury.

NOTE.—This amount was expended by Col. Carson, under proper instructions, in the purchase of polo ponies for the use of the cadets at the United States Military Academy, West Point, N. Y., and disallowed by the accounting officers on that officer's vouchers 7A and 8A, May, 1909, fiscal year 1909.

Under date of Nov. 7, 1911, request was made for authority of Congress for the accounting officers to allow and credit the sum of $1,975 in Col. Carson's accounts, and in the Military Academy bill, Public No. 253, H. R. 24450, approved Aug. 9, 1912, it is provided that "No pay shall be withheld from Lieut. Col. J. M. Carson, jr., Deputy Quartermaster General, U. S. Army (now lieutenant colonel), because of the payment by him in May, 1909, when major and quartermaster, U. S. Army, for eight horses or polo ponies purchased pursuant to instructions from the Secretary of War for use in the instruction of cadets at the United States Military Academy." The question having been submitted to the Comptroller of the Treasury as to whether the provisions of law quoted above did not relieve Lieut. Col. Carson and his bondsmen from liability for the $1,975 referred to, the following is his decision:

"The provision of law quoted above does not purport to relieve Lieut. Col. Carson and his bondsmen from liability for the sum of $1,975, paid by him for the purchase of polo ponies in May, 1909, but merely directs that no pay shall be withheld from him because of such payment. I am of opinion that the liability of Lieut. Col. Carson and his bondsmen for the payment in question continues to exist."

This matter was submitted in December, 1912, and reported in H. Doc. 1231 (62d Cong., 3d sess.), but failed to receive favorable consideration. (*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*)

*Credit in the Accounts of Maj. (now Lieut. Col.) John E. Baxter, U. S. Army—*

The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Maj. John E. Baxter, quartermaster, U. S. Army (now lieutenant colonel, Quartermaster Corps), the sum of $18.96, disallowed against him on the books of the Treasury.

NOTE.—This amount was disallowed on vouchers as follows:

| | |
|---|---|
| Voucher 41B, June, 1908, in part | $1.44 |
| Voucher 41B, July, 1908, in part | 1.44 |
| Voucher 23B, September, 1908, in part | 1.44 |
| Voucher 27B, September, 1908, in part | 1.44 |
| Voucher 25B, November, 1908, in part | 2.40 |
| Voucher 24B, January, 1909, in part | 4.80 |
| Voucher 35B, February, 1909 in part | 4.80 |
| Voucher 33B, March, 1909, in part | 1.20 |

The foregoing amounts were disallowed as excessive payments for electricity used by Lieut. Sam. C. Orchard, Third Infantry, U. S. Army, in the months of May, 1908, to January, 1909, both inclusive, and for one-half of the month of February, 1909.

Maj. Baxter made the payments for electricity for Lieut. Orchard in good faith, believing that it was proper to do so, and Lieut. Orchard having ceased to be an officer of the Army there is no way of recovering from him the $18.96 overpaid on his account.

This matter was submitted in December, 1912, and reported in H. Doc. 1231 (62d Cong., 3d sess.), but failed to receive favorable consideration. (*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*)

| The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Capt. Henry L. Kinnison, Quartermaster Corps, U. S. Army, the sum of $82.50 disallowed against him on the books of the Treasury. | | | |
| NOTE.—This amount was expended by Capt. Kinnison, $37.50 on voucher 12-B of his money account for May, 1912, and $45 on voucher 6-B of his money account for June, 1912, for hire of an automobile for the use of the commanding general, Department of the Columbia, and his aid, for the purpose of obtaining certain topographical and other information relative to the theater of operations for maneuvers in the State of Washington in 1912 along routes and to points inaccessible by common carrier. The hire of the automobile or special transportation for the first trip, Apr. 28 and 29, 1912, was authorized in telegram from the Secretary of War to the commanding general of the Western Department under date of Apr. 22, 1912. For the second trip, June 6 and 7, 1912, the authority was dated May 27, 1912, and under date of Oct. 23, 1912, Brig. Gen. Maus says with respect to these payments that— "This expenditure was made in accordance with authority of the Secretary of War previously obtained through division headquarters. It was for a necessary purpose where horses could not be used without heavy additional expense; the subsistence and transportation of 6 horses with necessary attendants, baggage, etc., for such a trip would be more than the amount charged; moreover, it would have been impracticable to use horses on this journey." But the Auditor for the War Department disallowed the expenditure on the ground that the officers were on a mileage status. On June 10, 1913, appeal was taken to the Comptroller of the Treasury for a revision of the auditor's action in disallowing the payments in question, and on June 27, 1913, the comptroller affirmed the disallowances, holding that, as the officers were on a mileage status, payment for automobile hire was not authorized. This matter is submitted by authority of the Secretary of War. (*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*) | | | |

| The accounting officers of the Treasury are hereby authorized and directed to allow and credit in the accounts of Capt. J. R. McAndrews, Sixth United States Cavalry, the sum of $460 disallowed against him on the books of the Treasury. | | | |
| NOTE.—This amount was expended by Capt. McAndrews, under proper instructions, in making repairs to the electric lighting system at Fort Bayard, N. Mex., payment having been made in voucher 3, abstract B. of his money account for June 1911. It appearing that the transmission line between the power house and the post at Fort Bayard, N. Mex., was in poor condition, requiring $405 to replace a number of telegraph poles; that two iron poles should be relocated in rear of building No. 4 at a cost of $10; and that a 2-kilowatt transformer was necessary in the power plant in order that transformer losses could be done away with by cutting off the post line at times when lighting was needed in the power plant only (the transformer to cost $45), authority was given Sept. 9, 1910, for the repairs, etc., at a total cost of $460. The Auditor for the War Department disallowed this expenditure by Capt. McAndrews, taking the ground that the work was included in a contract previously made for the remodeling of this line, and that no additional expense should have been incurred. But at the time the specifications covering the remodeling were prepared in the office of the Quartermaster General there was no information to show that the pole line in question was in poor condition, and the changes recommended by Capt. McAndrews as constructing quartermaster being deemed necessary and considered entirely in the interests of the service, were duly authorized. It is believed that had this work been delayed, the cost to the Government at a later date would have been very much greater. (*Henry G. Sharpe, Brigadier General, Quartermaster Corps, U. S. Army, Acting Chief of the Quartermaster Corps.*) | | | |

| TREASURY DEPARTMENT, *Washington, January 10, 1914.* The SECRETARY OF THE TREASURY. SIR: I have the honor to inform you that the appropriation "For payment of amounts for arrears of pay of two and three year volunteers, for bounty to volunteers and their widows and legal heirs, for bounty under the act of July 28, 1866, and for amounts for commutation of rations to prisoners of war in States of the so-called Confederacy, and to soldiers on furlough, that may be certified to be due by the accounting officers of the Treasury during the fiscal year 1914," was exhausted Dec. 8, 1913, and to request that you recommend to Congress that a deficiency appropriation of $35,000 be made for the payment of claims that have been and will be certified by this office from Dec. 8, 1913, to June 30, 1914. The original estimate for the payment of these claims for the fiscal year 1914 was $200,000. It appears that from a misapprehension on the part of my predecessor as to the number of claims that would be considered under the act of Dec. 22, 1911, limiting the consideration by this office of claims of soldiers for arrears of pay, etc., for services during the Civil War, this estimate was reduced to $25,000, the amount that was appropriated for the fiscal year 1914. At the time of the recommendation for this appropriation by my predecessor, it was impossible to predict the number of claims that would be considered under the limitation act of Dec. 22, 1911, until said act was construed by the Comptroller of the Treasury. Under the comptroller's construction of this act, it has been found that many more claims had to be considered by the accounting officers than was originally supposed. Respectfully, J. L. BAIRY, *Auditor.* | | | |

| NOTE.—In pursuance of the authority contained in the legislative, executive, and judicial appropriation act, approved Mar. 4, 1913, the Navy Department will vacate the Mills Building on Apr. 1, 1914, and go into the new building being erected in New York Avenue NW., just west of Seventeenth Street. It is proposed to commence moving on or about Feb. 1, which will entail an expenditure of about $5,000, not contemplated when the estimate for the current fiscal year under "Contingent expenses, Navy Department," was submitted. There is no deficiency in this appropriation at this time, but it is with a view to avoiding one on account of these unanticipated moving charges that this additional appropriation of $2,000 is asked, which, it is believed, through the exercise of rigid economy, will enable the department to meet all demands on this appropriation. | | | |

| NOTE.—This additional appropriation is asked for to permit of the purchase of steel cases for the proper storage of charts and valuable plates in the Hydrographic Office when it goes into the new building between Feb. 1 and Apr. 1, 1914. At present, some old wooden cases are employed, but these, besides being inadequate, are very much dilapidated, having been moved several times, and it is extremely doubtful if they will stand another moving. The cases it is proposed to purchase will be strong and durable and compact and designed to meet demands for several years to come. The department strongly urges this additional appropriation as it is very essential that proper and adequate storage facilities be provided for these valuable charts and plates. | | | |
| The Secretary of the Navy is authorized to pay, from the appropriation "Contingent and miscellaneous expenses, Hydrographic Office," for the fiscal year 1913, one voucher, amounting to $21.15, covering a quantity of pulpboard purchased from the R. | NOTE.—This pulpboard was purchased in the open market, through error, as it subsequently developed that a satisfactory grade of pulpboard could have been purchased under the schedule of supplies of the General Supply Committee. | *Pay, Miscellaneous*— | | | |
| The Secretary of the Navy is hereby authorized to pay, from the appropriation "Pay, miscellaneous, 1913," to Prof. W. F. Durand, of Stanford University, California, the sum of $228.05, in full payment of the expenses incurred by him in attending, as a member, the meetings of the commission created by the President of the United States on Dec. 19, 1912, on the recommendation of the Navy Department, to consider and report on the necessity or desirability for the establishment of a national aerodynamical laboratory, its scope, its organization, the most suitable location for it, and the cost of its installation, held in the city of Washington, D. C., in the month of January, 1913, and the sum of $228.05, or so much thereof as may be necessary, is hereby appropriated out of any money in the Treasury not otherwise appropriated, to carry out the provisions hereof (act Aug. 22, 1912, vol. 37, p. 330, sec. 1)..... | | $228.05 | $1,000,000.00 |
| NOTE.—On the recommendation of the Navy Department, the President of the United States, on Dec. 19, 1912, created a Commission on Aerodynamical Laboratory, and among others appointed Prof. W. F. Durand, scientific engineer, Leland Stanford University of California, a member thereof. The first meeting of the commission was called for Jan. 23, 1913, at the Carnegie Institution, Washington, D. C., which fact was telegraphed to Prof. Durand by the officer in charge of aviation work in the Navy Department on Jan. 16, 1913. On the following day, Jan. 17, 1913, the department, by letter, advised Prof. Durand, having in mind the act of Mar. 4, 1909 (35 Stat., 1027), that the expenses of the commission could not be defrayed by the Government until the commission was given a legal status by act of Congress. Prof. Durand, in order to reach Washington on the date set for the first meeting, left California on the night of Jan. 18, 1913, and therefore did not receive the department's letter of Jan. 17, 1913, supra, until his return. As Prof. Durand acted in entire good faith and was without knowledge at the time of his departure from California that there was no authority of law to meet his expenses, the department does not feel that he should be made to bear the expense of attending the meetings of the commission, and earnestly recommends the enactment of the above provision in order that he may be reimbursed for his actual and necessary expenses, the amount being considered very reasonable. | | | |
| To reimburse Pay Director James S. Phillips, U. S. Navy, in the sum of $70, said amount representing payments made by him to Edgar Buckingham, of the Bureau of Standards, Department of Commerce, for delivering a series of lectures before the School of Marine Engineering at the United States Naval Academy during the months of October, November, and December, 1910, and the month of January, 1911, and subsequently disallowed in his accounts by the Auditor for the Navy Department; and the sum of $70, or so much thereof as may be necessary, is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to carry out the provisions hereof (act June 24, 1910, vol. 36, pp. 606–607, sec. 1)..... | | 70.00 | 868,550.00 |
| NOTE.—In October, November, and December, 1910, and in January, 1911, Dr. Edgar Buckingham, an assistant physicist in the Bureau of Standards, Department of Commerce, was granted leave of absence, without pay, at the request of the Navy Department, to deliver a series of lectures on thermodynamics and allied subjects before the School of Marine Engineering at the United States Naval Academy, and was compensated for his services, in accordance with previous arrangement, by Pay Director James S. Phillips, U. S. Navy.<br>The Auditor for the Navy Department, in settling the accounts of Pay Director Phillips, disallowed payments to Dr. Buckingham, amounting to $70, made at the Navy Department's direction, and his action was subsequently affirmed by the Comptroller of the Treasury, the payments having been held as in violation of section 1765, Revised Statutes, and the act of June 20, 1874 (18 Stat., 109), which prohibit payments being made to officers of the Government beyond their salaries or compensations allowed by law without specific authority of law.<br>Had the fact not been overlooked that Dr. Buckingham's employment was illegal it would have been necessary to have engaged a lecturer not connected with the Government and at a cost not less and more than likely considerably more than the amount here involved, and to pay for the services of private lecturers the department has ample authority. In other words, under existing law the department is unable to avail itself of the services of the expert and well-known authorities on scientific and special subjects in Government employ, unless given gratuitously, for lecturing or conducting certain appropriate parts of postgraduate courses for officers of the Navy, even though such services be given in their own time, and yet it has authority to engage and compensate private lecturers no more competent and perhaps not quite so able.<br>Dr. Buckingham was occasioned considerable expense in delivering these lectures, having lost his regular pay while on leave without pay from the Bureau of Standards, besides his expenses of transportation, subsistence, etc. The department respectfully urges that the payments made to him be legalized. | | | |
| The Secretary of the Navy is authorized to pay, from the appropriation "Pay, miscellaneous, 1911," to Burton McCollum of the Bureau of Standards, Department of Commerce, the sum of $325, in full payment for delivering a series of lectures before the School of Marine Engineering at the United States Naval Academy during the months of February and March, 1911; and the sum of $325, or so much thereof as may be necessary, is hereby appropriated, out of any money in the Treasury not otherwise appropriated, to carry out the provisions hereof (act June 24, 1910, vol. 36, pp. 606–607, sec. 1)..... | | 325.00 | 868,550.00 |
| NOTE.—In February and March, 1911, Dr. Burton McCollum, an assistant physicist in the Bureau of Standards Department of Commerce, was granted leave of absence, without pay, at the request of the Navy Department, to deliver a series of lectures on electricity before the School of Marine Engineering at the United States Naval Academy, for which services the department incurred an indebtedness to him of $325, but which it has not been able to liquidate, owing to the action of the accounting officers of the Treasury in holding that to do so would be a violation of the act of June 20, 1875 (18 Stat., 109), and of section 1765, Revised Statutes, which prohibit payments being made to officers of the Government beyond their salaries or compensations allowed by law without specific authority of law.<br>Had the fact not been overlooked that Dr. McCollum's employment was illegal, it would have been necessary to have engaged a lecturer not connected with the Government and at a cost not less and more than likely considerably more than the amount here involved, and to pay for the services of private lecturers the department has ample authority. In other words, under existing law, the department is unable to avail itself of the services of the expert and well-known authorities on scientific and special subjects in Government employ, unless given gratuitously, for lecturing or conducting certain appropriate parts of post-graduate courses for officers of the Navy, even though such services be given in their own time, and yet it has authority to engage and compensate private lecturers no more competent and perhaps not quite so able.<br>Dr. McCollum was occasioned considerable expense in delivering these lectures, having lost his regular pay while on leave without pay from the Bureau of Standards, besides his expenses of transportation, subsistence, etc. The department respectfully urges that it be given authority to compensate Dr. McCollum for the valuable services he has rendered in the amount above stated. | | | |

| **BUREAU OF NAVIGATION.** | | | |
| *Transportation, Bureau of Navigation*— | | | |
| To supply a deficiency in the appropriation "Transportation" for the fiscal year 1913 (act Aug. 22, 1912, vol. 37, p. 332, sec. 1) | | $57,931.53 | $800,000.00 |
| NOTE.—This deficiency was caused by the necessity of transporting a larger number of men than had been anticipated, as well as the payment of 4 cents a mile authorized by law for the transportation to place of enlistment of men discharged upon expiration of enlistment. Transportation in excess of appropriation is authorized by provisions of section 3732, Revised Statutes. | | | |
| *Recruiting, Bureau of Navigation*— | | | |
| To supply a deficiency in the appropriation "Recruiting" for the fiscal year 1913 (act Aug. 22, 1912, vol. 37, p. 332, sec. 1) | | 4,238.60 | 145,000.00 |
| NOTE.—This deficiency was caused by an error in bookkeeping by a clerk in the bureau who overlooked an entry for advertising which was placed in the last two months of the fiscal year, and also to the fact that certain recruiting stations exceeded their monthly allotments made by the bureau, due to their zeal to recruit the Navy to its full quota, which was increased by 4,000 men during the year. | | | |
| *Campaign Badges and Ribbons, Navy and Marine Corps, Bureau of Navigation*— | | | |
| For badges and ribbons, to be distributed by the Secretary of the Navy to officers and men, now or formerly of the Volunteer and Regular Navy and Marine Corps, who have participated in engagements and campaigns deemed worthy of such commemoration, for the fiscal year 1914: | | | |
| Act May 13, 1908, vol. 35, p. 132, sec. 1 | | | 3,500.00 |
| Act Mar. 3, 1909, vol. 35, p. 758, sec. 1 | | | 2,500.00 |
| Act Aug. 26, 1912, vol. 37, p. 604, sec. 1 | | | 2,500.00 |
| Submitted | | 1,000.00 | |
| NOTE.—This estimate is not to cover an actual deficiency, but is requested in order to complete the distribution of badges to officers and enlisted men who participated in campaigns for which badges have been authorized. | | | |
| **BUREAU OF ORDNANCE.** | | | |
| *Ordnance and Ordnance Stores, Bureau of Ordnance*— | | | |
| To supply a deficiency in the appropriation "Ordnance and ordnance stores," including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1911 (act June 24, 1910, vol. 36, p. 611, sec. 1) | | 12,345.60 | 6,575,000.00 |
| NOTE.—The only deficiency under the Bureau of Ordnance is in connection with the appropriation "Ordnance and ordnance stores, 1911." This appropriation lapsed June 30, 1913, and the following amounts in connection with two contracts can not be paid:<br>Contract No. 288, June 21, 1911, Navy pay office, Washington, $6,613.80.<br>Contract No. 289, June 21, 1911, Navy pay office, Washington, $5,731.80.<br>The total amount involved is $12,345.60. | | | |
| **BUREAU OF EQUIPMENT.** | | | |
| *Equipment of Vessels, Bureau of Equipment*— | | | |
| Equipment of vessels: For cleaning, rating, and repairing nine chronometers, the contract for which was made during the fiscal year 1911 (act June 24, 1910, vol. 36, pp. 612–613, sec. 1) | | 457.00 | 3,843,300.00 |
| NOTE.—A balance under this appropriation more than sufficient to pay these bills has been turned into the surplus fund by the Treasury Department. Deficiency caused by dealer failing to submit bills before balance was covered into the Treasury Department. | | | |
| *Ocean and Lake Surveys, Bureau of Equipment*— | | | |
| Ocean and Lake Surveys: For reproducing and printing extra copies of hydrographic charts, the contract for which was made during the fiscal year 1911 (act June 24, 1910, vol. 36, p. 613, sec. 1) | | 233.75 | 75,000.00 |
| NOTE.—A balance under this appropriation more than sufficient to pay these bills has been turned into the surplus fund by the Treasury Department. Deficiency caused by dealer failing to submit bills before balance was covered into the Treasury Department. | | | |
| *Coal and Transportation, Bureau of Equipment*— | | | |
| Coal and transportation: Purchase of coal and other fuel for steamers' and ships' use, and other equipment purposes, including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1910 (act Mar. 3, 1909, vol. 35, p. 761, sec. 1) | | 202.54 | 5,000,000.00 |
| NOTE.—This estimate is to cover the sum of $202.54, due the Dyer Bros.' Golden West Iron Works (Inc.), of San Francisco, Cal., under their contract with the Navy Department, dated Apr. 25, 1910, covering improvements to Brown coal hoists Nos. 1 and 2 at the navy yard, Mare Island, Cal. There was a delay in completing the contract, which was chargeable to the contractor, amounting to 74 days, involving liquidated damages in the sum of $576.54. One of the conditions precedent to final payment under the contract was that the contractor should deliver to the Government a final release of all claims which might arise out of the contract. The release of claims was submitted to the contractor by the navy yard in July, 1911, but objection being made to the deduction of liquidated damages, prompt execution of the release was not made. The release was finally executed under date of July 1, 1913. In the meantime the appropriation had lapsed and the unexpended balance of the appropriation had been carried to the surplus fund of the Treasury. It is reported to the bureau that the unexpended balance under appropriation "Coal and transportation, 1910," carried to the surplus fund, amounted to $102,314.63. | | | |

| *Maintenance, Bureau of Yards and Docks—* | | | |
| For general maintenance of yards and docks, including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1911 (act June 24, 1910, vol. 36, p. 614, sec. 1)..... | ..... | $4,498.95 | $1,490,000.00 |
| NOTE.—This estimate is submitted to permit of the payment of the sum of $4,498.95, held under reservation vouchers issued on account of contract, dated June 12, 1911, with the General Electric Co., of Schenectady, N. Y. The contract required the furnishing and installation of certain air, steam, and electric meters at the navy yards, Norfolk, Va., Boston, Mass., Charleston, S. C., New York, N. Y., Puget Sound, Wash., Washington, D. C., Mare Island, Cal., and Philadelphia, Pa., and also required delivery at the navy yard, Mare Island, Cal., of certain meters for the naval station, Olongapo, P. I. There was considerable delay in completing the work required by the contract, mainly for the convenience of the Government, at certain of the places named—notably at the navy yard, New York, N. Y., where installation was not finally completed until July 24, 1913. The contract was not severable, thereby not permitting of the payment of the 10 per cent reservations held on account of each individual installation without regard to the installations required at other places. It was necessary, therefore, to hold all reservation vouchers until the final installation (New York) was completed. In the meantime the appropriation had lapsed and the unexpended balance had been carried to the surplus fund of the Treasury on the date required by law. It is reported to the bureau that the unexpended balance of appropriation, "Maintenance, yards and docks, 1911," carried to the surplus fund of the Treasury, amounted to $62,096.17. | | | |
| **PUBLIC WORKS, BUREAU OF YARDS AND DOCKS.** | | | |
| *Navy Yard, League Island, Pa.—* | | | |
| To pay to the Citizens' Trust & Guaranty Co. of West Virginia, when it shall have furnished a satisfactory indemnity bond, the balance of $1,491.99, withheld by the Navy Department in making settlement under contract No. 1106, dated Nov. 1, 1902, with the Penn Erecting Co., for the construction of an extension to building No. 4 (storehouse for naval supplies), navy yard, League Island (Philadelphia), Pa., the balance of the appropriation for said work having been carried to the surplus fund (act Mar. 3, 1901, vol. 31, p. 1117, sec. 1)..... | ..... | 1,491.99 | 224,640.00 |
| NOTE.—Contract for this work was let to the Penn Erecting Co., of Philadelphia, Pa., and for want of satisfactory progress was declared forfeited Dec. 14, 1903, and on Mar. 5, 1904, the Citizens' Trust & Guaranty Co. of West Virginia, the contractor's bondsman, entered into contract with the department for its completion. The surety, on the completion of the contract, was paid the balance of the contract price ($210,600), excepting $19,509.90, which sum had been earned by the Penn Erecting Co. before the forfeiture of the contract over previous payments to it. In 1906 said reservation of $19,509.90 was paid to the surety company, with the exception of $1,491.99, which, it was claimed on behalf of the Tradesmen's Trust Co. of Philadelphia, the receiver and trustee in bankruptcy of the Penn Erecting Co., had been expended by it as receiver for labor and material employed by it toward the completion of the contract. No evidence to establish this claim has been presented, and it is now proposed to pay this retent, $1,491.99, to the Citizens' Trust & Guaranty Co. of West Virginia, the surety company, upon its furnishing a satisfactory indemnity bond. The money for this payment is not available, having been turned into the Treasury under the "covering-in" provision of the sundry civil act of Mar. 4, 1909. | | | |
| *Naval Observatory: Purchase of Lands—* | | | |
| Toward the purchase of lands lying within the Naval Observatory Circle, as established by the joint resolution of Aug. 1, 1894, in pursuance of the authority contained in the naval appropriation act, approved Mar. 3, 1901 (joint resolution Aug. 1, 1894, vol. 28, pp. 588, 589, sec. 1; act Mar. 3, 1901, vol. 31, p. 1122, sec. 1)..... | ..... | 4,040.70 | 149,571.08 |
| NOTE.—The above funds are required to enable the department to consummate a deal whereby the Government will get possession of the tract known as "Normanstone," lying within the Naval Observatory Circle, comprising about 1.732 acres, which will complete the Government's ownership of all lands lying within said circle.<br>This tract has been transferred to the Government by two deeds, dated Aug. 4, 1913, one of which conveys the whole tract, with the exception of 3,848.57 square feet, the consideration being $75,066, and the other conveys the excepted area, i. e., the 3,848.57 square feet, the consideration being $4,041, making a total consideration for the whole tract of $79,107, to meet which the department proposes to deed in trade, a tract of Government land, south of Massachusetts Avenue, outside the circle and adjacent to it, valued at $61,107, and to pay a cash consideration, in addition, of $18,000. To defray this cash consideration, there is available of the appropriation contained in the act of Mar. 3, 1901, $13,959.30, leaving a balance to be appropriated, in order that the transaction may be completed, of $4,040.70.<br>The department proposes to hold the latter-mentioned deed upon the condition that title to the land therein described will not vest in the United States until the consideration therefor shall have been paid.<br>The department understands, from reliable realty sources, that the Government is the gainer, if anything, by the transaction, as the Normanstone tract is considered a very desirable property.<br>That the transaction may be early completed the department strongly urges the appropriation of the additional funds requested. | | | |
| **BUREAU OF MEDICINE AND SURGERY.** | | | |
| *Contingent, Bureau of Medicine and Surgery—* | | | |
| To supply a deficiency in the appropriation "Contingent, medicine and surgery," in the naval appropriation act for the fiscal year 1910, $5.59 (act Mar. 3, 1909, vol. 35, p. 767, sec. 1).. | ..... | 5.59 | 69,700.00 |

| *Freight, Bureau of Supplies and Accounts—* | | | |
| To supply a deficiency in the appropriation "Freight, Bureau of Supplies and Accounts," including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1914 (act of Mar. 4, 1913, vol. 37, p. 904, sec. 1; R. S., p. 736, sec. 3732) | | 200,000.00 | 425,000.00 |
| NOTE.—The bureau forwards estimate of $200,000 additional, which will be required under the appropriation "Freight, Bureau of Supplies and Accounts, 1914." Obligations incurred to Nov. 30, 1913 ($288,693.28), show clearly that the sum of $425,000 appropriated will not be sufficient to cover transportation charges for the present fiscal year. At the same rate of expenditure the total would be approximately $690,000 for the year, but the bureau considers it advisable to ask for only $200,000 additional at the present time, with the reservation that if this amount should be insufficient a further appropriation will be requested when the deficiency is definitely ascertained. The necessity for an additional appropriation is due to the normal increase in shipments of stores and material, due to the increase of the Navy; the appropriation made by the Congress was smaller than the bureau's estimate; the recently inaugurated policy of purchasing material f. o. b. factory, instead of delivered at a navy yard, whenever transportation over land-grant or bond-aided railroads is involved, provided the quantity is large enough to justify inspection at the contractor's works. | | | |

| *Reimbursement to George W. Evans, Chief Disbursing Clerk, Department of the Interior—* | | | |
| For reimbursement to George W. Evans, chief disbursing clerk, Department of the Interior, the sum of $952.33, being the amount of Government funds of which one of his assistants was robbed Oct. 16, 1913, when returning from the Treasury Department and other financial institutions that date with funds collected, and for which the chief disbursing clerk is held personally accountable under the provisions of his official bond (submitted) | | 952.33 | |
| NOTE.—On Oct. 16, 1913, Mr. Charles A. Clements, an assistant in the office of the chief disbursing clerk, while returning to the department, after having made his daily collection of funds belonging to the United States, and for which the chief disbursing clerk is held accountable under his bond, was the victim of a robbery while ascending in a crowded elevator in the Ninth Street wing of the Patent Office Building. Mr. Clements, who missed his wallet immediately upon leaving the elevator, captured one of the thieves after a chase through the building and out into the street, where he turned the man over to the police. This man proved to be "John Arthur," alias "Boston Jack," a notorious professional crook, whose photograph was in the rogues' gallery in this city and elsewhere, and who has operated, as the police authorities declare, in New York, Boston, Springfield, Mass., and other places. It is apparent that he had a confederate assisting him, to whom he passed the wallet instantly after the robbery. The confederate escaped with the loot and has not yet been apprehended. Arthur was duly arraigned in the Criminal Court of the District of Columbia Nov. 17, was tried and convicted, and has been sentenced to a term of five years in the penitentiary. | | | |

| That the accounting officers of the United States Treasury be, and they are hereby, authorized and directed to credit in the accounts of George W. Evans, chief disbursing clerk, Department of the Interior, the sum of $20, being the amount that he was directed by the department to refund to L. C. Norman, on permit approved by the Interior Department, Feb. 5, 1912, for procuring and shipping water from springs in the Platt National Park to parties outside of Sulphur, Okla., the same being for the portion of the year 1912 during which the permit was not used, namely, subsequent to Mar. 8, 1912. | | | |
| NOTE.—The Auditor for the Interior Department, in making the disallowance, held that the failure of the permittee to exercise his rights under the permit did not appear to authorize a refund to him of any portion of the fee paid for the permit, in the absence of a provision therefor in the permit or of fault on the part of the United States. The chief disbursing clerk appealed to the Comptroller of the Treasury from the action of the Auditor in making said disallowance. The comptroller, however, subsequently affirmed the action of the auditor and directed the disallowance to stand against the chief disbursing clerk. | | | |

NOTE.—

DEPARTMENT OF THE INTERIOR,
*Washington, Mar. 6, 1913.*

SIR: Acknowledging receipt of your letter of Feb. 22, 1913, in which you make application for refund on permit issued to you for shipping waters from the Platt Park to parties outside of Sulphur, Okla., during 1912, I have to state that it appears from the departmental records that you were compelled to leave Sulphur, and subsequently to Mar. 8, 1912, the permit was of no benefit to you. There has also been no arrangement effected for issuance of permit to another party for the balance of said calendar year, nor has any application for such permit been approved by the department.

Inasmuch as failure to avail yourself of the permit grew out of no negligence on your part, the department will act favorably upon your application for refund, and voucher is herewith inclosed for $20, which represents the unused period of the permit (subsequent to Mar 8, 1912).

After signing same in blank opposite green-pencil checkmark, forward the voucher to Will J. French, superintendent of Platt National Park, at Sulphur, for transmission to the department. Also insert at top of voucher address to which you desire check in payment sent.

Respectfully,

LEWIS C. LAYLIN, *Assistant Secretary.*

DEPARTMENT OF THE INTERIOR,
*Washington, Mar. 6, 1913.*

SIR: I transmit herewith, for your information and files, copy of letter this day addressed to Mr. L. C. Norman, of Oklahoma City, Okla., in which the department indicates that favorable action will be taken upon his application for refund on permit in his favor approved in the department Feb. 5, 1912.

When voucher sent to Mr. Norman is received in your office, same should be certified by you and transmitted to the department for adjustment.

Respectfully,

CLEMENT S. UCKER, *Chief Clerk.*

Mr. WILL J. FRENCH,
*Superintendent Platt National Park, Sulphur, Okla.*

[Appeal No. 23032.]

TREASURY DEPARTMENT,
OFFICE OF COMPTROLLER OF THE TREASURY,
*September 27, 1913.*

George W. Evans, chief disbursing clerk, Department of the Interior, applied, Sept. 17, 1913, for revision of the action of the Auditor for the Interior Department in disallowing by settlement No. 8226, dated July 29, 1913, an item of $20 refunded to L. C. Norman on his permit for procuring and shipping water from springs in Platt National Park to parties outside of Sulphur, Okla.

L. C. Norman entered into an agreement with the Department of the Interior by which he was granted the above permit for the term of one year from Jan. 1 to Dec. 31, 1912, upon payment of $25 in advance. He later was compelled to leave Sulphur, and therefore could not avail himself of the permit subsequent to Mar. 8, 1912. Upon his application for a refund for the unused period of the permit, the Secretary directed that a voucher for $20 be prepared for payment, which was done.

The payment of this item was disallowed for the reason that—

"The failure of the permittee to exercise his rights under the permit does not appear to authorize refund to him of any portion of the fee paid for the permit, in the absence of a provision therefor in the permit or of fault on the part of the United States. (54 MS. Comp. Dec., 887, Aug. 25, 1910.)"

The licensee in this case was granted certain rights which he might have asserted for the specified period if he saw fit. His failure to do so gave him no right to a refund in the absence of a specific provision therefor in the agreement.

The money paid by the licensee for this permit was covered in to the credit of the special fund known as "Revenues, Platt National Park," and under section 18 of the act of Apr. 21, 1904 (33 Stat., 220, 221), was made available for the following purposes:

"* * * All money heretofore received or that may hereafter be realized for the use of said waters or for the use and occupancy of the land or the buildings thereon, through leases, permits, or otherwise, may be expended under the direction of the Secretary of the Interior, for the care and management of said lands and the preservation of the improvement thereon. * * *"

This act authorizes the Secretary of the Interior, in his discretion, to expend the funds so derived for all proper purposes along the line designated. Such authority, however, does not give him the right to give back to a licensee money properly deposited in and belonging to this special fund. The licensee has no legal right to such refund nor has the Secretary any right to bestow a bounty on him from such fund.

The auditor's action is affirmed and a certificate of no differences will issue. Revision is limited to the item of which revision is requested and the right of revision as to the remainder of the account is reserved.

GEO. E. DOWNEY, *Comptroller.*

That the accounting officers of the United States Treasury be, and they are hereby, authorized and directed to credit in the accounts of George W. Evans, chief disbursing clerk, Department of the Interior, the payments made to James F. Gill for services rendered as superintendent of reconstruction and general repairs to the toilet rooms, Pension Office Building, from Nov. 11, 1912, to May 31, 1913, at a compensation of $150 per month, $1,000.

NOTE.—Attention is invited to the facts set forth in a letter from the Assistant Secretary of the Interior to the Auditor for the Interior Department, dated May 16, 1913, copy herewith.

The payments in question were made by the chief disbursing clerk by authority and direction of the department upon vouchers duly approved by the Assistant Secretary. The legal objections raised by the auditor, and sustained by the Comptroller of the Treasury, were given careful consideration in this department before the contract was entered into for the services of Mr. Gill. The comptroller had recently approved the employment of an architect in connection with the proposed remodeling of a certain filing space in the Patent Office Building, and it was believed that the contract with Mr. Gill stood upon the same legal basis. Mr. Gill resigned his position as plumber in the Interior Department and entered into an agreement to perform the work as superintendent, as above, for a lump sum, to be paid in installments, and was so paid by the chief disbursing clerk. The employment of the architect above mentioned approved by the comptroller, included the furnishing of plans and specifications, while the contract with Mr Gill called for personal services only. This vital distinction was overlooked in the employment of Mr. Gill. The comptroller has disallowed the payments to Mr. Gill for the reason that sec. 4 of the act of Aug. 5, 1882 (22 Stat., 255), prohibits the payment for personal services, and that the appropriation for the renewal of the plumbing and general repairs, Pension Office Building, contained no specific provision for the employment of personal services.

DEPARTMENT OF THE INTERIOR,
*Washington, May 16, 1913.*

SIR: Your letter of May 13 has been received, calling attention to the accounts of the chief disbursing clerk of this department for the third quarter, 1913, in which are found payments to James F. Gill for services as superintendent of repairs to toilet rooms in the Pension Office Building (Dec. 16, 1912, to Mar. 15, 1913), at $150 per month. You call attention to the fact that the appropriation for plumbing and general repairs in said building makes no specific appropriation for employment of personal services, and inquire as to why Mr. Gill was employed in the capacity stated in view of the opinion of the comptroller, wherein is held that in the absence of specific statutory authority for employment of personal services such employment at the seat of Government is prohibited by sec. 4 of the act of Aug. 5, 1882, as amended by sec. 3 of the legislative executive and judicial appropriation act approved Aug. 23, 1912.

In response I have to state that in carrying out the work of plumbing and general repairs provided for in the appropriation act above mentioned it became necessary to secure the services of some one thoroughly familiar with the building and conditions therein in the preparation of specifications and in supervision of the work. Mr. Gill, who had been on the departmental rolls as plumber, could not look after this work in the Pension Office Building as well as his other duties as plumber in the department, and it was therefore deemed best from an administrative standpoint to have him resign his position and to enter into contract with him for the supervision of the work. Subsequently, on Nov. 8, 1912, he submitted a proposal for supervision of installation of plumbing fixtures and material and of all construction and other work incident to renewing plumbing and rearranging toilet rooms in the Pension Office Building, which proposal was accepted on Nov. 9. Copy is herewith transmitted. For purposes of convenience in making payments to Mr. Gill it was specified that the work to be performed by him would be paid for at the rate of $150 per month and there was set aside from the appropriation for this work the sum of $1,050 as the amount to be paid for the work to be performed under this contract; and payments were made thereunder from Nov. 11 through Dec. 15, 1912, vouchers therefor being included in the accounts of the disbursing officer of this department for the second quarter, 1913, which accounts it is understood were duly adjusted.

While no mention is made of the fact in this contract, it may be stated that the plans and specifications for this work were prepared by Mr. Gill. Similar contracts have heretofore been made by this department under which payments have been made, as, for instance, in the case of Mr. J. S. Hill, as follows:

"Supervision of improvement and extension of heating system from the department to the Pension Office Building, for which appropriation was made in the sundry civil act approved June 25, 1910.

"Supervision of remodeling central heat, light, and power plant, Freedmen's Hospital and Howard University, for which appropriation was made in the deficiency act of June 25, 1910.

"Supervision of installation of coal and ash conveyor, ash house and hopper, coal crusher, and necessary motors for the heating plant in the old Post Office Building, for which appropriation was made in the sundry civil act approved Mar. 4, 1911."

It was therefore believed that the department had authority under the law to make this contract.

In this connection attention is invited to the opinions of the comptroller, dated Jan. 9 and 27, 1913, wherein it was held that the department would be justified in entering into contract with architect for the preparation of plans, and also, if deemed necessary, for supervision of work in room 400 of the Patent Office Building, payment properly to be made from the contingent fund.

It is proper to add that the results obtained in installation of this work under Mr. Gill's supervision have been satisfactory in every respect, and as result of this contract the Government has been able to complete this work at a greatly reduced cost by reason of his knowledge of the building and methods of handling the work.

Respectfully,

LEWIS C. LAYLIN, *Assistant Secretary.*

THE AUDITOR FOR THE INTERIOR DEPARTMENT.

[Appeal Nos. 22919 and 22943.]

TREASURY DEPARTMENT,
OFFICE OF COMPTROLLER OF THE TREASURY,
*August 8, 1913.*

George W. Evans, chief disbursing clerk, Department of the Interior, appealed July 31, 1913, from the action of the Auditor for the Interior Department in disallowing $450 paid to James F. Gill, per vouchers Nos. 71, 860, 1690, 2810, 3565, and 4494, per auditor's certificate No. 8226, dated July 29, 1913.

The pertinent facts are:

Prior to Dec. 16, 1912, James F. Gill was employed as plumber in the Interior Department. It was desired to use his services as superintendent of repairs, to have general supervision of installation of plumbing fixtures and materials, and all construction and other work incident to renewing plumbing and rearranging toilet rooms in the United States Pension Office Building in Washington. Accordingly Mr. Gill resigned from the Interior Department as a plumber after first having made a proposal and received an acceptance to perform the duty of superintendent of repairs to toilet rooms, Pension Office Building, at a compensation at the rate of $150 per month for said services. This arrangement made Mr. Gill an employee of the Interior Department.

The payments of the vouchers aforesaid were made from the appropriation of Aug. 24, 1912 (37 Stat., 453), which is as follows:

"Renewal of plumbing and general repairs, Pension Office Building: For repairing and renewing plumbing and rearranging toilet rooms in the Pension Office Building, and the construction of necessary sewer and connections therefor, $20,000."

The auditor disallowed said amount, as follows:

Credit for the payments shown by the following vouchers for personal services is disallowed, for the reason that the law granting the appropriation does not provide specifically for the employment of personal services, which is required by section 4 of the act of Aug. 5, 1882, as amended by section 5 of the legislative, executive, and judicial appropriation act approved Aug. 23, 1912. (See 17 Comp. Dec., 479.)

Section 4 of the act of Aug. 5, 1882 (22 Stat., 255), reads as follows:

"That no civil officer, clerk, draftsman, copyist, messenger, assistant messenger, mechanic, watchman, laborer, or other employee shall after the 1st day of October next be employed in any of the executive departments or subordinate bureaus or offices thereof at the seat of government, except only at such rates and in such numbers, respectively, as may be specifically appropriated for by Congress for such clerical and other personal services for each fiscal year; and no civil officer, clerk, draftsman, copyist, messenger, assistant messenger, mechanic, watchman, laborer, or other employee shall hereafter be employed at the seat of government in any executive department or subordinate bureau or office thereof or be paid from any appropriation made for contingent expenses or for any specific or general purpose unless such employment is authorized and payment therefor specifically provided in law granting the appropriation, and then only for services actually rendered in connection with and for the purposes of the appropriation from which payment is made * * *."

| A penalty was attached to this law by the act approved Aug. 23, 1912 (37 Stat., 414), as follows: "SEC. 5. That any person violating sec. 4 of the legislative, executive, and judicial appropriation act approved Aug. 5, 1882 (22 Stat. L., 255), shall be summarily removed from office, and may also, upon conviction thereof, be punished by a fine of not more than $1,000 or by imprisonment for not more than 1 year." The appropriation for renewal of plumbing and general repairs, Pension Office Building, in amount $20,000 supra, contains no specific provision for the employment of personal services as required by the act of Aug. 5, 1882, supra, and the amendments thereof, and the disbursing officer was therefore without authority to make payment for such employment under said appropriation. Upon revision limited to the items involved the action of the auditor is affirmed and certificate of no differences will issue. (See 17 Comp., 479; 64 MS. Comp. Dec., 173; id., 517.) As to appeal No. 22943, revised upon the comptroller's own motion, the auditor, per settlement No. 7825, dated May 3, 1913, allowed: | | | |

| PUBLIC LANDS SERVICE. | | | |
| *Contingent Expenses of Land Offices*— To provide for the necessary clerk hire, rent, and other incidental expenses of the district land offices for the current fiscal year ending June 30, 1914, the unexpended balance of the appropriation of $410,000 for said purpose for the fiscal year ended June 30, 1913, is hereby continued and made available for the fiscal year 1914, and the said unexpended balance shall be transferred upon the books of the Treasury from the said appropriation of 1913, and placed to the credit of the appropriation now available for contingent expenses of land offices for 1914 (act June 23, 1913, vol. 38, p. 45, sec. 1) | | | $320,000.00 |
| NOTE.—The appropriation for contingent expenses of land offices for the fiscal year 1913 was $410,000, being an increase of $90,000 over the appropriation for the previous fiscal year. This increased appropriation was necessitated by the act of June 6, 1912 (37 Stat., 123), known as the "Three-year homestead law," which it was considered would so increase the applications to offer final proof thereunder that a large increase in the clerical force in district land offices would be required, as there were at the time 300,000 (approximately) homestead entries pending in those offices upon which final proof could be offered under said law. When the estimates of appropriations required for the General Land Office Service for the fiscal year ending June 30, 1914, were submitted, it was considered that the increased appropriation of $90,000, would not be required, and the estimate of the appropriations required for contingent expenses of land offices was decreased to $320,000, the amount appropriated for the fiscal year 1912, with the purpose of reducing the clerical force in those offices. The anticipations of this office that the great majority of entrymen would at once take advantage of the three-year homestead law were not realized, as a large number of those proofs are still being offered in the various land offices. This, together with the operation of the "enlarged homestead act" of Feb. 11, 1913 (37 Stats., 666), under which the work in land offices affected by it was largely increased, has prevented a reduction of the clerical force, which it was anticipated could be done without detriment to the public interests. On the contrary, many requests have been made by registers and receivers for additional clerical assistance in order to enable them to keep abreast with the work, which have, in a number of instances, been necessarily denied, because of the limited appropriations. Additional expense has been incurred, which was not anticipated, by the establishment of an additional land district, with land office at Elko, in the State of Nevada, under act of Oct. 3, 1913 (Public No. 29), which office will be opened for the transaction of business on Jan. 1, 1914, which necessitated the purchase of the entire equipment for the office, the lease of office premises, and the employment of four temporary clerks in the land office at Carson City, Nev., in the preparation and transcribing of the records pertaining to lands within the new land district, causing an expenditure of not less than $2,000. Senate bill No. 2548, creating an additional land district and land office in the State of Arizona, passed the Senate on July 10, 1913, and is now pending in the House of Representatives, and in event of the bill being enacted into law, the same expenditure will be required as in the case of the additional land office in Nevada. Of the increased appropriation of $90,000 for the fiscal year 1913, but $40,000 (approximately) was expended in the payment of salaries of additional clerical assistance, and increased incidental expenses, consequent upon the increase in work, leaving $50,000 (approximately) unexpended, and it is urgently recommended that this unexpended balance be made available for the fiscal year 1914, with the information that unless this relief is afforded, it will become necessary to furlough a large number of clerks, without pay, in order to confine the expenditures within the appropriation now available. | | | |

An increase of 20 students in our institution has necessitated the extra expense of $600 for crockery, bed and table linen, and for additional furniture. The increased expense of providing food for nine months for these 20 additional students will be approximately $1,600. In the month of November 12 cows from our institution herd were condemned after a tuberculine test given by the Department of Agriculture, entailing a net loss of $800 to the institution. The first two additional expenses named above were foreseen by our board of directors and an increase of $3,500 in the amount allowed for current expenses was requested at the last session of Congress, but was not granted. The sum of $3,000 now asked for is very necessary for the proper maintenance of the work of the institution.<br>Very respectfully,<br>PERCIVAL HALL, *President.* | | | |

[Letter of explanation.]

JANUARY 10, 1914.

The SECRETARY OF THE TREASURY,
*Washington, D. C.*

SIR: I have the honor to transmit herewith, for consideration by Congress in connection with the next urgent deficiency bill, estimates of appropriations which are necessary for the proper conduct of public business in the office of the Secretary and various bureaus of this department during the balance of the present fiscal year.

Salaries, office of the Secretary, $20,690: The office of the Secretary has never been equipped with the personnel adequate to its needs. This applies alike to clerical and mechanical assistants. Had it not been possible to detail clerks from its various bureaus, greatly to the detriment of their regular duties, the department would have been unable to conduct its business with even reasonable dispatch. No provision has ever been made for a competent person to care for the department's heating and power plant or its electrical equipment. As a consequence it has been put to the necessity of calling upon an employee rated as skilled laborer to perform the duties of engineer, electrician, and fireman. The department has never been provided with the services of an elevator conductor, and, to meet the exigencies of the situation, a messenger boy is required to devote a portion of the day to the performance of this duty, as well as act as a relief telephone operator. These instances are but characteristic of the difficulties with which the department has been and is confronted in the maintenance and operation of its building. It is obvious that some relief should be promptly afforded. The estimates submitted represent the minimum amount with which it will be possible to complete the organization of the administrative offices of the department.

Contingent expenses, $17,950: Notwithstanding the enforcement of a rigorous policy of retrenchment and economy and the honoring of only such requisitions as called for absolute necessities, the department is facing a potential deficiency in its contingent appropriation. Due regard for the more important items of expense which must be met through this appropriation (among which may be mentioned maintenance and upkeep of building, safety paper for naturalization certificates, and stationery) has precluded the possibility of providing such labor-saving devices as folding, addressing, and cutting machines which are generally recognized as essential to the proper conduct of a modern business office.

| **DEPARTMENT OF LABOR**—Continued. | | | |
| [Letter of explanation—Continued.] | | | |
| Salaries and expenses, Commissioners of Conciliation, $20,000: In the urgent deficiency bill of Oct. 22, 1913, $5,000 was made available for "Expenses of Commissioners of Conciliation." No provision was made for the compensation of these officers, whom the Secretary was by law authorized to appoint. The result has been to restrict the selection of mediators and conciliators to employees of other branches of the department—a limitation which it was never intended to place on the statute. It is important that the department should be empowered and equipped with adequate funds to appoint for this character of work disinterested parties, who are by training and experience peculiarly qualified therefor. The department's good offices are being constantly solicited to effect adjustments of trade disputes, and, that it may not be again put to the necessity of declining to act because of lack of funds (as it has already been compelled to do in several instances), it requests for this work the sum specified. | | | |
| Printing and binding, $8,000: The only appropriation made available to the Department of Labor for public printing and binding during the present fiscal year is that procured on behalf of its various bureaus while they were under the jurisdiction of the former Department of Commerce and Labor, and a balance of $875 for the office of the Secretary. This latter amount is utterly inadequate to provide for the dissemination of information which is already in hand. Provision must be made for the publication and distribution of the Secretary's annual report, as well as numerous other reports on investigations which have been completed and for which there is an insistent public demand, and for the preparation and furnishing of printed forms, circulars, etc., which find constant use throughout the numerous branches of the department. | | | |
| Expenses of regulating immigration, $95,000: The outstanding obligations chargeable against this appropriation for the fiscal year 1914 aggregate approximately $85,000 more than the amount available, to which should be added the cost of operating the new Chicago station for the last half of this fiscal year, which it is estimated will total $10,000. | | | |
| The potential deficiency of $85,000 is made up to a great extent by the cost of increasing the force about the first of the present fiscal year with a view to meeting and caring for the great influx of immigration to the United States. Added to this has been the additional cost of maintaining and operating the new stations at Philadelphia, Pa., New Orleans, La., and Galveston, Tex. Although Congress has hitherto appropriated for the construction of these stations, the cost of manning and operating them devolves upon the regular appropriation for the enforcement of the immigration laws, and, considering the fact that this fund was no more than adequate to meet the expenses prior to the addition of these new projects, it is obvious that what was expected could not be realized without abandonment of other and equally important functions. | | | |
| Salaries, Bureau of Naturalization, $7,750: The positions requested for the Bureau of Naturalization are deemed imperative at this time, by reason of the increase in the number of naturalization papers filed during the first six months of this fiscal year over a similar period during any year since the Federal Government assumed jurisdiction of the naturalization law. The cause of this is traceable directly to the 7-year limitation upon the life of a declaration of intention. | | | |
| The number of petitions for naturalization filed during the fiscal year ended June 30, 1913, was 95,000, in round numbers, while the number filed during the first six months of the current fiscal year was 69,392, or at the rate for the year of 138,784. This is approximately what must be expected in the way of petitions for naturalization henceforth, as shown by the average of 165,000 declarations which has been maintained since July 1, 1907, up to June 30, 1913. Since the last date there were filed 106,058 in the first six months of this fiscal year, or at the rate of 212,116 declarations for the year. | | | |
| The declaration work has not been indexed for over a year and a half, and with the passage of each month the arrearage is constantly increasing. There are at the present time in the bureau 301,823 certificates awaiting disposition, and incident to this work there has been a corresponding increase in the correspondence which demands immediate attention. | | | |
| Miscellaneous expenses, Bureau of Labor Statistics, $50,000: The estimates submitted on behalf of the Bureau of Labor Statistics are to enable this bureau to keep intact its various regular investigations in which continuity and uniformity are of the first importance. Among those inquiries may be mentioned wholesale prices, retail prices, general rates of wages, union rates of wages, labor legislation, and digests of court decisions affecting labor. Other lines of work, the value of which is materially lessened by lack of current funds, are industrial hygiene, industrial accidents and accident prevention, workmen's insurance and compensation, digests of foreign labor reports, and numerous special studies. This branch of the service has furthermore been called upon by other bureaus and commissions for statistics relative to wages, etc., which it is peculiarly qualified to furnish, if the requested funds are supplied. These latter inquiries could not have been foreseen when the estimates for the present fiscal year were submitted, and it is imperative that, if the desired investigations are to be conducted, the additional appropriations requested be allowed. | | | |
| Salaries, Children's Bureau, $1,700: This appropriation is desired in order that the Children's Bureau may be enabled to take advantage of the opportunity offered at the present time of cooperating with the Commission on Industrial Relations in the study of child labor. By this cooperation it will be possible, on the one hand, to effect considerable economy in the prosecution of investigations already undertaken by the Children's Bureau, and, on the other hand, to prepare and publish promptly the results of other investigations made for the Commission on Industrial Relations but which the latter does not expect to publish. The commission is now making its plans and beginning its work, and the opportunity for such cooperation as is desired, both by the bureau and by the Commission on Industrial Relations, should be immediately embraced. | | | |
| Respectfully, | | | |
| W. B. WILSON, *Secretary.* | | | |

| Appropriated June 23, 1913 | 185,000.00 | | |
| Deficit | 6,825.14 | | |

It is requested that the sum of $6,825 be transferred from the appropriation "Public printing and binding, 1914." This deficiency is caused by the Executive order granting two half holidays in the month of June.

OFFICE OF THE PUBLIC PRINTER,
*Washington, June 11, 1914.*

SIR: I have the honor to transmit herewith an estimate for deficiency appropriations for holidays, approved by the President.

This deficiency is brought about by the Executive order granting two Saturday half holidays during the month of June, 1914.

To comply with the provisions of this Executive order it will be necessary to transfer $6,825 from the appropriation for public printing and binding to the appropriation for holidays.

I therefore request that the following provision be incorporated in the general deficiency bill:

"Of the appropriation for public printing and binding for the fiscal year ending June thirtieth, nineteen hundred and fourteen, there is hereby made available to enable the Public Printer to comply with the provisions of law granting holidays to the employees of the Government Printing Office the sum of $6,825."

Respectfully,

CORNELIUS FORD, *Public Printer.*

The SECRETARY OF THE TREASURY,
*Washington, D. C.*

## TREASURY DEPARTMENT.

|---|---|---|---|
| *Expenses of Collecting the Revenue from Customs—* To defray the expenses of collecting the revenue from customs, being additional to the appropriation provided for this purpose by the sundry civil act approved June 23, 1913, for the fiscal year 1914, $300,000 (act June 23, 1913, vol. 38, p. 23, sec. 1) | | 300,000.00 | 10,150,000.00 |

NOTE.—Under the reorganization of the customs service made by Executive order of Mar. 3, 1913, a reduction in expenditures was put in force on July 1, 1913, of $356,000. This was done because of the construction placed on the language of the sundry civil bill approved Aug. 24, 1912, authorizing such reorganization, "bringing the total cost of said service for said fiscal year within a sum not exceeding $10,150,000, instead of $10,500,000."

The expenses of the customs service for the fiscal year ending June 30, 1913, were $10,931,432.85. The appropriation for the fiscal year 1914 is $10,150,000. While expenditures have decreased approximately $325,000 during the period from July 1, 1913, to Mar. 31, 1914, as compared with the corresponding period of the fiscal year 1913, there will, however, be a deficit of $300,000 for the fiscal year 1914, making the expenditures for the present fiscal year $10,450,000, a reduction of $481,432 from the expenditures of the fiscal year 1913.

Plans have been made to reduce the expenditures for the fiscal year 1915 to $10,150,000.

| | | | |
|---|---|---|---|
| *Contingent Expenses, Independent Treasury—* For contingent expenses, Independent Treasury, including the same objects specified under this head in the sundry civil act for the fiscal year 1914 (act June 23, 1913, vol. 38, p. 20, sec. 1; Apr. 6, 1914, Public Act No. 82) | | 80,000.00 | 185,000.00 |

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
*Washington, June 8, 1914.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to report that the unexpended balance of the appropriation "Contingent expenses, Independent Treasury, 1914," is not sufficient to meet the needs of the service for the remainder of this fiscal year.

| | | |
|---|---|---|
| Amount appropriated | $150,000.00 | |
| Deficiency act approved Apr. 6, 1914 | 35,000.00 | |

| For recoinage of light-weight gold coins in the Treasury, to be expended under the direction of the Secretary of the Treasury, as required by section 3512 of the Revised Statutes of the United States, being for the fiscal year 1914 (R. S., p. 696, sec. 3512; act June 23, 1913, vol. 38, p. 21, sec. 1)..... | ..... | $2,789.30 | $5,000.00 |

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY.
*Washington, May 27, 1914.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to report that, in accordance with custom, when there is a change in the office of an Assistant Treasurer of the United States the light-weight gold coin on hand at the time of the transfer from the outgoing to the incoming assistant treasurer is sent to the mint for recoinage, the loss thereon to be paid from the appropriation, "Recoinage of gold coins." This course is in the interest of economy, as it avoids the necessity of the examiners remaining to make an actual count of and testing the weight of each piece of gold coin.

The amount appropriated for 1914 is $5,000, but the recent change in the subtreasuries at Chicago and New York, coming so close together the examiners went directly from Chicago to New York, and the light-weight gold was transferred from New York to the mint for recoinage before it was known whether there would remain enough to pay the loss on both shipments.

The reports from the mint showing the amount of the loss on all light-weight gold recoined this year is $7,789.30, which creates a deficiency to the amount of $2,789.30 in the Treasurer's general account, for which he asks to be reimbursed.

It is therefore recommended there be included in the next estimate to Congress the following item:

"Recoinage of gold coin, 1914, $2,789.30."

Respectfully,

E. B. DASKAM,

TREASURY DEPARTMENT,
OFFICE OF THE AUDITOR FOR THE INTERIOR DEPARTMENT,
*June 15, 1914.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to submit herewith estimates for 12 clerks for this bureau for the fiscal year 1915, to be incorporated in the general deficiency bill. As you are aware, these clerks were asked for in the original and supplemental estimates prepared for the legislative, executive, and judicial bill but without avail. So great is the need for them that unless Congress grants them I will have to require the clerks in the Indian and Miscellaneous Divisions to work every day during the year until 5.30 p. m., and for 60 days until 6 p. m. Furthermore, it will be impossible to allow any of the clerks to have Saturday half holidays during the heated term and it may be necessary to curtail their annual leave. I have done everything I could think of—and so have you—to convince the House and Senate Appropriation Committees that inasmuch as the business of the Interior Department is constantly growing the work of the Auditor for the Interior Department is necessarily increasing, not decreasing.

Those who have business with the Interior Department have a right to expect that their accounts will be audited and settlements made in a reasonable length of time. As it is, the work in the Indian Division is 6 months behind, that in the Miscellaneous Division 4 months behind, and in the transportation section 4 to 6 months behind. I have wrestled with this problem and have succeeded in improving conditions somewhat, but if the clerks asked for in the accompanying estimates are not granted it will all be undone, and we will be in a bad way indeed before the end of another fiscal year.

It should be borne in mind that I only asked for 3 more clerks than are now employed here, other than the operatives engaged in key-punching and tabulating work; that my original estimates were cut 4 clerks and the supplemental estimates ignored altogether by the House Appropriations Committee; that the aforementioned backward condition of the work is in spite of the fact that the key punchers and tabulators have been detailed to this office from the Bureau of Engraving and Printing since August the 1st last, and that the regular force other than these operatives is now only 3 short of what it will be when the accompanying estimates are granted. In other words, I am only asking for 3 more clerks than are now employed here: a modest demand indeed.

I also submit herewith estimate for $5,194.19 to reimburse the appropriation, "Tabulating equipment, office of Auditor for the Post Office Department." This item was estimated for in the first urgent deficiency bill but was disallowed. Assistant Secretary Hamlin, Auditor Kram, and myself called on Chairman Fitzgerald, of the House Appropriation Committee recently, and he authorized us to incur the deficiency for the full amount, assuring us that it would be appropriated for in the general deficiency bill.

Respectfully,

R. W. WOOLLEY, *Auditor.*

### INTERNAL REVENUE.

*Collecting the Income Tax—*

For expenses of assessing and collecting the income tax, as provided in paragraph N, section 2, of an act entitled "An act to reduce tariff duties and to provide revenue for the Government (38 Stat., p. 180), and for other purposes," approved October 3, 1913, including the employment in the District of Columbia of necessary clerical and other personal services and the purchase of such supplies, equipment, mechanical devices, and other articles as may be necessary for use in the District of Columbia and the several collection districts, * * * *Provided, That no agent paid from this appropriation shall receive compensation at a rate higher than $7 a day, and $3 additional in lieu of subsistence.*

*All corporations, joint-stock companies or associations, and insurance companies shall, upon request of the Commissioner of Internal Revenue, furnish information as to the names of persons owning shares of stock—common or preferred, or both—in such companies or organizations, the amount of dividends paid to each of such shareholders for any given period, and such other information as may be necessary or desirable in connection with the administration of the income-tax law.*

*Every company or association as above described, and every individual subject to the income-tax law shall also permit free access to all books, papers, records, and securities of every kind, no matter where or how kept, whether for itself, himself, or for another, by any revenue agent or inspector employed for the purpose of investigating income-tax returns, or in ascertaining whether such returns should have been made where no returns were filed, and it shall be lawful for the revenue agent to summon persons failing to make returns or who shall be considered to have made false or fraudulent returns, or any other person having possession, custody, or care of books of account containing entries relating to the business of such persons, or any other persons he may deem proper, to appear before him and produce such books, at a time and place named in the summons, and to give testimony or answer interrogatories, under oath, respecting the income of himself or of another person.*

*Any corporation, joint-stock company or association, or insurance company or individual refusing or failing to comply with the request of the Commissioner of Internal Revenue or refuses access to books, papers, etc., or fails to obey the summons of, or give testimony before, an internal-revenue agent in the manner set forth above shall be liable to a penalty of not exceeding $10,000.*

NOTE.—Greater authority should be given the Commissioner of Internal Revenue to enable him to compel taxpayers and others to make required returns and reports, and the proposed amendments, if enacted into law, would appear to clothe the Commissioner of Internal Revenue with necessary authority.

The act of Apr. 6, 1914 (Public act No. 82), provides that, unless otherwise expressly provided by law, no officer or employee of the United States shall be allowed or paid any sum in excess of expenses actually incurred for subsistence while traveling on duty outside of the District of Columbia and away from his designated post of duty, and as the internal-revenue agents, paid from the appropriation "Salaries and expenses of agents and subordinate officers of internal revenue," are allowed under the law a per diem in lieu of subsistence, it is desired that the agents paid from this appropriation be similarly provided for.

### MINTS AND ASSAY OFFICES.

*Unclaimed Deposits of Bullion or Uncurrent Coin—*

At the expiration of each fiscal year, upon the recommendation of the Director of the Mint, all moneys representing the values of bullion or uncurrent coin in the possession of mint service officers remaining unclaimed for 3 years or longer shall be covered into the Treasury of the United States by warrant, and be carried to the credit of the parties who are entitled to receive pay therefor, and into the appropriation account denominated "Outstanding liabilities."

TREASURY DEPARTMENT,
OFFICE OF THE DIRECTOR OF THE MINT,
*Washington, June 9, 1914.*

The SECRETARY OF THE TREASURY.

SIR: I have the honor to submit for your consideration a statement concerning unpaid deposits at mint institutions.

The books of the San Francisco Mint show the following unpaid deposits now of long standing and for which probably no claim will ever be made:

| Date. | Depositor. | Amount. |
|---|---|---|
| 1856, June quarter | H. J. Peters | $127.87 |
| 1858, December quarter | Jos. Baker | 333.27 |
| 1863, September quarter | J. N. Souther | 151.96 |

The weigh clerk's original receipts for gross ounces of bullion, "value to be ascertained," were issued, but no other form of obligation is outstanding. After the value was ascertained certificates of deposit were filled out in favor of the parties named for the amounts stated, but never passed out of the hands of the superintendent of the mint.

During the March quarter of 1882 the New York assay office received from Thomas F. Davis 180.90 ounces (standard) of silver bullion, which was deposited for return in fine bars. This deposit has never been called for and the foregoing amount of silver bullion is held in the New York assay office to the credit of the said Davis, at the (1882) value of $1 per ounce, $180.90.

Other similar unpaid deposits of long standing are in the possession of mint service officers.

There is no way by which the accounts can be relieved of these items, the Comptroller of the Treasury having held, under date of June 7, 1913, that section 306, Revised Statutes, does not cover items of this character.

I have to request that recommendation be made to Congress for legislation that will permit the clearing of these and future similar items from the accounts. The matter has been submitted to the Treasurer of the United States, and with his approval the following paragraph has been prepared for the accomplishment of the purpose:

At the expiration of each fiscal year, upon the recommendation of the Director of the Mint, all moneys representing the values of bullion or uncurrent coin in the possession of mint service officers remaining unclaimed for three years or longer, shall be covered into the Treasury of the United States by warrant, and be carried to the credit of the parties who are entitled to receive pay therefor, and into the appropriation account denominated "Outstanding liabilities."

Respectfully,

GEO. E. ROBERTS, *Director of the Mint.*

| *Contingent, Navy—* | | | |
| To supply a deficiency in the appropriation "Contingent, Navy," including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1914 (act Mar. 4, 1913, vol. 37, p. 893, sec. 1) | | $64,229.55 | $46,000.00 |
| NOTE.—1. The actual deficiency as shown by the records of the Bureau of Supplies and Accounts at the present time is $62,229.55, and an additional $2,000 has been allowed to cover the ordinary and normal expenditures during the remainder of the fiscal year. 2. The department authorized the use of "Contingent, Navy," for extraordinary expenditures in connection with the occupation of Vera Cruz, and the Bureau of Supplies and Accounts has absolutely no data as to the amount which has been or may be expended at that point, but it is estimated that the additional charges under this appropriation will be not less than $50,000. The principal expenditures which have been made during the past few months have been $27,600 for the value of khaki uniforms issued to the seaman brigades of the Atlantic and Pacific Fleets, and $12,000 for the hire of the steamer Moro Castle during the period it was used as a transport, and $62,000 for the hire of the supply ship Washingtonian, both of which vessels were chartered under authority of the department. | | | |

| To supply a deficiency in the appropriation "Pay, miscellaneous," including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1913 (act Aug. 22, 1912, vol. 37, p. 330, sec. 1) | | 16,619.27 | 1,000,000.00 |
| NOTE.—Amount appropriated, $1,000,000, being the same as for the fiscal year 1912. The expenditures for the latter year were $109,332.27 in excess of the appropriation, $103,241.78 of which was appropriated for last year and $6,110.49 is being requested at the present time. It will therefore be seen that expenditures for 1913 have been approximately $93,000 less than for the preceding year. From the comparative statement attached it will be seen that there was a decrease of about $140,000 in loss on sales of bills of exchange, and of $14,000 in mileage and travel expenses of officers, which were partially offset by increases under various objects of expenditure, such as expenses of prisoners, etc., $40,000; cost of special instruction, $7,000; maintenance of naval attachés, $7,000; and postage, telegrams, and telephones, $7,000; leaving a net deficiency of $16,619.27. In this connection attention is invited to the fact that the increases are practically all for objects which could not be controlled by the department or this bureau. | | | |
| **BUREAU OF EQUIPMENT.** | | | |
| *Equipment of Vessels, Bureau of Equipment—* | | | |
| To pay voucher in favor of the Autographic Register Co. for wireless telegraph forms and carbon paper furnished during the fiscal year 1910 (act Mar. 3, 1909, vol. 35, p. 760, sec. 1) | | 32.50 | 3,935,400.00 |
| NOTE.—An unexpended balance under this appropriation of over $60,000 was carried to the surplus fund by the Treasury Department. This deficiency was caused by dealers' failure to submit bills before unexpended balance was covered into the surplus fund. Date of order to Autographic Register Co. was Apr. 12, 1910. | | | |
| To cover a deficiency under the appropriation "Equipment of vessels," including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1911 (act June 24, 1910, vol. 36, pp. 612 and 613, sec .1) | | 19,565.47 | 3,843,300.00 |
| NOTE.—This appropriation is required to pay voucher in favor of Wm. Bond & Son for repairing, cleaning, and rating a standard chronometer, the order for which was placed during the fiscal year 1911, amounting to $47.50, and to reimburse general account of advances. The deficiency under this appropriation was incurred principally by reason of the necessity for work additional to and changes under the contracts for the erection of towers and buildings for the naval radio station at Arlington, Va. The necessity for the additional work developed after the close of the fiscal year 1911, but had to be charged against the 1911 appropriation because the original contracts were chargeable to the appropriation for that fiscal year. Date of order to Bond & Son was Oct. 7, 1910. | | | |
| *Coal and Transportation, Bureau of Equipment—* | | | |
| To supply a deficiency in the appropriation "Coal and transportation," Bureau of Equipment, including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1912 (acts Mar. 4, 1911, vol. 36, p. 1273, sec. 1; Mar. 4, 1913, vol. 37, p. 922, sec. 1) | | 6,075.17 | 4,237,595.33 |
| NOTE.—The deficiency requested last year of $237,595.33 has proved insufficient by the amount above stated. The deficiency estimate submitted last year covered only items actually known, no provision being made to cover future charges or auditor's adjustments which might be reported later. | | | |
| To supply a deficiency in the appropriation "Coal and Transportation," Bureau of Equipment, including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1913 (act Aug. 22, 1912, vol. 37, p. 338, sec. 1) | | 719,700.99 | 4,000,000.00 |
| NOTE.—The appropriations for 1912 and 1913 were $4,000,000 for each year. For 1914 there was appropriated $5,000,000. The estimate of 1913 was prepared by the department and this bureau was not consulted as to the amount which would be required. The 1912 appropriation proved to be deficient about $245,000. It will therefore be seen that the expenditures for 1913 are $475,000 greater than for the preceding year, and $280,000 less than the amount appropriated for the current year. It is believed that this is only a normal increase which should be expected, as larger and more powerful vessels are put into commission from year to year. A statement is appended showing the increases in 1913 over 1912 by general objects of expenditures. | | | |

| *Bringing Home Remains of Officers, etc., Navy Department*— To supply a deficiency in the appropriation "Bringing home remains of officers, etc., Navy Department," including all objects mentioned under this title of appropriation in the naval appropriation act for the fiscal year 1914, $5,000: *Provided*, That no deductions shall hereafter be made on account of expenses of transportation from the six months' gratuity pay allowed under the naval act of Aug. 22, 1912, to the beneficiaries of officers and enlisted men of the Navy and Marine Corps on account of deaths occurring on and after Apr. 20, 1914, being for the fiscal year 1914 (act Mar. 4, 1913, vol. 37, p. 902, sec. 1) | | | | | $5,000.00 | $15,000.00 |
| NOTE.—(a) This appropriation was deficient on Apr. 30, 1914, in the sum of $784.86. Since that date the deficiency has been further increased by the expense incurred in forwarding to their homes the remains of the naval dead from Vera Cruz and elsewhere, and by the usual demands made on the appropriation during the months of May and June. (b) The date "Apr. 20, 1914," is used to protect from deductions the gratuity pay of enlisted men killed at Vera Cruz. | NOTE.—Amount appropriated, $450,000.<br>Amount appropriated for the fiscal year 1912, $535,000.<br>Amount appropriated for the current fiscal year, $625,000 (includes $200,000 in urgent deficiency act).<br>It will be seen that the appropriation for 1913 was $85,000 less than for 1912, and $175,000 less than for 1914. The original estimate called for $535,000, which amount was reduced by Congress to $450,000, by the House committee, which amount it was known at the time would probably not be sufficient. Expenditures under this appropriation are very hard to anticipate, as material is shipped from one yard to another as occasion requires.<br>During the latter part of the year there was inaugurated the policy of placing orders for material f. o. b. mill or factory if shipment was to move over land-grant railroads, thereby saving the land-grant deduction. While this policy resulted in a saving to the naval appropriations as a whole, the effect was to increase expenditures under the freight appropriation, and the deficiency now shown is to a certain extent due to the plan of buying material f. o. b. works instead of delivered at the navy yards. Just how large a percentage of the deficiency is due to this cause it is impossible to say. | | | |

| NOTE.—The above deficiency was due to the fact that the contract for overhauling the U. S. S. Scorpion at Trieste, Austria, made during the latter part of the fiscal year 1911, was not reported as an outstanding obligation prior to June 30, 1911, and consequently no funds were reserved for the obligation. ## INTERIOR DEPARTMENT.

*Credit in the Accounts of George W. Evans, Chief Disbursing Clerk, Department of the Interior—*

That the accounting officers of the United States Treasury be, and they are hereby, authorized and directed to credit in the accounts of George W. Evans, chief disbursing clerk, Department of the Interior, the payments made to James F. Gill, for services rendered as superintendent of reconstruction and general repairs to the toilet rooms, Pension Office Building, from Nov. 11, 1912, to May 31, 1913, at a compensation of $150 per month, $1,000.

NOTE.—This payment was disallowed by the Comptroller of the Treasury in the settlement of the accounts of the chief disbursing clerk for the reason that, in the comptroller's opinion, in absence of specific statutory authority for employment of personal services, the payment in question is prohibited by section 4 of the act of Aug. 5, 1882, as amended by section 3 of the legislative, executive, and judicial appropriation act of Aug. 23, 1912. Mr. Gill resigned his position as plumber in this department Dec. 16, 1912, and immediately thereafter entered into a contract to superintend the work. He also prepared the plans and specifications for remodeling the plumbing repairs to the toilet rooms of the Pension Office, for which he was to receive a compensation of $150 per month while so employed. The department approved the payments and directed the chief disbursing clerk to pay the vouchers of Mr. Gill when rendered. Therefore if any error has been made by the department in the employment of Mr. Gill to superintend said work it does not seem reasonable or just that Mr. Evans, the chief disbursing clerk, should be required to make good to the United States the $1,000 now disallowed against him personally, as he made the payments in good faith and by order of his superior officer. (See letter dated Apr. 28, 1914, from the Secretary of the Interior to the chairman of the Committee on Appropriations, House of Representatives, hereto attached.)

DEPARTMENT OF THE INTERIOR,
*Washington, April 28, 1914.*

Hon. JOHN J. FITZGERALD,
*Chairman of the Committee on Appropriations, House of Representatives.*

MY DEAR SIR: I have the honor to invite your attention to an item in the urgency deficiency estimates forwarded from this department for the consideration of the Congress (H. Doc. No. 595, 63d Cong., 2d sess.):

"That the accounting officers of the United States Treasury be, and they are hereby, authorized and directed to credit in the accounts of George W. Evans, chief disbursing clerk, Department of the Interior, the payments made to James F. Gill for services rendered as superintendent of reconstruction and general repairs to the toilet rooms, Pension Office Building, from Nov. 11, 1912, to May 31, 1913, at a compensation of $150 per month, $1,000."

I respectfully request that this item be included in the general deficiency bill, now before your committee for consideration, and that favorable action be taken thereon, in view of the fact that payment was made by the disbursing officer in good faith, after the vouchers had received the required administrative examination and approval of the department.

A contract was entered into with Mr. Gill to superintend the installation of the plumbing fixtures and materials, and of all construction and other work incident to renewing and rearranging the toilet rooms in the Pension Office Building, which contract was accepted Nov. 9, 1912. Mr. Gill was further required to furnish the plans and specifications for this work.

Cordially, yours,

FRANKLIN K. LANE.

*Reimbursement of Ralph E. Hess—*

To enable the Secretary of the Treasury to carry out the provisions of "An act for the reimbursement of Ralph E. Hess for two horses lost while hired by the United States Geological Survey," approved Mar. 3, 1913 (Private Act No. 163) (acts July 1, 1902, vol. 32, p. 560, sec. 1; Mar. 3, 1913, vol. 37, p. 373, sec. 1)..... $150.00

NOTE.—The above-mentioned act does not provide an appropriation for payment of the same "out of any money in the Treasury not otherwise appropriated," as required under the provision contained in the deficiency act of July 1, 1902 (32 Stat., p. 560), and an appropriation will be necessary to carry out the evident intention of the act.

DEPARTMENT OF THE INTERIOR,
*Washington, June 12, 1914.*

DEAR MR. SECRETARY: I wish to call your attention to an item for the relief of Ralph E. Hess, which was included in the list of supplemental estimates transmitted for the consideration of Congress, with your letter of June 13, 1913.

This item, which reads as follows:

"Interior Department, Reimbursement of Ralph E. Hess: To enable the Secretary of the Treasury to carry out the provisions of 'An act for the reimbursement of Ralph E. Hess for two horses lost while hired by the United States Geological Survey,' approved Mar. 3, 1913 (Private Act No. 163) (acts July 1, 1902, vol. 32, p. 560, sec. 1; Mar. 3, 1913, vol. 37, p. 373, sec. 1, $150.

"NOTE.—The above-mentioned act does not provide an appropriation for payment of the same 'out of any money in the Treasury not otherwise appropriated,' as required under the provision contained in the deficiency act of July 1, 1902 (32 Stat., p. 560), and an appropriation will be necessary to carry out the evident intention of the act."

appeared in House Document No. 88, Sixty-third Congress, first session, page 21, but failed to be included in the deficiency act.

It is requested that it be submitted to Congress again in order that Mr. Hess may receive the amount which has been found due him.

Cordially, yours,

FRANKLIN K. LANE.

The SECRETARY OF THE TREASURY.

### GENERAL LAND OFFICE.

*Surveying the Public Lands—*

The Secretary of the Treasury is hereby authorized and directed to pay, from the appropriations named, the vouchers amounting to $27.50 of the Journal Publishing Co., of Miles City, Mont., as certified by United States Surveyor J. Scott Harrison, and approved by the Commissioner of the General Land Office, for the publication in 27 weekly editions of the Stockgrowers' Journal, a weekly newspaper of Miles City, Mont., from Mar. 26, 1913, to Sept. 17, 1913, of an advertisement for the recovery of a strayed or stolen horse, the property of the General Land Office, used in connection with the surveying service.

| GENERAL LAND OFFICE, *Denver, Colo., August 30, 1913.* | | | |
| The COMMISSIONER OF THE GENERAL LAND OFFICE, *Washington, D. C.* | | | |
| SIR: I am in receipt of your letter 351556 "M" E. S. E., dated Aug. 23, 1913, transmitting a bill of the Journal Publishing Co., of Miles City, Mont., for publishing a "strayed or stolen" notice in the Stockgrowers' Journal of Miles City, Mont., at the request of Mr. J. Scott Harrison, assistant supervisor of surveys for Montana, and requesting that a copy of the written authority of the commissioner for the publication of the notice be attached thereto and returned to you for settlement. | | | |
| The records of this office show that Mr. Harrison reported to me early in the winter that one of the Government horses in pasture near Miles City, Mont., had strayed or had been stolen. He was directed by me to use his best judgment in the matter of recovering the animal as stated in my letter to him dated Feb. 20, 1913, and that I would take up the question of advertising with the department. It was presumed by both Mr. Harrison and myself that the animal would soon be recovered, and, as I recall in discussing the matter in the General Land Office it was concluded that the publishing of a notice in a newspaper would not be as effective as the adoption of other forms of advertising. The recovery of the horse was daily expected. However, when on Mar. 18, 1913, I learned that the animal was still at large, I directed Mr. Harrison among other things, by letter of that date, to advertise for the horse. I of course did not mean by publication in a newspaper without proper authorization, but I can readily see how Mr. Harrison could logically conclude from my advices to him to use his best judgment in recovering the animal and later directing him to advertise (although I did not say in a newspaper) that a newspaper publication had been authorized. Mr. Harrison advised me of the matter of advertising in the case during my visit to Helena about a month ago and I suggested to him at that time that he submit the claim to your office for action. I wish to state that Mr. Harrison has acted in the best of faith, and under what he considered proper authority, and I am willing to accept full responsibility for his procedure in the matter. | | | |
| The claim of the Journal Publishing Co. is returned herewith, and I would respectfully request that, if permissible under the rules, it now be authorized and paid, as the incurrence of this expense appeared to be to the best interests of the service; if not permissible under the rules, please advise me in order that I can personally reimburse the Journal Publishing Co. | | | |
| Very respectfully, FRANK M. JOHNSON, *Supervisor of Surveys.* | | | |

| NOTE.—The fees paid by the disbursing officer were at the rate of 10 cents for swearing each witness and 50 cents for certificate and seal, whereas the Missouri statutes allow but 5 cents for swearing each witness and 35 cents for certifying depositions. The payments were made in good faith, and the officer was not familiar at the time with the Missouri law governing same. | | | |

| Total | 1,114.17 | | |
| NOTE.—The lines of survey, for which the above payments are recommended, were made necessary in order to complete the work now under the contracts and special instructions. The work was approved and accepted and the deputy surveyors are entitled to payment therefor; but in the settlement of their account it was found necessary to disallow said amounts in order to keep within the limit of the estimated liability named in the contracts. The equitable character of such claims has been recognized by Congress since the Fifty-fourth Congress, act of June 8, 1896 (29 Stat., 291), and provision for their payment has been made in each subsequent session by appropriations contained in the general deficiency bills, last act Mar. 4, 1913 (37 Stat., 924). In this connection attention is called to the fact that although the relief granted in cases of this kind through congressional action, by appropriation, incorporated into the general deficiency act, the amounts thus appropriated could not in reality be termed deficiencies, for the reason that the failure of the deputy surveyors to receive full compensation for the work executed by them was not due to a lack of sufficient funds appropriated for the survey of public lands, but to the fact above mentioned that the amounts payable from that fund were limited by departmental regulations to the estimated cost of the surveys. | | | |

| NOTE.—At the time the regular estimates for the Department of Commerce for the fiscal year 1915 were prepared the need for this appropriation was not apparent. Since the preparation and submission of these estimates the department is continually in receipt of requests from individuals, business concerns, Members of Congress, and committees of Congress, for information relative to the domestic commerce of the United States. At present the Bureau of Foreign and Domestic Commerce, which is supposed to collect and publish useful information in regard to the foreign and domestic commerce of the United States, has no facilities whereby authentic record can be made of the commercial conditions in the United States or the general trend of trade and prices. Fairly complete figures of our trade with foreign countries are given, but the vastly greater movement of commerce within our borders is not presented at present. This leaves a gap in the records of the department and also deprives Congress and the public of an important commercial record, without which many matters must be handled without the information essential to an intelligent treatment. It is proposed that the appropriation provide for three employees in Washington, D. C., contingent and miscellaneous expenses in Washington, D. C., and some agents in the field. | | | |

*Payment to Alaska Steamship Co. for Damages—*

Payment to the Alaska Steamship Co. for damage inflicted by the U. S. Coast and Geodetic Survey steamer McArthur to the steamer Dora, of the Alaska Steamship Co. (submitted).... $25.10

NOTE.—The damages and the cause thereof are fully set forth in the letter addressed to the superintendent of the Coast and Geodetic Survey by Mr. C. G. Quillian, assistant, Coast and Geodetic Survey, dated Sept. 23, 1912, as follows:

COAST AND GEODETIC SURVEY STEAMER MCARTHUR,
*Seward, Alaska, September 23, 1912.*

The SUPERINTENDENT COAST AND GEODETIC SURVEY,
*Washington, D. C.*

SIR: I have to submit the following report of minor injuries to steamship Dora on Sept. 9, also referred to in inclosed letter of Capt. McMullen.

On Sunday, Sept. 8, the McArthur was lying at the eastern extension of dock at Seward, Alaska. As the mail steamer was expected in, the steamship Dora, of the Alaska Steamship Co., came alongside. Some days previously the U. S. revenue cutter Manning had some difficulty in leaving the dock in a sudden southerly squall and had sprung her davits and splintered a boot and knocked out some of the fender piles. Owing to lack of sufficient fender piles I would not remain inside the Dora and shifted and made fast alongside the Dora, and shifted alongside the Dora and outside of her.

At 9 a. m., Monday, Sept. 9, there was a sudden violent squall, which caused the McArthur to chafe the Dora considerably. Steam was raised at once and at 9.10 the McArthur got under way. The wind was directly out the dock, and a considerable choppy sea had arisen quickly. The wind forced the McArthur onto the Dora and I had to get out under full speed, and sought anchorage in Thumb Cove, and proceeded the next day to the working grounds.

In getting away the McArthur was slightly damaged, as follows:

(*a*) Pipe rail forward port side, fouled bowsprit of Dora and three stanchions broken; repaired on board.
(*b*) After port dinghy davit slightly sprung. This davit has been very weak for some time.
(*c*) A small piece 1 foot long by 2 inches deep splintered in covering board; will put in a graven piece on board.

At time of leaving I did not see that the Dora was injured. The Dora also left the wharf immediately after the McArthur and anchored off Lowell Point.

On the McArthur's return to Seward I was informed by the master of the Dora that minor injuries were sustained by her, as follows:

(*a*) Two davits on starboard side sprung and torn from fastenings; repaired by blacksmith at Seward at cost of $15.
(*b*) After spring check lifted from deck.
(*c*) One plank about forward end of house chafed and stove in well above water line.

Items (*b*) and (*c*) were repaired by a local carpenter at cost of $10.10. The chock was refastened and some 5 feet of plank renewed.

Total repairs to Dora, $25.10.

I am inclosing herewith a letter from Capt. McMullen of the Dora, regarding the matter, together with the bills of the repairs.

I suppose the McArthur should pay the damages, as she was on the outside of the Dora. The charges by the blacksmith and carpenter are reasonable and moderate.

The steamship Dora is operated, and I think owned, by the Alaska Steamship Co., with offices in Seattle.

I am referring the matter to you for adjustment and settlement.

It is probable that the McArthur would have sprung and possibly lost one or more of the port whaleboat davits and raked her pipe rail off had she been inside, as she would have blown under some projecting beams of the dock where fender piles are absent.

Respectfully.

Payment to the Hartford & New York Transportation Co. for damage to the barge C. T. Marston by the U. S. Coast and Geodetic Survey steamer Hydrographer on Aug. 30, 1913 (submitted).... 121.42

NOTE.—The damages, together with their cause, are fully set forth in the following communication addressed to the Superintendent of the Coast and Geodetic Survey by Herbert C. Graves, commanding the U. S. Coast and Geodetic Survey steamer Hydrographer:

COAST AND GEODETIC SURVEY STEAMER HYDROGRAPHER,
*Hartford, Conn., August 30, 1913.*

The SUPERINTENDENT COAST AND GEODETIC SURVEY:

Inclosed herewith is an estimate for repairing damage to the barge C. P. Marston, owned by the Hartford & New York Transportation Co., caused by the steamer Hydrographer striking her at Hartford to-day. I have personally inspected the barge, and have gone over the items of the inclosed estimate with the vice president and superintendent of the company; and am of the opinion that the bill is correct and just and recommend that it be paid. I saw the accident from the deck of the Hydrographer, and am of the opinion that it was unavoidable under the circumstances.

The accident occurred in the narrow part of the river at Hartford, while the barge was lying alongside of other barges at the bulkhead on the opposite side of the river. On account of the flood current, which was running at the time, it was necessary to go ahead and back strongly, in order to get her around head to the current; the vessel's stem struck the side of the barge a slight blow, the propeller at the time working full speed astern. As soon as the Hydrographer was secured to the wharf, I went to the barge, accompanied by Mr. Miller and Mr. Locke, and examined fully the damage. I found the barge to be old and much dilapidated, and it was generally agreed that no damage would have been caused to her if she had been in good condition. However, before we struck her she was sufficiently tight for use, which was that of hauling manure, about 400 tons at a load, from New York to the Connecticut River.

### COAST AND GEODETIC SURVEY—Continued.

*Payment to Hartford & New York Transportation Co., for Damages*—Continued.

The guard of the barge, which is partly decayed, was crushed in about 3 inches, the width of our stem. The impact had apparently been sufficient to start a seam in the bilge under the point of impact, causing a leak that we later found amounted to about 6 inches an hour. During our examination the floor was lifted near the leak, but it could not be reached, and it will be necessary to haul the barge on a railway.

The barge was bound to New York, and the estimate is for placing her on a railway there. It will be necessary to pump the barge by tug at Hartford, again at the mouth of the river, and at least once in New York to put her in condition to go on the railway. I am informed that the insurers allow $10 an hour for pumping by tug.

The time of the barge and 2 men for 3 days at $6 per day is for an estimated time of 3 days for hauling and repairing.

I am informed by Vice President Goodrich and Supt. Williams, of the transportation company, that $20 is the actual charge for hauling on the railway.

Excepting the charges for the "repair of upper planking" and "calking and underwater work" all of these items are known to be necessary, and will be incurred in any event. I have, therefore, considered it advisable and for the interest of the Government to waive a formal survey, the cost of which, I am informed, is $25, especially as the dilapidated condition of the barge might render repairs of any kind expensive.

Very respectfully, yours,

HERBERT C. GRAVES,
*N. E., C. & G. Survey, Commanding.*

HARTFORD & NEW YORK TRANSPORTATION CO.,
*Hartford, Conn., August 30, 1913.*

Capt. HERBERT C. GRAVES,
*U. S. S. Hydrographer.*

DEAR SIR: In relation to the damage to the barge C. T. Marston by the steamer Hydrographer, I would say that the following is an estimate of the necessary expenses for putting the barge C. T. Marston in condition previous to accident, and which we will accept in lieu of all damages and avoiding charges for formal survey:

| | |
|---|---|
| Pumping out at Hartford, Saybrook, and New York | $30.00 |
| Time of barge and men for 3 days | 18.00 |
| Hauling on marine railways in New York | 20.00 |
| Repair of upper planking | 3.00 |
| Calking and underwater work | 15.00 |
| Total estimate | 86.00 |

Yours, truly,

C. C. GOODRICH, *Vice President.*

HARTFORD, CONN., *August 30, 1913.*

Respectfully forwarded and recommended that it be paid.

HERBERT C. GRAVES,
*N. E., C. & G. Survey, Commanding.*

The cost for these services is supported by itemized certified bills on file in the department.

*Payment to L. D. Phelps for Damages—*

Payment of damages caused by runaway team belonging to a field party of the Coast and Geodetic Survey to a livery stable at Ambrose, N. Dak., owned by L. D. Phelps (submitted)..... $15.00

NOTE.—The accident and the cause thereof are fully set forth in the extract of a letter addressed to the Superintendent of the Coast and Geodetic Survey by Assistant Pagenhart:

"While getting our outfit ready in Ambrose before starting work on the base, one of the men was moving some gear with a team and buckboard. One of the horses rubbed off his bridle and then they started to run, the man in the buckboard. They ran through nearly every street in the town and finally turned in at the livery stable, and seeing an opening through, they knocked down and smashed two doors and went on through with man, buckboard, and all, over a large manure pile and away down an alley again. When they stopped, the only damage found was a sprung axle."

Mr. Pagenhart had the smashed doors replaced by new ones at a cost of $15, and should be reimbursed for this expense.

*Payment to Crowley Launch & Tugboat Co. for Damages—*

Payment for repairs to launch Crowley No. 7, belonging to the Crowley Launch & Tugboat Co., damaged by the U. S. Coast and Geodetic Survey launch Reynard (submitted)..... 10.00

NOTE.—The damages and the cause thereof are fully set forth in the following communication from W. E. Parker, assistant, Coast and Geodetic Survey, addressed to the Superintendent of the Coast and Geodetic Survey under date of Mar. 8, 1911.

COAST AND GEODETIC SURVEY, U. S. S. PATTERSON,
*San Francisco, Cal., March 8, 1911.*

To the SUPERINTENDENT COAST AND GEODETIC SURVEY,
*Washington, D. C.*

SIR: I inclose herewith a bill from Crowley Launch & Tug Boat Co. for repairs to their launch Crowley No. 7 damaged by our launch Reynard and request instruction as to settlement for same.

The facts of the case are as follows: The Reynard in charge of Alix Bawder, seaman, acting as coxswain, in making a landing at the end of Crowley's float rammed his launch which was tied up to the side of the same float. Bawder claims that the accident was unavoidable because the Reynard would not back when he gave the signal and refuses to pay for the damage on the ground that he is a seaman acting as coxswain and as such is not responsible for any damage he may inflict on his launch or other property.

It is true that the launch would not back at once when the signal was given; but it was the opinion of those in the launch, including myself, that the boat was carelessly handled and that had the engine backed when the coxswain signaled the collision would still have occurred. Furthermore, there were two other berths near with easy approaches and there was no occasion for landing at the place the coxswain attempted, which necessarily involved risk to both boats. This man has acted as coxswain continuously since the vessel arrived at this port and has had sufficient opportunity to become proficient in handling launches.

I believe he should be required to pay for this damage, but am uncertain as to what authority I have in the case and desire a ruling from you.

Respectfully, yours,

W. E. PARKER, *Asst. C. & G. Survey.*

JUNE 11, 1914.

Hon. WILLIAM G. MCADOO,
*Secretary of the Treasury, Washington, D. C.*

MY DEAR MR. MCADOO: I have the honor to submit the following item of probable deficiency for inclusion in the general deficiency appropriation bill:

"For inland transportation by railroad routes, fiscal year nineteen hundred and fourteen, $354,000."

In explanation of the causes of this probable deficiency, you are informed that the department's estimate submitted to Congress for the fiscal year 1914 was based upon an estimated increase of annual rate in the first contract section of 14.18 per cent, with $350,000 as the probable increase on account of parcel post on routes to be weighed in the spring of 1913. This made the increase in annual rate $1,198,169.43, or, including the estimate of $350,000 for parcel post $1,548,169.43. Actually the increase by reason of the readjustment amounted to $2,166,517.68, or 24.46 per cent, which is $618,348.25 more than the estimate with parcel post increase in the section which was weighed included. The Department's original estimate should therefore have been $50,279,000, instead of $49,661,000. The Department's estimate of $49,661,000 was reduced by the House Committee to $49,000,000. The Senate Committee, after making provision for increased compensation on account of parcel post on such routes as were not weighed after Jan. 1, 1913, added $2,500,000 to the House bill, providing for an appropriation of $51,500,000.

Subtracting from this $50,279,000, the indicated expenditure for 1914, leaves only $1,221,000 more than the amount necessary to pay for the regular adjustments, whereas the additional allowances for parcel post made in compliance with the authorization of law referred to amounts to $1,684,486.19, leaving an indicated deficit of $463,486.19. The estimate submitted herewith, based upon the analysis of detailed expenditures, is $354,000, the difference being accounted for in expected economies in cost of weighing and other items.

The appropriation for "Indemnities, domestic registered mail, 1913," contained in the Postal Service act approved Aug. 24, 1912, amounting to $45,000, $10,000 of which was made available for 1911, leaving $35,000 as the amount appropriated for 1913, is deficient, and it is recommended that the following item be incorporated in the general deficiency bill:

"For payment of limited indemnity for the loss of pieces of domestic registered matter, first, third, and fourth classes, fiscal year nineteen hundred and thirteen, $3,000."

In explanation of this deficiency, the following statement is made:

| | | |
|---|---|---|
| Amount appropriated for 1913 | | $35,000.00 |
| Expended prior to June 1, 1914 | | 31,351.57 |
| Unexpended balance on June 1, 1914 | | 3,648.43 |
| Outstanding liabilities on June 30, 1913: | | |
| Pending in Bureau of Third Assistant Postmaster General— | | |
| First class | $598.15 | |
| Fourth class | 28.87 | |
| Outstanding in the field— | | |
| First class | 19,792.57 | |
| Third and fourth classes | 1,811.97 | |
| Total liabilities unpaid June 30, 1913 | | 22,231.56 |
| Expended on June 30, 1913 | | 14,718.46 |
| Total amount chargeable to appropriation | | 36,950.02 |
| Expended to June 1, 1914 | | 31,351.57 |
| Outstanding liabilities unpaid on June 1, 1914 | | 5,598.45 |
| Unexpended balance of appropriation available | | 3,648.43 |
| Estimated deficiency | | 1,950.02 |

As it is impracticable at the present time to obtain figures showing the amount of claims outstanding which have developed since the close of the fiscal year ended June 30, 1913, it is probable that the amount ($1,950.02) of deficiency shown by the data now available will be increased by the number of claims which may have developed since that date, probably to the extent of at least $1,000, thus making the total deficiency in round numbers $3,000.

Sincerely, yours,

A. S. BURLESON, *Postmaster General.*

| Inland transportation by railroad routes, $222,000, for additional compensation to be paid to railroad companies for the additional mails carried resulting from the changes in rates and limit of weight of parcel-post packages in the local, first, and second zones, effective from Aug. 15, 1913. | | | |

| Hon. WILLIAM G. MCADOO, *Secretary of the Treasury, Washington, D. C.* | | | |
| MY DEAR MR. MCADOO: In connection with your request for estimates for deficiencies in appropriations for the fiscal year 1914, I have to invite your attention to the second proviso of section 1 of House bill 17042, introduced by Chairman Moon, authorizing the Postmaster General to add to the compensation paid for transportation on railroad routes on and after Aug. 15, 1913, for the remainder of the contract terms, not exceeding one-half of 1 per cent thereof per annum on account of the increased weight of mails resulting from the changes in rates and limit of weight of parcel-post mails in the local, first, and second zones, effective from Aug. 15, 1913. | | | |
| In view of the probability that this legislation will pass it will be necessary to secure an item in the general deficiency bill to provide the funds to carry out its provisions. It is therefore recommended that an estimate for the sum of $222,000 be submitted for this purpose, and the following draft of an item for inclusion in the bill is suggested: | | | |
| "Inland transportation by railroad routes, $222,000 for additional compensation to be paid to railroad companies for the additional mails carried resulting from the changes in rates and limit of weight of parcel-post packages in the local, first, and second zones, effective from August fifteenth, nineteen hundred and thirteen." | | | |
| Yours, very truly, A. S. BURLESON, *Postmaster General.* | | | |
